We have brought private criminal prosecutions in England, but this one is in the High Court of Justice, Edinburgh. The charges are conspiracy to defraud, conspiracy to pervert the course of justice & misconduct in public office.
No DPP consent required in Scots Law,

"OPERATION MEADOW" CASE FILE 62

CONSTITUENCY SUPPORT OVER BANKING FRAUD

[email: grahame.biggars@nca.gov.uk]

Introduction:

I am part of a group that is confronting serious financial and economic crime, including corruption, involving the banking industry, the police, lawyers and the lower courts who exploit their privileged position/s to asset strip targeted consumers' homes and businesses - which I can affirm through my own experience has had a devastating impact on the lives of numerous families. The underlying problem is that senior white collar crime is not being seen by the police and courts to be a real crime despite mounting evidence showing the deliberate destruction of individuals and companies by banks to pillage their assets.

It is now clear that the British people need MPs to step in, in particular to protest under the Bill of Rights 1689/80 against the current unjust police protocols - which is the ultimate responsibility of the Home Secretary who is now very aware of the crimes perpetrated by banks, their lawyers and the police. It is clear that the "regulators" appear not to be there to regulate misconduct of bankers, their lawyers and auditors but to regulate complainants from gaining restitution and justice.

Hence the purpose of this surgery / meeting is to present Sir Lindsay Hoyle, my constituency MP, with sufficient material evidence in order for Sir Lindsay to raise the aforementioned matter publicly in the House of Commons. This dossier contains exhibits [see contents list below] of documentary & testimony evidence that are of public interest, and pertinent to criminal activities akin to, *sic et al.*

- Bank & Mortgage fraud;
- Serious Financial & Economic crime/etc;
- Corruption by Public / Judicial officials to various organisations including Concealing Fraud & Preserving the Course of Justice;
- Falsey pretending or professing to act under authority of the Court.

Please note that the enclosed evidential documents listed below are just a few examples relating to my particular case, and they represent what appears to be the tip of a titanic iceberg yet to be transparently revealed to the UK public.

How the Tories got their name. Many of today's British Conservative Party might be disturbed to know that their

nickname, 'Tories' originated in Ireland in the mid 16th century, deriving from the Gaelic word 'toraidhe', which meant plunderer, robber, thief, barbarian & yobbo.

Abuse of the public's trust. A waste of time any member of the public reporting any crime. Either thick as shit, or corrupt.

Dear Commissioner,

The scenes this evening of the policing of the Clapham Common vigil in memory of Sarah Everard are utterly disgraceful and shame the Metropolitan Police.

The vigil this evening was a peaceful one brought together in the most horrific of circumstances.

Across the country, countless women have told their own painful stories of harassment and abuse. Your officers should have been standing in solidarity with those on Clapham Common tonight not being ordered to disrupt this display of grief and peaceful protest.

This was a complete abject tactical and moral failure on the part of the Police.

We therefore call on you to consider your leadership of the service and whether you can continue to have the confidence of the millions of women in London that you have a duty to safeguard and protect.

Yours sincerely,
