1
i feel so sad for johnny it is incredibly unfair what happened to him i hope she truly gets the punishment she deserves she inflicted physical and emotional pain on this man lied and twisted his words to use it against him it's just so disgusting i hope everybody had the same enthusiasm on serving justice when everyone thought that she was the one getting abuse
1
that bitch deserves all of it + more
1
robert downey junior went to prison westly snipes went to prison martha stewart went to prison right?!? i think
1
i mean if this rumor is true they could always replace ezra with grant gustin and fans would be thrilled and considering all the trouble amber created for johnny she rightly deserves the same for lying
1
3 years? doesn't she deserve more time for what she is done?
1
ezra miller chokes a woman on camera twitter death amber heard clearly abused johnny depp twitter imma pretend i didn't see that
1
2 actors who've called it quits 2 more who may be going to prison the past few entries being financial underperformers/flops and critical failures and an alternative universe that has been massively financially and critically successful i think it's time to put the dceu to rest once and for all
1
amber heard is a horrible person she deserves prison
1
c'mon kneon stars get jail time once they have no money to pay for lawyers
1
good she deserves worse
1
lets be real a pretty and famous white woman ain't going to no god damn prison for lying or faking evidence
1
3 years is not enough! she need to rot in jail[”]
1
how about harvey's weinstein? cosby? they got bad deals too? i agree johnny depp is innocent amber heard is awful and she should be put in jail but you can't say throw out the whole movement! can you?
1
you should call for youtubers to boycott buying more teslas shes friends with along musk he's friends with many high people who will probably find ways to get her from facing jail so cut off elon=send amber to jail
1
good i hope amber heard does go to jail send a message to women everywhere you don't get to lie and make false police reports just to make yourself the victim #timesupbitchez
1
i mean when these women or men mostly women who come up with all these bs lies whatever it may be they should face the exact same sentence the man would face i bet lies like hers would almost disappear if it was actually upheld for all of them she definitely should be the first example she should lose just as much as johnny unfortunately already has women use these types of lies as a weapon i wonder how many innocent guys have lost their freedom an everything else on account of lies like this it's a damn shame but oh i forgot not all men lose everything ol sleepy joe hasn't even been mentioned on the reg news they protect the dams even got that women to back track on the whole believe all women thing now all of a sudden you just can't cancel the men they deserve a fair chance an all of that but as soon as they make these types of lies up on another republican they will forget all about that i think the only reason why they even bring up amber is cause of all of us calling them out about the hypocrisy 1
well when a woman falsely accuses you than say you don't think she should be in prison !!! i have \$10000 reasons to feel this way it sucks your name is in the paper and people see that and there never is a article telling the truth in the aftermath you just end up out 10k and that's it !! no sorry no legal fees paid back nothing !! just a what the hell just happened look on your face amber should be in jail !!!! and depps legal fees paid back to him keep your head up johnny !!! kag[”]
1
unpopular opinion don't give amber heard 3 years give her one year although she messed up johnny depp life johnny was never in prison and in no way am i belittling what she did but three years is a long time
1
if she did this?? she is a horrible excuse for a female!! (she is no woman!!) i hope she gets jail time and makes license plates until they cover the \$50 million to johnny!!
1
but if your a black man or white man you go to prison
1
yeah i hope amber gets jail time and depp's name is cleared
1
she wont go to jail it will alter her career tho
1
she is a celeb she unfortunately not going to serve any time in jail if she does it's either going to be some really cushy jail or she'll pull a paris hilton and get released because the prison food isn't fancy enough
1
i'm all for people getting what they deserve
1
he won't get 50 mil she doesn't have anything worth that kind of money can only hope that she spends full jail time
1
duh she deserves to go to jail johnny could've gone to jail over her shit so she should go to jail over her own shit as well it's only fair johnny could've gotten in serious trouble therefore so should she
1
its nobody's business but if it's true then yes she could be facing some years in prison often times it depends on the judge
1
i know a guy who spent time in jail because his ex wife told the police he was harassing her she didn't even need proof the judge wouldn't even allow this guy to speak at the hearing the laws side the women over the men women who get caught lying must be held accountable so other women will think twice before they lie laws also need to be changed to be more fair for both men and women

they have proof that she was the one being violent proof that she got makeup done to make it look like bruises proof that jd was the only one who had physical abuse and proo
f that jd is completely calm while she is trying to get a rise out of him because she wants to fight and he doesn't and proof that she was actively trying to ruin his career
because she is a psychotic person who can't stand being dumped by a man!!! how is this still a question on who's the abuser?! how has this case not been solved? how is her c
areer thriving while his is ending? all of his ex's came forward to tell everyone that jd was never abusive to them and always kind! how with all of this proof is she still
the victim?! how has she not lost the case yet?! i'm completely baffled! this is the most ridiculous thing i've ever heard and seen! she is nothing but a complete and total
psychopath who gets off on ruining the lives of anyone who dare try to get her out of their lives! she not only gets off on it but absolutely loves watching her lies destroy
innocent people! she has no regard for anyone's life but her own! if it were possible for her to get away with it she would have killed him and even then with the way this bs c
ase is going she might have gotten away with that too!!! she is absolutely loving this! i can't believe that someone can be sooo damn twisted disgusting psychotic towards s
omeone who gave them nothing but love! she deserves to have the exact same done to her! she deserves to lose everything and more! someone needs to beat her a$$! she is an ab
solute disgusting waste of flesh oxygen and space who needs to be taken down! she cannot just do this to a beloved innocent kind man! johnny's only fault was marrying this p
os! she is a truly horrifying psychopath who now knows she can get away with something this disturbing so this makes her even more dangerous! future victims beware because t
here are absolutely going to be more victims! please for the love of god someone take her down and give her a taste of her own psychotic medicine!!! take her down before she
can do this to anyone else! she has been proven to be a big fat liar many times! she says herself how she got the bruises painted on her face to screw him over! she is disgu

first of allid like to say that i am a johnny depp fan and enjoy his movies however i am not stupid enough to believe that the guy is some angel sure she is certainly a head case but johnny is not innocent he's obviously got some kind of wierd issues your all blaming amberbut its abmorral for him to ask someone to cut him the guy needs help and you just cant blame her he could have left her anytime and he's got a history of violence with other women he was arrested in the 90's when he was with kate moss for destroyng a hotel room while fighting with her he was also arrested for attacking a paparazzi with a stick and he seems proud of it so stop defending him like he's some helpless victim hes not! and of course his ex wife is defending himshe doesn't want to lose all that alimony and child support and winona ryder was 30 years agohe was a different guy back then drugs and alcohol changed this guy and going through middle aged and aging can change a person a lot too and the guy was a middle aged man who left his wife and kids to be with this young actress nearly half his age what the hell did he expect he got what he deserved as far as im concerned its all his karma coming back to him of course a ll she was after was his money and fame johnny needs to grow up he's pushing 60 and he walks around dressing an acting like an adolescent school boy he needs to date a woman closer to his own age have a mature relationship and stop boozing and drugging it up like a sailor on leave this guy was a well respected actor in one of the most successful movie series of all time and he threw it all away and ruined his career for a piece of tail!!!! what a fool!

5

it's what she deserves

5

to whom shall i speak and give warning that they may hear? he that has ears to hear let him hear are you saved? where will you go when you die? heaven or hell? the gospel which means the good news is the news that god almighty the creator came in the flesh as jesus christ to take away the sin of the world the one god is a trinity of the father the son and the holy spirit the son came and laid down his own life to save ours his sacrifice on the cross paid the price for our redemption with his own blood on the third day he rose from dead and offers the gift of salvation and forgiveness to those that repent and trust in him although god's creation was created perfect having no death sickness and disease the creation became corrupted through adam and eve in them disobeying god in this rebellion the creation became fallen through the curse of sin and mankind became separated from god this world is fallen but god offers reconciliation to him through his provision at the cross ultimately god will restore his creation to perfection when he returns but those that who reject his offer of redemption will remain condemned by their sins and go to hell john 1:14 in the beginning was the word and the word was with god and the word was god [14] and the word was made flesh and dwelt among us 1 john 3:8 kjv he that committeth sin is of the devil; for the devil sinneth from the beginning for this purpose the son of god was manifested that he might destroy the works of the devil isaiah 9:6 kjv for unto us a child is born unto us a son is given: and the government shall be upon his shoulder: and his name shall be called wonderful counsellor the mighty god the everlasting father the prince of peace john 1:10 kjv he was in the world and the world was made by him and the world knew him not

to whom shall i speak and give warning that they may hear? he that has ears to hear let him hear are you saved? where will you go when you die? heaven or hell? the gospel which means the good news is the news that god almighty the creator came in the flesh as jesus christ to take away the sin of the world the one god is a trinity of the father the son and the holy spirit the son came and laid down his own life to save ours his sacrifice on the cross paid the price for our redemption with his own blood on the third day he rose from dead and offers the gift of salvation and forgiveness to those that repent and trust in him although god's creation was created perfect having no death sickness and disease the creation became corrupted through adam and eve in them disobeying god in this rebellion the creation became fallen through the curse of sin and mankind became separated from god this world is fallen but god offers reconciliation to him through his provision at the cross ultimately god will restore his creation to perfection when he returns but those that who reject his offer of redemption will remain condemned by their sins and go to hell john 1:114 in the beginning was the word and the word was

she can go burn in hell for all i care a worthless scumbag of a human being no wait she is not human she is less than human for doing what she is done to call herself a woman would be an insult to women a rich self entitled lying scheming actress ruining a mans career his life and throwing him into the spiralling depths of depression so she can get some brownie points and claim herself as a victim to get more attention? *message to all you vindictive rancid scumbags that insult the very existence of women to all you horrid third wave and beyond feminists (also thank you for ruining the word 'feminist' because it actually used to mean something you make second wave feminists cry out in collective pain as brain tumors destroy them as they watch you ruin everything they worked so hard to build whilst you have done nothing but take advantage of everything and everyone around you they were the ones who actually fought for those rights you say don't exist idiots)* this is the sort of person that causes incels to exist this is the sort of person that whilst shouting about equal rights mires and defames whatever false narrative regarding 'equal rights for women' she has going on considering its the west and women have the most power in the west hence them being able to be not only rich not only privileged as all hell but at the sametime capable of being 'oppressed' because yea a poor homeless guy is apparently oppressing you in that big ass mansion slash home resort of yours top tip to women like her: in the western world? women have all the power you can get any man you want the average woman looks pretty fine hence average you can get anything you want you can beat on a man like johnny depp and be safe in knowing he wont throw it down and fight back because oh right if a man defends himself against a woman abusing him? thats apparently evil and wrong but its okay for a woman to beat and abuse men women have it rather easy in the west you don't have the highest death rate out of the two genders do you? you don't have the highest suicide rates you don't have the highest health issues you don't have to break your back working from morning to night only to be told its not good enough because you cant have a shiny expensive sport car a boob job and a damn room filled with that crappy cheaply made gucci brand crap (made by slave labour in sweatshops by usually physically abused kids) you don't have to be competitive and constantly push push push to make sure you get good wages and don't get shafted on overtime or bonuses men are more likely to die before the age of 30 whilst women are more likely to die by the age of freaking 90 in comparison women get to dictate women get to have abuse shelters women and girls get to be heard when they are physically abused and not shot down and laughed at for being physically abused young boys who grow up in 'physical' abuse rarely if ever get mentioned rarely if ever get heard and if they try? they get shot down and told to stfu because muh feminism is more important than paedos abusing little boys but the moment its a young girl? front page news! why is it they aren't treated exactly the same? you don't hear about how young boys make up a large portion of the grooming gangs victims because dressing young boys up in belly dancer outfits making them dance and then abusing them you don't have to worry about the british police for example unjustly imprisoning you and even being eaten you on the mere accusation of some psycho girl you get to feel safe knowing if your a vindictive manipulative rancid human being you'll usually be forgiven because girl i also cop some of this one sided 'equal rights' thing being a femboy i also get quite the many unwritten rights that get to screw over other people on the mere basis that i'm a femboy then again *why is it men are now more interested in screwing femboys like me? maybe its because we not only can please them better but can share common interests and most importantly? take a joke!* rant over 1

#justiceforjohnny burn in hell you nasty bitch
1
one thing i've learned about all these sadists like amber heard is that the more evil they do the more they prosper the more pain and suffering they cause the more job opportunities they get the more misery they cause the more blessings they receive look at ezra miller for example he assaults a woman on camera and no punishment no jail time no fines not even a loss of career and continued praise from his cruel hateful fans tom king for example who is responsible for destroying more lives than a serial killer does

```

n't lose his job continues to write hate manuals disguised as comic books continues to run a racist hate site online and continues to aid in the brutal persecution of people who are guilty of nothing more than trying to make a living i guess the moral of the story is evil always wins all we can hope for is that perhaps one day they will burn in hell for all the innocent people they have hurt and on that day finally their victims will get justice and this corrupt democratic controlled alt left government will not be able to save them

1

i think that was uncalled for at 2:59 to call heards lawyer a douche fairy jeez bruh, but seriously the vibe i'm getting from heard is shes a pile of shit liar trying to destroy somebody to get what she wants worst kind of person i dont believe her at all and if i'm wrong depp should burn in hell but i highly doubt her story she even bitches about him leaving when she starts physical fights! people who lie about that kind of shit make me sick i think they should be charged and put in jail personally cuz its fucking bullshit on sooooooo many levels
1

1
i hate democrat baby killers they should all burn in hell for the murders that they are the lord will punish them for the baby killers that they are
1
kinda fitting how women themselves are killing the movements they are starting first asia argento gets caught with a teenager then mcgowan defends her disgusting act and now amber gets exposed for lying look how easily women have found it to ruin a mans life huh? because the media and braindead social media users eat it right up you are going to burn in hell
1
she is in aquaman 2? yup i'm skipping it when this all came out years ago sure it could've gone either way but the more you look at why type of individual each person is i had zero doubt heard was a crazy b that probably should've been in jail long ago who knows how long she has been doing this and to how many when i heard about depp's surgery years ago i'm like how is she not getting arrested now we have proof and not some bits of evidence let her burn in hell there's no fixing these types of people no matter how long she is in prison i don't believe she can ever be an honest person
1
burn in hell snake
1
becky twigg anybody who believed this she devil or still supports her is going to burn in hell for all eternity with their idol heard they deserve deserve it
1
lets come clear had none of this come out feminists everywhere would believe without a doubt amber was the victim here because she is smaller and he should be able to defend himself aka: smash her skull against a wall in self defense and get 25 to life in jail what a privilege not only they don't have to fear jail at any point they abuse the system to the fullest and turn the tables around whenever they want hope crazy women like her burn in hell and sorry i can't reverse the roles it's just not a thing had this happened from a dude's perspective he'd be in jail for obvious lies think about this script and tell me this wouldn't happen: 1 beats the shit out of wife 2 calls cops saying wife beat him 3 sends photos to family and friends with himself in convincing make up of bruises 4 goes on vacation and on a show without any bruises 5 wife is spotted with bruises 6 cops arrest him with enough evidence of abuse towards wife
1
when you're a famous woman that's lying people believe you but when you're not famous and a real victim no one cares thanks amber for making people question us victims even more burn in hell amber because that's where you're going poor johnny she has brainwashed him shes psychologically abusing him sounds like it when i listen he deserves so much better

Out[54]: since ah destroyed women's credibility on a widespread basis & made a joke of 500 plus gymnasts by opening for them (jokingly) at the un abused by drnassar (currently in jail) who incidentally was protected by usgf (paid off a olympic gymnast \$1 mill to keep quiet) the olympic's (team dr) causing 2 suicides in the process much like ah being protected by the un aclu & l'oreal the only good that can come out of this nightmare is jd's great personal sacrifice for truth much love~ 1
heard is texas trash she has no power how do you think she got away with lying in court on 3 continents? with hard evidence! the dogs in australia & 14 accusations including rape! un ambassador? jd has been vilified by the press & fired from disney (he's a disney legend) & wb? his new movie minamata finally released wait no it's no press & barely released!! he's being blacklisted by one billionaire & this has been going on long before although she is a sociopath & belongs in jail!!
1
@sas fee lol heard's already been in jail for hitting her girlfriend if you understood human behavior that would explain things for you
1
@eri ana i didn't think you were curt & i agree no situation is black & white i have the distinct feeling that heard waited until the death of his mother to lay the divorce if you don't give me what i want i'll start a media circus (knowing this is depp's weak points losing his mother & the media which he has avoided all of his career) to lay all this on him anyone with a grain of empathy could have done better 2) the video shows him hurting himself & slamming cabinet doors while she clearly goads him on if you listen to the dialogue she has been out all night unreachable & something bad has happened to depp while she was out & comes home with the sun rising clearly playing the victim when this is not acceptable behavior from a spouse at no point does he yell call her names threaten her even face her until he takes the phone away he's responding to her calling him crazy yet she never says that showing she was saying unkind things that were cut out while trying to rile him up while she was taping him is this not classic gas lighting & terrible acting on her part? finally they settle for 7mil & she agrees to give it to charity one of her choice & one of his he wrote the 1st installments directly to the charities in her name she complains that since he's going to get a tax write off he should pay double what does she care if he gets a tax write off unless she is just trying to hurt him? this is exceptional proof to me of her narcissistic behavior most of all she dropped the restraining order this is the most dangerous time for abused women this is when the spouse stalks them breaks the restraining order & when all murders occur but she drops it without a second thought the fact heard was arrested for dv against her gf also speaks volumes to me while depp's x's for the past 4 1/2 decades say he's incapable of the charges as fenn said he never hurt anyone except perhaps himself which we all tend to do at times ryder he never so much as raised his voice at me kate moss with whom he destroyed a hotel room johnny was the only person who was ever able to take care of me after we broke up it was years & years of crying this was before the allegations but does not sound like he ever hit her or threw anything at her open letter from paradise johnny is a very loving & loved person & this sounds nothing like the man with whom i spent 14 wonderful years i believe with all my heart these recent allegations are ridiculous what are the chances that depp had some kind of mental illness that did not present until he was 53 that would include being violent towards women? or that his wife who spent the night in jail for beating up her significant other is the one with the mental issues leading to violence? i could speculate but this is all based in fact 1
if she was smart why couldn't she make it as a actress without marrying for fame? why didn't she get red one cent out of depp? it went to a charity of each of their choices? if depp didn't force her to give it to charity then why did she have to give it to his charity? why did she throw a public fit when he wrote the checks directly to charity in her name? she got credit in the press for giving it to charity? why did she drop all charges instead of giving the court her statement? when depp exposes her as the abuser she is will you still love her? \$50 million lawsuit against her for defamation 160 videos!!!! 50 witnessess! heard being the one who spent the night in jail for domestic violence clue #1 clue #2 heard admitting she is abusive if you piss me off i will go all trailer park on you amber heard (that means abusive) heard pooping in depp's bedant social personality disorder (psychotic) because he was late to her party heard throwing a bottle at depp he deflected with his hand which cut off his finger but anything to advance your agenda right? who cares about domestic violence & being a cokehead? don't bother answering you can't answer & still love her & i don't expect you to give up your love of false idols i don't love depp i'm just a psychologist aware of the truth as her behavior is consistent with that of a cluster b on the high end a truly abused female 1) doesn't abuse others/spend the night in jail for it 2) wouldn't refuse to give a statement to the court then refuse to let it go afterward

why they dont kill amber herd

very good finally we go to court depp must be charged with attempted murder because he tried to kill amber with a pillow read the story ! times up wife killer !  
1  
think twice yup youre right he tried to kill amber by suffocating her with a pillow she fell unconscious but she could have died thats pretty 5 years in jail at the very lea st  
1

thelittlethings she grabbed the arm of her then girlfriend she was charged with the least serious assault category ! depp on the other side must be charged with major assaul t or attempted murder as he tried to kill amber with a pillow  
1  
i think if this where a 4th wall break i would like to see black manta come into the real world and kill amber heard  
1  
kill amber heard  
1  
i'm not arguing amber is a good person (although to be fair i've never met her or johnny and don't 100% know what's true or isn't) but i don't think it's fair people are act ing like johnny is an innocent victim the judge's ruling on johnny's libel case (which is published) includes evidence such as texts where he jokes about wanting to kill amb er and fuck her dead body cutting off elon musk's dick and saying he will ruin amber and calling her a slut/whore it also establishes johnny has extremely extensive drug abu se problems and caused tens of thousands of dollars in property damage at a rental house while in a jealous rage he also admits to using his blood to write jealous messages on the wall the day his finger was severed (which he initially told people he did to himself and later said was caused by amber throwing a vodka bottle at him) text evidence also establishes he refers to himself as having a side he calls the monster and texts of him apologizing to amber for nights implied to have been violent the document also d oes support that amber hit johnny and not always in self defense but my point is that people act like johnny is fucking innocent and helpless when in reality he's engaged in creepy behavior likely did violently abuse amber and lost the libel case for a reason  
1

holy shit i've never had so many likes on a comment i've made usually no one ever sees them so thanks! at least i know i'm not the only peed now they have leaked text me ssages with johnny texting paul bettany saying he wanted to hurt and kill amber but that he was also drunk at the same time so he feels confused so people started to try and cancel him again but people pointed out how you can easily fake/doctor text messages they were from 2013 so the phones are probably gone and who knows if the company has the records (or amber stealing johnny's phone and crafting those messages herself and then sending them off) and i raised the question that if these were so violent and threaten ing why didn't she use them when getting the restraining order that would have been the perfect evidence but now they suddenly appear and people are wondering if the daily s un(i think that's the newspaper i'm not a brit) hacked into his phone like they did others but that's 7 years old text messages she could have used and she didn't that just makes it even fishier and as nanna pointed out if unfortunately johnny did write three things (and she claims he attacked on their minute let alone though that has been sol

hi please can you help to expose the truth about johnny depp there is an audio that can be found on the motivator network this audio has been circulating quietly on twitter for weeks in this audio depp admits beating amber she admits covering her bruises with makeup and she admits being afraid to go to the police and says to him that she is trying to protect him and that she was afraid he would kill her in his last attack the previous audio was chopped up by his team and stans to make it as detrimental as possible to hear but this audio where he admits beating her is not being covered by any mass media he has a pr and legal army that he is allegedly paying millions to to hide the truth about his abuse (not saying heard is completely innocent but some of her behaviour is due to repeated physical abuse by this powerful man and knowing she had no way to ever be believed) he has a long history of violent behavior (with many witnesses to his self confessed hellish temper) when he is drunk or on drugs that has been covered up for a long time and given the lengths he will go to sue and intimidate people people are afraid to talk about him please can you break this story and cover this audio you can find it on the motivator network on yt this link for abridged audio: <https://www.youtube.com/watch?v=wx27126jvlg> full audio: <https://www.youtube.com/watch?v=ibipjvttxma> documentary: <https://www.youtube.com/watch?v=par615nnngoc> the audio is revealing and disturbing he is still trying to escape from the truth of his violence using his pr army legal team wealth and power to get away with it please break this story all sides of this should come to light not just the sides that this powerful man wants to present to anyone reading this who has been sucked in whole by the depp machine please have the decency to listen to the audios before commenting thank you

i do know someone this crazy in my personal life unfortunately (i'm a psychologist so i've heard many wild tales) she attacked me in a rage (twice) i'm quite tiny & 80 to 95 lbs over this time period i lost weight due to stress) both times she blamed me! the 1st she made up a series of transgressions such as leaving a bowl in the sink at 2am (i did) leaving poop on the baby seat wtf? & leaving dirty diapers all over the floor so that you couldn't walk in one night! where i gave my baby a bath! she suddenly jumped off the couch & began screaming get the f**k out of my house! i was shocked & before i could reply she flew at me ramming me into the wall & i don't remember what 2nd time she began taking drugs she attacked me for no reason after a week of hell i won't even go into but she accused me of some absurdity that she herself was doing not me (so und familiar? they really are incredibly identical all cluster b personality disorders) & again lied she said i can't believe you hit your head & got knocked out (true) i would have stopped hitting you but you wouldn't stop swinging at me now how the hell was i both knocked out cold & swinging at her simultaneously? this one young woman destroyed my family my son parents & neglected locked up starved her bf physically & sexually abused my grandbaby from 25 to 35 then she abandoned her her bf had aids & gave it to her but all my family has tested clean thank god she nearly killed the 2nd grandbaby 2 yrs younger than the 1st at birth the damage these people are capable of is mind boggling my suggestion is learn the red flags & stay the hell away from them as there is no cure & they don't think they have a problem you/someone else are always their only problem! she has taken no responsibility ever she has been using her visitation gbaby is 10 now wanting her bleached (mom did it) tattoo's & nose rings!!!! i will kill her if she does it she is currently married with a sugar daddy explain how that works? wtf? i can list the cognitive issues of the malignant narcissist borderline & sociopath & you will recognize each one!!!! it boils down to different thinking processes that all equal the person seeing themselves as innocent (& often play victim) the other person/people as guilty!!! minimizing their guilt maximizing the other party's guilt black & white/ all or nothing thinking results in what we are seeing with ah on the stand & why it seems she believes her own lies her ability to process reality is so damaged & unhealthy add drugs & enablers & just wow! she does actually think she is telling the truth here truth! entitlement asking the judge to ask a question? if that didn't drive home the point to the judge that she believes rules & laws are for other people & not applicable to herself then nothing will!!! she is completely unaware of reality gng could have a monkey testifying for them & it would be better than ah at least the animal would be true to itself!!!! and it's own behavior! ngr & ah are going down! if you are reading this maybe you understand why she keeps breaking the law & why in her eye's this is all j'd's or the drs nurses bodyguards cops etc etc fault never hers while being completely unaware she sounds clinically insane! also if she hadn't been allowed access to jd's testimony she would not have been able to make up so many specific mythological responses to it the judge made every major decision in her favor to testify privately about kat e james rape story she stole etc etc much love to allâ€¢.1 1
this woman is scary she is able to kill her best friend and then come to mourn and cry louder than everyone!!!! i she allows herself to eat during her deposition as if she were not a traumatized victim of abuse but rather as if she came to assist a projection of film where she will be the star!!! she allows herself to eat and then her lawyer and she dares to say that the whispers of the other participants disturbs her ??? this woman shows the image of a person who is bored to death and tired of telling his side of the story she looks like a person who is sure to have strong supports in favor and does not risk anything to lie definition even of the narcississse !!!!

so fucked up! that crazy ass girl was clearly banking on just what you said to get her way there's so many examples of this working in modern day society too he's lucky it wasn't 10 times worse a couple months ago my best friends ex wife purposely backed into his car right after backing into him she called the cops lied to them and said he rear ended her and claimed he was actively trying to kill her he was already speaking to a 911 dispatcher the exact moment that she backed into him and immediately verbalized to dispatch she just backed into me and left to avoid any potential escalation he initially dialed 911 to report her driving while obscenely intoxicated and having their 6 year old daughter in her back seat guess what both of their calls resulted in? no cops followed up with what he reported instead they sent multiple officers to my friends house proceed to forcefully arrest him and take him to jail no witnesses no proof just her word (that of a felon with a history of violence and drug use) was enough to put him in jail no questions asked his son who was with him during the incident was begging the cops to listen to his story about his mom lying to the cops being an abusive alcoholic and drug addict and intentionally backing into his dad's car he then watched his dad get taken to jail multiple guns pointed at him like some violent criminal he's now facing multiple felony charges for her lies

i reckon she could end up very fat and murdering people if the drugs don't kill her first we laugh at this monster but she managed to dupe one of the world's most eligible men (johnny) and its richest man must dangerous far far beyond what we have seen publicly so far
1
i cam tell you all why because outside she hot inside she never grew up and resents dollies not doing what she demands my take on her is she is an only child or a 2 child home where she was not the favorite until during puberty she suddenly got everyones attention she now is addicted to stupid levels of wealth and most likely wouldn't survive under \$100 000 a year she is never had someone stand up to her she couldn't cow be it with truth or lies and now seeing the whole media world put an ungentle eye on her actions she is desperate to force the ppl she is attacking to buckle under her force of will in this she is bitten off way more than she can chew and even her lawyer is using sleazy tactics to protect her ass from her self destructive petty and childish nature she is lied threw her teeth she is attempted to force america courts to bend to her will and failed ran to english courts far more favorable to her to get the ruling she wants jumped over the pond and then tried to forcefeed a british ruling in an america court (never gonna work kid) my guess is a keystone situation is coming one piece of info one outburst one unmeasured action and it will crumble on her i foresee in that moment she will attempt to kill herself in a last desperate bid to be important what she needs is a swift kick in the ass stripped of all wealth ignored in media and effete social circles and allowed to see the consequences of her actions! the world got on just fine before ah it will keep going nari a side glance when you go child take that too heart give this stupidity up and live a simple life i do and it's really not too bad among us
1

i promise you if the law fails to punish amber the fans will hunt her and beat her within an inch of her life if not kill her because such people are hated and many want her dead me i'm a luffy if she dies she doesn't suffer so i hope no one kills her
1
@unknown _ ig wb is afraid of her too if they replaced her she might have sued wb for breaching her contract however i wish they kill her in this movie', 1
1
so she is been called in to do some scenes for zak snyders jl hopefully it's to kill her off edit: although i guess the timelines wouldn't work â€¢.1

1
@3dognightowl i love the women who stick up for amber because they believe she was abused by her ex but they abuse other women on the reg on the internet just like their her o amber heard who was arrested for domestic violence i'll take johnny depp who's never been arrested or even accused of hurting a fly over that lying gold digger anyday at l east he gave \$7 million dollars of his hard earned money to charity what has she done besides give hers to her coke dealer beat her girlfriend or kill her friend in a drunk driving accident just to name a few of her indiscretions? oh and her new movie is stinking up theaters already tell her to move back to tx and take her succubus friends with her the leeches

1
either she dont care or if she did stop to carethe weight of her own actions would fucking kill her lifes a bitch'FU

1
is ah going to have to kill her sister for people to see that she is a monster?

1
@billy honestly ozzy is the most overrated 'artist' there is his live performances are a joke and both him and his wife admitted to him threatening to kill her and people ju st dismiss it as a joke and iconic behavior same with axl rose from guns n roses who is an actual abuser he is still praised to this day but when it comes to manson his alle gations become fact and he is an asshole and an abusive monster being a jerk and a rockstar go hand in hand obviously manson didn't invent the androgynous look but he did ro ck it at a time when america was conservative but again i respect your opinion about him and if you think he's a spoiled rich whiny bitch you do but in my eyes he is far more than that since his music saved me from my depressive state the fact that he did whatever the hell he wanted and never gave a fuck really gives you a sense of embra cing yourself and not take things very seriously i used to view him the same way you did until i went into depth rose mcgowan who was his fiancee for 3 years wrote in her bo ok that manson was extremely talented extremely loving saved her and wrote coma white for her about her depression due to being sexually assaulted by harvey weinstein she sa id that everyone in hollywood and caa agents criticized and scrutinized him and called him a freak and were scared of him because of his intelligence and he had a miserable time being around people and another girl who dated him in 97' pola weiss during his antichrist era said that he was very shy very nerdy very insecure and became weak at the hands of women and was also a bit of a pushover that doesnt really sound like an asshole to me and even if he was an asshole he doesn't deserve to be slandered like this the y are accusing him of hideous things such as being a pedophile a rapist a wife beater a human trafficker which is ridiculous and doesnt align with what his past relationship s have said before 2007

1
kourtney needs to be careful with scott! he could lose it one day and kill her in an intoxicated rage

1
@dbreiden83080 you are welcome i've been keeping up with a good amount of this case but have never seen anything of him threatening to rape and kill her you are a weird pers on bud

1
wait what? he said he was going to kill her??

1
my ex did all kinds of fucked up shit to me and her son i tried to do what i could to help her and the situation but the cops usually took her side until she beat the fuck o ut of me and she had no injuries on her except for a broken finger or her wedding ring was from hitting me i never struck back because i would never hit a woman though at th e same time when a woman is raging on you what are you supposed to do? or what can you do other than just get beat the fuck up? she got a misdemeanor for that and then a few years later she got a misdemeanor for beating her son with a belt i ended up having two kids with her and she hasn't been in their life for years i raise them by myself i ge t no child support or anything from her even though she is supposed to be paying that it's supposed to be well over \$15000 now but the courts have told me directly that they have no interest in going after her for child support the ironic thing i guess is that her mom used to always help her and manipulating and controlling the situation and the n her daughter tried to stab her and kill her twice separate occasions and both times she got out of jail in and only got a misdemeanor for it i have way more stories but th at's enough for a youtube comment

1
@raider 13 i'm sorry that happened to you my great uncle had an abusive first wife and money hungry girlfriends later in lifehe was never able to get past it the ex took eve rything from him his kids and reputation all while gloating that the police would believe she is the victim because she is the woman she said she would lie and say he was th e abuser it was so sad he had to leave because he said he'd kill her in self defense if he stayed given how violent she was and my great uncle was such a gentle soul that fo r him to say that meant he had no options sadly men are ignorand maybe if these issues were brought to light he never would have taken his own life in the end men need sup port to in domestic abuse situations they can be victims too

1
so the thing with geralt getting bit on the neck by the princess isn't because she is different now in that she still has a monster in her since she is been a striga since b irth it's more of the left over affects on being a monster keep in mind she is been cursed her whole life killed countless people and many people tried to kill her as well s he also just had a fight lasting hours with geralt so there'd still be some animosity left over from it in the books she ends up fine after she gets an education and is care d for and loved by her father

1
i had the app of talking angela when i was a kid and something happened to her eye and there was a creepy guy is the eye and i was like what the heck was that thing here i w anna delete it and angela was a kidnapper and she got this girl and kill her and that's why where is she that little girl don't download this or else she will kill you as wel l i don't have ever seen that girl was missing also some others are the talking angela talking tom and others but their only cartoons but i grow up as a grow up kid this gir l has think the cat angela was in her nightmares how am i supposed to see this breaking news!!!!

1
poor jonny what a witch she is lucky he didn't kill her there's no way to win a conversation with someone like her it's can be infuriating!

1
the black man tried to kill her

1
so i know this family very well and i grew up with ambers mom as my babysitter the family has some serious dark issues and secrets some that still affect my life today amber didn't kill her self just saying

1
man if i was the judge i'd shut the whole case down after hearing about poopgate like god damn that type nullifies every claim of being abused; if you are laying ass kabobs in mans bed youre not afraid of them that's active provocation and if he did threaten to kill her i would too if some bonkers off the wall gold digger dropped a deuce on my double bed let me catch someone squatting over my comforter i stg

1
@ooldkel ok so let's go with your scenario/claim once again so he threatens her that if she doesn't leash her dog he's going to do something she is not going to like all th is before the filming started this woman supposedly interprets what he said as a threat to her life let's go even more wild here and say he threatened her with physical harm or even threatened to kill her all off camera cut to the film said woman now fearing for her life walks directly up to the person threatening her life and demands he stops f ilming her she doesn't run away or cover away from him but walks towards him and even attempts to grab his cellphone off him this dangerous man tells her to not come closer to him repeatedly as she approaches him the woman becomes so terrified after this that she feels the need to call the police to come and save her!!!!, yeah only an idiot would buy this complete and utter horse@'

1
did he actually kill her? no did he try? highly doubt it this was (allegedly) after amber accused him of abuse actually did it herself and ruined his entire career people sa y stupid and sometimes horrible shit when they are pissed off which depp undoubtedly was after what she put him through am i saying it was right to say those things? hell no am i also saying i wouldn't do the same thing myself? also no and yes i would say exactly the same thing if the roles were reversed

1
@jason prude all this shit started simply cause she left her social media alone for a while and didn't edit it to put pronouns in the name sjw's came after her for this simp le harmless thing telling her to kill herself and calling her slurs it was at that point when she started to open her mouth to how far left people behave that was when she s tarted to really state what she thought and made it clear to the people basically bullying her for not putting pronouns in her name that she wasn't gonna take their shit and bend the knee you are seriously telling me that she should've just done what those vultures on twitter wanted in order to represent the family company? if that's the case th e disney is representing itself as corrupt and hypocritical funny though how pedro can slam whoever he wants and gets no consequences cause those are liberal views so it's f ine but if you don't wanna take a few minutes to read what i have to say for your sheer arrogance then maybe you should swallow that fucking red pill

1
bro damn that girl is a monster too but help?and that monster!!!!!!came out and kill her

1
here's how they can make everyone happy don't fire her instead you kill her character in the first 5 minutes in the worst way possible it's aquaman devoured by a school of s harks is entirely on the table

1
i will not see aquaman 2 i hope that after she is done with aquaman 2 since they refuse to fire her she can't get no other movie parts they should kill her off in the movie
1
also that might be her uncle it's makes sense to me but i don't know if you know i mean it all adds up!!!!!!like that tall thing is her uncle and that girl was a prisone r in the house and she escaped so the uncle kill her wait did you fine the body of the girl?????????

1
for someone so good at recording why didn't she record incidences when johnny threatened to kill her in his inebriated states? she is such a terrible liar you got to be an i diot to trust her i hope johnny forgives himself for stupidly falling in love with her

1
merry it just came through that amber heard said johnny depp threatened to kill her many times wtf??

1
she will kill her male baby

1
this whole family was trying to extort him and were clearly trying to get him to break the order and delete any text evidence of them having told him any information such as she might kill herself the whole family is sick!

1
did it kill her or something like that

1
how come 2 amps of current didn't kill her?

1
trust me she won't kill herself she doesn't have a traumatic disorder she has a personality one lol

1
l'on@al knows the full story and not the version that his legal team has been leaking there is an audio that can be found on the motivator network this audio has been circu lating quietly on twitter for weeks in this audio depp admits beating amber she admits covering her bruises with makeup and she admits being afraid to go to the police and s ays to him that she is trying to protect him and that she was afraid he would kill her in his last attack the previous audio was chopped up by his team and stans to make it as detrimental as possible to hear but this audio where he admits beating her is not being covered by any mass media he has a pr and legal army that he is allegedly paying millions to to hide the truth about his abuse (not saying heard is completely innocent but some of her behaviour is due to repeated physical abuse by this powerful man and k nowing she had no way to ever be believed) he has a long history of violent behavior (with many witnesses to his self confessed hellish temper) when he is drunk or on drugs that has been covered up for a long time and given the lengths he will go to sue and intimidate people people are afraid to talk about him please can you break this story and cover this audio you can here it on the motivator network on yt: <https://www.youtube.com/watch?v=ibipjvttxma> documentary: <https://www.youtube.com/watch?v=par615nmogc> the aud

io is revealing and disturbing he is still trying to escape from the truth of his violence using his pr army legal team wealth and power to get away with it please break this story all sides of this should come to light not just the sides that this powerful man wants to present to anyone reading this who has been sucked in whole by the depp mac hine please have the decency to listen to the audios before commenting thank you

1
hope they don't kill her as they did with princess diana

1
realistically how large is thanos's penis? would it scale to the size of the average humans? because if we take the average penis length of united states males (58 inches) times thanos's height (eight feet according to marvel) divided by the average height a united states male (five feet nine inches nice) we get a disappointing eight inches and honestly? that doesn't seem right a powerful being like thanos to have the size of your average dildo? pathetic if i'd had to wager a guess i'd say it's a foot long at the very least although he could probably enlarge it with the gauntlet i'd imagine that if thanos were to bang an earth woman the size of his penis and force of the pounding would literally kill her also would the head of his dangly be the same color as his skin or would it be a darker purple? are his balls cracked the same was his chin is? i've been wondering these questions and more since i saw the movie and have not been free of them since

1
that is the most toxic and abusive relationship i have seen this year within hollywood honestly she should be arrested and go to jail and he should be required to go therapy for a while she was criminal and the worst and he was acting so weird around all the shit alcoholic and violent even having conversations about how to kill her maybe use the body and where to put it he must have developed problems with all shit this relationship had he totally a time to take care of himself

1
my guess is nothing will happen to turd monia will just laugh it off even if turd is in it for 15 min i will not go see it i don't care if they kill her off or whatever the petition was: have her removed!!! not gonna fall for a steagety move have them make their millions and have to see the turd (even if its to see her die) i dont want to see her period! prop? accident? only reality right now is she went in too far thus hitting the eye she'll get away with it the more karma waits the harder the fall

1
deserves everything happening to her sry but that's how the worlds energy works it is an unwritten rule what goes around comes back around i just don't know why ppl think can get away with everything she had everything money fame looks the movies she was in were good i mean she was a good actress this will ruin her hard she might kill herself now :ss

1
what does she need to do to actually go to jail??? there has got to be a limit!!! i gonna kill her my self if this goes on like this

1
when he said and omg the animals i started laughing so hard bc she really is such a shit show like no she does not beat her animals and i believe she truly loves thembut the nail trimming and over feeding needs to be worked on like not even being funny i'm more worried for twinkie if she sits on or steps on her!! a little dog being sat on by a normal person could cause damage but if a 600lb woman sits on twinkie it would kill her i'm more concerned about that bc twinkie does get love i'll give her that

Out[88]: we got to be patient in time amber will have to pay for her crime  
1  
she is never gonna really pay for her crimes even if she is dropped by hollywood she'll just marry a sugar daddy billionaire or somthing their no such thing as true justice in this world an eye for an eye  
1  
amber heard has proven to be an insane violent angry and over all abusive piece of shit she needs to be sent to prison she is a dangerous abuser who needs to pay for her crimes  
1  
umm she did this alone and used johnny's name as privileged! amber needs to pay for her crimes and just her alone  
1  
soin the middle of the assault she told 'the man assaulting her to hold on while she called me to tell me she was being assaulted and then she told him to continue assaulting her so when the police come they can catch him assaulting her this call is so bad that even if there weren't two security guard witnesses at the penthouse apartment that n eight two lapd officers who answered this 911 call and reported that there was no evidence of an altercation in any of the penthouse apartments or any signs of abuse on amber heard's person and two lapd officers who answered the second 911 call to tillett wright would make two hours later who would also report no signs of any altercation in any of the penthouse apartments and no marks bruises or injuries on amber heardeveryone would question it's validity it is critically important that we have these 911 callsbecause they prove ms heard premeditated the framing of johnny depp for an assault that there is more than ample proof did not occur! this is only a part of mr depp's evidence that resulted in the judge dismissing ms heard's domestic assault case with prejudice if ms heard had any sense after the judge dismissed this case she would have tried not to draw attention to it now it will go back to court and she will have to pay for her crimes  
1  
i hope either the american and australian government make her pay for her crimes or both ameia  
1  
yes the witch should apologize! publicly and admit she is the abuser and give all funds back to johnny plus 50 million dollars for lost wages physical abuse for the damage to his finger and for the emotional distress she caused him she needs to give up her role as ambassador on domestic violence she should also not be permitted to be around children until she gets help for her issues and passes a treatment assessment admitting to violence in front of children (johnny's) and receiving and passing the treatment program she will only go on to abuse her future children if she doesn't get help! she has a lot of issues! some of which are disturbing johnny doesn't deserve the abuse he endured and she needs to pay for her crimes if it's found she committed fraud in putting on make up to look like marks of abuse to law enforcement or the court she should flat do prison time period i don't care what a great actress her fans think she is part of the reason she is gotten away with abuse for so long is that she is an actress! jill gross  
1  
ah needs to pay for her crime! she is tried to destroy johnny depps career as well and then lied about being abused  
1  
ah should not be treated as if she is above the law as simple as that they both had their faults in their individual situations and she should pay for her crimes just as much maybe a little maybe a little less than god dammit any thing something; but not come out completely clean out of this situation as if she did nothing when there is so much evidence of her abusive behavior this is just completely wrong if she was able to pull this off the way she did then no doubt she is just pure evil with no basic human moral just as evil as the companies that are backing her up  
1  
its september and i cant wait for the uk judgment i also cant wait for this trial so amber can finally pay for her crimes  
1  
you know what's horrible you look at mainstream media outlets and all they post is her working out and what she is wearing claiming people love her etcetera and they completely ignore how she is been physically violent to multiple people (her ex her sister johnny) lied about donations committed multiple acts of perjury it's disgusting my hope is that the authorities are just waiting for her to get a payday from aquaman 2 so when the time comes she'll actually have the money to pay for her crimes  
1  
ah has to pay for her crimes and be held accountable for all of her actions and lies ah has to shown she is not above the law once and for all!!! loved the fact it is still being looked into and ah is still under investigation for it

hope is all we have flash amber heard must pay for her crimes as will the sun
she is had this baby to deflect people from speaking about her belonging in jail to being nice to her because she is now a mother when she needs to pay for her crimes
i really like johnny depp to the bottom of my heart he is ever so talented and he will never hurt a fly hearing his painanguish and suffering really hurts and johnny is as gentle as he looksjohnny is as gentle as a children's teddy bear johnny had made a lot of children smile when he was a collaborator for the make a wish foundation(i don't know if he still is involved with them) and even though he made the dying children smile and be with them for the day behind that pleasant demeanor he was battling his inner demons that is amber heard's abuses back at home seeing those children made him more happier than he ever was i hope johnny can get the redemption he truly deserves and at the same time have amber heard pay for her crimes
uh oh karma is starting to come for amber fbi open up!!!! but amber getting searched by the fbi really takes things to a whole other maybe is case goes deeper than we know will amber finally pay for her crimes? find out next time on dragon ball z kai
i agree a lot of people want her to pay for her crimes that's not hate that's justice
@fiora she is there because she is hoping she can eek out some good will from depp and he won't absolutely destroy her when it's her turn to pay for her crimes but she is a woman she'll get off with barely a slap on the wrist
when is the criminal's criminal daughter going to pay for her crimes?
came here to do what any sane person would do dislike the video and to tell you that amber heard isn't a victim i'm glad everyone feels the same and hope they make her pay for her crimes against johnny
she needs a lot and jail time she has to pay for her crimes
heard is a terrible person she needs to pay for her crimes she blatantly lied about him hitting her with a phone the police woman who checked her over even said as much later on she took a picture of a huge bruise that miraculously disappeared the next day amber heard is a damn sociopath
make her pay for her crimes she is past due justice for johnny depp
amber heard needs to pay for her crimes johnny needs to get back his roles in the movies justice for johnny depp he has suffered enough movies that let amber heard continue to act should be closed down am i?
time for johnny to shown equality feminism yo amber has to pay for her crime
amber turd is evil she needs to pay for her crimes in prison!
i used to be the biggest fan of stephen king loved every one of his books but now i can see he's become the one thing i never thought would ever happen he's a knackered old twunt i support johnny depp because abuse whether it's by a female or by a male it's still abuse and she abused him and she needs to pay for her crimes hopefully justice will prevail
amber's evil and must pay for her crimes
world wide super star she needs to pay for her crimes
why can't she look people in the face is it because she knows she is lying through her teeth what a narcissistic sociopath didn't she realise that when you lie eventually you're lies will catch up to you amber turd has told some huge whoppers committed perjury in the courts on television to the newspapers everytime she opens her mouth a lie comes out time for miss heard to pay for her crimes against johnny and against all dv victims that she has lied to when she has said she was a victim of dv what a disgusting deceitful witch miss heard is
basically the guy is telling to johnny who is clearly an abuse victim to give up on making his abuser pay for her crimes can you imagine what would happen if he told this to a woman?
watching her lying face on different shows trying to look humble and kind while she is lying her ass off telling these buffoons that she gave all the money to charity any fool with a half of brain could surmise she was not telling the truth she makes me sick to my stomach! i can't wait for the day to come where she has to pay for her crimes and apologies to jd in public that day can't come soon enough for me
justice will not be stopped ah will pay for her crimes
amber heard fueled and murdered the metoo movement she has a lot to answer for any self respecting man can not let this be dropped she has to pay for her crimes or the rest of us are still at risk of the same fate
she needs to be tarred and feathered honestly she is a psychopath she was clearly caught and she just keeps lying you know feminism is things being equal this awful person needs to pay for her crimes i hope she does 5 years in prison for this she cut off a mans finger with stupid vodka bottle
the bottom line is that she kill the guy on his house mind his on business if was by mistake it's irrelevant he is dead she will pay for her crime
if jd ex was my daughter i'd want her to pay for her crimes if jd was my son(who is near jd age) i'd be very proud of his courage & restraint if someone did to my son as jd ex did
australia court system doesn't play amber needs to pay for her crimes and get therapy help
idk maybe she will get jail time only reason i'm guessing there's a small chance is the college admissions scandal then harvey cases have made hollywood somewhat penetrable look at lori loughlin so idk that at least gives me a small glimmer of hope that she'll pay for her crimes
i can't wait to see her pay for her crimes as she is caused so much damage to depp and the #metoo movement with her lies
no one is really a saint if you ask me i hope she'll pay for her crimes johnny is lucky to be alive
she needs to pay for her crimes bring in the shrek
will the court make amber pay for her crimes after age 70+ and lived all of her undeserved luxurious lifestyle?
everything is on video, she is lied about everything johnny depp is innocent and justice will be his she is so guilty because of her lies, gold digger abusive acts to johnny depp and others in her life she is going to jail and pay for her crimes guilty justice for johnny depp karma for amber what's her name
dear lord please let this woman finally pay for her crimes please please please
part of me thinks her celebrity connections with me too organizations and support from the media means she will never really pay for her crimes no jail maybe just money that she can afford to lose will be her punishment but other celebrities have gone to jail before so i'm holding out hope
i pray that cancel culture is cancelled itself and so are all the assholes that push it amber heard being forced to pay for her crimes with jail time would put a permanent end to this abuse of trust and power that these feminist metoo nutcases have been doing since its start this was always a bad idea harvey Weinstein is a piece of shit and he got what he deserved and so did moonies but we should have brought them down and ruined them and jailed them for reasons not related to this feminist garbage its truly toxic as all can see amber heard is the perfect example of just how much this nonsense believe wammin stupidity can be twisted by unscrupulous lying women who have no sense of right or wrong and used to get back at an ex that scorned them this is almost all metoo cases its just exposed clearly here cause amber heard is so privileged so full of shit she is in love with herself she thought she could get away with it even with video footage and medical records and so on of her being the abuser and not johnny i hope this ends for good and it will
amber heard well pay for her crimes if she wants assault she will get it
thank you for all your good work i appreciate your using your dedication your talents and your incredible knowledge to support johnny depp in his legal battle for truth and justice in his case against amber heard you have presented an excellent case here on youtube i have been a johnny depp fan since i saw him in don juan de marco way back when i was a young mother of babies now i am a grandmother of 3 soon to be 4 i could say johnny and i have grown older together i've got 11 years on him though he's a kentucky boy and i'm a kentucky girl he's made me swoon many many times as i've seen all of his movies i just watched his video of him playing and singing isolationalongside the great guitarist jeff beck he did an amazing job covering john lennon's song i want you to know i never doubted johnny i knew he did not abuse her he is not an abusive person she was a vile women who took advantage of his kind heart and his love for her i'm sure she was projecting her abusive nature upon him i am happy he is rid of her i wish him well i hope and pray for a good and positive outcome for you for this case and for johnny depp's future as far as amber is concerned legally she needs to pay for her crimes both monetarily and criminally maybe then she will rethink how she treats other people
have her pay for her crimes of perjury defamation and hollywood never use her again!!!!
all this has done is made women who wanted to go it alone feel gross she should not be a parent she terrified her former assistants child among other instabilities of her personality and life she will also be absent for a chunk of this child life she has abused multiple people physically mentally and emotionally; she needs to go to jail to pay for her crimes and get the mental help she needs so she can properly raise this child at least now we can guess what happened to the divorce settlement; surrogate aren't cheap
she must pay for her crime

- she needs to pay for her crime defamations and she needs to suffer financially

1
now here is the issue with women saying i was abusethey know they'll be heard and know they'll win regardless so yup some not alldo put false statements ! and i do believe a women should pay for her crimes when it comes to said claims because she single handily kill this mans career who in that audio was trying to be reasonable and not go crazy like she did call it what you want but when someone says we have to end this if it gets physical and said person say i can't promise you thatis the definition on someone wanting violence and can't grow she clearly knew what she was into and just was greedy and ended his career!

1
but in all fairness she should just be fired from the film before they even start filming it i don't believe she has the right to keep her career after ruening johnny's career hollywood owed johnny alot disney owes johnny after they cut tights with him and pushed him out of his favorite role because of lies that where never proven they where known to be lies and they still fired him now i don't think johnny owes disney the pleasure of coming back if they deside to bring him back as jack johnny should say no if they offer him the role back disney should honestly just put the franchise on hold for now as a way of saying "yeah we are dumb and we fucked up again" there doesn't need to be any more pirates movies there's a perfectly good trilogy with one meh sequel and one horrible sequel they had their run and they crashed the ship but in all of this you kind a do have to give mad props to the people working on jk rowlings extended univers her included as they stood by johnny despite the media and the public calling ton fire him they refused they defended him they where pretty much the only ones i heard defending him when all this shit was going down johnny depp has a career going for him without disney johnny is a great actor when he puts his heart into the role and he gets good material to work with there's no way he won't be seeing plenty of big paychecks in his life even if hollywood sticks by that monster of an ex he'll still be making more then she ever will but she doesn't deserve the fame shes building these days you know everyone can change and sure let her change and come back a better person some of our most beloved actors these days do have a rather dark past from drug abuse to wife beating and other shitty acts but if that can be a thing of the past then let folks move on from that but right now she needs to pay for her crimes and i think prison is only fair as what shes done is bad enough for such a punishment i really hope justice does get served 1
ah goes after johnny depp who retreats to bathroom to avoid her violence she bangs on the door trying to open it he opens the door accidentally scraping her toes ah then kicks the door hitting him in the face then admits she hits him but blames him for 'making her react & punch him' if she was in fear for her life as she claims would she be following him trying to get away she is is the aggressor ah took advantage of the me too movement to get away with her crimes which in itself is a crime & beyond disrespectful to the women who are/were victims of abuse she should be made to pay for her crimes #justiceforjohnnydepp

1
women like her make it hard for real victims of domestic violence women like me to come out and be taken seriously this is disgusting she needs to pay for her crimes
1
ridiculousthis trial will proceedamber will pay for her crimes yes her crimes please catch up with whats currently happening #justiceforjohnny #amberheardisanabuser #amberhe
ardisalair

Out[111]:	there is no potc without johnny depp as jack sparrow if they hire ah that will be the kiss of deathno one wants to see her plus she can't act her way out of a paper bag 1 wb just gave aquaman 2 the kiss of death fans will make themselves heard once again by not watching the film 1 amanda is the kiss of death to filmstake note hollywood 1 heard is a walking disaster a nightmare of epic proportions and the kiss of death to any movie she makes her and markle the two most despised females on earth and rightly so 1 @vanessa sanders darth is outta control and spot on i think jason would be more comfortable kissing darth in the romantic scenes than he would ah!! its the kiss of death vs the kiss of darth! 1 having ah in anything is the kiss of death 1 there has been no movie with former cast members of got that has turned a profit the shite halo is that bad because of dumb and dumber aka benioff and minute weiss rainbow couple you have no idea what your talking about with emilia clarke genesis tanked solo tanked last christmas or something tanked she is the kiss of death thanks to dumb and du mber she always has birthday party gigs to fall back on how was jo jo rabbit starring reek? how was new mutants with arya the hop on pop teen witch? i though i was committin g a crime watching that episode with her and that unsxmy smex scene i was nauseated and that's what dumb and dumber wanted me to emotie psychopaths now forever unemployed on netflix welfare salaries idk whats up with maisy must be what happens with genetic outliers she is weird looking and not in a good way. 1 the only thing that makes sense is ah gets thrown out of hollywood for good! having her involved in any project gives it the kiss of death we will not be silenced (ah quot e) 1 it will be the kiss of death if gold digger is in it 1 and that was why he got in more trouble trusting that others will be as ethical as you can be the kiss of death sometimes 1 i think that it's time for the hollywood big shots to start paying attention to what people are saying about amber heard she is a horrible toxic person and will be the kiss of death for anyone around her 1 i heard that amber lied big time on this one talk about the ultimate kiss of death it's all over 1 amber heard is laughing at victims of domestic violence we won't watch anything she is in the stand is one of my favorite stephen king stories she has ruined it she will be the kiss of death to everything she touches #justiceforjohnnydepp 1 if you dont understand what this video means than go home playing with your toy soldiers ! thats the kiss of death to depp ! bye bye johnny ! 1 those people who support ah in aquaman i r in for a rude awakening wb already dumped her they bought her contract outright now she is an uninsured actress being unable to get bonded is the kiss of death for any actorno movie studio will hire her she is toast in hollywood 1 forget amber turd this is the kiss of death for the aclo as well 1 spoilt little brat throwing her toys out the pram whilst trying to renegotiate a whole new set of rules making the relationship all in her favour she is so unstable these rules are probably in constant state of change to make everything all about her a complete lunatic i've met so many women like this she is the kiss of death for any man 1 the movie is going to be a an epic failure we will be sure to keep pushing the reason as loud as we can we will not be watching the movie beacuse of amber heard she is going to kill the movie we have been saying it from day one sorry jason but she is the kiss of death #justiceforjohnnydepp wæt wæt i,jæj-i,i!!!!!!! #lockherup!!!! 1 amber heard is an abuser! i do not support abusers i feel terribly for the other actors who film with her she is the kiss of death for any movie after what she did to johnny depp 1 Name: text, dtype: int64

gotohellaaron i've read online that he's 5'10 and she is 5'7 so she is like three inches shorter than him still relatively tall compared to the average woman who's 5'4 nonetheless abuse is not about size a pint sized woman can be just as capable of physically and/or sexually abusing a huge man 1

Out[174]: @been there nichol has ruled against rupert murdoch in the past nichol's son worked for dan wooten ( back to murdoch ) & could have been fired & possibly blackballed out of t  
he industry most parents want to protect their children i'd say that's a strong motivation for nichol to rule in favor of ngn forget amber heardshe has no power except what  
other's give her forget nichol people thought he sounded sick or ah during her testimony he was frustratedbecause she & her friends made him look more of a idiot josh drew i  
s a outstanding witnessnichol i saw when nichol was ruling what evidence to toss & keep that musk was unimportant as a witnessbeing there the night before court 2016 (magic  
bruises) where the trial was going & why! rupert murdoch's son works formusk power trickles downnot up follow the rabbit hole & history & it's blatantly obvious murdoch has  
hated jd for years probably because his multi billion's & power can't buy him youth (he's 81 & looks 100) fame followers crazy fans etc disney fox my times dow jones ngn thi  
s trial the hacking of jd's phone buying off/blackmailing the judgesuper small potatoes for murdoch he's been doing all that for decadeshacking the royals celebrities the vi  
ctims of the london bombings & buying off police public officials david cameron levenson inquiry it's public knowledge to think he would get a fair trial in the uk with the  
history there? jd himself alluded to the rabbit hole of unbelievable extent msm is attempting to blackball him out of the industry right now 3  
elon musk is such a liar!!!
```

@leah smith you've obviously never been in that situation had therapy or are a psychologist i was/am he doesn't look at her call her names or even face her or raise his voice at her she lies 3x she is goading & gaslighting him off camera and he just had millions stolen from him 1) you don't diffuse the situation you leave the room 2) she is clearly the abuser on this tape slamming cabinet doors & drinking is hardly abusive not the brightest bulb if she had been trying to diffuse the situation she would say i'm sorry this terrible thing happened to you you must feel very betrayedboth by your management team & because i'm a whore excuse for a wife who doesn't sleep at home or call or return messages then leave if he was abusive it would have been on the tape it was not allowed as evidence because it's absurd

1
narcissistic people are some of the slickest people on earth when it comes to things like thisthat's exactly what she is doing & the fact she publicly said the relationship was volatile but always bound by love & called off the restraining orderi would never call off a restraining order on someone i thought might kill me as she claimed she was in fear for her life

1
thank you so much!!!! i'm confused as to why wass is allowed to make statements instead of questions calling sean betts (security guard) a liar three times over whether ther
e were candles in the room jd's attorney asks short questions to the point they are now running a day over due to wass's waffling which seems to be her intent to have ah on
the witness stand for as little time as possible since the judge said trial time would not be extended i'm also curious about kate james testimony ah stole her rape story &
apparently applied it to jd & herself ah has lied to homeland security the australian authorities (much documentation on this) & consistently committed perjurywhy no consequences?
she is still the un ambassador for violence against women aclu (musk largest contributor) spokesperson l'oreal is standing by her as a woman of worth what she did to
kate james is despicable and all real survivors the transcripts from court are up 1 more thing i don't understand why the judge said musk & franco were unimportant franco wa
s there may 21st & musk the night before court 6 days later when the bruises appeared & jd was out of the country those 6 days please don't apologize your video's are so helpful
in explaining the uk court system!!! much love~\$i.iah~\$i.iah~\$i.iah

hello from the usa ! pleasure to meet you we try to cover what we can no one for sure knows the 100% truth but we base it on the evidence presented that is why i choose johnny depp there is no doubt in my mind that she was the abuser in this instance and he is the one suffering as a result while she tries to grab all the glory she is a liar and a sociopath we appreciate it as we try our best to keep you informed 1 deborah thurston of course we do this whole thing is about #justicefordepp it amazes me how she played the victim card and got dv victims to believe in her until johnny exposed her for what she truly is a liar and a cheater

details on amber heard's domestic abuse arrest revealed https://www.youtube.com/watch?v=81mnrxalbee as many of you might know by now amber heard has a reported history of domestic violence including a time when she was arrested for allegedly assaulting her ex wife tasya van ree at seattle tacoma international airport in 2009 now the details of the incident are finally getting attention in the media 7
even funnier she said i'd rather not be in courtwell thing is amber and her team have requested to the judge for her to be allowed in court every single day of this trial and it is jd's team who fought back saying it shouldn't happen unfortunately the judge sided with her on this argument but it shows again how she is such a pathetic liar in the end i'm glad it went the way it did because she just keeps shooting herself in the foot 5

fire amber heard the public hates her

1

he's an ungrateful grifter johnny supported him for years and now he's supporting ah's lies i wonder if ah gave him some of the 7 million in her divorce settlement that she never donated to charity maybe he was the charity she donated to 1

she is disgusting she is an abuser and nobody wants to hear her speak about anything least of all human rights

1

her transactivism how could they want an abuser to be their spokesman?

i have no problem with them switching ben affleck out for the original batman the best batman in my opinion but unfortunately i will not be watching aquaman too #fire amber heard
1
and only the fans will take out amber heard or should i say amber turd i guess we have to do their jobs we might as well as the fans be the producers because we know what we like over what they do obviously
1
lol that would be quite funny if she was to go to prison over her dogs and lying about them the one thing that gets her is her dogs wow but not that she abused jd but not th at she took 7 million plus from sick children not that she pretended to be a victim and got paid to do so when she is a reoccurring abuser playing a superhero right all them reasons are not good enough but her being thrown in prison for 4 years over her dogs is more important than what she did to jd and countless others especially the poor kids what a shame for her to go down for only 4 years about lying about her dogs oh but severing a mans finger that's not a big deal right taking medicine straight out of babies that's not a good reason right pretending to be a victim when she is a reoccurring abuser that's not a good enough reason right? or how about this the fact that she is speaking in behalf of victims and being paid to do so that's not a good enough reason i'm sorry i think she deserves more prison time and i think jd deserves more justice for what she is done to him!!! #bing a bully at any age is not okay #you are a man won't believe you #yourawomanandwedon'tbelieveyou #amberfbi #i didn't know you played in magic mike that's how much of a nobody you are nobody remembers you in the movie you were nothing before jd and you were in nothing now without him do not deserve to play a superhero o being a reoccurring abuser!!! #jd keep your head up cuz your fans got your back!!!!!
1
and i'm not being paid and i'm not a bot i am a fan i am a person i am against ah in all the lies she has told as a pretend victim sorry sweetie you are acting skills suck you are a nobody before johnny depp and you are a nobody now i'm not being paid to say these things these are my opinions of what i see what i have seen over the years i'm just done keeping my mouth shut over it over you a h not only did you hurt jd and yes there was obviously some issues with you too but it's what you did after all the lies that you told the whole world and you got caught up and you still lie after lie after a lot you know what happens to liars nothing good keep that in mind nothing good you are career suicide ah

he deserves so much better than her hopefully he is able to heal from the trauma caused by this experience the studios need to give him back his roles and she needs to apologize to him publicly for destroying him
1
very true about family court all divisions actually it's totally acceptable to stand and swear to be honest and then spew nothing but lies anyone who has ever sat in the witness seat knows nothing is going to happen if you lie through your teeth the judges don't give a shit anymore they won't polygraph anyone even if it is proven that an individual is a devout liar!!! it's repulsive to see i don't even miss my office anymore because of how low the bar from judges to lawyers has sunk it's pathetic how people can sit and lie transparently and nothing is done no contempt no sanctions nothing everyone knows the courts have lost their ethical standards
1
the only thing that pit viper donates to is herself!!!! she truly thinks she is just the greatest thing in the world to each his or her own i guess this waste of skin is just a toxin to anything she comes into contact with total waste has no talent wouldn't know truth if it jumped up and slapped her upside the back of her empty head i'm not now nor have i ever watched anything with her in it just from the few minutes of the clip from the rum diaries not missing much she is delusional if she really believes she is anywhere close to the same caliber of talent as johnny depp she is just a pathetic coat tail surfer sinking her fangs into the name of a real talent johnny didn't deserve this toxic hag to come into his life and cause so much damage he deserves total vindication and public apologies from every entity that took her vile accusations as truth if she really donated money she would be renting bill boards to show it off! such a vile excuse of a sub human piece of garbage!!! 1
she recorded this because in her twisted mind there may be something said that she can use against her later just my opinion but scambler is pretty manipulative
1
i call bullshit!!! we've all seen and heard both sides she walked into court with bruises that weren't there days prior and magically vanished days after???

the media is beyond stupid they post anything she says by now you would think no one would believe the little girl crying wolf i'm glad she is finally been forced to prove something she hasn't proved a single thing except she can act like a victim even though she is not acting like a dv victim at all she needs to read up on what real victims are like
1
getting closer by the day to a total scambler melt down i can't wait to see it
1
good amber can't get out of it by using any of those excuses she blatantly lies about everything
1
you can see the resemblance between her and a serial killer they just keep going and taunt the police with clues in her case evidence
1
the dna test for the shit on the bed the mistake in this lie was rachael saying she went to the door it was locked went back to get the keys and returned the two security guards were standing outside that door she never went past them at all she was inside the cupboard hiding inside the apartment this just blows it right out of the water this proves yet again they are lying 1

trust in me put your faith and trust in the lord god is coming give your life to him while you have time i speak for christ i fight for christ i will never fight against christ i will never fight christ i will fight for christ and i will fight with christ be like you know be like a lighter they walked with christ with faith they did not walk ahead they did not walk behind they do not walk after they do not walk before they walked with christ and faith and they walked by christ and faith give your life to god worship and surrender to god do not put your faith and trust in me put your faith and trust in the lord for god is coming he loves you please please please your time is running out god loves you and so do i does not want you to go to hell god loves you and he cares about you please repeat and ask for forgiveness all these false religions and false god's are wrong like muslim religion buddhism they are all wrong attack me if you like i speak the truth god almighty heavenly father should be your god not satan not allah but god and jesus christ should be your savior not muhammad?!remember gods not dead he's surely he's living inside roaring like a lion 7
to whom shall i speak and give warning that they may hear? he that has ears to hear let him hear are you saved? where will you go when you die? heaven or hell? the gospel which means the good news is the news that god almighty the creator came in the flesh as jesus christ to take away the sin of the world the one god is a trinity of the father the son and the holy spirit the son came and laid down his own life to save ours his sacrifice on the cross paid the price for our redemption with his own blood on the third day he rose from dead and offers the gift of salvation and forgiveness to those that repent and trust in him although god's creation was created perfect having no death sick

ness and disease the creation became corrupted through adam and eve in them disobeying god in this rebellion the creation became fallen through the curse of sin and mankind became separated from god this world is fallen but god offers reconciliation to him through his provision at the cross ultimately god will restore his creation to perfection when he returns but those that who reject his offer of redemption will remain condemned by their sins and go to hell john 1:11a in the beginning was the word and the word was with god and the word was god [14] and the word was made flesh and dwelt among us 1 john 3:8 kJV he that committeth sin is of the devil; for the devil sinneth from the beginning for this purpose the son of god was manifested that he might destroy the works of the devil isaiah 9:6 kJV for unto us a child is born unto us a son is given: and the government shall be upon his shoulder: and his name shall be called wonderful counsellor the mighty god the everlasting father the prince of peace john 1:10 kJV he was in the world and the world was made by him and the world knew him not

this kind of country never went anywhere it just didn't get radio play at a certain time in the 70s and 80s variety is greater today because the world is bigger and we can't have everyone sounding like hank and dolly all the time forever but i restate there have been people making 'old school' country this whole time and if your radio station isn't playing it there has to be a reason and the reason is that music preferences often skip a generation there is a lull periodically just like with rock which briefly took a nap in the 80's and then guns and roses happened and then people were all woah and now it's taking a nap again but it'll come back and there's still classical music being made too it didn't die 200 years ago still happening there is just so much more variety out there because we invent more forms of music and that's good even though our grandmas thought john lennon should go to hell and that elvis for sure because my god he moved his hips!!! and pop country is good too although i wouldn't call most of it country by any stretch of the imagination but that's another chapter

how do you ever come back in life after being exposed and inflicted upon by someone like amber heard? i can only sincerely hope pray and wish for johnny depp that he is able to prove beyond any doubt what amber heard is and what she set out to do which is destroy him from the inside out it is criminal but oh so very difficult for anyone to prove what a genuinely horrible position to be in to be at the hands of someone so cruel twisted and mentally ill and have their attention and thereby be inflicted upon all because e you fell in love with someone who turns out to be completely different to what you thought you knew about them thereby the grace of god goes i i really hope he can come back from this as the world misses out on the talent and pleasure that johnny depp brought to so many of us and really that fades into insignificance when you think how johnny depp must feel as a result of what he has been through at the hands of someone like amber heard i admit i feel so very very sorry he had to go through thisohhh yayi have bee n following the daybell vallow case and i'm really looking forward to what you have to say :) as always i really enjoy your content and channel

1

amber heard using every thing every person to destroy johnny depp and get his money is criminal acts on many levels no jury no judge no body will belive amber heard after the truth finally is proven johnny gave amber the world in return she gave him hell on earth why?

1

i'm glad you opened with the kind of statement you made; i mean with all the audio that's been released i've steered more towards being on johnny depp's side but he definitely can't be blame free in this entire situation or at least we can't be sure he wasn't maybe amber was more prone to violence but what if sometimes he initiated it with a slight push and she just escalated it with a punch? it's still aggression on his part in the end we outsiders truly can't know what happened inside that marriage but i am glad however that his situation has raised awareness against the dangers of the metoo movement like everything in life theres two sides to a story not giving the chance to one of those sides to defend themselves is criminal on our part edit: btw i dont think we should be calling for her friends and coworkers to denounce her just yet because all the proof has not been yet seen in court just like we always go up in arms against women they make their denunciations and we expect to have proof before reaching a conclusion the same should be given to them dont be a metoo sheep that's on the other side of the fence

1

amber heard is criminal periodtttt

@families supporting trauma recovery having read all of your comments i was going to write my own lengthy one going into detail about the emotional physical psychological spiritual and yes even sexual abuse that my younger severely disabled sister and i experienced at the hands of our own biological parents as even my (female) psychotherapist has said for sometime now although my dad went to prison my mum should have too given what our mum did and especially didn't do to protect us there is a very good reason why social services removed my sister into care and were i young enough i would have been too but instead of a long rambling comment i try and parse it down: i) christian to christian we both know that christ's mission on earth was not just in service to his father but to all of humanity for all time he walked with and ate with those whom were treated as the 'despiscibles' of his day which today would be addicts the homeless and yes street walking prostitutes the reason why the message of the new testament is to be christ like is that we are called to walk the same path: of compassion understanding lovingkindness and magnanimity but greater than all of that is what god through christ has granted us: grace and mercy if you are mission is truly that of supporting trauma recovery you will know that trauma has no boundaries: it crosses sex gender age romantic and sexual attraction race ethnicity religion and so on the list is endless in order to help heal those with trauma you have to look past whatever descriptor or adjective that they may have and instead see the person in pain and grief; that is the christ like way a great example and a person whom i believe had the soul of an archangel was mr fred rogers we christians are all repentant sinners but mr rogers had the least to repent for his lovingkindness showed that whilst we may fail at being christ like we can still be heartfelt in our kindness acceptance compassion and yes again grace and mercy from the beatitudes mr rogers and his wife will be the meek that shall inherit the earth ii) if you are engaged in trauma recovery for any lengthy period of time you will come up against addiction addiction is a disease of the mind body and soul as a great friend and mentor once said to me in his experience as both a recovering alcoholic and addiction counsellor addictions can be summed up as simply thus: pain control the recovering adds i have know have struggled often seriously against deep innermost pain either physical mental psychological or spiritual it is why addictions must be treated as a disease especially when medical research has long showed that addiction does create physical dependencies again this is where grace and mercy comes back in addictions are not a 'moral failing'; instead it is a soul trying to cope with pain that is beyond what they can endure and going down the wrong path in trying to deal with that pain and often grief which leads to this you have to separate narcissists from narcissistic like behaviours narcissists are narcissistic whether they are sober or not addicts only behave in a narcissistic like way only because their addiction becomes all consuming we'll find that once the underlying pain that led to the addiction is treated that narcissistic like behaviours is treated also which is also important to note: narcissists especially as defined in the dsm v and especially malignant narcissism are next to impossible to treat either through psychology or psychiatry but and again to emphasise the point narcissistic like behaviours which are comorbid with addiction behaviours are treatable if yet again one treats the underlying issues which led to the addiction when christ himself healed someone he wasn't healing say 'just' their blindness but the pain in their heart and soul that in certain instances was caused by being blind it must go without saying that there are many a blind person that are able to lead fulfilling and productive lives and relationships but we be fooling ourselves if we pretend that blind/severely visually impaired people don't commit suicide but i digress my emphasis is simply this: treat the trauma and the person with that trauma with humanity and dignity i am not entirely sure what your actual message regarding jonny depp is as you are sending out very mixed messages but even if he was a drunk and a alcoholic as my friend may well have said what you see in a person and their behaviours when intoxicated is whom they are sober there is little to no evidence that shows that jonny depp was dangerous and extremely violent when intoxicated in fact the opposite seems to be true: he was as george w bush described himself when he battled alcoholism 'a happy drunk' in one famous episode the future president whilst drunk actually helped refuse collectors empty the bins near his fraternity house and rode on the back of the dumpster as he thought it was hilarious that was/is the kind of alcoholic jonny depp is in fact i am sure jonny depp either has or will seek help with his addictions if not for his sake then as he expressed a deep love for his kids then for them which if true means once again he must be treated with grace and mercy iii) what i find troubling is while your name states 'supporting trauma recovery' there seems to be a confusion between whom is the instigator of the trauma and whom is the traumatized as mentioned in i) trauma knows no boundaries it doesn't care about the individual as with my chronic clinical depression it doesn't care who i am it just happens yet in all your comments there is a subtle but deep implication and inference that your belief is that amber heard is the victim in all of this despite the slowly mounting evidence that proves she is abusive and if jonny depp is still considered the perpetrator due to all the reasons you have taken great pains to detail then there is the issue of the evidence that i think there is in a sworn affidavit (and thus under the risk of perjury if proven false) by a female former partner of hers that describes the abusive behaviour that she experienced at the hands of amber heard which is in of itself tragic but not unheard of one of the hardest things for a lesbian to come out and say is the experience of being abused within the setting of a domestic and romantic and/or sexual relationship domestic violence within lesbian relationships is a oft unvoiced tragedy that if statistical studies by say the american cdc is correct is more prevalent than dared be actually mentioned if not addressed the reason why i placed such significance on that issue is that if women can be violent towards a female romantic and/or sexual partner then it is wholly conceivable that women can be violent towards a male romantic and/or sexual partner which again at the risk of being circular goes back to the idea that trauma knows no boundaries neither in the case of t he abused but also in the case of the abuser if two individuals of opposite sex to each other that had been in a intimate relationship with her have both stated that she is abusive within an intimate partner relationship then that creates a pattern of behaviours that points out how she behaves towards someone she is in that kind of relationship with whether it is same sex or opposite but that should not be used to shame her per say in trauma therapy there is a saying that not all those whom have been abused go on to abuse; but all too often those whom have been abused go on to abuse in her case if she is acting out her trauma in wholly inappropriate behaviours then she owes it to herself and future intimate partners and children to 'own her own trauma' and seek therapeutic treatment that will enable her to process her trauma in a healthy non aggressive manner in other words she should also be shown grace and mercy but given her unlawful and illegal behaviours which is criminal that means she should still face the judicial consequences of her actions including the appropriate custodial sentence according to if found guilty of said offences showing grace and mercy to her on a psychological and spiritual level is one thing; preventing her from facing the legal consequences of her unlawful and illegal behaviours is very much another which means all of the above can be summed up in one paragraph: trauma is complicated as it ignores boundaries in terms of both victims/survivors and perpetrators to picture it as anything other than being complicated especially when there is subtle but noticeable implications and inferences made against a particular victim/survivor based on what they are and not whom they are as an individual is in effect not only ignoring that complexity but introducing unneeded and unwarranted bias be like fred rogers and be unbiased in your compassion and mercy to those in trauma 1
amber heard is an abuser and a liar and it's a shame to make this criminal work she must be in jail !!! #justiceforjohnnydepp

1

@jeffrey montano i believe what he meant was that whoever was the abuser is a criminal amber did it so she is criminal

1

disgusting most domestic abuse goes unreported when the female is the abuser men do not want to be humiliated and all too often they are shamed relentlessly if they speak out amber heard is not a damsel in distress she is a calculating manipulative individual she speaks to empowering women but what she is doing isn't empowering it is criminal everyone who prematurely ostracized johnny depp should be ashamed she is guilty by her own admission anyone reporting abuse should be taken seriously in this time of me too etc i think the emphasis is placed on women and we forget it is all of those who suffer shame on her as well as wb and loreal it is my opinion that their rush to judgement has put them in a precarious situation

1

we don't deserve amber mark she is criminally underfollowed under viewed etc

1

with all my "i'm willing for johnny depp to win hands down amber heard needs to get what she deserves to accuse and lie about abuse is criminal in its self without everyting else that he has had to endure because of it

1

thank so much for doing this it's really important although i was never in an abusive relationship i have friends and family who have been through it and it's a very sensitive topic for me it's one of the reasons i'm angry about amber heard she took advantage of the progress women worked so hard to make happen regarding dv and used it to hide her abusive behavior she knew she'd be the one believed over him she even told him that no one will believe him cause he's a man and i feel for male victims too due to amber and due to a horrible verdict they are once again overlooked i hope someday justice prevails cause all this situation is criminally wrong i'll keep an eye on your project t!!

1

the evidence against amber is massive and her attempt to slander her former husband is an indication that her bi sexual side was triggered and she decided to destroy johnny out of retaliation for rejection or jealousy i hope amber is further exposed as the liar she is and i hope she is criminally prosecuted then she can take responsibility for her lies

1

the judge sounds unfair when it comes to amber sitting in because not only the fairness but also if amber was planning in skimming since 2013 then it is criminal trial

1

amber people are paying attention now have you started squirming yet justice must be served to show the world making up lies to destroy an other human being is criminal and consequences must be passed out

1

as if destroying johnny depp's (jd) life was not enough for amber it seems she has been very involved with evan rachel wood's (erw) recent allegations against marilyn manson (mm) prior to this case i was not aware that jd and mm were very close friends i started to look into evan's accusations because i could not figure out how such a kind and gentle man like jd would make a man who burns cuts and tortures women his beloved daughter's godfather what i have learned in the last two or three days is shocking i now believe there is evidence to prove that evan and amber have been colluding for years to frame both jd and mm evan and mm broke up in 2010 or 2011 after the split evan only had great things to say about mm and credited him with giving her a stable home and room to grow evan and mm kept in close contact with jd the whole time and they were all the best of friends at the beginning of 2016 jd started to confess to his friends that he was having a very hard time with amber but he was afraid to leave her because she was threatening to accuse him of domestic abuse and sexual assaults if he ever left her can you imagine the stress? erw was well aware of the truth that amber was herself the abuser and in essence was planning to extort jd finally jd had enough and left within one week amber went to the courthouse (with a bruise painted on) and had a restraining order put on him what happened 5 weeks later? erw held a press conference and reported she had been beaten stabbed cut and tortured by a domestic partner she did not name at this point she had been split from mm for over 6 years! i now think that erw was blackmailing mm since then with the threat she would name him we now know that all of the women accusing mm have been organized they all came out on feb 1st the exact same day as erw no one gave any dates or places and never really mention crimes other than two who said mm cut them for a blood pact there is also one police record in 2018 but there were no charges because there was no corroboration and the incident happened over 10 years ago i believe all of the charges from the nine women are at least that old because he has been with his current wife for over 10 years mm has been with 3 different wives/partners for a total of 22 years none of them were abused i believe that this whole thing needs to be investigated as a possible extortion case against both amber and evan both men have suffered extreme duress and have had their careers destroyed both women if proven to have set up this criminal extortion need to go to prison they can be a cautionary tale regarding our cancel culture mentality evan named mm as her abuser on feb 1st on feb 2nd he lost his record deal his tv show and his agents at creative artists agency this was obviously all pre arranged with evan and the 9 women this must stop

johny is criminal druggists amber is great

johnny's legal team needs to sue her a** because amber heard didn't defame him she crucified his career and ruined professional and personal relationships he spent years working on what she is done is criminal and purely evil and the punishment shouldn't be light because of her gender she is a liar and an abuser! #justiceforjohnnydepp

what those friends of amber heard's are doing to manson is criminal amber is involved in this up to her scrawny neck the good news is the manson accusers can be charged with extortion falsifying evidence etc ashley morgan's lawsuit has a photo of her injuries included a reverse search discovered it was not even her and she got it from pinterest those women will go down for what they have tried to do

so sorry you aren't feeling well tug hope you get better very soon chicken soup mom's cure all for everything! my my she is digging her own grave isn't she? so much new info has come out this last week about her elaborate plan to completely ruin him from the very beginning of their relationship my jaw dropped! she had an agenda for money & fame then took advantage of his kind heart his money not to mention his attraction to her my jaw dropped when this was revealed in court documents there is another witness to this whole set up scene she staged who came forward after amber dragged her over to brag about it you might've seen the photos she took of a certain table scape she had created to frame him with her & her sister had planned all of this well in advance of the marriage which is criminal on both her and her sister's parts! hope it is the smoking &

un he needs to counter sue her with there is a witness because she couldn't help bragging to someone else about her scheme just to gloat about it makes me feel sick to my stomach that someone would do such a horrible thing to a kind caring compassionate man like johnny she has robbed fans and sick kids of the joy of seeing our beloved captain j ack and it's a reprehensible scam/felony from beginning to end prison is the only remedy to such a despicable crime against another human being or she'll do it again to some one else her facial bruising has been analyzed and is makeup made to look like injuries which were not seen in photos of her right after the photos were taken making her a fraud and a criminal sorry i do go off on tangents but i'm older and i care a great deal about johnny he's related to my family so it's even more personal

this judgment is criminal the judge found any way to discredit the people he wanted to discredit and not applying the same theories to anyone on amber's team therefore maintaining an aura of hypocrisy throughout the entire judgment was he paid off by murdoch or did he fall into the trap of believe all women? both?

how do you ever come back in life after being exposed and inflicted upon by someone like amber heard? i can only sincerely hope pray and wish for johnny depp that he is able to prove beyond any doubt what amber heard is and what she set out to do which is destroy him from the inside out it is criminal but oh so very difficult for anyone to prove what a genuinely horrible position to be in to be at the hands of someone so cruel twisted and mentally ill and have their attention and thereby be inflicted upon all because e you fell in love with someone who turns out to be completely different to what you thought you knew about them thereby the grace of god goes i really hope he can come back from this as the world misses out on the talent and pleasure that johnny depp brought to so many of us and really that fades into insignificance when you think how johnny depp must feel as a result of what he has been through at the hands of someone like amber heard i admit i feel so very very sorry he had to go through thisohhh yayi have been following the daybell vallow case and i'm really looking forward to what you have to say :) as always i really enjoy your content and channel

1
amber heard using every thing every person to destroy johnny depp and get his money is criminal acts on many levels no jury no judge no body will believe amber heard after the truth finally is proven johnny gave amber the world in return she gave him hell on earth why?

1
i'm glad you opened with the kind of statement you made; i mean with all the audio that's been released i've steered more towards being on johnny depp's side but he definitely can't be blame free in this entire situation or at least we can't be sure he wasn't maybe amber was more prone to violence but what if sometimes he initiated it with a slight push and she just escalated it with a punch? it's still aggression on his part in the end we outsiders truly can't know what happened inside that marriage but i am glad however that his situation has raised awareness against the dangers of the metoo movement like everything in life theres two sides to a story not giving the chance to one of those sides to defend themselves is criminal on our part edit: btw i don't think we should be calling for her friends and coworkers to denounce her just yet because all the proof has not been yet seen in court just like we always go up in arms against women they make their denunciations and we expect to have proof before reaching a conclusion the same should be given to them dont be a metoo sheep that's on the other side of the fence

@families supporting trauma recovery having read all of your comments i was going to write my own lengthy one going into detail about the emotional physical psychological spiritual and yes even sexual abuse that my younger severely disabled sister and i experienced at the hands of our own biological parents as even my (female) psychotherapist has said for sometime now although my dad went to prison my mum should have too given what our mum did and especially didn't do to protect us there is a very good reason why social services removed my sister into care and were i young enough i would have been too but instead of a long rambling comment i try and parse it down: i) christian to christian we both know that christ's mission on earth was not just in service to his father but to all of humanity for all time he walked with and ate with those whom were treated as the 'despiscibles' of his day which today would be addicts the homeless and yes street walking prostitutes the reason why the message of the new testament is to be christ like that is we are called to walk the same path: of compassion understanding lovingkindness and magnanimity but greater than all of that is what god through christ has granted us: grace and mercy if you are mission is truly that of supporting trauma recovery you will know that trauma has no boundaries: it crosses sex gender age romantic and sexual attraction race ethnicity religion and so on the list is endless in order to help heal those with trauma you have to look past whatever descriptor or adjective that they may have and instead see the person in pain and grief; that is the christ like way a great example and a person whom i believe had the soul of an archangel was mr fred rogers we christians are all repentant sinners but mr rogers had the least to repent for his lovingkindness showed that whilst we may fail at being christ like we can still be a heartfelt in our kindness acceptance compassion and yes again grace and mercy from the beatitudes mr rogers and his wife will be the meek that shall inherit the earth ii) if you are engaged in trauma recovery for any lengthy period of time you will come up against addiction addiction is a disease of the mind body and soul as a great friend and mentor once said to me in his experience as both a recovering alcoholic and addiction counsellor addictions can be summed up as simply thus: pain control the recovering adds i have know have struggled often seriously against deep innermost pain either physical mental psychological or spiritual it is why addictions must be treated as a disease especially when medical research has long showed that addiction does create physical dependencies again this is where grace and mercy comes back in addictions are not a 'moral failing'; instead it is a soul trying to cope with pain that is beyond what they can endure going down the wrong path in trying to deal with that pain and often grief which leads to this you have to separate narcissists from narcissistic like behaviours narcissists are narcissistic whether they are sober or not addicts only behave in a narcissistic like way only because their addiction becomes all consuming you'll find that once the underlying pain that led to the addiction is treated that narcissistic like behaviours is treated also which is also important to note: narcissists especially as defined in the dsm v and especially malignant narcissism are next to impossible to treat either through psychology or psychiatry but and again to emphasise the point narcissistic like behaviours which are comorbid with addiction behaviours are treatable if yet again one treats the underlying issues which led to the addiction when christ himself healed someone he wasn't healing say 'just' their blindness but the pain in their heart and soul that in certain instances was caused by being blind it must go without saying that there are many a blind person that are able to lead fulfilling and productive lives and relationships but we be fooling ourselves if we pretend that blind/severely visually impaired people don't commit suicide but i digress my emphasis is simply this: treat the trauma and the person with that trauma with humanity and dignity i am not entirely sure what your actual message regarding johnny depp is as you are sending out very mixed messages but even if he was a drunk and a alcoholic as my friend may well have said what you see in a person and their behaviours when intoxicated is whom they are sober there is little to no evidence that shows that johnny depp was dangerous and extremely violent when intoxicated in fact the opposite seems to be true: he was as george w bush described himself when he battled alcoholism 'a happy drunk' in one famous episode the future president whilst drunk actually helped refuse collectors empty the bins near his fraternity house and rode on the back of the dumpster as he thought it was hilarious that was/is the kind of alcoholic johnny depp is in fact i am sure johnny depp either has or will seek help with his addictions if not for his sake then as he expressed a deep love for his kids then for them which if true means once again he must be treated with grace and mercy iii) what i find troubling is while your name states 'supporting trauma recovery' there seems to be a confusion between whom is the instigator of the trauma and whom is the traumatized as mentioned in i) trauma knows no boundaries it doesn't care about the individual as with my chronic clinical depression it doesn't care who i am it just happens yet in all your comments there is a subtle but deep implication and inference that your belief is that amber heard is the victim in all of this despite the slowly mounting evidence that proves she is abusive and if johnny depp is still considered the perpetrator due to all the reasons you have taken great pains to detail then there is the issue of the evidence that i think there is in a sworn affidavit (and thus under the risk of perjury if proven false) by a female former partner of hers that describes the abusive behaviour that she experienced at the hands of amber heard which is in of itself tragic but not unheard of one of the hardest things for a lesbian to come out and say is the experience of being abused within the setting of a domestic and romantic and/or sexual relationship domestic violence within lesbian relationships is a oft unvoiced tragedy that if statistical studies by say the american cdc is correct is more prevalent than dared be actually mentioned if not addressed the reason why i placed such significance on that issue is that if women can be violent towards a female romantic and/or sexual partner then it is wholly conceivable that women can be violent towards a male romantic and/or sexual partner which again at the risk of being circular goes back to the idea that trauma knows no boundaries neither in the case of the abuser but also in the case of the abuser if two individuals of opposite sex to each other that had been in a intimate relationship with her have both stated that she is abusive within an intimate partner relationship then that creates a pattern of behaviours that points out how she behaves towards someone she is in that kind of relationship with whether it is same sex or opposite but that should not hopefully be used to shame her per say in trauma therapy there is a saying that not all those whom have been abused go on to abuse; but all too often those whom have been abused go on to abuse in her case if she is acting out her trauma in wholly inappropriate behaviours then she owes it to herself and future intimate partners and children to 'own her own trauma' and seek therapeutic treatment that will enable her to process her trauma in a healthy non aggressive manner in other words she should also be shown grace and mercy but given her unlawful and illegal behaviours which is criminal that means she should still face the judicial consequences of her actions including the appropriate custodial sentence according to if found guilty of said offences showing grace and mercy to her on a psychological and spiritual level is one thing; preventing her from facing the legal consequences of her unlawful and illegal behaviours is very much another which means all of the above can be summed up in one paragraph: trauma is complicated as it ignores boundaries in terms of both victims/survivors and perpetrators to picture it as anything other than being complicated especially when there is subtle but noticeable implications and inferences made against a particular victim/survivor based on what they are and not whom they are as an individual is in effect not only ignoring that complexity but introducing unneeded and unwarranted bias be like fred rogers and be unbiased in your compassion and mercy to those in trauma

amber heard is an abuser and a liar and it's a shame to make this criminal work she must be in jail !!! #justiceforjohnnydepp

1

@jeffrey montano i believe what he meant was that whoever was the abuser is a criminal amber did it so she is criminal

1

disgusting most domestic abuse goes unreported when the female is the abuser men do not want to be humiliated and all too often they are shamed relentlessly if they speak out amber heard is not a damsel in distress she is a calculating manipulative individual she speaks to empowering women but what she is doing isn't empowering it is criminal everyone who prematurely ostracized johnny depp should be ashamed she is guilty by her own admission anyone reporting abuse should be taken seriously in this time of me too etc i think the emphasis is placed on women and we forget it is all of those who suffer shame on her as well as wb and loreal it is my opinion that their rush to judgement has put them in a precarious situation

1

we don't deserve amber mark she is criminally underfollowed under viewed etc

1

with all my ❤ i'm willing for johnny depp to win hands down amber heard needs to get what she deserves to accuse and lie about abuse is criminal in its self without every hing else that he has had to endure because of it

1

thank so much for doing this it's really important although i was never in an abusive relationship i have friends and family who have been through it and it's a very sensitive topic for me it's one of the reasons i'm angry about amber heard she took advantage of the progress women worked so hard to make happen regarding dv and used it to hide her abusive behavior she knew she'd be the one believed over him she even told him that no one will believe him cause he's a man and i feel for male victims too due to amber and due to a horrible verdict they are once again overlooked i hope someday justice prevails cause all this situation is criminally wrong i'll keep an eye on your project t!!

1

the evidence against amber is massive and her attempt to slander her former husband is an indication that her bi sexual side was triggered and she decided to destroy johnny out of retaliation for rejection or jealousy i hope amber is further exposed as the liar she is and i hope she is criminally prosecuted then she can take responsibility for her lies

1

the judge sounds unfair when it comes to amber sitting in because not only the fairness but also if amber was planning in skimming since 2013 then it is criminal trial

as if destroying johnny depp's (jd) life was not enough for amber it seems she has been very involved with evan rachel wood's (erw) recent allegations against marilyn manson (mm) prior to this case i was not aware that jd and mm were very close friends i started to look into evan's accusations because i could not figure out how such a kind and g

gentle man like jd would make a man who burns cuts and tortures women his beloved daughter's godfather what i have learned in the last two or three days is shocking i now believe there is evidence to prove that evan and amber have been colluding for years to frame both jd and mm evan and mm broke up in 2010 or 2011 after the split evan only had great things to say about mm and credited him with giving her a stable home and room to grow evan and mm kept in close contact with jd the whole time and they were all the best of friends at the beginning of 2016 jd started to confess to his friends that he was having a very hard time with amber but he was afraid to leave her because she was threatening to accuse him of domestic abuse and sexual assaults if he ever left her can you imagine the stress? ew was well aware of the truth that amber was herself the abuser and in essence was planning to extort jd finally jd had enough and left within one week amber went to the courthouse (with a bruise painted on) and had a restraining order put on him what happened 5 weeks later? ew held a press conference and reported she had been beaten stabbed cut and tortured by a domestic partner she did not name at this point she had been split from mm for over 6 years! i now think that ew was blackmailing mm since then with the threat she would name him we now know that all of the women accusing mm have been organized they all came out on feb 1st the exact same day as ew no one gave any dates or places and never really mention crimes other than two who said mm cut them for a blood pact there is also one police record in 2018 but there were no charges because there was no corroboration and the incident happened over 10 years ago i believe all of the charges from the nine women are at least that old because he has been with his current wife for over 10 years mm has been with 3 different wives/partners for a total of 22 years none of them were abused i believe that this whole thing needs to be investigated as a possible extortion case against both amber and evan both men have suffered extreme duress and have had their careers destroyed both women if proven to have set up this criminal extortion need to go to prison they can be a cautionary tale regarding our cancel culture mentality evan named mm as her abuser on feb 1st on feb 2nd he lost his record deal his tv show and his agents at creative artists agency this was obviously all pre arranged with evan and the 9 women this must stop

johnny depp stood no chance in the uk defamation trial against the sun from the beginning justice nicol was a lawyer championing for freedom of press for the times which is owned by murdoch who employees his son the judge's son works with defendant dan wootton this combined with other connections between the judge and amber heard set johnny depp up to fail from the beginning that's why

9

aquaman 2 and *fantastic beasts* are both going to fail miserably at the box office due to amber heard it's not even going to be funny warner brothers and dcu definitely backed the wrong horse and their gamble on taking amber heard's side instead of johnny depp is going to be a great disappointments and financial disasters plus let's not forget *disney* who will also have to pay the piper for firing johnny depp from pirates of the caribbean due to treating jd as a guilty afterthought like if he was guilty before the usa trial had already started even the female fans of jason momoa will not likely be running to the theaters due to their dislike/hate of amber heard and the lies she told to try and destroy johnny depp who even at 54 still has many female fans and are all disgusted with amber heard's actions/lies which doesn't help true victims of abuse in making it more and more difficult to be believed for one will hear out a man/woman's plea that he/she was physically and verbally abused but will not condemn someone just on her or his words the accused has the same rights to be heard and deserves the same due process as the victims i've seen/witnessed too many false allegations/false accusations by scorned women who created this situation out of spite/revenge which was eventually proven that all her accusations and false narratives were lies but it was too little too late the damages to the male's reputation integrity credibility was destroyed even though he was proven to be true and right in his truth many lost their jobs/careers and even joint custody of their children from a previous marriage due to the possibility that what the accuser said was true which of course was in the end proven to be an absolute falsehood from the fake victim yet the damages were done and hard to almost impossible to recover from what do you guys/gals think?

8

@christina taft the 12/14 incidents were not 'proven' in the judgement there was no reasoning applied it was pure bias which is why johnny depp's team has applied for a whole new trial with a different judge\n the 380k dislikes to this video is from people who know the trial was a sham they know amber is the abuser and johnny is the victim

amber heard in aquaman rumours of amber heard being fired from the aquaman franchise have emerged again but they are reportedly not true several reports of amber heard being fired from aquaman 2 have emerged online leading the actress to trend on social media the reports have been debunked by the hollywood reporter staff writer ryan parker who took to social media to state he's been told by a reliable source that the reports of heard's alleged firing are inaccurate following the emergence of the reports on sunday parker tweeted told by a reliable source that reports of amber heard being fired off aquaman 2' are inaccurate told by a reliable source that reports of amber heard being fired off 'aquaman 2' are inaccurate' ryan parker (@theryanparker) february 28 2021 amber heard strongly reacts to 'paid campaign' for her removal from aquaman 2 johnny depp was sued in defamation trial against amber heard postponed as it clashes with 'fantastic beasts 3' shoot this is not the first time rumours of the actress being fired have spread seemingly stemming from her public legal battle with ex husband johnny depp both depp and heard have contested the other was physically and verbally abusive during their relationship depp has already been fired from warner bros' fantastic beasts franchise which also caused some to wonder why heard wasn't receiving the same fate reported heard plays xebelian princess mera in the dcu ever since her first appearance in 2017's justice league she went on to have a prominent role in 2018's aquaman and will reprise the part next month for zack snyder's justice league

people wake up ~ she lies! type in audio tapes amber heard johnny depp she is not a victim and is a disgrace to true dv victims #amberheardistherealabuser 2hours in her own (not acted) voice admitting that she is hit johnny throws pots and pans at him that she can't control her anger! her main complaint is that johnny leaves splits when she starts a fight and she gets physical she mocks him for doing the right thing and leaving when she gets physical uk trials reveal she coerced staff to lie about her lies ~ people the truth will all come out may 2021 ~ karmas just getting started

she tries so hard to turn the tables around that we are bots she said so herself when she is the one who is really buying bots but she is the one closing her instagram comment section check out her videos that she secretly records and the therapy session they both record that she leaked you will never find johnny hitting her she tries so hard to exploit him and tries too hard to get some evidence out of him to nothing she has records of domestic abuse before while johnny's exes all are on his side just research it yourself also she cuts his finger then do some secret recordings again from the conversation of the doctor nurse body guard of johnny it's hilarious it backfired on her yep she recorded it she is evil \r brian daily mail etc check those people out as well there are so many covering it give it a try \r leaked audio clips is also just this 2020 \r it's also funny how amber's friend tries to say that the audio clips are edited but they show more edited clips that you could imagine for 1 min 2 mins again trying to twist the story lol they are so dumb cause those people who has been on this case has been researching this have already heard the whole leaked tapes (forgot how many hrs or long that audio clips was) of the whole convo of course not everyone would try to want to listen for 5 hrs that's why we could hear the audio for 20 mins 1 hr etc with subtitle but i've heard a lot did who is into this case ever since just check it out yourself\r \r \r she cheats with johnny tries to get money gold digger also with elon musk media hollywood is supporting her but it's the social media age now and no one is dumb enough to believe them nowadays when u know the facts and truth is out there they even try to threaten some of these ordinary people who went out to research the case cause their case is out in the open to be read she can eat inside while a trial is being held check that out as well it's obvious she has some big ceo is behind her that's why she has that kind of gut to eat disrespectfully at a court trial omg there is just sooooooo many lawyers etc are studying her case she fails judge is being paid obviously also check out umbrella guy\r \r \r \r check this out and spread it https://www.youtube.com/watch?v=vd9nvqmixtq that's where when the doctors are talking and the btch recorded them secretly\r \r house keeper took a photo of how gross amber is she pooped on his bed\r https://www.youtube.com/watch?v=ssio1kbpbzal\r she eats disrespectfully at court while buying sometime from her lies its fking cringe\r https://www.youtube.com/watch?v=qd5eoikkhxm\r she is evil i know there are a lot more but you can do your research if you like\r \r \r \r oh yeah many evidence of her faking her black eye lolits all over youtube there are many people covering the news as well

5

even funnier she said i'd rather not be in courtwell thing is amber and her team have requested to the judge for her to be allowed in court every single day of this trial and it is jd's team who fought back saying it shouldn't happen unfortunately the judge sided with her on this argument but it shows again how she is such a pathetic liar in the end i'm glad it went the way it did because she just keeps shooting herself in the foot

5

amber you are fake and a liar!! watch her lie at 4:38 https://www.youtube.com/watch?v=bhb501ukpq8 2017 amber heard proclaims to every news outlet in the world: 7 million dollars in total was donated to aclu and chla 2018: johnny depp paid final portion of 7 million settlement 2018: amber wrote the op ed in december 2019: chla mailed her a letter and asked when they would be getting the 35 million dollar donation crickets 2019: depp sued amber heard for defamation in march 2020: amber heard's attorney elaine bredehof states in legal filing that amber meant she would eventually over her lifetime donate 7 million she claims amber used the money for legal fees how did she know a year before being sued that she would be sued?! amber heard lied! she also lied on the stand in the uk trial therefore committing perjury and should be charged and jailed

5

the evidence is out there free too look https://www.nickwallis.com/depp trial here \r \r are the transcripts statements and evidence the audio is here \r \r https://www.courttv.com/news/amber heard witness statements depp blamed the monster for physical verbal abuse/ she is the abuser

4

amber heard won in the uk trial that she was abused 12 times thought atheists could use reality/science? looks like you are not atheist and likely an incited follower or a bot! she also does great activism and it's hard to stay atheist in the usa try using science and the brain before religious accusations

amber heard won in the uk trial that she was abused 12 times thought atheists could use reality/science? looks like you are not atheist and likely an incited follower or a bot! she also does great activism and it's hard to stay atheist in the usa try using science and the brain before religious accusations interesting that all of these comments are in the same time period why don't you say operation (and we don't have to prove evolution before darwin to see it happening oh wait we did')

@worldie social media for good the 12/14 incidents were not 'proven' in the judgement there was no reasoning applied it was pure bias which is why johnny depp's team has applied for a whole new trial with a different judge & the 380k dislikes to this video is from people who know the trial was a sham they know amber is the abuser and johnny the victim

june 1 2020: another fearful witness for amber heard about testifying or speaking publicly m@lanie inglessis who saw the abuse aftermath news group [for the uk trial] is trying to compel the [live feed video] testimony of makeup artist m@lanie inglessis who in a 2019 declaration said she witnessed heard's bruised face and cut lip and helped to hide the injuries for an appearance on the late show with jame corden she recalls amber repeatedly told me that she did not want to expose this part of her life to the public and that she was considering canceling the appearance altogether inglessis said she and heard became close friends after she began working with her in 2015 and that she remembers numerous times heard told her she had been abused on may 16 inglessis filed a motion in california federal court asking magistrate judge patrick j walsh to quash his order compelling her give live testimony via a video feed she also informed the court that she is received death threats and faced online harassment despite not making any public comments on the matter 2019 declaration from m@lanie inglessis: <https://wwwscribd.com/document/464139908/inglessis-declaration> <https://wwwhollywoodreporter.com/the-sq/amber-heards-makeup-artist-fighting-live-testimony-johnny-depps-uk-libel-trial-1296661>

this is why you should believe amber washington post opinions amber heard: i spoke up against sexual violence " and faced our culture's wrath that has to change by amber heard dec 18 2018 at 3:58 pm mst amber heard is an actress and ambassador on women's rights at the american civil liberties union i was exposed to abuse at a very young age i knew certain things early on without ever having to be told i knew that men have the power " physically socially and financially " and that a lot of institutions support that arrangement i knew this long before i had the words to articulate it and i bet you learned it young too like many women i had been harassed and sexually assaulted by the time i was of college age but i kept quiet " i did not expect filing complaints to bring justice and i didn't see myself as a victim then two years ago i became a public figure representing domestic abuse and i felt the full force of our culture's wrath for women who speak out friends and advisers told me i would never again work as an actress " th at i would be blacklisted a movie i was attached to recast my role i had just shot a two year campaign as the face of a global fashion brand and the company dropped me questions arose as to whether i would be able to keep my role in the movies justice league and aquaman i had the rare vantage point of seeing in real time how institutions protect men accused of abuse imagine a powerful man as a ship like the titanic that ship is a huge enterprise when it strikes an iceberg there are a lot of people on board desperate to patch up holes " not because they believe in or even care about the ship but because their own fates depend on the enterprise in recent years the #metoo movement has taught us about how power like this works not just in hollywood but in all kinds of institutions " workplaces places of worship or simply in particular communities in every walk of life women are confronting these men who are buoyed by social economic and cultural power and these institutions are beginning to change we are in a transformative political moment the president of our country has been accused by more than a dozen women of sexual misconduct including assault and harassment outrage over his statements and behavior has energized a female led opposition #metoo started a conversation about just how profoundly sexual violence affects women in every area of our lives and last month more women were elected to congress than ever in our history with a mandate to take women's issues seriously women's rage and determination to end sexual violence are turning into a political force we have an opening now to bolster and build institutions protective of women for starters congress can reauthorize and strengthen the violence against women act first passed in 1994 the act is one of the most effective pieces of legislation enacted to fight domestic violence and sexual assault it creates support systems for people who report abuse and provides funding for rape crisis centers legal assistance programs and other critical services it improves responses by law enforcement and it prohibits discrimination against lgbtq survivors funding for the act expired in september and has only been temporarily extended we should continue to fight sexual assault on college campuses while simultaneously insisting on fair processes for adjudicating complaints last month education secretary betsy devos proposed changes to title ix rules governing the treatment of sexual harassment and assault in schools while some changes would make the process for handling complaints more fair others would weaken protections for sexual assault survivors for example the new rules would require schools to investigate only the most extreme complaints and then only when they are made to designated officials women on campuses already have trouble coming forward about sexual violence " why would we allow institutions to scale back supports? i write this as a woman who had to change my phone number weekly because i was getting death threats for months i rarely left my apartment and when i did i was pursued by camera drones and photographers on foot on motorcycles and in cars tabloid outlets that posted pictures of me spun them in a negative light i felt as though i was on trial in the court of public opinion " and my life and livelihood depended on myriad judgments far beyond my control i want to ensure that women who come forward to talk about violence receive more support we are electing representatives who know how deeply we care about these issues we can work together to demand changes to laws and rules and social norms " and to right the imbalances that have shaped our lives statement against interest from wikipedia the free encyclopedia in united states law a statement against interest is a statement made by a person which places them in a less advantageous position than if they had not made the statement and is as a consequence deemed credible as evidence (usually within a legal trial) for example if a driver in an automobile accident boasts publicly that they were speeding it may represent a legal admission of liability it is analogous to the criminal equivalent the statement against penal interest which is a statement that puts the person making the statement at risk of prosecution statements against interest by parties not present at a trial may be admitted as evidence where in other circumstances they would be excluded as hearsay under the federal rules of evidence rule 804(b)(3) provides: a statement that: (a) a reasonable person in the declarant's position would have made only if the person believed it to be true because when made it was so contrary to the declarant's proprietary or pecuniary interest or had so great a tendency to invalidate the declarant's claim against someone else or to expose the declarant to civil or criminal liability; and (b) is supported by corroborating circumstances that clearly indicate its trustworthiness if it is offered in a criminal case as one that tends to expose the declarant to criminal liability see fed r evid 804(b)(3) the rule was last amended on december 1 2010 see legislative history (with links to key documents) see also [edit] criterion of embarrassment

@been there nichol has ruled against rupert murdoch in the past nichol's son worked for dan wootton (back to murdoch) & could have been fired & possibly blackballed out of the industry most parents want to protect their children i'd say that's a strong motivation for nichol to rule in favor of ngn forget amber heard she has no power except what other's give her forget nichol people though he sounded sick of ah during her testimony he was frustrated because she & her friends made him look more of a idiot josh drew is outstanding witness nichol i saw when nichol was ruling what evidence to toss & keep that musk was unimportant as a witness being there the night before court 2016 (magic bruises) where the trial was going & why! rupert murdoch's son works formusk power trickles down top follow the rabbit hole & history & it's blatantly obvious murdoch has hated jd for years probably because his multi billion's & power can't buy him youth (he's 81 & looks 100) fame followers crazy fans etc disney fox my times dow jones ngn this trial the hacking of jd's phone buying off/blackmailing the judgesuper small potatoes for murdoch he's been doing all that for decades hacking the royals celebrities the victims of the london bombings & buying off police public officials david cameron levenson inquiry it's public knowledge to think he would get a fair trial in the uk with the history there? jd himself alluded to the rabbit hole of unbelievable extent msm is attempting to blackball him out of the industry right now

3

considering this new information imagine if amber turd told the court and jury that she never violated the gag order that prevented her from discussing the alleged dv at the hands of johnny (which he is innocent of) with the press wouldn't it be ironic if for the first time in amber turds life she was telling the truth when she said that the op piece that was written alleging dv was not actually being written about johnny himself but was in fact written about the the rocket man imagine if miss turd told that story and stuck with it now that would be twist ending worthy of any great movie this would be an ending no one would see coming and completely destroy johnny's libel case damn i really can't wait for this trial to begin

3

note to judge handling amber turd trial a man can still be very dangerous while deeply passed out projectile vomiting can hurt if hit by it

karma she is a bitch! and so is amber!!! amber is finding out that when you treat everyone especially those with less than you with kindness and respect they are more than happy to return that kindness and help you in whatever way they can but when you treat people badly (or horribly in amber's case) when you make everyone feel like they are beneath you you will get nothing from them especially not help johnny has spent his life being kind and loving to everyone no matter how small or seemingly insignificant they may have seemed and now all these people are willing to go out of their way to help him in his time of need willing to testify on his behalf to spending their time finding evidence to prove his innocence even making videos on youtube and spreading the truth to the masses because he didn't deserve for this to happen to him and we are all outraged at the double standard for male victims in the media and the justice system she should have criminal charges laid against her not just a defamation case not only has she admitted to abusing him but she told malicious lies intended to hurt and ruin him! that's illegal! because she has treated so many people badly no one is willing to help her by corroborating any part of her story quite the opposite people who worked for her like her personal assistant and makeup artist are going to be testifying on johnny's behalf in the trial the people who worked in their building who she treated badly have refuted her lies and done all they can for johnny by going through and handling over many hours of damning security footage and are also willing to testify in court on his behalf her own family seemingly haven't completely taken her side in text messages between johnny and her parents they seem to want them to get back together and blame the abuse allegations completely on her lawyers never once seeming to believe he had ever hurt her he can't testify on her behalf because on cross examination by his lawyers she will have to admit that amber has also been violent and abused her too with would only make amber look even more unstable and she can't afford that amber's lying lawyers keep saying that johnny is still trying to abuse and torment her by these lawsuits and calling her a liar that the only reason he is suing her is to continue to make her life hellnot because she abused him mentally and physically filed for divorce the week his mother died and she found out he lost a bunch of money (coincidence?) tried to blackmail him for money and 3 apartments for her and two friends threatening to say he abused her! he told his friends she promised to ruin him if she didn't get something like \$50000 a month plus the apartments and a bunch of other stuff (coincidentally the apartments were for the only two friends who were willing to give written depositions saying they had seen her with bruising though they won't be giving testimony at the trial now because the public and johnny's team were easily able to find proof they were lying one swore up and down he was with amber after she had been given two black eyes when johnny tried to break her nose and got in fights with people on twitter and instagram if they didn't believe him and support amber but then proof was found that he was working on the other side of the country on the days he said he was with amber! though he has never admitted to lying he hasn't been talking about amber's abuse anymore) she also did everything she could to ruin his career and beloved reputation throughout hollywood but her lawyers insist he is only doing this to be vindictive and to make her continue to live in fear like she did through their whole marriage would a person who lives in fear of their abusive spouse yell at him degrade him (in front of people) and attack him on a regular basis? and what woman who is afraid of their husband would brazenly bring men home to an apartment building full of people and cameras knowing at any time someone could see she was having affairs and decide to tell johnny no! abuse victims do not behave in this way her lawyers are actually the ones behaving like bullies every chance they get they say horrible things about johnny to the press things they must know are not true they've seen all the evidence so they know who the real abuser is but that didn't stop them from calling him a lying coward the other day when he couldn't come to court because he was in self quarantine after being exposed so who are the real villains in this story? and why can't the media admit they made a mistake believing amber instead of constantly calling for johnny and amber to drop the lawsuits and handle it in private? they haven't once apologized to him for jumping to conclusions without all the facts and no one in hollywood is treating amber the way they would a white male who abused his wife we must hold them accountable for this epic double standard!

2

it doesn't matter if johnny loses both trials as amber is still doing what she is always done to johnny and that's abuses him and belittle him and she is unredeemable at this point in the public eye and no technical decision from the courts will alter the truth about what she did (and is still doing) the public are the ones that pay her wages for films that there not going to go to see her in and she will fade into nothing at steven kings the stand nothing! no one cares they are just pissed that ah was in itada m can still participate in the trial behind the scenes (advising) and i'm sure that's what's going to happen as adams not dumb and would have had a backup plan when she was subpoenaed everyone on twitter

this could happen to anyone the justice doesn't exist in uk how could johnny deep can have a justice if the judge did not read the case and he did not accept the testimonial recorders and witness why????? please read the following explanation all is related that is why he could not have a normal process the laws did not have any mind for the judge the judge is not respectable to be working as judge; he doesn't respect the law and his duties to his country are not honored this is pity; someone have to do something to stop this woman power over law court judgment. see all relationship with amber heard & andrew nichol wrote a book with geoffrey robertson and was emmained by his firm drush

you can see a pattern here with amber every time she is accused of something she turns it back on the accuser by saying i didn't do that he/she did that to me! that's what s he did in the trial and now with this artist i'm sure she has done this all of her life

2

2017 amber heard proclaims to every news outlet in the world: 7 million dollars in total was donated to aclu and chla 2018: johnny deep paid final portion of 7 million settlement 2018: amber wrote the op ed in december 2019: chla mailed her a letter and asked when they would be getting the 35 million dollar donation crickets 2019: sued amber heard for defamation in march 2020: amber heard's attorney elaine bredehoff states in legal filing that amber meant she would eventually over her lifetime donate 7 million she claims amber used the money for legal fees how did she know a year before being sued that she would be sued? amber heard lied! she also lied on the stand in the uk trial therefore committing perjury and should be charged and jailed

amazing to support amber heard!! please tell organizations (i contacted ditch the label again to stop the abuse against her) and post her evidence online such as on medium creating petitions to support on change org creating videos etc thanks for supporting amber heard dtl: yes you are absolutely right in that the abuse needs to be stopped it is of such a high volume which must be so tough to deal for ms heard to deal with i am hoping that we hear back on the progress of our reports soon i will contact you when we know more if you have any questions in the meantime please do not hesitate to contact us via email i really hope one of these reports will actually do something to remove the cyberabuse i reported a hate group on reddit which was removed earlier and 4 comments sections on petitions were closed i'm worried about her 2nd in person trial which is 20 miles from washington dc and we see that they refuse to stop hate online or toxicity which causes violence like we saw in dc this month the uk is safer than the usa

have you seen this? it's all of the proven connections that have been uncovered so far between the uk judge and amber heard and her team the judge never disclosed any of this this should be a mistrial please feel free to share! <https://youtube/tw6t7byzm8>

@eye reign (from page six the new york post) johnny deep threatens to burn' n drown' ex wife amber heard by emily smith february 26 2020 | 12:13pm raging johnny deep texts that he would burnand drownex wife amber heard then f" her burnt corpesduring their volatile relationship a court has heard previously unseen 2013 messages alleged to have been sent by the pirates of the caribbeanstar 56 to actor friend paul bettany were read out in london's high court on wednesday deep who attended the hearing was in the room as his texts to bettany were read aloud he allegedly wrote on nov 6 2013 let's burn amberheard the court heard the court was told he allegedly texted bettany again that day to say let's drown her before we burn her!!! i will f" her burnt corpse afterwards to make sure she is dead the court also heard further texts allegedly sent by deep to bettany in may 2014 which read: i" gonna properly stop the booze thing darling! drank all night before i picked amber up to fly to la this past sunday; ugly mate no food for days; powders; half a bottle of whiskey a thousand red bull and vodkas 2 bottles of champs on plane and what do you get??? an angry aggro injun in a f"kin' blackout screaming obscenities and insulting any f" who got near! i"m done i am admittedly too f"ked in the head to spray my rage at the one i love! for little reason as well i"m too old to be that guy but pills are fine!!! deep is in court in london for a preliminary hearing in his libel suit against british newspaper the sun over an article that alleged deep had been abusive to heard 33 his lawyer david sherborne said the case would feature diametrically opposed versions of events from deep and heard one person one side is lying and one is notsherborne said obviously we say that it is ms heard (who is lying) mr deep is 100% clear about that sherborne claimed that heard was not a victim but the aggressor in the couple's relationship which ended in may 2016 deep and heard divorced in 2017 deep's lawyer adam Waldman said what does the sun do to keep amber heard's hoax alive? [wednesday] in court we learned the answer " cherry picking a fragment of a single frustrated text message to a friend sent out of 500 gigabytes of text and email messages provided inconveniently for the sun here is what mr deep actually said next in his text " that he could never harm amber: i am admittedly too f"ked in the head to spray my rage at the one i love' the full hearing is due to start on march 23 deep is also suing heard for libel in the united states adam wolanski qc representing the sun told the london court the may 2014 text to bettany appeared to refer to an alleged altercation with heard on a plane wolanski said deep is accused of screaming obscenities the flight as he slapped heard in the face kicked her in the back and threw a boot at her before allegedly passing outin the plane toilet deep denies he was drunk and abusive during the flight the texts were revealed in court after previous lawyers for deep had accidentally shared 70000 messages from and to the actor with the newspaper's legal team these texts go to the very heart of the case they are really very important and set out the claimant's thinking in respect of a number of different incidents and his recollection wolanski said page six has learned these texts have not been shared with heard's legal team in the us during the discovery process for their upcoming defamation trial deep is suing heard for \$50 million in northern virginia claiming he was defamed in an op ed she wrote in the washington post in which she called for better support for domestic violence victims like herself but without naming deep in the piece in the us libel proceedings heard has previously alleged violentdepp became the monster drugs and booze beat strangled and tormented her she stated deep repeatedly hit her ripped out her hair choked and nearly suffocated her in a virginia court filing in response to his \$50 million defamation lawsuit against her she strongly denies her claims arguing she was the aggressor in the us court filings heard stated that she began dating deep in early 2012 and about a year into our relationship i began to witness johnny abusing drugs and alcohol ; whenever he was using i worried for both of us he would become a totally different person often delusional and violent we called that version of johnny the monster' johnny often would not remember his delusional and violent conduct after he came out of his drunk or medicated states ; because i loved johnny i had believed his multiple promises that he could and would get better i was wrong on a private jet from boston to los angeles in may 2014 heard's filing of deep states: on the flight johnny ordered the flight attendants to give him an oxygen tank and drank heavily johnny's handlers told me that he was upset that i was filming a movie with a romantic scene with james franco the day before at some point i stood up and johnny kicked me in the back causing me to fall over johnny threw his boot at me while i was on the ground johnny continued to scream obscenities until he went into the plane bathroom and passed out locked in the bathroom for the remainder of the flight deep allegedly apologized in a later text message writing once again i find myself in a place of shame and regret of course i am sorry i really don't know why or what happened but i will never do it again heard alleged in court filings that just a month into their marriage in march 2015 deep" who was supposed to be clean at the time but didn't believe taking ecstasy broke his sobriety" went on three day bender on mdma/ecstasy in australia johnny told me that i had not explicitly forbidden him from taking ecstasy the argument heated up and johnny pushed me slapped me and shoved me to the ground before i retreated to a locked bedroom the next morning i went downstairs to find that johnny was still awake and that he had stayed up all night having taken about eight mdma pills he was also drinking again we got into a fight that johnny made physical and i barricaded myself in one of the rooms that didn't stop johnny from busting through the door of the room i was in by nightfall johnny had hit me multiple times shoved and pushed me to the ground choked me and spit in my face that night johnny shoved me into a ping pong table that collapsed underneath me johnny threw bottles through the window panels of a glass door breaking two panes and leaving glass everywhere johnny then grabbed me gripping my body and nightgown he tore the nightgown off and at some point i was naked and barefoot covered in alcohol and glass f"amber heardgetty images she continued in one of the most horrific and scarriest moments of this three day ordeal johnny grabbed me by the neck and collarbone and slammed me against the countertop i struggled to stand up as he strangled me but my arms and feet kept slipping and sliding on to the spilled alcohol and were dragged against the broken glass on the countertop and floor which repeatedly slashed my feet and arms heard states that the actor was hospitalized and she was left with a busted lip a swollen nose and cuts all over my body ; to this day i still have scars on my arms and feet from this incident however us lawyers for deep have stated mr deep never abused ms heard her allegations against him were false when they were made in 2016 they were part of an elaborate hoax to generate positive publicity for ms heard and advance her career a series of recordings of heard in 2015 allegedly admitting to hittingdepp were recently been released to media outlets in the audio the aquamanactress is heard saying i'm sorry that i didn't uh hit you across the face in a proper slap but i was hitting you it was not punching you babe you are not punched ! i don't know what the motion of my actual hand was but you are fine i did not hurt you i did not punch you i was hitting you i can't promise you i won't get physical again god i f"king sometimes get so mad i lose it deep is heard saying i left last night honestly i swear to you because i just couldn't take the idea of more physicality more physical abuse on each other ; because had we continued it would have gotten f"king bad and baby i told you this once i'm scared to death we are a f"king crime scene right now he later states if things get physical we have to separate we have to be apart from one another whether it's for f"king an hour or 10 hours or f"king a day we must there can be no physical violence towards each other all i'm saying is we need to take whatever time we need you need i need to kind of let things settle for a minute so that we don't f"king kill each other or f"king worse you know f"king really kill each other or f"king break up or whatever they reconcile in the recordings and you to work on their marriage but soon after heard filed for divorce after 15 months of marriage the estranged couple eventually agreed to a \$7 million divorce settlement in august 2016 reps for deep didn't immediately get back to us filed under amber heard celebrity lawsuits courts johnny dep p 2/26/2020 @ nyp holdings inc all rights reserved

if you are at all interested in this case or wondering what actually went on between them here is an audiotape of amber & johnny which came out in the court case they were making these tapes to share with their marriage counselor to show them working on the relationship (link 1 below) there is also a link to the connections between the judge in the uk trial and amber heard and her team (link 2 below) <https://youtube/aca0kwhtqq> https://youtube/_lhfe0amzpi

not only did the judge cherry pick the evidence the judge also allowed amber heard to bring in (out of context and cherry picked) confidential information from the va trial (and ordered deep not to sanction her in va) but deep could not bring any of the confidential marked evidence that would benefit or impeach her!

2

how did the suns newspaper trial end before amber heard's trial shouldn't they have known if he was an abuser or wasn't but for the court rules that the media defamed him

1

@amberam technically she didn't win in the uk as it was a newspaper that won as the lawsuit was for calling him a wife beater whether you agree he was or wasn't you should n't really label him without saying allegedly especially when at that time not alot was known tbf i think this damaged amber more in the public eye because of the information that did come out in the trial about her actions as well

1

the man is just trying to clear his name scambler is doing everything possible to be noticed johnny deep is not trying to take disney to court even though he was booted off p otc because of scambler he gave one interview that was basically a reporter asking how he is coping he has been really quiet the millions of us bots have not been quiet though seriously all you have to do is check what he has actually said to know that he is not doing anything he has gone to court with the sun and whootie his trial against ah is n't until springtime fans are buying up dior products and keeping each other informed on the latest news he will be fine his career isn't over his fans will watch anything t

hat he is in scamber will never be in his league everything that she has gotten has been because she is riding the coattails of someone else

1

the desperation from amber and her team continues to expose itself more and more with all these requests and in turn having them all denied they no longer feel high and mighty mostly due to the fact that judge penney isn't corrupt unlike nicol even though the trial isn't for a while it looks as if we may finally be in for an overdue win!

1

@johnny depp i hope the trial is over and amber turd in jail hope you get your peace and go on with your life as always albina hellwagner

1

i wonder if this will help johnny in his trial? a means to deconstruct amber's character also why is the media calling it amber's 50m defamation case now? like she is after johnny? did i miss something? i know the media is bias af but come on

1

please watch this snippet from a murder trial in which a woman was on trial for murdering her ex boyfriend this is just a snippet & the full testimony by this expert on domestic violence is why i believe it's absolutely imperative that depp's legal team hire a dv expert(s) to testify about why amber heard meets this same mental health diagnosis https://youtube/1s_mostfigs

1

the more this is going on i am beginning to think the uk trial was used partly as a fact finding/evidence collecting mission show us what you've got amber type of thing yep expensive but a great fly trap

1

it looks like musky may have some explaining to do in the virginia trial its his and amber's word against the concierge in the building although i wonder if there are more to me stamped elevator videos that are yet to be shown publicly

1

scamber has lost all credibility! she has to keep up the lies along with scamber eastern columbia freeloader posse¹²³⁴⁵⁶⁷⁸⁹⁰ they have no choice even rocky got slapped¹²³⁴⁵⁶⁷⁸⁹⁰ pennington has got to be loosening her bowels she gave false testimony in deposition and uk trial i know mr josh knives in drew¹²³⁴⁵⁶⁷⁸⁹⁰ is pissing his pants he gave false deposition and uk trial i slapped rocky toilet wright is screwed as well not for her 911 call but making false testimony at the deposition and trial in the uk can't forget her sister mrs henriquez giving false testimony in uk trial either those rats are drowning in an ocean of false testimonies

1

this is just another media campaign to slam johnny's character before the va trial most people are not stupid enough to believe this crap unless they are amber supporters who he divorced lori his career had just started and wasn't even worth 125 million he would never say that he is not a racist

1

@niki bechus johnnys lawyers sent court documents demanding all records and correspondence to the two organizations regarding amber and the money they said they will respond one month after the us trial begins i guess hoping it won't be admissible if too late his stance has always been that she started this hoax as a way to blackmail jim for money so if she kept the money that will support his claim

this post is nothing short of an insult misinformation and shows your stupidity there are many wonderful actors around the world who are opening up their hearts check books by organizing charities fundraisers etc for all of those who are suffering around the world let's start with australia shall we? if you cannot face the fact that a woman a supposed actress self appointed leader of the me too movement falsely accuses a man of domestic violence (the lie about a man who has proof it's a lie) how about the damage that has been done to his reputation his family his children? do they not count in your eyes? your concern about teachers etc are valid how many teachers men women elderly and children have been victims of domestic violence and /or bullying? how many will now not come forward because of the lies that have been portrayed by amber heard? you are bringing up the word actors as if they are disgusting did you forget they are human too? are you saying because they are at a different level because of what they have chosen to do for a living that their abuse should be ignored? this case is bringing it to everyone's attention everyone that both genders are capable of such a heinous crime when this goes to trial in august of 2020 and the truth prevails that amber heard has lied her butt off she should be held accountable just like every other human being the hell with being an actor why should she be excused from not signing her medical release waiver producing her metadata all photographs medical records text messages all of which she has demanded from her ex husband but she has yet to produce which has been ordered by the judge why is she excused six times for not sitting for her deposition what makes her so special? john q public would be held in contempt why has she not been yet? she is just as human as all of us brian is just trying to bring this to the surface for everyone to be treated equal and fairly if you can't take the heat get out of the kitchen

oh yesguy pewsey amber heard and elon musk's lap dog "he" certainly doesn't take sidesexcept for this *july 7 2020* grazia magazine article: *the toxic treatment of amber heard is insulting to those reporting domestic abuse* so if *this* is *no time* to take sides when *would* have been a *good time*? when the judge *dismissed* amber heard's allegations of domestic abuse "with prejudice" insuring she could never bring this case against mr depp anytime in the future? when amber heard sold her illegally made video to tmz and was forced to settle the "next day" for the *smallest financial settlement* california's no fault divorce would allow? how about when the recordings that amber heard made started showing up as evidencewould this conversation: *johnny depp* if things get physical we *have* to separate *amber heard* no we don't! *johnny depp* we *have* to be apart from one another whether it's for an hour or ten hours or a day we must there can be *no physical violence* *amber heard* i can't promise you that i'll be perfect i can't promise you *i won't get physical again* god if sometimes get so mad i lose it would *this* have been a good time? would it have been a good time to take sides when roberta kaplan and her #timesup lawyer team decided to walk away from this case? perhaps when amanda de cadenat #metoo activist and close friend to amber heard *refused to testify* on amber's behalf *despite the fact that amber heard spent the day after* she claimed the violent attack with the cellphone took place *with* amanda de cadenat at a party? de cadenat said she was a survivor herself and remained a steadfast advocate of women's rights amanda feels she was *used and misled by amber* and hopes amber receives the help she needs does mr pewsey feel that after the defense offered the tmz tape as evidence and played it *nine* different times during the trial arguing that it ended abruptly because mr depp was violently beating amber heard when mr depp's team played the tape *in its entiretywith the edited pieces put back and the beginning and ending restored* and it revealed that the tape was made at noon and that mr depp left while the tape was still running *without touching ms heard* and at the end ms heard recored herself *laugh* it would have been a good time to take a side? *when* is it a good time to take the side of innocent until proven guilty mr pewsey? amber heard has her lawyer samantha spector send her list of divorce demands to johnny depp including \$50000 monthly support exclusive use and possession of the black range rover with johnny to continue to make all payments for any encumbrances thereon exclusive use and possession of 849 s broadway penthouses nos 1 3 and 5 (valued at thirteen million at the time) with johnny continuing to pay mortgages utilities etc attorney fees in the amount of \$100000 and \$25000 forensic accounting coststo be paid within three days*and* an undisclosed "divorce settlement" or amber heard would go to the media mr depp refused amber heard's demands now *if* mr pewsey is *honest* he will admit that *he* is the person guilty of taking sidesright after ms heard came out with her accusations a week after mr depp refused to pay her and without doing *any* research on the case mr pewsey is upset because he took the wrong side i'm here as one of those victims of narcissistic abuse he *claims* to speak for i could see my abuser in amber heard the moment she had photos of her bruised face all over the cover of people magazine everything she does and everything she says is *exactly* what an abuser says and does who owned their own shortcomings and vices? who portrayed themselves as perfect? who has nothing but their own stories told my therapist that johnny didi told my friends that johnny did i told my assistant that johnny did? who has witnesses saying i saw amber heard amberi had to pull amber off of himi had to stand between amber and ? who was inside the bathroom behind a locked door? who was trying to kick it in? *and finally and most importantly* who ended up in the hospital fighting an infection that easily could have killed having reconstructive surgery over two years? who did not end up in hospital or in emergency room or even needing doctors care? amber heard will be the reason victims will not be believed amber heard will be the reason victims will be afraid to come forward amber heard will have a great deal to answer forbut at least she will have all the publicity that she desirrresshe just won't be able to play the *victim* anymore

in 2009 amber heard (who had changed her last name to van ree) was arrested for the domestic assault of her partner tasya van ree in the seattle/tacoma international airport tasya van ree not only "did not protest" the arrest the police officers noted that "she requested it" during the assault ms heard ripped a valuable necklace from ms van ree's neck ms van ree did not make bail so ms heard spent the night in jail ms heard was arraigned the next day (a recording of her before the judge survives) she did not protest the arrest nor did ms van ree make a statement to support her the judge kept the case open for a period of two years on the chance that ms heard committed another domestic assault or ms van ree decided to prosecute when ms heard met mr depp she quickly changed her name back to heard and expunged her record she thought no one would ever know about the arrest but airports must keep records of arrests made on site when the press discovered this arrest ms heard went to ms van ree and had her lie releasing the statement in 2009 amber was wrongfully accused for an incident that was misinterpreted and over sensationalized by two individuals in power position i recount hints of misogynistic attitudes towards us which later appeared to be homophobic when they found out we were domestic partners and not just 'friends' charges were quickly dropped and she was released moments later if ms heard had been wrongfully accused why did ms van ree not protest the arrest? why did she request ms heard being charged? why didn't ms heard protest the arrest? the arresting officer beverly leonard is an openly gay woman and gay rights activist who volunteers at domestic abuse shelters is neither misogynistic or homophobic and can discern between grabbing someone's arm and domestic assault charges were *not* quickly dropped and ms heard was *not* released moments later how well would it have been accepted if a "man" arrested for domestic assault went to the "woman he assaulted" to have her make a statement to clear him and that statement was full of such easily proven lies? since domestic abusers have a history of domestic abuse ms heard's history and the lies that she tried to use to cover it up are most certainly relevant in the australia dog smuggling case mr depp's estate manager in australia london and vancouver kevin murphy testified for ms heard stating that she was not aware of australia's quarantine lawsbut mr murphy has been working with the australia authorities to change his testimony at the sun defamation trial mr murphy testified that ms heard had suborned him to commit perjury in her behalf on the threat of losing his employment subornation of perjury is considered the same crime as committing perjury this is the crime that australia is in the process of bringing against ms heard along with a re evaluation of the dog smuggling case because subornation of perjury is also under consideration in the virginia defamation case it would also be relevant interestingly the homeland security letter concerning savannah mcmillan is also perjury it will be difficult for a jury to believe someone who commits perjury so often and with so little consideration my very favorite fact is that publicly pledging that you are giving a sum of money to a charity constitutes an enforceable contract in the state of california california civil code was amended to ensure people would not pledge money for the publicity and then renege on the donation it has become a legal matter now so receipts will have to be produced ms heard may face charges stemming from this fraud as well! you should note that "no" domestic abuse charity in california accepted any money from ms heard the la children's hospital is not associated with domestic abuse and the american civil liberties union is a non profit organization founded to defend and preserve the individual rights and liberties guaranteed to every person in this country by the constitution and laws of the united states every domestic abuse charity in california was individually written to by prominent medical specialist (who sits on almost every domestic abuse organization's board of directors) asking them to refuse any donations from amber heard citing the proof that they had that she was not a victim of domestic violence and defining the damage that her case had caused the domestic abuse community as amber heard is asking for all records concerning mr depp's arrests from over twenty years ago not to mention that she wants a record of all gifts mr depp made to women he knew over the past ten yearsi don't think that the judge is going to be in the mood to grant ms heard's motions there are viable reasons to admit the evidence in question (whereas i can't think of a reason ms depp's gifts would have any bearing on the case)at this point ms heard and her team are desperate the judge will be ending her requests to compel discovery of documents that don't exist it is a strategy to make it appear as if the plaintiff is not cooperatingbut the court is not easily manipulated in this manner the evidence against ms heard continues to build and her stories of abuse that have no evidence supporting them have now been embellished to the point of absurdity this narcissist's time is running out

1

amber was and still is a gold digger shame on her for her lies and shame on both her and johnny for this materialistic bullshit trial when millions of people are dying people are dying end your bullshit admit you both fucked up and move on

1

the judges didn't deem that he was an abuser get your facts straight and that guy f***** talking in the video the only thing that the judge said was he's not going to rule in favor of him against the sun because his original trial against amber heard didn't end yet so they can't prove that the sun paper falsely accused him so then they can't prove the defamation of character accusation besides the judge knew heard

aquaman was a billion dollar success but only because it heavily appealed to the eastern audience in the united states it made \$335061807 the audience in the orient doesn't care who plays mera they are there for the special effects (now that the us has such a contentious relationship with china we will see how well american movies do overseas) i agree that jason momoa was the star and the success rests on his shouldersbut a team of reviewers pointed out how he tries not to look at mera during their romantic scenes and once you see it you can't unsee it the two had zero chemistry between them (have you *seen* game of thrones?) in their romantic scenes ms heard *is* on camera with her own true love but she loves herself and no one else and it shows as for her star power the two movies that amber heard made directly before aquaman were her small \$260481 and london fields \$487420 (in which ms heard was the star and which has the dubious distinction of having the second worse release in the history of film) which *combined* did n't have a worldwide gross of one million dollars as to the ongoing litigation women are constantly crying that they are not treated the same way men are *amber heard was arrested for the domestic assault of her wife tasya van ree at the request of her wife tasya van ree in 2009 in the seattle/tacoma international airport* the assault was witne

ssed by an airport full of people and both of the arresting officers the wb has asked mr depp to leave his role in the fantastic beasts series *so why does amber heard still have any jobs?* if she were a man she never would have been hired with a domestic abuse arrest on her record i suspect warner brothers have backed the wrong horse on this one and when the case is finished litigation mr depp will be exonerated and ms heard will be on her way to jail no one is going to forget that they allowed amber heard to keep working but they asked for johnny depp's resignation "equality" right amber that "is" what you are fighting for? and the right to keep all the money that you promised would go to charity depp and heard didn't have "any" court case until the virginia trial the british trial was between mr depp and "dan wootton" (who works with judge nicole's son robert palmer at talkradio the sister company to the sun) and "sign" parent company of the sun and owned by rupert murdoch (who is the employer of judge nicole's son robert p almer) ms heard was just a witness at that trial as ms heard only wrote the article which caused the virginia lawsuit in december 2018 the truth is that mr depp did not bring suit against her until 2019 *not 2017* emilia clarke is an outstanding actor and she has great chemistry with jason momoa she would be a great replacement and warner brothers would add the got fans to the aquaman fans so it would be win/win!

people are going to be very disappointed when depp doesn't win people are forgetting something very crucial the trial isn't between amber and jd it's between the sun and jd in the uk the laws are different than the us the burden of proof lies with the defendants which in this case is the sun they don't need to prove if amber hit him even if she did it doesn't take away from the fact he hit her all they need to convince the court is that he hit her and the published stories were not made up if you listen to all of the uncut recordings and read jd's text messages to a friend (it's in the transcripts) he said he wanted to drown her burn her and have sex with her dead corpse does that sound like a non violent person? and in the recording he talks about head butting her and admits that they were getting physical with each other there is no way he will win this judge is unbiased and will see this for the what it is it's not his first rodeo

para los que siguen defendiendo a amber heard aca les dejo el link de las transcripciones del juicio no importa cual sea el veredicto aca esta claro que ella es una abusadora y mentirosa https://www.nickwallis.com/depp_trial_court_transcripts

i am anxiously waiting for the verdict in the trial i thought that we would have had the verdict in late september at the latest since we have waited this long i hope it comes down on the 23rd since that's my birthday lol seeing amber have to eat a huge pile of crow on my birthday would be so awesome lol especially since she made such a huge deal of her birthday at my age birthdays aren't a big deal other than i made it to another one but i would definitely be celebrating if she is served a pooh pie on mine this year f***k, ugh, s***n

1

that's a new kind of low she is the worst kind of women victim there is!!! she has to stand trial for her despicable accusations against #johnnydepp she is almost ruined a man who truly loved and tried to protect her!!! she is clearly wrong in the head!!!! #justiceforjohnny #justiceforjohnnydepp #arrestamberheard #amberheardisguilty

1

actually i have to say i think not and i have a very very good reason for thinking so see amber never succeeded in any of her attempts to take legal actions against johnny a part from her bs restraining order which frankly means she didn't actually do any real harm to him directly not even using the courts as her proxy as she tried yet still she managed to do tens of millions of dollars worth in damages anyway how did she do this? through the court of public opinion she stirred the pot with lies and deception and the public responded burying depp's gig on pirates of the caribbean in the process yes it might be cathartic seeing her get fired but at the end of the day it pails in comparison because that job is worth a fraction of the one she cost johnny and even if the two were comparable it just brings us full circle right back to the root of the problem a nd that problem is courts should be adjudicating criminal trials not hr departments if we didn't have a culture that was so damn happy to see people fired over mere accusations in the first place she could have never done the degree of damage she did by celebrating her being fired we are just perpetuating the problem that started it all and not here is no reason to celebrate her being fired why? because if she goes to prison for her crimes her employment gets rendered a moot issue anyway in fact i wish she had not been fired if she loses her job i would hope it would be because she was too busy sitting handcuffed in a prison cell to work not because some busy body decided the accusations against her were a bad fit for the company that's how it should be and if it was that way when it was johnny on the chopping block we would have had a much better outcome all around quit trying to turn hr into a court of law

1

@j carter he just banged her maybe he thought she was innocent (as much as johnny thought she was an angel when he chose to marry her) if the pedophile is your brother or your sister do you help them in paying their defense and doubt the accusations at least at the beginning of the trial before the proofs are exhibited? that's why elon musk is not one of the 10 celebrities that deliberately warned us about amber heard

1

so she is making out like we have to take some feminist stance with amber heard to be a sister even though amber is lying (and i heard the tape of her admitting hitting him and just being annoyed he won't fight back she is disgusting to me as i've known abuse from a man and she undermines the message about women needing help from that she is the opposite because she is the abuser no kathy griffin it is not okay for a woman to be hitting a man and i'm not betraying fellow women by saying so no it is not okay to pretend they hit you when you don't get what you want (like saying he punched her before filing for divorce when staff at their apartment say she didn't have any bruising after that alleged incident and marks didn't appear until 6 days or something later when emm had visited her kathy griffin is a sicko if she thinks women have to defend her just f or being a woman too a liar i feel so sorry for johnny depp the court is going on about his drug use etc and trashing objects but has yet to show anything that doesn't scream innocent of the actual accusation of being a wife beater i've never listened to interviews with him before but his answers in trial sound so intelligent like when he's talking about expressing himself in anger doesn't mean he has an anger problem as he also expresses humour without that being a problem i hate their tactic like having the full range of emotions makes him violent rather than just human proof points against him expressing it on her and that's the point where she is actually clearly abusive by her own admission on tape even saying she won't stop expressing her anger that way on him!

1

next year is the trial johnny suing amber for \$50 million for defamation on an article she claimed she wrote (but aclu wrote it) which implied he was a dv abuser in their relationship

1

amber heard wasn't on trial though so the judge had no reason to place any blame on her the onus was on depp to prove he wasn't a wife beater and that the sun had lied and he obviously failed to prove that heard's potential guilt had nothing to do with this ruling

1

you are a moron so why post bout what a dips hit assclown you are? you like it when you give men permission to abuse women? are you trying for first place in selling out all out???? from the washington post opinions amber heard: i spoke up against sexual violence " and faced our culture's wrath that has to change by amber heard dec 18 2018 at 3:58 pm mst amber heard is an actress and ambassador on women's rights at the american civil liberties union i was exposed to abuse at a very young age i knew certain things early on without ever having to be told i knew that men have the power " physically socially and financially " and that a lot of institutions support that arrangement i knew this long before i had the words to articulate it and i bet you learned it young too like many women i had been harassed and sexually assaulted by the time i was of college age but i kept quiet " i did not expect filing complaints to bring justice and i didn't see myself as a victim then two years ago i became a public figure representing domestic abuse and i felt the full force of our culture's wrath for women who speak out friends and advisers told me i would never again work as an actress " that i would be blacklisted a movie i was attached to recast my role i had just shot a two year campaign as the face of a global fashion brand and the company dropped me questions arose as to whether i would be able to keep my role of mera in the movies justice league and aquaman i had the rare vantage point of seeing in real time how institutions protect men accused of abuse imagine a powerful man as a ship like the titanic that ship is a huge enterprise when it strikes an iceberg there are a lot of people on board desperate to patch up holes " not because they believe in or even care about the ship but because their own fates depend on the enterprise in recent years the #metoo movement has taught us about how power like this works not just in hollywood but in all kinds of institutions " workplaces places of worship or simply in particular communities in every walk of life women are confronting these men who are buoyed by social economic and cultural power and these institutions are beginning to change we are in a transformative political moment the president of our country has been accused by more than a dozen women of sexual misconduct including assault and harassment outrage over his statements and behavior has energized a female led opposition #metoo started a conversation about just how profoundly sexual violence affects women in every area of our lives and last month more women were elected to congress than ever in our history with a mandate to take women's issues seriously women's rage and determination to end sexual violence are turning into a political force we have an opening now to bolster and build institutions protective of women for starters congress can reauthorize and strengthen the violence against women act first passed in 1994 the act is one of the most effective pieces of legislation enacted to fight domestic violence and sexual assault it creates support systems for people who report abuse and provides funding for rape crisis centers legal assistance programs and other critical services it improves responses by law enforcement and it prohibits discrimination against lgbtq survivors funding for the act expired in september and has only been temporarily extended we should continue to fight sexual assault on college campuses while simultaneously insisting on fair processes for adjudicating complaints last month education secretary betsy devos proposed changes to title ix rules governing the treatment of sexual harassment and assault in schools while some changes would make the process for handling complaints more fair others would weaken protections for sexual assault survivors for example the new rules would require schools to investigate only the most extreme complaints and then only when they are made to designated officials women on campuses already have trouble coming forward about sexual violence " why would we allow institutions to scale back supports? i write this as a woman who had to change my phone number weekly because i was getting death threats for months i rarely left my apartment and when i did i was pursued by camera drones and photographers on foot on motorcycles and in cars tabloid outlets that posted pictures of me spun them in a negative light i felt as though i was on trial in the court of public opinion " and my life and livelihood depended on myriad judgments far beyond my control == i want to ensure that women who come forward to talk about violence receive more support we are electing representatives who know how deeply we care about these issues we can work together to demand changes to laws and rules and social norms " and to right the imbalances that have shaped our lives

@popsicle bread i dont think you understand the words that came out of your mouth johnny depp said he would torture amber and fuck her dead corpse in multiple text messages page six/ the new york post johnny depp threatens to burn' and drown' ex wife amber heard by emily smith february 26 2020 | 12:13pm | updated johnny depp threatens to burn and drown' ex wife amber heard more from: emily smith raging johnny depp texted that he would burn and drown ex wife amber heard then f***k her burnt copulsating their volatile relationship a court has heard previously unseen 2013 messages alleged to have been sent by the pirates of the caribbean star 56 to actor friend paul bettany were read out in london's high court on wednesday depp who attended the hearing was in the room as his texts to bettany were read aloud he allegedly wrote on nov 6 2013 let's burn amber the court heard the court was told he allegedly texted bettany again that day to say let's burn her before we burn her!!! i will f***k her burnt corpse afterwards to make sure she is dead the court also heard further texts allegedly sent by depp to bettany in may 2014 which read: i'm gonna properly stop the booze thing darling! drank all night before i picked amber up to fly to la this past sunday ugly mate no food for days; powders; half a bottle of whiskey a thousand red bull and vodkas pills 2 bottles of chambors on plane and what do you get?? an angry aggro injun in a f***kin' blackout screaming obscenities and insulting any f***k who got near! i'm done i am admittedly too f***ked in the head to spray my rage at the one i love for little reason as well i'm too old to be that guy but pills are fine!!! depp is in court in london for a preliminary hearing in his libel suit against british newspaper the sun over an article that alleged depp had been abusive to heard 33 his lawyer david sherborne said the case would feature diametrically opposed versions of events from depp and heard one person one side is lying and one is notsherborne said obviously we say that it is ms heard (who is lying) mr depp is 100% clear about that sherborne claimed that heard was not a victim but the aggressor in the couple's relationship which ended in may 2016 depp and heard divorced in 2017 depp's lawyer adam waldman said what does the sun do to keep amber heard's hoax alive? [wednesday] in court we learned the answer " cherry picking a fragment of a single frustrated text message to a friend sent out of 500 gigabytes of text and email messages provided inconveniently for the sun here is what mr depp actually said next in his text " that he could never harm amber: i am admittedly too f***ked in the head to spray my rage at the one i love" the full hearing is due to start on march 23 depp is also suing heard for libel in the united states adam wolanski qc representing the sun told the london court the may 2014 text to bettany appeared to refer to an alleged altercation with heard on a plane wolanski said depp is accused of screaming obscenities on the flight as he slapped heard in the face kicked her in the back and threw a boot at her before allegedly passing out in the plane toilet depp denies he was drunk and abusive during the flight the texts were revealed in court after previous lawyers for depp had accidentally shared 70000 messages from and to the actor with the newspaper's legal team these texts go to the very heart of the case they are really very important and set out the claimant's thinking in respect of a number of different incidents and his recollection wolanski said page six has learned these texts have not been shared with heard's legal team in the us during the discovery process for their upcoming defamation trial depp is suing heard for \$50 million in northern virginia claiming he was defamed in an op ed he wrote in the washington post in which she called for better support for domestic violence victims like herself but without naming depp in the piece in the us libel proceedings heard has previously alleged violent depp became the monster on drugs and booze then beat strangled and tormented her she stated depp repeatedly hit her ripped out her hair choked and nearly suffocated her in a virginia court filing in response to his \$50 million defamation lawsuit against her he strongly denies her claims arguing she was the aggressor in the us court filings heard stated that she began dating depp in early 2012 and about a year into our relationship i began to witness johnny abusing drugs and alcohol ! whenever he was using i worried for both of us he would become a totally different person often delusional and violent we called that version of johnny the monster' johnny oft

en would not remember his delusional and violent conduct after he came out of his drunk or medicated states ; because i loved johnny i had believed his multiple promises that he could and would get better i was wrong on a private jet from boston to los angeles in may 2014 heard's filing of depp states: on the flight johnny ordered the flight attendants to give him an oxygen tank and drank heavily johnny's handlers told me that he was upset that i was filming a movie with a romantic scene with james franco the day before at some point i stood up and johnny kicked me in the back causing me to fall over johnny threw his boot at me while i was on the ground johnny continued to scream obscenities until he went into the plane bathroom and passed out locked in the bathroom for the remainder of the flight depp allegedly apologized in a later text message writing once again i find myself in a place of shame and regret of course i am sorry i really don't know why or what happened but i will never do it again heard alleged in court filings that just a month into their marriage in march 2015 depp " who was supposed to be clean at the time but didn't believe taking ecstasy broke his sobriety " went on a three day bender on mdma/ecstasy in australia johnny told me that i had not explicitly forbidden him from taking ecstasy the argument heated up and johnny pushed me slapped me and shoved me to the ground before i retreated to a locked bedroom the next morning i went downstairs to find that johnny was still awake and that he had stayed up all night having taken about eight mdma pills he was also drinking again we got into a fight that johnny made physical and i barricaded myself in one of the rooms that didn't stop johnny from bursting through the door of the room i was in by nightfall johnny had hit me multiple times shoved and pushed me to the ground choked me and spit in my face that night johnny shoved me into a ping pong table that collapsed underneath me johnny threw bottles through the window panels of a glass door breaking two panes and leaving glass everywhere johnny then grabbed me gripping my body and nightgown he tore the nightgown off and at some point i was naked and barefoot covered in alcohol and glass she continued in one of the most horrific and scariest moments of this three day ordeal johnny grabbed me by the neck and collarbone and slammed me against the countertop i struggled to stand up as he strangled me but my arms and feet kept slipping and sliding on to the spilled alcohol and were dragged against the broken glass on the countertop and floor which repeatedly slashed my feet and arms heard states that the actor was hospitalized and she was left with a busted lip a swollen nose and cuts all over my body ; to this day i still have scars on my arms and feet from this incident however us lawyers for depp have stated mr depp never abused ms heard her allegations against him were false when they were made in 2016 they were part of an elaborate hoax to generate positive publicity for ms heard and advance her career a series of recordings of heard in 2015 allegedly admitting to hitting depp were recently been released to media outlets in the audio the aquaman actress is heard saying i'm sorry that i didn't uh uh hit you across the face in a proper slap but i was hitting you it was not punching you babe you are not punched ; i don't know what the motion of my actual hand was but you are fine i did not hurt you i did not punch you i was hitting you i can't promise you i won't get physical again god i f'king sometimes get so mad i lose it depp is heard saying i left last night honestly i swear to you because i just couldn't take the idea of more physicality more physical abuse on each other ; because had we continued it it would have gotten f'king bad and baby i told you this once i'm scared to death we are a f'king crime scene right now he later states if things get physical we have to separate we have to be a part from one another whether it's for f'king an hour or 10 hours or f'king a day we must there can be no physical violence towards each other all i'm saying is we need to take whatever time we need you i need to kind of let things settle for a minute so that we don't f'king kill each other or f'king worse you know f'king really kill each other or f'king break up or whatever they reconcile in the recordings and vow to work on their marriage but soon after heard filed for divorce after 15 months of marriage the estranged couple eventually agreed to a \$7 million divorce settlement in august 2016 reps for depp didn't immediately get back to us . 1 he did not lose a trial against amber he lost the libel trial against ngn and the sun wrongfully so if i may add on the other hand i am all for emilia clarke taking the mantle of mera unlike amber she can actually act (but that's just my personal opinion)

business insider johnny depp reportedly drank heavily and was constantly late on the new 'pirates' movie set jason guerrasio may 10 2017 10:04 am facebook icon the letter f email icon an envelope icon indicates the ability to send an email link icon an image of a chain link it symbolizes a website link url twitter icon a stylized bird with an open mouth tweeting linkedin icon the word in fibboard icon a stylized letter f more icon three evenly spaced dots forming an ellipsis close icon two crossed lines that form an 'x' it indicates a way to close an interaction or dismiss a notification johnny depp's unorthodox behavior has helped make him one of the biggest movie stars in the world but it also appears to be a serious risk to his career often balancing outlandish roles " as gonzo journalist hunter s thompson in fear and loathing in las vegas in his numerous tim burton movies " with being the face of a giant blockbuster franchise in disney's pirates of the caribbean depp has been seen as an a list star who loves to take chances and it made him beloved the world over in the wake of his messy divorce from actress amber heard following her allegations that he abused her and recent financial woes however depp's superstar status is now in jeopardy the stories coming out about depp's behavior while making the latest pirates movie pirates of the caribbean: dead men tell no tales aren't going to help them portray an actor in crisis mode the hollywood reporter delved deeper into the star's reported reckless spending over the years and revealed allegations that he was constantly late to set and drank excessively while making dead men tell no tales(opening in theaters may 26) not enough liquid money for '\$2 million in monthly bills' depp is engaged in a legal battle with his former business managers at the management group who claim that the star despite earning more than \$650 million in 13 plus years there wasn't enough liquid cash to cover depp's \$2 million in monthly bills according to the hollywood reporter the business managers say they confronted depp about his spending habits which included they say \$30000 a month on wine depp has also admitted to paying \$5 million to shoot the ashes of his friend hunter s thompson out of a cannon depp has sued the management group on charges of fraud and mismanagement and the company has countersued a 'pirates' staffer was reportedly tasked with following depp's every move thr also unearthed unflattering stories about depp's work on the set of dead men tell no tales from production sources depp's lateness to the set of the movie on certain days reportedly led to hundreds of extras waiting hours for the star to show up causing the movie's producer jerry bruckheimer and disney production chief sean bailey to huddle to figure out how to shoot around him though production staff raised the matter of depp's tardiness with the star he reportedly never changed his habits there were certainly days when our plans were challenged bailey said but no one should underestimate johnny's passion and commitment to this character and franchise one source told thr that it got so bad that production staffer was assigned to stake out depp at the coomera queensland compound depp rented while shooting the film the staffer was stationed outside the house in an unmarked car and was told to alert his superiors of depp's movements including when a light was switched on in the morning (or in some cases the afternoon) signaling depp was awake when he got up he'd turn on the light and the moment the light went on they'd call the line producer who would then call the directors [joachim ronning and espen sandberg]: 'he's up! he's getting ready!' a source from the set said they even had a special code term like 'the eagle has landed' johnny had no idea this was going on filming shut down after depp injured himself by seriously cutting his finger according to numerous reports at the time the injury occurred when depp was inebriated and had a dispute with head bruckheimer told a different story to thr we don't really know he got it caught in a car door or he got it caught in a sliding door i've heard a couple of versions bruckheimer said depp's reported drinking and lateness to set also caused an argument between bruckheimer and depp's then agent tracey jacobs on the pirates set according to a source she went over to jerry and said 'you've got to do something! you are the producer' he said 'you do something you are the agent' the source said everyone was an innocent bystander watching this trainwreck the source continued but when johnny came on set he was charming nice he's yin and yang bruckheimer denied to thr that the spot took place the reporting is just the latest black eye for depp who for most of his career has been able to keep negative press about himself to a minimum but so far at least it hasn't hurt him from landing major roles following his cameo at the end of 2016's fantastic beasts and where to find them he is set to star in the movie's sequel coming out in 2018 he's also wrapped on the highly anticipated murder on the orient express a representative for depp did not immediately respond to business insider's request for comment

amber turd never truly loved johnny depp there was never any true love between the two of them in their relationship which is why love wasn't the real reason why they got married the real reason why amber turd wanted to marry johnny depp was because she conned him into that marriage she wanted his money all along as well as the boost in her hollywood career opportunities she is a malignant narcissist who got with johnny because of what being with him could do for her and her finances she never loved him she put on a mask to reel him in tricking him into falling for a beautiful good and kind woman once they married the mask fell off (probably way before) she systematically broke him before him down to where she could control him when he decided he was done with her abuse and her vindictive side came out and she vowed to destroy him and take all that is his while painting herself as the victim i'm so glad she is being outed for what she is and that johnny will be vindicated she won't be punished as harshly as she deserves or even at all and that truly sucks beautiful people always get away with murder

our family has tried to contact the tip line & the police dept with substantial tips regarding a fsmily member we believe is responsible for her kidnap amd ultilatrl murder% t he detectives at apd will not return our calls; despite us being a very credible leadz we whole heartedly believe our family member killed amber & for the life of me vant fig ure out why they wont return our calls to look into him! we have went so far as collected dna from my uncle to give to the police dept; falls on deaf ears!!!

amber says empowerment means going beyond feeling beautiful i did not know that the definition of empowerment had anything to do with physical beauty she goes on to state that empowerment to me is really living your truth being able to live your truth the thing is her truth is abusing people trying to destroy their lives plotting a murder and nearly killing her own husband two or three times which all this is documented fact and her abusing johnny is stated in her own voice on tape with all the evidence of her being abusive and jd innocent i am absolutely flabbergasted that companies still support her if amber was a man this would not be

the court case is scheduled for august i'm thinking that will be the longest six months of amber heard's life i think johnny's game plan is to periodically release audio and video clips as to prove to everyone his innocence he probably won't settle not necessarily because he wants the full 50 million but because he wants redemption he wants his reputation and career back it sure seems like he was protecting her from herself for so long to prevent her from getting in trouble and her career from tanking until she went too far now that he's finally come around he is on a mission with all the facts on his side it is plain to see from these recording she is an evil genius who is really good at manipulation but failed to cover all her bases she is getting so much heat on her social media that the tables have turned and all her sponsors and awards etc are going to disappear this chick is already emotionally unstable and i bet all the money ever printed that she is going to snap in a big way someone is going to get hurt killed murdered or suicided etc it's just a matter of time i hope no one does but things are definitely going to get ugly i bet that if amber is still alive in 5 years or so she will be close to penniless fat ugly and broken wouldn't it be ironic if someday in the future there would be cell phone footage that tmz would release of johnny in a strip club trying to tip a dancer who winds up to be you guessed it amber heard? she snaps grabs a bottle of beer on the bar throws it at johnny but this time johnny snatches it out of mid air takes a swig throws down a five places the beer on top gives her a big smile winks and says have a nice life kid that would be pretty cool sounds like a movie biopic that johnny would play himself and it would wind up being his highest grossing movie hey amber if for some strange reason you are reading this i beg you not to cast a spell on me just because i think you are a bat shit crazy manipulative entitled little evil crazy bitch oops did i mention crazy twice? well then https://www.youtube.com/watch?v=uj6plklu8q

let me start by saying this i am a feminist you know the real kind one who understands that the core of true unbiased fair feminism is equality and fair treatment for all sexes period the people who simply hate on men and are just ready to blindly blame them in cases like this simply because of their gender are fake feminists who have no real credibility and i absolutely hate them since they hurt the feminist movement so much i say this because i feel it's important for a true feminist to speak up and add my two cents to the ongoing dialogue especially in such cases and make it clear that my intention as a true feminist is to be fair to everyone and men need to be heard as well since we as women can't expect men to listen to us if we don't listen to them ideally this should be the intention of everyone but we don't live in an ideal world the whole notion that men are more violent than women in general is crap and a gender stereotype we need to break and fight against among many other gender stereotypes pertaining to men women trans people etc hearing each other out and being fair to each other is what we need to do to bridge the gap between men and women and repair the society to make it a truly equal one as a true feminist that's my goal and i hope i'm not alone in this fight it's true that majority of the reported cases of domestic abuse towards women from men are true but that doesn't mean all of them are unfortunately there are women in this world who do take advantage of the benefit of the doubt that this society gives them because of their gender because not all women are naturally good and sweet and nurturing nice people another gender stereotype we need to break women can be violent too and men do get abused as well just not in the same numbers as women these are the ugly realities of the world we need to realize in today's times as mostly it's always been it's even harder for a male victim of abuse to come out as one than a female victim because they are met with such steep skepticism because of their gender that shouldn't be the case at all abuse is abuse no matter where it comes from or who's at the receiving end of it regardless of their gender or their physical size for that matter the fact that johnny just happens to be a man physically larger than amber does not matter if amber threw a vodka bottle at him hard enough to seriously hurt him any sharp object can be used as a weapon to hurt someone especially someone not prepared for the attack there have been cases where kids have used sharp objects to murder their parents who were physically larger than them it's still murder that actually happened the person who initiates an altercation especially using a sharp object is the abuser and the person at the receiving end of it is the victim regardless of their gender or size and after the altercation has been initiated on the other end if the victim retaliates with a physical response that's self defence and standing up to the abuser on the other end not abuser at their end plain and simple here amber clearly seems to be the abuser who initiated the attack

use that's self defense and standing up to the abuse or the other and not abuse by them the person who came here amber clearly seems to be the abuser who initiated the alteration and seriously hurt johnny and johnny is clearly the victim who seemingly only ever retaliated to her initiated attacks which is not abuse what amber did is abuse and from what we are hearing in this audio amber is not only a physical abuser but also a mental and emotional abuser and a clear manipulator who's trying to play the victim when she isn't one and trying to gaslight johnny into thinking he's not the victim when he clearly is one and turning around and accusing him of abuse to convince him of her victim hood all signs that point to a narcissistic personality and if amber truly is a narcissist this is probably just scratching the surface this probably goes far beyond just physical abuse as narcissists are some of the most poisonous creatures on the planet who destroy their victims from the inside out and the way johnny says he kept loving her and deluding himself with that love like it was all made up in his head and kept giving her chances before since he said this is the last chance he's giving her he sounds like the perfect victim for a narcissist to get their constant narcissistic supply from until he finally opened his eyes to her true ugly form in the end and decided to go to court after that since all of his delusions of her were finally broken and then she went straight from accusation to panic mode once she realized she couldn't play him anymore as her game was about to be busted and her constant source of narcissistic supply was gonna be taken away which is the thing narcissists desperately need to survive on it's like a drug to them they are hooked on such narcissism should be actively fought against and that's why unlike most i actually don't think cancel culture needs to do just improved so we stop jumping to conclusions without knowing the whole truth and start fairly canceling the right people for the right reasons so that the wrongdoers like amber heard know that there will be consequences for what they do and they can't get away with it amber heard needs to be cancelled and johnny depp needs to be given just ice honestly i was pretty much convinced of johnny's innocence when both jkrolwing and david yates came out in his support before fantastic beasts : the crimes of grindelwald released and decided to keep him on for the rest of the franchise since i trust their judgement and morality johnny depp said that he felt bad for her needing to defend him and that she (rolwing) had seen proof of his innocence now we know what he was talking about i applaud him for not just being strong enough to finally open his eyes and standing up to amber heard's abuse towards him however long it took him cause it's not easy to do but also for being smart enough to record their conversations and say what you want about jkrolwing but she would have never stood by someone whom she didn't know for sure was innocent and really did deserve her support after seeing the evidence to prove it i was right in trusting her and david yates it turns out not that i ever doubted their judgement and credibility now johnny's credibility has been proven as well hope he gets justice

look folks amber is a birth controlled up bi sexual anti family anti kids me too movement bandwagoner hollywood opportunist grifter no better than jen aniston that uses men for their hollywood ambitions but lets not act like johnny depp is marriage material ok he hasn't ever been johnny has a dark side he has hidden well take a look at his movie roles folks they are not a stretch for him to play really he has played murderers rapists thieves domestic abusers drug dealers body dismemberers obviously johnny is interested in those roles primarily which is pretty strange this guy is known for being a drug and alcohol user for the last 35 years he has boasted about drinking over 40 000 dollars worth of wine month on camera that's just disgraceful there's not just physical abuse there's emotional and verbal abuse habitual drunks like johnny can be verbally abusive lets face it johnny is 23 years older than amber and didn't have the patience to deal with her youth older men are not into games these two abused each other in some way really amber more physical johnny more verbal i believe say what you want but johnny was highly drunk and acting like an erratic lunatic in amber's video of him at home slamming cabinet doors fiending for alcohol why would he destroy her phone on camera on this occasion if he is the victim ? he obviously didn't want to be exposed johnny cant or hasn't explained that instance what sane woman would put up with a drunken man like this everyday ? of course every hollywood actor johnny knows would defend him in on how they see his public image he presents this guy is a payed actor folks joan crawford was a respected lady in public and a lunatic tyrant child abuser at home so no one really knows someone fully the way johnny acted at home in that video with amber is probably why vanessa left him and he can be at times whether his fans friends or associates like it or not the simple facts are every fiance gf or wife has left him over 35 years for unknown reasons the guy cant keep a woman obviously no matter how appealing he might seem and nobody acknowledges that fact the conclusion is i believe is that johnny had been highly jealous of the brangelina phenominon how brad and angelina were 12 years apart in age how they met on a movie set romantically how brad got her to have biological kids and then they became the king and queen of hollywood overnight being together johnny was fascinated on how amber and angelina are / were young bisexual women untamed by a man and family life johnny wanted to replicate on amber how brad tamed angelina that way so johnny met amber on a movie set who is 23 years younger than him he got with her and married her the trouble is johnny wanted to make a biological family with amber and she never had that intention unfortunately johnny was a short term stepping stone for her ambitions and it worked briefly amber and johnny were not compatable long term amber has said she is fiercely independant and not a homebody really she is clearly more into happy go lucky fun loving strong tall mans man kinda guys like jason momoa lets face it johnny has a more femininity about him that amber soured on eventually amber was the man and johnny was the woman in this failed relationship really the respect level dis intigrates if the woman takes on the mans role mentally in a relationship

so that's what a scumbag murderer sounds like when he doesn't think anyone is listening makes my stomach turn he had no problem lying straight to her face did he? could have been any of us in that vehicle i have a feeling what little sleep i get tonight will be filled with nightmares rest in peace beautiful amber

i have seen how women uses their children to get away from trouble you know what happens? your own kids turn against you or the majority of the public turns against you to a level you cannot even go out and socialize like a normal person anymore patience she might get away with some stuff but her long term future is screwed if she is a narcissist like i have read her self destructive tendencies will catch up she seriously faces a future where social workers might even take the child from her the woman is seriously problematic remember casey anthony? she got away with murdering her own child but she paid the price because the public wasn't fooled amber heard might not kill her own child but she walks a very dangerous road

amber's poor mom the rcmp should be sued civilly for her death! and they certainly don't seem to care that they have a rapist/murderer living on a ranch in their jurisdiction! could the rcmp care any less??

my personal testimony with domestic abuse: my ex had a severe alcohol problem and he knew that if he was drunk he'd lose his inhibitions and become violent yet continued to drink refusing to seek help one night he carried a knife out of the kitchen placed it on the table and said he's going outside i told him: if you go outside in this state of mind i have to call the police because this is dangerous he looked at me and asked me: you would call the police? i said: yes before i even finished my response he flew to my throat i was cornered between the table and a wall with a grown man closing two hands around my throat looking down at me with pure rage he was increasingly adding pressure and wouldn't let go so i bit him i bit him hard in the lower arm where i could reach i recall that i had this moment i thought he isn't letting go i'm about to puncture his skin if i bite any harder why isn't he letting go? once he let go i was so dazed and confused i went to bed the next morning i wake up and i have texts threatening to kill my father it's 10am and he is still drinking possibly didn't sleep i throw the remaining liquor through the drain of the sink as soon he sees me do that he attacks me in the kitchen and presses my face on the stove i was crying and saying i will call police now he tried to switch tactics: baby you are confused i love you i'd never hurt you on purpose you need to calm down and think because you are confusing reality he tried grabbing me but i shook him off we wrestled with my phone and then i called 911 the moment he sees i am seriously calling police his face changed to stone cold he leaves without a word he puts on a fresh white shirt and starts spraying on perfume he puts gel on his hair and combs it he makes sure he looks slick and presentable and leaves the house while i'm left rocking myself back and forth in the bedroom in a state of half undress the police arrives he waited on them in front of the house and tells them i have a borderline attack and shows them i bit him and he removed himself from me out of fear of his safety the police come up to me while i'm still rocking myself on the bed they have been primed and ask me for my account of the situation i tell them the full truth: how he threatened me and had a physical altercation and i bit him in self defense and i'm scared for my life he did not admit to any assault so i am arrested i spend 10 hours in a holding cell with only a cup of water and a frozen cheese sandwich without a bra with just some clothes i quickly threw on he's in his holding cell constantly ringing them up because he wants pain meds he wants more food he wants a lawyer it's unfair i call them once for tylenol and they tell me your boyfriend has been constantly asking for meds and this is not an apothecary so you get nothing he's walking past my cell to go to a toilet limping dramatically wincing dramatically putting up an act like i seriously harmed him prosecutors from the mayor's office arrive and they hear me out and believe my story so the mayor's office decides to grant me a restraining order against him the police i told them he was drinking all night they never checked him for his alcohol percentages they hold me accountable for biting him in self defense as he won't own up to his abuse of me i am charged with domestic violence (him too) and told i need to get an anger management course the next day i have to defend myself from this crap so i see a doctor and get photographs of my now developed bruises i have bruises on my hips on my jawline my neck an egg on my head i put in new evidence and another plea to please consider me a victim and that i had a near brush with possible murder if he had continued to strangle me i'd have been fucking dead but my ex is a borderline narcissist and incredibly superficially charming and intelligent my charge is lessened but i still have a minor domestic abuse charge on me for this incident my ex after this ordeal laughs i told you they wouldn't believe you i outsmarted the police they are suckers it's sad for you but i feel on top of the world imagine as a victim you are simply always on the losing end with them he fucked my life over and could've killed me amber heard talks almost exactly like the female version of him it's scary they are poison they are gaslight and use your empathy and love against you it took me 3 years of trauma counseling ruined work opportunities dropping out of college because i was too stressed from ptsd to leave my house i'm just a regular nobody imagine the losses johnny suffered despite all his resources

wow if robert was like a father figure to larry you know he knew about at least some of the murders maybe he wasn't the mastermind but he definitely knew especially if larry brought guys home its sad that so many of the victims remains have not been identified and people might still be wondering about their loved ones that never came home''' its really interesting how closely investigators identified the type of murderer he was so gruesome and man over 20 people in such a short period of time i feel like the ones that he didn't confess to that he probably did murder them also great job amber i know these true crime vids have got to be time consuming to research and record/edit! g#

@sleepup7931 that doesn't mean it didn't happen they weren't there when it was yeah his ex's defend him so do hers when someone is accused of murder we don't dismiss it because there is no evidence they committed murder before it's possible he wasn't violent with them maybe his addiction wasn't as bad as it is now the behavior of an addict gets worse over time every time you relapse things get worse drugs change people also his ex money managers said that they had to pay out a lot of hush money on his behalf from different incidents he also seems to have people sign non disclosure agreements which is why he is taking legal action against amber and the washington post she signed an nda during their divorce proceedings but she kept getting accused of lying so i think she just wanted to try to save her reputation i think johnny is maybe on a bit of a power trip right now suing everyone he realized he blew so much of his fortune and he's a bit desperate amber says he surrounds himself with yes men and anyone who questions him or calls him out he pushes out of his life as for his most avid fans they are a rabid bunch they don't seem to see a problem with his addiction or understand that this is a man with demons it's actually enabled him he's definitely not sober as he has been seen drinking and he likely isn't clean i hope he doesn't let this push him even further down and instead takes it as a wake up call

he was bought offlook at the evidence he threw out i saw it comingrupert murdoch is a murdererfree you are not thinking if you didn't see nichol 1) musk & franco were unimportant to whose caee? franco was with her the night of the alleged phone incident & musk the night before court 6 days laterbut those disappearing bruises wouldn't have mattered to this judge 2) letting ah sit in the court while jd was on the stand 3) letting ah's diary in as evidencehuge red flag! 4) letting jd be grilled on drug use since the 80's for four daysletting ngn go overtime cutting out jd's defense time cut out vanessa & winona'samong other thingsherbourne had to choose and more it may have seemed fair to youas sherbourne agreed to some of these thingsbut his job is to get as much vanessa in & secure a win that means due to bickering in the courtroomsherbourne said fine get on with it i have hard evidence to present to prove my case but when the judge says i believe ah because she was under oath i don't believe the police officers building managers amber herself on audio disregard that estate managers bodyguards and maids even though they were under oath as well well how do you argue with that logic? speaking of unbiased logic i've found ah to be a giving wonderful personlol i can't imagine what msheard had to go through either he's 1) mentally ill with bias 2) eating dinner with ah as is the custom in the uk see international hacking scandalthe levinson inquiry david cameron & rupert murdoch having levinson to dinnerthe man investigating his crimes 3) bought off by murdoch 4) less likely bought off by musk or possibly all of the above!!

woooooow 'just like last night we weren't allowed to fight cuz you split' *you kicked me out of the bedroom** 'cuz i knew you would split!!! **i wasn't going to split i was laying on the bed watching tv* all he wants is for her not to be so volatile sounds like every time anything got negative or argumentative depp just walked away because he didn't want it escalating and all hes asking her to do is speak to him normally and not resort to personal insults being condescending or violence!! he's being so calm and she's being completely irrational and clearly manipulating everything so shes the victim but accusing johnny of doing that he is even giving her the exact formula to sorting out their problems about 2/3rds of the way in when he says how they could talk and sort out their problems then she starts raising her voice again and saying that she wants to argue and fight basically she is saying 'it's always me and my fault' and starts doing the same thing again and then says: please just tell me what to do and how we can fix

this "how the fuuuuuuuuuck is he so calm still!" you neither need to be an expert nor a psychologist to hear that amber is a sociopathic narcissist and johnny is trying to be as calm as physically possible inside the storm of her accusations and clea lies that get called out that she is clearly the aggressor and the one who takes things to a level where violence is involved and all johnny can do in that moment is walk away because 'you cant hit a woman no matter what even if shes a psycho and abusing you physically and mentally and coming at you with a weapon' so us men who would maybe sort this all out with a quick scrap and forget about it afterwards need to walk away even if we are being beaten because even if you were to hold her down and subdue her youd leave marks on her and bruises and because amber is so manipulative it's clear she would use that as evidence clearly she lies out of her arse this whole video and all her evidence for why johnny was in the wrong in this video were debunked immediately by him or he admitted it if it was true how could anyone be on amber's side here?!? i feel really sorry for him this must have been hell to live with and it's a miracle he isn't a convicted murderer after all of it and heard isn't 6 feet under actually i hope they stick her 12 feet under just in case that blood sucker wakes up!!

i love how everyone is telling everyone about johnny's behavior and past i just gottasay this i dated a guy everyone said was greatfunny blah blah but within one year of us being together his behavior changed but it was also me having issues too not saying exactly what things were done but i know that my ex said they were never this way with any of his ex's now i'm not defending amber bc i've seen a lot and heard a lot and i'm really team depp anyway but all it really takes is one crazy fit of rage when you won't leave someone alone and that tends to get physical the guy tried to separate you from him so the pushing shoving and locking the door on you is a way of separating oneself from conflict in a way to escalate the situation its funny like ironic how this comes up bc literally this morning there was an incident outside of the building i was at when i woke up i was sleeping over a friends place helping them clean up ect when i hear a woman yelling for someone to open the back door but i'll tell u how this pertains to dpp's behavior so the woman can't get itsches wearing sweats and short sleeve no shoes or coat its alittle chilly but not too cold she can't get it so she opened the back window which is a bedroom on the 1st florr where her man was sleeping she started yelling at him to open up how shes got no shoes blah blah but when he didn't open the doortryin g to get her to leave she became increasingly irritated after about 30 minutes of her pushing up against the window him pushing her back out while shes attempting to climb in he's yelling at her to get out and leave him alone he placed hers shoes out on the window with a coat/sweater but no she didn't want that so shes going to the next window which i think is an empty bedroom or something so the girl gets in thru that window and begins to bang on the door from the inside i assume he had it locked then she starts screaming bloody murder things like this happen all the time when drug activity /or homelessness couples pair up i've seen it with neighbors now my point was this guy was separated from her she wouldn't leave him alone and that caused him to snap i admit i was crazy like that with my daughter and my son making sure their father would come home if he was out at the bar or next door or wherever if i had to work or if i didn't trust him being out drinking with people which i always was crazy jealous like that and usually that was my fight starter i didn't think a guy should drink out with other women even if hes with guys (later i found out he cheated on me with one of these women but anyway) my point for this was i used to believe that if in any situation of dv even with my parents fighting over cheating spouses in a separation/divorce they would always arrest my father even when i've seen my mother putting her hands on him he would say to the copso she can slap all up on mehit my groin(he had hernia a double hernia surgery) rip my chain and i can't push her away off of me and they told him no to just leave b/c my mother would just go off and jump on his truck door trying to open the door if the window was down this was my parents at the separation stage my mother was very protective of my father they were together 16 years and i know she still loves him but the main issue was that (and this goes back and forth) they talked about a separation (i dont know if they started seeing other people yet) but i guess my mom thought that if she was patient dad would stay bc of us kids who were like 16/17 and 20 but dad only stayed for us all those years putting up with my mom sleeping with her til i finished school and that broke my mom up so she lost trust and the trust factor was the hugest thing

amber heard fueled and murdered the metoo movement she has a lot to answer for any self respecting man can not let this be dropped she has to pay for her crimes or the rest of us are still at risk of the same fate

1

it's a horrible fact but women are being murdered by their abusers every day without ever making the news over 60% of homeless women are in that situation due to dv and most cases go unreported out of fear or are reported and ignored in earlier stages of course dv happens to people of all genders we just shouldn't detract from the conversation about the terrifying amount of violence that a large amount of women experience every day even in america most of us will experience some form of violence regardless of class race or religion homeless children & minors are also almost always coming from dv which is not just depressing but horrifying we can't ignore the statistics if we want to make any progress for any margin edit: this is about the first story not amber heard she is gross and deserves to be forgotten i stand behind any victim of abuse and support a man coming forward with his story

#mentalinstitutionforwomenwhosupportviolenceagainstwomen business insider johnny depp reportedly drank heavily and was constantly late on the new 'pirates' movie set jason g uerrasio may 10 2017 10:04 am more icon three evenly spaced dots forming an ellipsis: close icon two crossed lines that form an 'x' it indicates a way to close an interaction or dismiss a notification johnny depp's unorthodox behavior has helped make him one of the biggest movie stars in the world but it also appears to be a serious risk to his career often balancing outlandish roles " as gonzo journalist hunter s thompson in fear and loathing in las vegas his numerous' tim burton movies " with being the face of a giant blockbuster franchise in disney's pirates of the caribbean depp has been seen as an list star who loves to take chances and it made him beloved the world over in the wake of his messy divorce from actress amber heard following her allegations that he abused her and recent financial woes however depp's superstar status is now in jeopardy the stories coming out about depp's behavior while making the latest pirates movie pirates of the caribbean: dead men tell no tales aren't going to help them portray an actor in crisis mode the hollywood reporter delved deeper into the star's reported reckless spending over the years and revealed allegations that he was constantly late to set and drank excessively while making dead men tell no tales(opening in theaters may 26) not enough liquid money for \$2 million in monthly bills depp is engaged in a legal battle with his former business managers at the management group who claim that the star despite earning more than \$650 million in 13 plus years there wasn't enough liquid cash to cover depp's \$2 million in monthly bills according to the hollywood reporter the business managers say they confronted depp about his spending habits which included they say \$30000 a month on wine depp has also admitted to paying \$5 million to shoot the ashes of his friend hunter s thompson out of a cannon depp has sued the management group on charges of fraud and mismanagement and the company has countered a 'pirates' staffer was reportedly tasked with following depp's every move the also unearthed unflattering stories about depp's work on the set of dead men tell no tales from production sources depp's lateness to the set of the movie on certain days reportedly led to hundreds of extras waiting hours for the star to show up causing the movie's producer jerry bruckheimer and disney production chief sean bailey to huddle to figure out how to shoot around him though production staff raised the matter of depp's tardiness with the star he reportedly never changed his habits there were certainly days when our plans were challenged bailey said but no one should underestimate johnny's passion and commitment to this character and franchise one source told the that it got so bad that a production staffer was assigned to stake out depp at the coomera queensland compound depp rented while shooting the film the staffer was stationed outside the house in an unmarked car and was told to alert his superior of depp's movements including when a light was switched on in the morning (or in some cases the afternoon) signaling depp was awake when he got up he'd turn on the light and the moment the light went on they'd call the line producer who would then call the directors [joachim ronning and espen sandberg]: 'he's up! he's getting ready!' a source from the set said they even had a special code term like 'the eagle has landed' johnny had no idea this was going on filming shut down after depp injured himself by seriously cutting his finger according to numerous reports at the time the injury occurred when depp was inebriated and had a dispute with bruckheimer told a different story to the we don't really know he got it caught in a car door or he got it caught in a sliding door i've heard a couple of versions bruckheimer said depp's reported drinking and lateness to set also caused an argument between bruckheimer and depp's then agent tracey jacobs on the pirates set according to a source she went over to jerry and said 'you've got to do something! you are the producer' he said 'you do something you are the agent' the source said everyone was an innocent bystander watching this trainwreck the source continued but when johnny came on set he was charming nice he's yin and yang bruckheimer denied to the that the spat took place the reporting is just the latest black eye for depp who for most of his career has been able to keep negative press about himself to a minimum but so far at least it hasn't hurt him from landing major roles following his cameo at the end of 2016's fantastic beasts and where to find them is set to star in the movie's sequel coming out in 2018 he's also wrapped on the highly anticipated murder on the orient express a representative for depp did not immediately respond to business insider's request for comment

amber sit down and take your sentence like the murderer you are

1

we need to make more cases like these visible the feminists however deceitful amber is will believe her now as men we have to assert our rights they use and manipulate so that the man is considered a rapist or murderer without any evidence and the real problem occurs when you create that false state of: women we do not hit we do not murder we do not rape we do not kill but the reality of very opposite their slogans of do not hit a woman is a phallus because it forces you to if she attacks you you must allow it because they don't change that for: a woman must not hit a man! they don't because they know that way the thinking of man will dominate and they will have that freedom to hit and not be hit feminism is a cancer that must be eliminated it is not egalitarian it is not objective and much less beneficial if you believe that seeking to dominate a gender is the correct way then let me tell you that they will generate a meaningless war of the sexes

1

let's be real the only reason people like amber don't murder people more often is fear of being caught it is only after i learned about how some people are so evil due to their mental disorders that i truly understand why we have prisons some people need to be locked up and the fact that we will jail criminals is a deterrent to evil people acting on their evil intentions some people can't be rehabilitated they don't want to change so we need to lock them up

1

no matter how this trial turns out amber guygeryou are a murderer you killed a citizen you were supposed to protect and you lack the integrity to admit it and take your punishment rest in hell you horrible excuse for a police officer!

1

to me the amber situation is like if juicy somalie committed murder on top of his lies at least he didn't commit the crime he falsely accused others of

1

amber heard is a stereotype she is a sociopathic mind hidden by a beautiful face johnny depp is lucky he wasn't murdered by this broken monster

1

the stand by stephen king is a really good story but amber heard has murdered it she is becoming as ugly on the outside as she is on the inside i feel the same way about amber stand as i do when find a steaming pile of great dane shit i personally am still in favor of elon putting her on a rocket to mars and when she gets there tell her oops we forgot the return fuel send the bitch to space and let her float

1

i don't think amber life is falling apart the media has let her get away with murder so far and she is still in aquaman 2

1

i am glad amber survived this some women end up murdered it's a very serious matter

1

100% agree with you christine have you followed my comments regarding the 6 parts of this interview line by line analysis check it out and respond at the trial proper from day one this recording was not released to the jurors throughout the cross examination stage the sitting judge instructed the jury to only accept self defence on grounds of 2nd degree murder effectively blocking consideration on manslaughter grounds in response the defence introduced a physical confrontation which resulted in amber pushing him a way and him tripping through the window worried by this development the prosecution requested the recording to be released during summing up phase and inexplicably the judge changed his mind and agreed to this request allowing the jury to view this recording without any due process of defence trying the evidence understand in the uk this would never have happened as it clearly exposes bias by the sitting judge and using influence on the jury firstly in the uk councils and the jury would be instructed to accept manslaughter as well as the murder allegation a british judge would not bend the knee on material evidence that is available rather than introduce entrapment on amber's legitimate defence the prosecution would not only be required to convince the jury amber's account was unbelievable but the offence went beyond the remit of manslaughter that is could not be explained as an unintended event be clear there is not a single piece of evidence that could not be satisfied by conviction to manslaughter she may then have received a reasonable sentence of 5 years and most importantly she can bring her son up and let him know she never killed him intentionally depriving him of a father she loved this remains one of the most disgraceful and shameful episodes of the american justice system if the judge stuck to his role he was duty bound to do and protected the integrity of the evidence amber would still be alive today for sure

i love you guys! so much so i have stayed up until 6am (without realising it) watching you i have a mad crush on chase but don't tell him please! however i think this particular clip regardless of whether or not she is showing signs of deception (but particularly because she is) is totally tone deaf in this climate three women per week are murdered in the uk by their partners and that was before the lockdowns millions more suffer from domestic violence which has skyrocketed in the past year many if not most women are too afraid to leave let alone come forward publicly the sun in the uk has just won a case against johnny depp (who sued for libel) asserting he was guilty on 12 of 14 counts of being a 'wife beater' amber heard was vilified as soon as she came forward long before any of the details of the case came out johnny depp was automatically either innocent or just being 'rock'n'roll' (so that's cool if he beats her up right?) and she was automatically a 'lying psycho just after his money' which was the expected rea

ction from society women don't come forward because society's default position is 'hysterical woman she was painted as this regardless (but now she is a narcissist as well? not helpful) i had hoped this video might be to encourage people to have a different perspective than the narrative society gives us but rather what it insinuates is 'another woman who deserved it' kinda like airing a clip interviewing george floyd on whether or not he did actually used a forged \$20 that day or choosing one where epstein wasn't lying on that particular occasion bad idea because what matters is the bigger truth i know you are not apportioning blame or saying 'guilty or not guilty' but you what messages are you sending out to your followers? if you guys care about finding the truth think about the bigger truth and what your message is saying (or confirming)? i truly believe you will be a huge success with this channel so all the more reason to think a little about big picture stereotypes so apart from this one poor choice thank you for your amazing content!

1

hahha if you are on amber's side you will get a lot of bad news very soon roberta can't lose her reputation because her wife is running for office so there's no good reason for her to be involved any longer with this hoax oh and if amber and i had any irrefutable proof amber wouldn't be hiring private investigators asking for johnny's agreements with ex partners or trying to connect him to a murder

1

priority reason for removing amber from aquaman 2 she murdered aquaman 1 with her horrific acting god lord shes awful plus she is a cretin she devil as a person!!! i won't watch aquaman 2 if shes in it i've signed the petition too!!! what she is done to johnny deserves alot more than just firing!!!

1

ok i'm 4 minutes into the video i want to say as a french because l'oréal is french i condemn l'oréal for touting amber heard as a role model for women for feminine intelligence character and beauty because she is none of those things she is a monster and a hypocrite this institution knowingly supports heard and puts her in a pedestal as an inspirational wahm she is discrediting women and men why makes a point yeah the metoo movement is hypocritical for its blue wall of silence (blue wall of silence is a real concept it's gaining traction in the floyd murder context) it only attacks when male are allegedly or proven to be abusers but never when women weaponize that stigma that society has against men depp didn't deserve the scrutiny he got and justice is unwilling and silent to reestablish his character

1

there will be no consequences for amber heard it's fact there are people in the world that will get away with everything as long as they just stop short of murdering someone period

1

amber should be buried under the prison i have no idea why she is not behind bars right now is it because she is a woman? child abuse domestic violence wishing rape on andrew threatening to murder andrew wishing she had aborted james all because she had to get up at 2 in the afternoon

1

pirates of the caribbean bombed after the will and elizabeth story ended too big financial loss question for you did heard pay off a bunch of people after she beat them up? was she involved in not 1 but 2 suspicious deaths like johnny depp by the names of river phoenix and anthony fox? depp was expelled from high school for violence he was violent on '21 jump street' and interviews from the other members of cast at the time document that he was violent on 'cry baby's' and would beat up the cast members that played the rival gang between takes he has been a drug addict since she 13 when he was on '21 jump street' you could buy 'johnny depp wife beater' shirts his violence was legend got to his most violent when he was dating kate moss the reason he continued to have a career was because his agent tracey jacobs had enough control over him to assure he would not bring his bad boy behavior of tearing things up and beating people up while filming but his drug abuse got so bad she could no longer control him after 35+ years he fired her after she gave a deposition that told the truth about him he would not be in this pickle if he had not chosen to sue the british paper amber heard the aclu his attorneys of 35 years his management team of 35 years and if he had not started threatening the life of tracey jacobs october 31 1993 was the opening night of depp's 'viper room' on that night depp asked river phoenix to come by and see him going to discuss 'career opportunities' river was not a drug addict and considered himself a missionary for natural health and spiritual living when river arrived at the viper room his siblings and girlfriend samantha mathis remained in the van as river was not going to be more than an 10 or 15 minutes yet when river did finally come out he was extremely ill and died of an overdose of a drug cocktail right in front of depp's club someone spiked the punch river was not much into alcohol either the question remains was it an accidental overdose or did someone intentionally slip river a lethal cocktail? no other person died or was hospitalized that night just river phoenix who dropped by at depp's request and left his siblings and girlfriend in the car while he went in to see what depp wanted cell phones were not around back then and no one in depp's club called for medical help again this occurred while depp was at his most violent while dating kate moss don't hear her coming to his defense for good reason now 28 years later depp claims to be 'traumatised' by the death of his 'friend' but that was not the case at the time in fact as investigation into phoenix's death of accidental or intentional overdose depp declared that americans including his fans were 'stupid' and took a little trip to france which ended up rather extended for years where he got together with vanessa paradis whom he met in 1994 where he actually got semi sober for years however he continued to keep in his anti american stance he defended roman polanski who skipped the us to france after being convicted of rape and sodomy of a 12 year old girl as 'being too old to rape children anymore' artists are above the law and can not be held to the same standard as normal people according to depp we go to the disappearance of anthony fox? he discovered that depp was using the viper room to launder money and siphoning off millions of dollars he took depp to court and was scheduled to testify against johnny depp on 1/20/2001 but one day before his testimony december 19 2001 was the last time anthony fox was seen alive altho his truck was found his body was never recovered people were convinced that if he had not taken depp to court he would be alive today altho there was lots of suspicion and circumstantial evidence there was not enough to file criminal charges against depp however a wrongful death suite was filed against depp by fox' family members where depp was forced to settle note that all these incidents of violence including connection to 2 suspicious deaths were way before ah ever hit the scene it is also interesting to note that depp's return to the us for 'tax reasons' and desire 'not to lose his us citizenship' occurred after the statute of limitations ran out for any criminal charges related to depp's violence as depp said artiste are above the law especially when your pockets were as deep as johnny depp's at the time depp has a long history of being a risky hire due to arriving to work late not at all drunk or drugged up people had to walk on eggshells around him but tracey jacobs could keep him under control until october 2016 when he terminated his contract with her as an agent because he 'could not afford her' but if you talked to her it was that his alcohol/drug abuse was so bad he was hostile angry and violent towards those around him including her and she feared for her safety further he would not show up for work or show up late could not remember lined and was a complete horror on set because of depp's extensive drug fueled behavior it was costing disney \$350000 a day on the last pirates movie to deal with johnny depp the only one who had the guts to finally call depp out was sir kenneth branagh in 2017 when filming 'murder on the orient express' without jacobs who could no longer control depp and was a victim of his violence his reputation was sealed i have not even touched on his mistreatment of animals pre ah jd lost his lawsuit in the uk because of his own testimony where he could not remember anything nor sting 2 words together and because of the multiple depositions against him by those who worked with him for over 30 years including attorneys financial management agency and tracey jacobs who he had been abusive too right now the va judge is a big jd fan won't even sanction his attorney for suppressing and hiding evidence thank god that british lawsuit occurred first jd can't suppress it all and it will bite him in the ass in the end ah has nothing to do with why no one casts jd anymore she is just a convenient excuse and as you all are jd must be cast why not simply pony up the \$350000 a day it costs producers to cover for jd's drug habits ask yourselves this why is it that even tho jd had campaigned hard to get tim burton to cast him as gomez in wednesday or in a remake sequel of beetlejuice had burton refused? do you honestly think burton is upset about ah or could it just be that jd is a toxic expensive mess?

i sure hope that there was some lesser included offenses such as manslaughter involuntary manslaughter negligent homicide etc or the defense is going to argue no intent to murder botham jean and with our system structured the way that it is amber guyer will walk scott free but on that wrongful death civil suit botham jeans family will probably win a huge settlement against the city of dallas for there negligent handling of the 911 call and the dallas pd since they chose to defend her even though she was off duty at the time of the murder/shooting and amber guyer herself may even have to make restitution payments to his family for years to come but in my opinion it seems as though the prosecutors office is deliberately attempting to throw this case so that amber guyer can skate free from any criminal liability for her murder/shooting

1

meh we heard extensive recordings where heards biggest problem with depp was that he doesn't lay a hand on her takes a few hits then leaves the room and hides from amber til her rage is done in the second significant recording done post split she says that she was worried he'd one day hurt her "by pushing her off when she is attacking him" i don't know how much more non violent johnny could be besides just murdering himself for amber right after transferring all his funds and assets into her name

1

i feel like amber was spoiled and this was her ultimate you know getting away with murder it's like johnny was partying and then didn't want to party anymore and so she freaked out but we'll never know the truth

1

little reminder than amber heard advocated for the rape and murder of louis ck for making fun of david hogg in his standup set

1

thank you for covering this as an aboriginal woman of edmonton alberta and a mother i am very outraged with the rcmp and eps i am scared for my fellow aboriginal women and children i am sad for tootsie tuccaro and her family i have been following this story for years and i have no idea how it's unsolved when evidence points to the man on the ranch how can 3 different people recognize the voice which belongs to an actual criminal and the police say he's not a person of interest?? i pray that we get justice for amber tuccaro and all the missing and murdered indigenous women and children

1

one of amber heard's best friends and someone who was living rent free in the apartments she and johnny stayed in happens to be her makeup artist she is clearly lying! she probably won't go to jail but if she can lose her gig as mera and her l'oréal campaign i will be happy with that she is a less murderous any dun

thanks mike: this was tragic to watch and taught me something that i was completely unaware of: that a big part of the problem then is that the indigenous peoples need the police's help and compassion which they are not getting from the rcmp even active members of indigenous tribes are at higher risk because the tribes can't protect their women by themselves in a vacuum but only with the rcmp's investigative cooperation and the police actually caring about their investigations and the victims in question it is both despicable (morally) and (in the usa and in canada too surely) illegal to give one victim in a criminal or missing person's case less priority care and dedication than another victim based solely on said victim's race religion whether the victim is part of an indigenous tribe or not gender or sexual orientation and that dedication and investigate integrity is clearly what was missing relating to the rcmp in amber's case they treated amber and her grief stricken family differently because she was an indigenous person and it saddens me greatly to read the comments that apparently the rcmp do this consistently and seemingly without any serious repurcussions eg losing their job and more crucially being held accountable by the law even members of the rcmp are not above law: nobody is indigenous women and all women need to be much more careful about how they go about their day to day lives/activities hitchhiking is dangerous sure most likely you will be fine and reach your destination because i believe that most people in this world are genuinely good and helpful but there will still always be that possibility that you will not be okay so don't risk it i do not even like taking taxis or uber rides based on some bad experiences in the long ago past and based on watching the news and hearing stories about what can happen (and has happened) to innocent passengers i mean sure you will probably be fine (almost definitely even & definitely a much higher probability than if you go hitchhiking) but there is still a chance that you will not be fine as i said before i would never hitchhike as it seems amber did even though some people still do hitchhike and nothing bad happens i still think it is like playing russian roulette however no matter how nice or normal the driver appears to be (male or female or even both together) in fact there have been cases where female hitchhikers were lulled into a false sense of safety because they saw a female in the car with the male and then later they were sexually assaulted tortured and murdered so: don't get into a car with a stranger is great advice and for me (& i know i am way in the minority here!) that includes taxi drivers and especially uber drivers and i will tell you why as they say: just because you might be paranoid that doesn't mean you are not right! i have used both taxis and uber drivers but never alone (unless it has been an emergency or it has been a short ride during which i was extremely confident of the route and very familiar with where i was and where i was going and even then only if i had my cell phone & personal safety alarm with me) i am especially suspicious (even in those very limited circumstances described above in which i have used their services while alone) when a taxi driver or an uber driver sooner or later asks me how to get to my destination! it was if they were testing me to see if i myself knew the area and how to get to where i needed to go they all have gps after all so why ask me they should drive to where i need to go? obviously anyone's answer would simply be: follow your satellite gps and choose the fastest route possible based on said gps! in short a woman who does not own her own car (or is just not driving it on a particular day) who is alone but who also still really needs to get somewhere is much safer using public transportation (whenever it is available) if there is an emergency and she doesn't have time to take public transportation (or there is no public transportation eg in a rural area) then she might call up her boyfriend husband or a good friend and explain that she needs him/her to accompany her or better yet pick her up and drive her to where she needs to be all of the above options are better than hitching a ride with a complete stranger (hitchhiking is a huge no no even in an emergency just call the police instead and explain your situation) and don't flag down a random taxi either if you have to use a taxi call the taxi service main number to order one that way the taxi company owners know who is picking you up from where and to where he is dropping you off and these are all better options than using uber just in my opinion unlike taxi companies uber only does the bare minimum in terms of vetting/ doing background checks of their drivers and there have been incidents of sexual assaults by uber drivers who later turned out to be known sex offenders so to everybody out there especially to women: don't get into a car with a complete stranger really should include uber drivers who are also complete strangers to you! better safe than sorry is a cliche i know but it is true i drive everywhere and usually have my family with me just due to the circumstances of my particular life but if i were a woman who needed to travel alone a lot to get to work every day for example (without a car) or if i were a woman traveling abroad for her job and had to be wherever i needed to be and had no work colleagues with me on the trip and most likely being away from home had no friends or family in the area and probably no familiarity with the area itself and its neighborhoods then i would definitely choose public transportation if a available second choice: calling a taxi company getting all of the driver's information and license plate # and sending it to a friend via text or whatever and carrying a fully charged cell phone and self protection alarm that you can buy from any walmart and should already own anyway if it were an uber then i would also check before getting inside the car that the door can be unlocked from the inside of the car because remember that most uber drivers use their own cars not company cars at all then give all that information to a friend via text and to the hotel front desk especially in the case of an uber letting both know what time you will be back at the hotel and in the case of a n uber i might even specifically request on the app on my phone that my uber driver be female (because a female uber driver would probably be less likely to do anything to you & would be easier to defend yourself against than a male predator/thief/other person with malicious intent unbeknownst to you and obviously unbeknownst to the uber company) this some would say is going way overboard already i hear you i do but we have all read in the news that there are rogue uber drivers out there and that women (and even some men) have been either attacked or killed by these drivers just because they work for an online company and are driving them as their job and just because their bosses know exactly who picked you up because you obviously used the uber app it won't help you much if you are injured or dead by the time the police catch the driver after the fact (same issue/problem applies when you text a friend and/or tell the hotel desk all of the driver's info what time you will be back etc: ie no help for you until after you have been assaulted or killed) so just remember that taxis and uber drivers (the latter being the most dangerous of the two because they use their own vehicles take only the jobs that they want to take are not vetted in the same stringent fashion as taxi drivers are and do not have to respond to any calls from their bosses during your drive the way taxi drivers have to making the entire drive more risky for you) are both still strangers to you and so the old rule: don't get into a car with a stranger still needs to be in the forefront of your mind so if you are in a taxi or especially in an uber alone pay attention! perhaps stay off your phone and watch the road if you don't know the area still act as if you do be alert and confident and be smart these people know who they can get away with victimizing and who they can't and don't assume that they care about getting caught if they are unhinged they may not care about that look how risky it was that amber's abductor took her while she was having a 17 minute conversation with her brother he surely couldn't have known that the rcmp would just do nothing although he may not have known that the call was being recorded if it didn't come up that her brother was in jail during the tim or if he didn't put 2 and 2 together that all jail calls are recorded i guess now we will never know since they refuse to release the taped phone call how did they rule out this predator i wonder did he have a solid alibi that day? was he out of the state with receipts and cctv to prove it? if i were amber's family members i would keep putting pressure on everyone until they get the answers they need to begin to heal i am sure that they will never give up btw obviously the vast majority of taxi drivers and uber drivers are 1) good people who would never hurt you and 2) even if they are not good people most do care about not getting caught after committing a crime against you 1

i feel the same there is more to amber that meets the eye and i am a woman i have no evidence at all for my gut feeling johnny's past loves may be able to say they dont know the johnny amber has spoken about but rosemary west was not a murderer until she was ignited triggered manipulated and groomed amber presents as bruce said with a high emotional base she may have bought out a side of johnny that no one has seen before i'm not gor one minute saying amber asked for it it is not the 1970's johnny could have walked away i agree with bruce my gut says further exploration around amber more than johnny would tell us more has she narcissists sociopathic tendencies? ultimately nobody knows what goes between two people behind closed doors

how would he know? what facts did he used to come to his conclusion his opinion? he arrived long after she murdered mr jean he wasn't there to witness the shooting how does he know what an ordinary prudent person would have believed mr jean was a deadly threat? it's up to the jury to make the decision as to whether amber was just in her actions or committed a crime and not an investigator

i say if johnny deep's fans don't want to be has hypocritical as wb and hollywood in general is then they should boycott all wb and dc movies and shows from now on remember that they don't care about signed petitions or how loud people seem online if they see their movies making money they are happy and that includes the snyder cut she is in it so if you mean what you say about not wanting to see anything with her you won't be signing up to their streaming service and won't be giving them any views they won't recast and reshoot aquaman 2 so don't watch it and if anyone dares asking why make sure you let them know it's because you will not support anyone that employs her note that i would be willing to say to give a pass to justice league to people who want to see it since the scene in which she shows up has been done already and i don't see them spending more money shooting different scenes to replace that sequence entirely if only they had been smart and fired her from every movie moving forward but since they won't be doing that it's about time they learn a lesson remember they only make money because of us and while they continue to make money they will think they can get away with doing whatever they want this just proves that they don't care about what fans want they don't care about justice and truth as long as we keep giving them money they will keep laughing in our faces and keep hiring people like amber heard since they are literally willing to let people like her get away with murder if we let them

1

if amber guyger really feels bad about murdering botham jean like her mother says she does then she should be more than willing to serve her full 10 year sentence that's what a truly remorseful law abiding citizen / police officer would do

i think there were 2 plans to enact depending on how amber & johnny ended they could use their trumped up evidenceto blackmail him & live on easy street for the rest of their lives i'm glad they tried it because it hurt them & helped him but they were documenting his addictions as well as his abuseof amber as part of a self defence plea in case she accidentally murdered him in a rage i actually believe she had a plan for what to do if she ever beat a partner to death

amber and johnnie mom's where probably murdered by amber that recording of the interior designer she said amber's mom said amber's gona take jonny for all hes got a lot missed this

i have to be honest i really like amber heard as mera she fits the character's aesthetic frankly but in a curious way her character story as well there's a part in the aquaman lore where mera goes rogue becomes aquaman's enemy and even goes on a bloody rampage wanting to murder aquaman let's be honest this is quite accurate this also leads me to wonder... imagine there's an actor that is the nautical embodiment of your favorite fictional character and they really bring that character to life yet unfortunately they hav

however imagine there's an actor that is the physical embodiment of your favorite fictional character and they're being cast into something else entirely, does that make them a terrible personality in real life or are terrible people; should that be enough of a reason for them not to portray the character? i'd like to know what you think and whether this applies to amber or if she is a whole different case

1
this why i'm an individualist not a feminist i'm absolutely disgusted by the fact that for the longest time everyone was on her side instead of allowing the full evidence to come to light it's extremely detrimental to equality to continually paint this narrative that women cannot do the same things that men do in regards to abuse and even murder there would be way more backlash if it was johnny who did abuse her his life would be utterly destroyed and he would be black listed from hollywood but amber gets a pass because she is a woman? her being an abuser is glossed over because she is a woman? if feminists really wanted equality they would smear her character no different than a man

1
thanks amber now men are dismissing everything every woman says because they think narcissistic abuse is something only women and all women do well done giving men an excuse to dismiss all abuse against women despite all of the statistics showing staggering disparity between men murdering and abusing women well done

1
such a tragic case and senseless murder we can all be assured amber is safely secure honored with the most great love

@mark nasiak's not being disrespectful amber was an indigenous young single mother she had a little baby her son not a lot of money these provinces up in canada are vast to take a cab from where amber was to edmonton would cost a small fortune many people unfortunately hitchhike even though they are warned of the dangers it's so tragic especially when so many indigenous women are being murdered & it seems like no one cares heartbreaking have you heard mike's tc on the highway of tears i may be wrong on the title but there's many stories on this as well truly tragic

who hasn't got off on the wrong floor when in an elevator? whether an apartment or hotel i have plenty of times same goes for being in a parking lot and trying to open a car door then realize oops not my car then feeling silly walking away! amber obviously was not paying attention to what she was doing where she going because she was too busy texting/sextng with her married boy friend !! she assumed when the elevator door opened that she was on her floor so she walked out and turned towards her apartment and got to her door (what she thought was her door) panicked because the door she thought was hers was a jar and freaked out because there was a man in her apartment i believe she was wrong to just shoot him she would have noticed by then that it was the wrong apartment and instead of pacing back and forth supposedly deleting texts worrying about getting fired she should have tried to help not leave him on the floor bleed and die i believe it was a horrible situation that happened and so sad that bothem died and his family friends loosing him of course yes amber should have been let go from her job !! but i don't believe she should have been charged with murder but with something similar such as negligent homicide(is that the correct saying?) ! as an innocent man did die and she was definitely the cause of it ! that is my opinion stay safe everyone ! ps chris tina i love your youtube channels and videos ! don't stop keeping it real !!

what more is it going to take for the smokescreen to be lifted from your eyes? this man has a long history of violence has a self confessed hellish temper has obvious problems with substance abuse as witnessed by every public appearance in recent times winona told us that he used to smash up everything he was arrested for smashing up his hotel room while his 21 year old 100lb gf was crying in the corner of the room vanessa would do anything to cover up his crimes and protect her kids' reputation and careers this man is pure evil allowing his sick entourage to spread lies about amber because he knows that his career is over if the truth about him comes out the guy is violent aggressive jealous and paranoid and add alcohol to the mix and i fear for any woman who is with him wake up for god's sake the truth will come out and hopefully he will be arrested and jailed

@eye reign (from page six the new york post) johnny depp threatens to burn' and drown' ex wife amber heard by emily smith february 26 2020 | 12:13pm raging johnny depp texts d that he would burnand drownex wife amber heard then f" her burnt corsepduring their volatile relationship a court has heard previously unseen 2013 messages alleged to have been sent by the pirates of the caribbeanstar 56 to actor friend paul bettany were read out in london's high court on wednesday depp who attended the hearing was in the room as his texts to bettany were read aloud he allegedly wrote on nov 6 2013 let's burn amberthe court heard the court was told he allegedly texted bettany again that day to say let's burn her before we burn her!!! i will f" her burnt corse afterwards to make sure she is dead the court also heard further texts allegedly sent by depp to bettany in may 2014 which read: i'm gonna properly stop the booze thing darling! drank all night before i picked amber up to fly to la this past sunday!ugly mate no food for days! powders!half a bottle of whiskey a thousand red bull and vodkas pills 2 bottles of champers on plane and what do you get??? an angry aggro injun in a f"kin' blackout screaming obscenities and insulting any f"k who got near!i'm done i am admittedly too f"ked in the head to spray my rage at the one i love!for little reason as well i'm too old to be that guy but pills are fine!!! depp is in court in london for a preliminary hearing in his libel suit against british newspaper the sun over an article that alleged depp had been abusive to heard 33 his lawyer david sherborne said the case would feature diametrically opposed versions of events from depp and heard one person one side is lying and one is notsherborne said obviously we say that it is ms heard (who is lying) mr depp is 100% clear about that sherborne claimed that heard was not a victim but the aggressor in the couple's relationship which ended in may 2016 depp and heard divorced in 2017 depp's lawyer adam waldman said what does the sun do to keep amber heard's hoax alive? [wednesday] in court we learned the answer " cherry picking a fragment of a single frustrated text message to a friend sent out of 500 gigabytes of text and email messages provided inconveniently for the sun here is what mr depp actually said next in his text " that he could never harm amber: i am admittedly too f"ked in the head to spray my rage at the one i love' the full hearing is due to start on march 23 depp is also suing heard for libel in the united states adam wolanski qc representing the sun told the london court the may 2014 text to bettany appeared to refer to an alleged altercation with heard on a plane wolanski said depp is accused of screaming obscenities on the flight as he slapped heard in the face kicked her in the back and threw a boot at her before allegedly passing out in the plane toilet depp denies he was drunk and abusive during the flight the texts were revealed in court after previous lawyers for depp had accidentally shared 70000 messages from and to the actor with the newspaper's legal team these texts go to the very heart of the case they are really very important and set out the claimant's thinking in respect of a number of different incidents and his recollection olanski said page six has learned these texts have not been shared with heard's legal team in the us during the discovery process for their upcoming defamation trial depp is suing heard for \$50 million in northern virginia claiming he was defamed in an op ed she wrote in the washington post in which she called for better support for domestic violence victims like herself but without naming depp in the piece in the us libel proceedings heard has previously alleged violentdepp became the monsteron drugs and booze in beat strangled and tormented her she stated depp repeatedly hit her ripped out her hair choked and nearly suffocated her in a virginia court filing in response to his \$50 million defamation lawsuit against her he strongly denies her claims arguing she was the aggressor in the us court filings heard stated that she began dating depp in early 2012 and about a year into our relationship i began to witness johnny abusing drugs and alcohol ; whenever he was using i worried for both of us he would become a totally different person often delusional and violent we called that version of johnny the monster' johnny often would not remember his delusional and violent conduct after he came out of his drunk or medicated states ; because i loved johnny i had believed his multiple promises that he could and would get better i was wrong on a private jet from boston to los angeles in may 2014 heard's filing of depp states: on the flight johnny ordered the flight attendants to give him an oxygen tank and drank heavily johnny's handlers told me that he was upset that i was filming a movie with a romantic scene with james franco the day before at some point i stood up and johnny kicked me in the back causing me to fall over johnny threw his boot at me while i was on the ground johnny continued to scream obscenities until he went into the plane bathroom and passed out locked in the bathroom for the remainder of the flight depp allegedly apologized in a later text message writing once again i find myself in a place of shame and regret of course i am sorry i really don't know why or what happened but i will never do it again heard alleged in court filings that just a month into their marriage in march 2015 depp " who was supposed to be clean at the time but didn't believe taking ecstasy broke his sobriety " went on a three day bender on mdma/ecstasy in australia johnny told me that i had not explicitly forbidden him from taking ecstasy the argument heated up and johnny pushed me slapped me and shoved me to the ground before i retreated to a locked bedroom the next morning i went downstairs to find that johnny was still awake and that he had stayed up all night having taken about eight mdma pills he was also drinking again we got into a fight that johnny made physical and i barricaded myself in one of the rooms that didn't stop johnny from busting through the door of the room i was in by nightfall johnny had hit me multiple times shoved and pushed me to the ground choked me and spit in my face that night johnny shoved me into a ping pong table that collapsed underneath me johnny threw bottles through the window panels of a glass door breaking two panes and leaving glass everywhere johnny then grabbed me gripping my body and nightgown he tore the nightgown off and at some point i was naked and barefoot covered in alcohol and glass !amber heardgeydy images she continued in one of the most horrific and scarriest moments of this three day ordeal johnny grabbed me by the neck and collarbone and slammed me against the countertop i struggled to stand up as he strangled me but my arms and feet kept slipping and sliding on to the spilled alcohol and were dragged against the broken glass on the countertop and floor which repeatedly slashed my feet and arms heard states that the actor was hospitalized and she was left with a busted lip a swollen nose and cuts all over my body ; to this day i still have scars on my arms and feet from this incident however us lawyers for depp have stated mr depp never abused ms heard her allegations against him were false when they were made in 2016 they were part of an elaborate hoax to generate positive publicity for ms heard and advance her career a series of recordings of heard in 2015 allegedly admitting to hittingdepp were recently been released to media outlets in the audio the aquamanactress is heard saying i'm sorry that i didn't uh uh hit you across the face in a proper slap but i was hitting you it was not punching you babe you are not punched ! i don't know what the motion of my actual hand was but you are fine i did not hurt you i did not punch you i was hitting you i can't promise you i won't get physical again god i f"king sometimes get so mad i lose it depp is heard saying i left last night honestly i swear to you because i just couldn't take the idea of more physicality more physical abuse on each other ; because had we continued it it would have gotten f"king bad and baby i told you this once i'm scared to death we are a f"king crime scene right now he later states if things get physical we have to separate we have to be apart from one another whether it's for f"king an hour or 10 hours or f"king a day we must there can be no physical violence towards each other all i'm saying is we need to take whatever time we need you need i need to kind of let things settle for a minute so that we don't f"king kill each other or f"king worse you know f"king really kill each other or f"king break up or whatever they reconcile in the recordings and vow to work on their marriage but soon after heard filed for divorce after 15 months of marriage the estranged couple eventually agreed to a \$7 million divorce settlement in august 2016 reps for depp didn't immediately get back to us filed under amber heard celebrity lawsuits courts johnny depp p / 26/2020 0 nyp holdings inc all rights reserved 2

amber has a history of abuse in relationships abuse is abuse it knows no gender everything she is doing is abuse of johnny she has never stopped that woman lies cheats on him and abuses him it over and over has been caught on video she needs to pay for this abuse she needs to go to jail for her crimes i am so sick of the double standards if this was a man he would be jailed but because the abuser is a woman they are doing nothing she is no better than anyone else send her to jail

let me start by saying this i am a feminist you know the real kind one who understands that the core of true unbiased fair feminism is equality and fair treatment for all sexes period the people who simply hate on men and are just ready to blindly blame them in cases like this simply because of their gender are fake feminists who have no real credibility and i absolutely hate them since they hurt the feminist movement so much i say this because i feel it's important for a true feminist to speak up and add my two cents to the ongoing dialogue especially in such cases and make it clear that my intention as a true feminist is to be fair to everyone and men need to be heard as well since we as women can't expect men to listen to us if we don't listen to them ideally this should be the intention of everyone but we don't live in an ideal world the whole notion that men are more violent than women in general is crap and a gender stereotype we need to break and fight against among many other gender stereotypes pertaining to men women trans people etc hearing each other out and being fair to each other is what we need to do to bridge the gap between men and women and repair the society to make it a truly equal one as a true feminist that's my goal and i hope i'm not alone in this fight it's true that majority of the reported cases of domestic abuse towards women from men are true but that doesn't mean all of them are unfortunately there are women in this world who do take advantage of the benefit of the doubt that this society gives them because of their gender because not all women are naturally good and sweet and nurturing nice people another gender stereotype we need to break women can be violent too and men do get abused as well just not in the same numbers as women these are the ugly realities of the world we need to realize in today's times as mostly it's always been it's even harder for a male victim of abuse to come out as one than a female victim because they are met with such steep skepticism because of their gender that shouldn't be the case at all abuse is abuse no matter where it comes from or who's at the receiving end of it regardless of their gender or their physical size for that matter the fact that johnny just happens to be a man physically larger than amber does not matter if amber threw a vodka bottle at him hard enough to seriously hurt him any sharp object can be used as a weapon to hurt someone especially someone not prepared for the attack there have been cases where kids have used sharp objects to murder their parents who were physically larger than them it's still murder that actually happened the person who initiates an altercation especially using a sharp object is the abuser and the person at the receiving end of it is the victim regardless of their gender or size and after the altercation has been initiated on the other end if the victim retaliates with a physical response that's self defense and standing up to the abuse on the other end not abuse at their end plain and simple here amber clearly seems to be the abuser who initiated the altercation and seriously hurt johnny and johnny is clearly the victim who seemingly only ever retaliated to her initiated attacks which is not abuse what amber did is abuse and from what we are hearing in this audio amber is not only a physical abuser but also a mental and emotional abuser and a clear manipulator who's trying to play the victim when she isn't one and trying to gaslight johnny into thinking he's not the victim when he clearly is one and turning around and accusing him of abuse to convince him of her victim hood all signs that point to a narcissistic personality and if amber truly is a narcissist this is probably just scratching the surface this probably goes far beyond just physical abuse as narcissists are some of the most poisonous creatures on the planet who destroy their victims from the inside out and the way johnny says he kept loving her and deluding himself with that love like it was all made up in his head and kept giving her chances before since he said this is the last chance he's giving her he sounds like the perfect victim for a narcissist to get their constant narcissistic supply from until he finally opened his eyes to her true ugly form in the end and decided to go to court after that since all of his delusions of her were finally broken and then she went straight from accusation to panic mode once she realized she couldn't play him anymore as her game was about to be busted and her constant source of narcissistic supply was gonna be taken away which is the thing narcissists desperately need to survive on it's like a drug to them they are hooked on such narcissism should be actively fought against and that's why unlike most i actually don't think cancel culture needs to die just improved so we stop jumping to conclusions without knowing the whole truth and start fairly canceling the right people for the right reasons so that the wrongdoers like amber heard know that there will be consequences for what they do and they can't get away with it amber heard needs to be cancelled and johnny depp needs to be given just ice honestly i was pretty much convinced of johnny's innocence when both jk rowling and david yates came out in his support before fantastic beasts : the crimes of grindelwald released and decided to keep him on for the rest of the franchise since i trust their judgement and morality johnny depp said that he felt bad for her needing to defend him and that she (rowling) had seen proof of his innocence now we know what he was talking about i applaud him for not just being strong enough to finally open his eyes and standing up to amber heard's abuse towards him however long it took him cause it's not easy to do but also for being smart enough to record their conversations and say what you want about jk rowling but she would have never stood by someone whom she didn't know for sure was innocent and really did deserve her support after seeing the evidence to prove it i was right in trusting her and david yates it turns out not that i ever doubted their judgement and credibility now johnny's credibility has been proven as well hopefully he gets justice

11 facts that will make you change your mind about johnny depp (or evidence amber heard falsely planted evidence of domestic abuse) 1) after receiving a domestic disturbance call from amber heard the police visited depp's home to discover neither a damaged house nor any wounds on heard's body as she would later claim existed in court and social media though heard later criticized the police's handling of the case lapd vehemently denies negligence and that there was absolutely no evidence of a crime 2) heard once yelled stop hitting me johnny unaware that depp's security team were just a few feet away outside of their room when the security team entered within seconds of her screaming they were perplexed to discover heard on the sofa and depp in the kitchen about 20 feet away from each other 3) heard's own stylist samantha mcmillen recently testified that heard had not a single bruise cut or wound on her face or body while mcmillen prepared her to appear on the james corden show she spent much of the day and evening with heard after the alleged assault and saw her in good light at close range wearing no makeup mcmillen also found it extremely odd that after heard finished the show she told mcmillen can you believe i just did that show with two black eyes? but she had none to mcmillen it all made sense after heard went public with her domestic abuse allegations 4) the couple's neighbour and friend isaac baruch reported seeing heard the morning after the alleged fight and claims she shouted he hit me! he threw a phone and hit me! while heard stretched her neck to show baruch her alleged injuries he couldn't see anything remotely close to a bruise or cut that day or even the rest of the week 5) five concierges and a security guard were shocked when heard revealed pictures of her wounds on social media as they had seen her all week without any trinity esperanza the owner of the concierge company of the building where the couple resided at the time went back and reviewed security footage because she suspected heard's allegations were false as the time didn't add up esperanza had seen heard several times without marks on her face as did general manager brandon patterson security guard alex romero and two other employees who also reported having serious doubts as they clearly saw heard without bruises cuts redness swelling or any other injuries to her face 6) a security guard working at heard's 30th birthday party has recently come forward that he witnessed heard punching depp in the face and bruising his left cheek this corroborates the photo of a bruised cheek submitted by depp's lawyers which is interestingly more pronounced and visible than any of heard's photos of depp's alleged assaults on top of that heard herself has now reluctantly admitted on camera to violently attacking depp as to avoid perjuring herself 7) all of heard's witnesses are her close friends or people with a conflict of interest such as joel mandel depp's ex manager who depp was suing for spending millions of dollars without his permission on the other hand depp's lawyers have now gathered 87 surveillance camera videos and 17 sworn depositions by neutral third party witnesses that dispute her story while proving depp's there are even past girlfriends of amber heard that are coming forward who claim she is the truly abusive person 8) in contrast all of depp's past lovers including vanessa paradis his girlfriend for 14 years have strongly disputed heard's characterization of depp paradis has said i believe with all my heart that these recent allegations being made are outrageous she also added that depp was never physically abusive and was a gentle being however heard has a history of domestic violence as she was arrested and charged with domestic violence against her then partner tasya van ree in 2009 9) depp had confided in his close friends prior to the divorce that heard was trying to blackmail him threatening to go public with false domestic abuse allegations close friends of the couple including doug stanhope have reported that most people knew how manipulative and abusive amber heard was early on but did not have the courage to confront johnny depp about it before it was too late when stanhope went public with the truth heard silenced him by suing him for defamation 10) besides intentionally ruining depp's life for her own personal gain heard has done other questionable things such as 1) filing for divorce just two days after depp's mother past away; 2) dating elon musk one month into her marriage with depp a claim that is corroborated by several witnesses working late night in heard's buildings; and 3) needlessly going public with images of her alleged abuse amid her divorce despite claiming she didn't want the attention 11) amber heard was named a human rights champion by the united nations and an ambassador for women's rights by the aclu after the divorce despite the questionable evidence surrounding her allegations she also became a global spokesperson for l'oreal paris and retained her role on aquaman despite people's misconceptions about her career being negatively influenced conclusion *amber heard is the female jessie's mollett* the only difference is that she got away with it not just in court but in the court of public opinion

men have everything to lose from even being a victim society always decrees men as stronger thus the victim weaker weakness is taboo for men this is why amber is calling johnny a baby for complaining about being hit as to be or feel weak and helpless is demasculating to the male this is why male rape is an overwhelmingly unreported crime

2

@desir@e rodriguez i guess lets not care about male abused victims since males get away with abuse all the time lets just let woman abusers loose since some men abusers are not in jail is that what your saying? are you saying that she was a victim? and depp wasn't? there are multiple cases of both men and women not be believed and that should stop men cause the idea that a man abused is not possible or simply if they say anything is seen as weak and their ostracize for it if their rape victims some think they wanted it because their men and men likes sex not like woman don't either woman are not believed because their a woman and blamed for things abusers do both are different but the same time similar lets blame the victims not the justice system or the people behind it secondly johnny depp was not seen as a victim at all and everyone believed amber regardless of evidence (i'm not saying not to believe her but simply not to condone a person a crime that was not proven true with evidence innocent until proven guilty not guilty until proven innocent the people who believed in him was his fans (which fought tooth and nail to prove that he was innocent) and people who's close with him (friends ex wife and ex girlfriends) general believed he was innocent because a video that proves it

it has come to my attention from across media info sites and other platforms amber heard is now alone with companies that despite knowing the true intentions behind her they still side as it all about the cash to them and her it's one thing that mens rights are also taking action and youtube and people but when you got even the feminist team joining in to give voice this person didn't represent us you know you have a army against her more then 3m sign to take them down and she calls us fake further more when audio evidence comes to light the hammer was ripped from his job but yet heard has hers when admitting to the crime says alot about the companies and how divided everyone's rights are none the less the 7 m cash she was suppose to give to the hospitals could has saved lives but she kept it to let the kids suffer for the people who read this males who's ide pleases comment¹ women who side pleases comment² but most importantly men and women rights post³ we need all the support to stop this monster

2

we support amber heard! she is great! looking down a lot in this interview terrible that the car was stolen it's risky in la for the crime rates

2

it'd be understandable if it was true but it ain't that said i don't appreciate women that try and go out of their ways to ruin a mans career if it were the other way around nobody would believe him and that's just not fair the fact that she lied and people bought into that so easily without getting the facts straight is extremely pathetic and sad i can't believe amber played all these people like that that she be a crime if someone is falsely accused she needs to be locked up she better not be looking for any sympathy cuz she ain't havin none of it from me

fx presents: johnny depp v amber heard american crime story

criticized his appearance with a quart size lacquer thinner causin directly to the face causing a red swelling gash on the bridge of his nose that is some criticizing sausage roll is considered a reputable source and they have logical reasons to back up the claim that amber heard has been removed from aquaman 2 they may start shooting while these defamation cases are still being tried they are not going to postpone shooting this movie umberto gonzalez doesn't have a great track record of accuracy and he gives absolutely no reasons for his belief (perhaps ms heard has made it worth his while?) that ms heard has not been fired since her presence clearly will impact the profits from this film they have the legal right to release her from her contract without payment samurai136 is obviously a child domestic dispute that's so cute i love how samurai136 attempts to minimize what ms heard has done there are many jobs that would terminate your employment because of domestic abuse you see domestic abuse is a crime lawyers politicians a thletes judges ministers ceo's of large corporations have all been terminated because of domestic violence ms heard's issues with mr depp stop her from playing mera because she has broken some serious laws and must now go to jail to pay her debt to society anyone else find it amusing that samurai136 states as long as she hasn't killed anyone hurt any children or made any racist remarks publicly well her best friend died in a car accident when she was sixteen and although her records are sealed (as she was a minor) she was given a driving ban until she was twenty one so you can decide about killing someone she hurt lily rose depp and caused her considerable harm when she and her bf io tillet Wright conspired to out the child when she was only fifteen lily rose depp had to spend the next few years giving interviews to correct the misinformation they had released and didn't you hear the backlash to her racist and insensitive tweet just heard there's an ice checkpoint in hollywood a few blocks from where i live everyone had better give their housekeepers nannies and landscapers a drive home tonight she later had to delete the tweet someone has an agenda alightsamurai136 i have a crush on amber he and so nobody can do anything mean to her sorry but she is going to jail oh and elon musk there are multiple eyewitnesses who have given sworn statements about the nights you spent with amber heard so don't perjure yourself for ms heard because she made it apparent in those released texts that she never cared about you when carino wrote you weren't in love with him and you told me a thousand times you were just filling space and ms heard replied i know

one thing that scares me is the thought that johnny kept saying we are a crime scene waiting to happen could have come true so many times⁴ dv is nothing to mess around with i'm worried that she will hurt him still i hope i'm wrong and i hope he wins his cases and the world is exposed to her ugh⁵ just scary hearing how deeply disturbed amber turd is

1
this post is nothing short of an insult misinformation and shows your stupidity there are many wonderful actors around the world who are opening up their hearts check books by organizing charities fundraisers etc for all of those who are suffering around the world let's start with australia shall we? if you cannot face the fact that a woman a s upposed actress self appointed leader of the me too movement falsely accuses a man of domestic violence (the lie about a man who has proof it's a lie) how about the damage that has been done to his reputation his family his children? do they not count in your eyes? your concern about teachers etc are valid how many teachers men women elderly a nd children have been victims of domestic violence and /or bullying? how many will now come forward because of the lies that have been portrayed by amber heard? you are bringing up the word actors as if they are disgusting did you forget they are human too? are you saying because they are at a different level because of what they have chose n to do for a living that their abuse should be ignored? this case is bringing it to everyone's attention everyone that both genders are capable of such a heinous crime when this goes to trial in august of 2020 and the truth prevails that amber heard has lied her butt off she should be held accountable just like every other human being the hell with being an actor why should she be excused from not signing her medical release waiver producing her metadata all photographs medical records text messages all of which s he has demanded from her ex husband but she has yet to produce which has been ordered by the judge why is she excused six times for not sitting for her deposition what makes her so special? john q public would be held in contempt why has she not been yet? she is just as human as all of us brian is just trying to bring this to the surface for eve ryone to be treated equal and fairly if you can't take the heat get out of the kitchen

1
no no no no no no! studio's don't want to hire amber heard because she is a terrible actor a terrible human being and a huge unsustainable liability because her crimes ar e revealed and a reckoning is due time to atone for your sins pay some hefty fines and do some jail time "this is all your own fault" you could have handled your divorce li ke a normal human being mr depp ever the generous man would have given you a good settlement and remained your friend using his influence to get suitable roles for you (and some acting lessons) but no you had to be the poor frail fragile female victim ever wronged by those big bad men you should have known that the truth would come out and we a re oh so glad that it did

1
this is basically how the leaked transcript went: amber: it wasn't a punch it was just a hit stop being a pussy jd: this is literally a crime amber: stfu or ill punch you aga in people defend amber heard'

1
australia court system doesn't play amber needs to pay for her crimes and get therapy help

1
a famous rich man is a target for a i so desperately want to be famous and rich woman for his \$ and his penthouses what proof do you have that he's not innocent? amber is on audio with johnny her constant complaint is that he never fights and that he always runs away and he's not brave and he's not strong because he always splits she says no one will believe him or side with him those are the words of the guilty believing they are getting away with a crime

1
wow can't believe you think women get it better we don't always report crimes against us because we are immediately thought of as liars or we deserve it don't go by amber sh e is only one woman

1
this was all a conspiracy between amber her 2 lovers and her parents to steal millions from depp their entire plan revolved around him physically retaliating she created an entire false persona to lure depp into a relationship once she knew she had him hooked she began to change becoming progressively more abusive her goal now was to pressure h im into marriage by convincing depp that her abusive behavior was his fault she convinced him (per his own words) that marriage would help with the abusive behavior once the y were married it only became worse because she had to get him arrested for domestic violence she was sure that if she breaks him down enough and abuses him enough he would snap and hit her she had no plan b so had to improvise on the fly before depp could divorce her that's when she became desperate and sloppy the recurring theme in all of the abuse is him trying to escape and her not letting him she had to keep pressure on him to make him snap these psychopaths were draining the soul out of him if you think there is no such thing as vampires think again amber her parents and here lovers sucked the life out of him as much as any fictional vampire would now imagine just an average guy in a relationship with a woman like amber even depp with his fame access to lawyers and fans was instantly branded an abuser even with all of the damning recordings of amber admitting to violent crimes there are still many people who defend her as a victim

1
@brago90 what makes it is just we have direct evidence amber committed crimes

1
i'm just saying many men and women were cancelled for a way less than what amber did yet her career still continues even there is petition with over 2 millions of signs deman ding her removal from aquaman 2 johnny is loved and supported and he lost job in both of these giants disney and wb she abused johnny he was under alcohol and drugs barely k eeping himself together she almost cut off his finger i'm not a fan of cancel culture but really amber is one big exception what she did is a crime domestic violence is crim e she should face it nothing happens that's why i think amber is only someone else's tool to ruin depp's career and she would not do it if it endangered her career that's wh y she is still getting roles she is protected

1
amber heard should pay for all the crimes she committed

1
this all stems from an out of control legal system so much lobbying as been done in the name of domestic violence de facto laws that it is extremely hard to get a fair day i n court ever much less if someone just breaths the word domestic violence look violence is violence and it's a crime if you cause damage harm or loss or injury to another yo u are guilty of a crime plain and simple why do we need a gender specific race sexual preference or what ever laws? the reason is so they can hide the proceedings in their s tar chamber courts and take all your stuff the real winners in this charade are the bar members that get very rich off of all of this the real victims we may never know if j ohnny is innocent i wish him the best if amber is truly the victim i wish her the best but honestly i think there is a bigger crime going on here and it goes on every day fa mous or not!

1
the me too movement in theory sounds like a good idea but people just abuse it for their own personal gain and it's sad because there are actual victims suffering from horri ble crimes committed against them and now everyone thinks they are just another liar amber heard not only fucked with johnny she also made the case worse for actual victims now so she deserves to be imprisoned

1
we have laws to obey amber did a crime she should be in jail and her roles taken nobody should be inspired or fascinate her fictional characters don't deserve to be played b y a toxic person this gender favouritism is complete bullshit everyone is a human being men being easily targeted shouldn't even exist amber and hundreds of thousands of wom en in prison in jail are proof we can be just as bad as one man remove the thots!

1
@chester lestrange i get that u don't care that amber almost got 2 innocent people kevin and kate charged for her crimes but kevin was johnnys employee he could've atleast p rotected him from amber trying to get him to purify himself for her he was the one footing the bill for her lawyers fees afterward so he had power in the respect when it cam e to money

1
your title should have been amber heard: the real #metoo abuser we have always lived in a society that allows women to feel entitled and privileged to hit and abuse men with impunity because they know there is no consequences for their actions yet men are looked down upon if they show even the slightest form of physical violence towards a woman violence is a taught behavior and while males are told and taught not to hit females the same is not being taught to females hitting males the bigger problem is justice syst em on all levels being biased and not giving the proper punishments to females for committing the same crimes as males there is a sexist theme in the justice system that fav ours females over males when it comes to sentences of similar crimes such as rape murder assault & battery and child support/child custody rights for as much as the united st ates has allowed itself to promote female empowerment and become gynocentric it's stance on equality has become more about hypocrisy and toxic femininity

1
fact check: johnny depp has never been charged or found guilty of anything except divorcing a da amber has stated clearly that she has accosted mr depp repeatedly she has be en proven to have lied lied and lied she tried to frame him for a crime he didn't commit she should be in jail #justiceforjohnnydepp #amberheardisalair #savebabyhe ard

1
lucky that the hearing is going in uk if it would be india then ink would have been thrown at amber facerotten tomatoes and eggs on her way to court by mob for the crime she had committed

1
grigori rasputin not just in courts the majority of crime between men and women is women being beaten raped or killed by men that's not up for debate the figures are astonis hing so yes the courts will often tend to believe women are the victims of abuse because statistically they are i'm not defending that just laying out why this happens just like when a child goes missing police always look at the parents because 9/10 the parents were involved the bias exists because the of overwhelming statistical evidence fema le on male abuse does happen and we certainly need to talk about it more perhaps this case's one silver lining is that we as a society can reckon with this it is despicable that amber has co opted the metoo movement which did important essential work in bringing women's experiences of sexual harassment and worse to light now we need the #mentoo because both are u' valid

1
these types of courts are fiascoesthey don't care about the crime of perjuryamber deserves jail time

1
with the emails between the aclu and amber with the op ed it's shown aclu was very concerned about whether johnny would sue her amber wasn't concerned at all she wrote 'my t hen husband' in the article trying to pin these fake crimes on johnny but the aclu quickly removed in later drafts why would aclu care more than she did about johnny suing h er? possibly they had an agreement/contract with amber about handling all legal bills that might be caused by this article because they approached her and maybe that was part of the enticement to write the article (attach her name to it she didn't write it) for the uk court case it would be rupert or elon but i think it's business not personal that's paying her fees

1
i just want all this to end once and and for all!for amber heard to finally go down!seriously this is so frustrating we know she has been lying for years!years!justice for t he injustice's that poor man had to live for the crime of simply falling in love with a terrible person!

1
lol if being angry at a cabinet is a crime then the legal system has gone the shits guess proof doesn't really matter just because he's a man ffs i really hope he gets justi ce and i really hope amber heard get screwed and blacklisted that's the only thing she deserves

1
i don't want amber to be fired i liked her in the previous movie i don't know if she was the abuser or abused and i don't think that's my business i leave that up to the cou rts to decide even if they decide against her it is up to them to determine sentence and i don't want the scope to go beyond the legal requirements the reason for this is si mple people are not perfect people do bad things people do good things the more we destroy the lives of people who do bad things the less good things we get from them i'm no t saying they should not get punishment i am saying the punishment needs to fit the crime and destroying a livelihood does not fit a crime where both in the relationship were probably guilty of many wrongdoings which we cannot have been there for to the degree evidence is presented allowing a court to make an assessment of damages let the payme nts be high enough to fulfill the demands of justice but do not make justice about piling on far above that

1
well yes falsely reporting a crime is in fact a crime so is falsifying evidence those are criminal charges they have nothing to do with the civil suit that falls under crimin al law amber turd is going to learn this the hard way turd might not actually do time but that career is over

1
they should be able to testify to the injuries if amber had any but i convinced that there were none so they cannot without committing the crime of perjury i doubt very much if those 2 will be willing to do that there is no benefit to them and an awful lot of risk i doubt that they would lie under oath to assist amber in her hoax they had their fun but that was years ago that was then this is now and amber is becoming ever more isolated in the corner she has painted herself into

@cool name pending you know social justice isn't always a bad thing people like you who use it like a four letter word social justice started because people were disheartened of there not being any real justice in the court system seeing white collar crimes money and power being the great win all poverty and the color of your skin many times being the great lose all we have men on death row we can prove are innocent social justice is the only justice they have willing to plead their case until it's so loud real action is taken just look into julius jones when your tedious schedule allows has it been taken too far by people who have no real clue yes absolutely that doesn't mean it's a all inconsequential and we see social justice still making a difference today i know you are much too busy for trivial things like the comment section of youtube (wonder what brought you here slumming in the first place) but when we converse we learn for one another i am sure i don't have to tell an intellectual like yourself how dangerous echo chambers can become you seem to be happy in your bubble up on your high horse perhaps you may have lost a bit of perspective from breathing in your own hot air instead of coldly dismissing others have you ever had the grand conceptualization that you could actually learn from others even those you deem far less intellectually compatible? which in your case i am sure it's often and so draining poor thing you may say something rude and condescending back just as you did the other person being too polite with you showing you more grace than you deserve or dared shown with your immediate smugness towards them let me assure you i give two shits about what commentary you have on my life or my views the same respect you give to others you have a proclivity to call everything cancel culture perhaps because you are perturbed it will happen to you in short sorry you are an asshole who thinks you are more important than you actually are newflash you aren't i made a million dollars last week and i am a fucking nobody! my husband saves lives everyday he is somebody but he would never speak to other's the way you did that's the true worth of a person right there sorry people took shame dawson from you and you aren't handling it well cool game pending hopefully the name and personality with both come wish you the best and i mean that growth is hard but a very needed thing i would say a necessity if you don't wish to stay stagnate while the world moves around you maybe you will be the one ridiculed by strangers for having no life their life seems to work that way sometimes when we least expect it also there are probably 20 typos and i really don't care i truly am busy making money right now in this bear market i typed this in about a minute

seeing the reply given by warner brothers they didn't state that amber was going to be in aquaman 2 it's only stated filming dates of possible start considering that if the case goes south in the uk and facts in a plea deal with the australia court's they may not have her back once it's found she has committed crimes

1

she is a monster and should rot but stunning and brave of her to attempt to cover up her crime like a toxic male amber most affected shocked pikachu meme

1

so her parents were in on it sounds like he was a target from the beginning by amber and her parents to use him for a cashcow! he was definitely used it's a crime to mess with and ruin somebody's life karma will bite them hard!

1

she should go to jail for all the crimes she did but unfortunately she isn't its a civil case not a criminal case hopping she pays for what she did loose the case in virginia will shows that justice still exists amber needs to pay for lieing faking evidences of a crime that never exist acusing an innocent person and derstroying his good name and career she is an evil lier a shame to all women

1

soy alguien le teme a la muerte y son muy pocos a los incluso le deseó que les pase eso amber heard es de esos pocos que hasta tengo dos planes de asesinato para ella 1 ir a su casa por la noche desordenar las habitaciones y matarla 2 ir al mismo bar que ella provocar una pelea y cuando todos los clientes estén peleándose buscarla y matarla confieso que el segundo caso parece más sacado de un programa de televisión pero es solo que hay que ocultar el motivo del crimen muchos la quieren matar por lo que le hizo a johnny y como hay gente que defiende a esta cosa hay que aparentar de que su fallecimiento se deba a algo que no guarda relación en alguna en el primer caso es un ladrón que asesina a la persona que vive ahí porque fue descubierto mientras robaba y en el segundo caso es bueno una pelea en el bar y tragedias como esas pueden ocurrir

one of my close friends has been kind of sideways doing this she was never a fan of depp's and was initially very against him back when amber's allegations first came out however (of her own volition) she listened to the tapes of amber and johnny and very much sided completely with johnny and then she followed the court case closely she was very much on his side and was in fact less forgiving of amber than myself (i am sure amber has problems which is why she is and so in part i feel sorry for her) however after the trial result my friend keeps saying how she hopes to never see depp's face again and how glad she is he's replaced in fantastic beasts (which is weird as i thought she was anti jkr due to her anti trans comments so wasn't interested in the film but all of a sudden now she is interested in it) she is a very intelligent person and i personally don't want to get into discussion of the issue as obviously people are welcome to feel however they wish she doesn't and has not ever specifically called johnny guilty but it is definitely implied in her comments about him that she now considers he is guilty oddly the case (unless anything changes) has if anything only cemented the sun's sensationalist writing nobody in the uk holds that much weight in the words of the sun newspaper a tabloid rag that many people hate people wouldn't particularly have believed the article no matter how disparaging against johnny (though of course it had an impact on his career and some did believe it) however the public hear a court case finds depp guilty and in a way i guess it is no surprise that anyone not following the case or who doesn't care to things depp is proven to have committed crimes i don't know how that perception could be altered without an appeal? i don't think it could be altered?? all i know is the general public who are not fans of depp and who did not follow the case at all i'd guess most at least think johnny more guilty now than they did before it bothers me

idk tristan there's still a possibility that ah will be dropped from aquaman 2 this movie isn't going to shoot for a while in the interim if jd doesn't settle his defamation case & it goes to court amber's crimes are going to be even more exposed than they all ready are the #metoo movement & aclu may cancel her just like they did to asia a if (big if) that happens then the studios will have no choice but to cut ties with this lunatic if we've learned anything these past couple months it's to never say never!

thala johnny depp avaroada next movie the crimes of grindelwald recine pannitaru ellam amber naala than #justiceforjohnnydepp

1

i remember when i blindly believed in amber "turd's" testimony and felt guilty for even wanting to watch crimes of grindelwald let alone loving johnny's performance in it this is gut wrenching and disgusting not only for the horrible suffering johnny went through but because this excuse of a woman will make it harder for women to be taken seriously if they ever want to denounce or report domestic abuse and/or rape who is gonna believe women when we have amber heards defamating and insulting their name? absolutely disgraceful

1

if amber heard has a conviction or pleaded 'no contest' to a domestic violence charge even a misdemeanor one like in 2009 it would be against the law for her to possess or even touch a firearm thanks to a mid 1990s 'anti crime' law

amber heard is the female version of jussie smollett and had what she did to johnny all planned out and played the victim in order to get a good cash settlement she used her gender used the me too movement used the lying msm used people's sympathies used the female victim card but thank god that she got caught with her hand in the cookie jar unfortunately her actions/accusations have had a negative effect for real female victims of assault she did this conscientiously with a main end goal which was to get as much off a \$ settlement because she knew that if not for the new recordings that have come out her plan would of succeeded because as she said herself nobody will believe you johnny johnny depp has already suffered serious consequences just due to the allegations without any evidences or proof that he was guilty or not guilty of what amber heard accused him of alas these days all that is needed is a simple accusations/allegations and we put so much emphasis on we must believe the women even if without proof or evidence to back up their accusations the man is already found guilty in the public eye/opinion unless he's got recordings to the contrary i've read so many stories on such actions which was required reading when i chose my career yes we must pay attention and believe the victims till proven otherwise like in this situation with depp and heard if not for the recordings depp would of been chastised which he was till these recordings came to light this affected him on so many different ways and levels emotionally career wise personal life definitely his wallet too plus the fact that he had to hold off for a while before making these recordings public he had to take the online bashing the attacks on his integrity/credibility and reputation and all this before amber heard got busted he had to deal with being shun by everyone in the business so much so that he was fired from future projects he had all these recordings and proof that amber heard was lying to everyone from the common public to his colleagues in the business he was probably told to hold off by legal counsel and let amber heard take as much rope as she could to hang herself in public court of opinions and then put out these recordings that exonerated him and show amber heard's true colors and real goals this kind of situation happens more often than you might think and alas men don't always have a chance to record or the state of mind to even think of it when in/while the argument is going on the true victims are the women who are real and true victims it affects their integrity and credibility and also does the same for honest men who were put in a situation where women are believed even if they lied i think amber heard should suffer major consequences so to send a clear message to the women out there who would like to attempt the same things is it enough to boycott anything/everything amber heard is associated with no i t's not enough i wouldn't be satisfied till she gets the same treatment she had johnny go through and should face criminal and civil repercussions that will be loud and hopefully discourage any other women who believe they could do the same to the men in their lives the punishment must fit the crime and examples must be set in a legal way and a amber heard should pay retribution for all the harm she is caused johnny depp so far absolutely get criminal consequences plus monetary retribution punitive damages to johnny depp himself make her pay a huge monetary penalty for all the harm she is already caused plus johnny's legal fee's

@magikami that ex gf has nothing but wonderful things to say about amber and said she didn't actually hit her sounds like she was arrested for disturbing the peace and released the next day johnny depp's addiction had been spiraling out of control he does have a history of bar fights and trashing hotel rooms when he was younger the thing about addiction is that every time you relapse it tends to get messier and messier you could up until a certain point have never crossed a certain line and then all of a sudden you've crossed it it is unbelievable what a shitload of drugs combined with booze and emotional turmoil can do to a person you think amber's friend just called 911 and said she was being attacked by her bf just for kicks? you think amber wanted a restraint order just to be a cunt? you think she just decided one day to wake up and destroy the life of the one she loved? knowing that he was a actor beloved by the world and people would likely turn on her? what about all the times in the recordings when johnny alludes to their violence against each other that conversation included him saying that he walked away because he couldn't stand the thought of them getting physical again and that they were a crime scene waiting to happen in other recordings he speaks like this too then he talks about the truth being out in regards to the accusations how do people miss this shit? i don't get it i wish i could find a transcript of this so i could copy and paste but i can only find quotes in articles he said she shouldn't get physical with him because it provokes him and a man needs to walk away in case he turns around and pops the wife if violence becomes normalized by one partner it can create more of a volatile climate where the other person starts to act out too it could be that they both have vicious tempers johnny is just trying to save his career when in reality he just needs to go to rehab and get counseling so he doesn't end up dead or hurting someone else but who's talking about recovery? no one that's who and he's still atleast drinking as it has been witnessed this legal bullshit isn't helping

johnny depp said he would torture amber and fuck her dead corpse in multiple text messages page six/ the new york post johnny depp threatens to burn' and drown' ex wife amber heard by emily smith february 26 2020 | 12:13pm | updated johnny depp threatens to burn' and drown' ex wife amber heard more from: emily smith raging johnny depp texted at he would burn and drown ex wife amber heard then f" her burnt corpse during their volatile relationship a court has heard previously unseen 2013 messages alleged to have been sent by the pirates of the caribbean star 56 to actor friend paul bettany were read out in london's high court on wednesday depp who attended the hearing was in the room as his texts to bettany were read aloud he allegedly wrote on nov 6 2013 let's his text to bettany again that day to say let's drown her before we burn her!!! i will f" her burnt corpse afterwards to make sure she is dead the court also heard further texts allegedly sent by depp to bettany in may 2014 which read: i'm gonna properly stop the booze thing darling i drank all night before i picked amber up to fly to la this past sunday ugly mate no food for days powders half a bottle of whiskey a thousand red bull and vodkas pills 2 bottles of champs on plane and what do you get??? an angry aggro injun in a f"kin' blackout screaming obscenities and insulting any f" who got near i'm done i am admittedly too f"ked in the head to spray my rage at the one i love for little reason as well i'm too old to be that guy but pills are fine!!! depp is in court in london for a preliminary hearing in his libel suit against british newspaper the sun over an article that alleged depp had been abusive to heard 33 his lawyer david sherborne said the case would feature diametrically opposed versions of events from depp and heard one person one side is lying and one is not sherborne said obviously we say that it is ms heard (who is lvine) mr depp is 100% clear about that sherborne claimed that heard was not a victim but the aggressor

n the couple's relationship which ended in may 2016 depp and heard divorced in 2017 depp's lawyer adam waldman said what does the sun do to keep amber heard's hoax alive? [w ednesday] in court we learned the answer " cherry picking a fragment of a single frustrated text message to a friend sent out of 500 gigabytes of text and email messages provided inconveniently for the sun here is what mr depp actually said next in his text " that he could never harm amber: i am admittedly too f'ked in the head to spray my rage at the one i love' the full hearing is due to start on march 23 depp is also suing heard for libel in the united states adam wolanski qc representing the sun told the london court the may 2014 text to bettany appeared to refer to an alleged altercation with heard on a plane wolanski said depp is accused of screaming obscenities on the flight as he slapped heard in the face kicked her in the back and threw a boot at her before allegedly passing out in the plane toilet depp denies he was drunk and abusive during the flight the texts were revealed in court after previous lawyers for depp had accidentally shared 70000 messages from and to the actor with the newspaper's legal team these texts go to the very heart of the case they are really very important and set out the claimant's thinking in respect of a number of different incidents and his recollection wolanski i said page six has learned these texts have not been shared with heard's legal team in the us during the discovery process for their upcoming defamation trial depp is suing heard for \$50 million in northern virginia claiming he was defamed in an op ed she wrote in the washington post in which she called for better support for domestic violence victims like herself but without naming depp in the piece in the us libel proceedings heard has previously alleged violent depp became the monster on drugs and booze then beat strangled and tormented her she stated depp repeatedly hit her ripped out her hair choked and nearly suffocated her in a virginia court filing in response to his \$50 million defamation lawsuit against her he strongly denies her claims arguing she was the aggressor in the us court filings heard stated that she began dating depp in early 2012 and about a year into our relationship i began to witness johnny abusing drugs and alcohol ; whenever he was using i worried for both of us he would become a totally different person often delusional and violent we called that version of johnny the monster' johnny often would not remember his delusional and violent conduct after he came out of his drunk or medicated states ; because i loved johnny i had believed his multiple promises that he could and would get better i was wrong on a private jet from boston to los angeles in may 2014 heard's filing of depp states: on the flight johnny ordered the flight attendants to give him an oxygen tank and drank heavily johnny's handlers told me th at he was upset that i was filming a movie with james franco the day before at some point i stood up and johnny kicked me in the back causing me to fall over johnny threw his boot at me while i was on the ground johnny continued to scream obscenities until he went into the plane bathroom and passed out locked in the bathroom for the remainder of the flight depp allegedly apologized in a later text message writing once again i find myself in a place of shame and regret of course i am sorry i really don't know why or what happened but i will never do it again heard alleged in court filings that just a month into their marriage in march 2015 depp " who was supposed to be clean at the time but didn't believe taking ecstasy broke his sobriety " went on a three day bender on mdma/ecstasy in australia johnny told me that i had not explicitly forbidden him from taking ecstasy the argument heated up and johnny pushed me slapped me and shoved me to the ground before i retreated to a locked bedroom the next morning i went downstairs to find that johnny was still awake and that he had stayed up all night having taken about eight mdma pills he was also drinking again we got into a fight that johnny made physical and i barricaded myself in one of the rooms that didn't stop johnny from bursting through the door of the room i was in by nightfall johnny had hit me multiple times shoved and pushed me to the ground choked me and spit in my face that night johnny shoved me into a ping pong table that collapsed underneath me johnny threw bottles through the window panels of a glass door breaking two panes and leaving glass everywhere johnny then grabbed me gripping my body and nightgown he tore the nightgown off and at some point i was naked and barefoot covered in alcohol and glass she continued in one of the most horrific and scariest moments of this three day ordeal johnny grabbed me by the neck and collarbone and slammed me against the countertop i struggled to stand up as he strangled me but my arms and feet kept slipping and sliding on to the spilled alcohol and were dragged against the broken glass on the countertop and floor which repeatedly slashed my feet and arms heard states that the actor was hospitalized and she was left with a busted lip a swollen nose and cuts all over my body ; to this day i still have scars on my arms and feet from this incident however us lawyers for depp have stated mr depp never abused ms heard her allegations against him were false when they were made in 2016 they were part of an elaborate hoax to generate positive publicity for ms heard and advance her career a series of recordings of heard in 2015 allegedly admitting to hitting depp were recently been released to media outlets in the audio the aquaman actress is heard saying i'm sorry that i didn't uh uh hit you across the face in a proper slap but i was hitting you it was not punching you babe you are not punched ; i don't know what the motion of my actual hand was but you are fine i did not hurt you i did not punch you i was hitting you i can't promise you i won't get physical again god i f'king sometimes get so mad i lose it depp is heard saying i left last night honestly i swear to you because i just couldn't take the idea of more physicality more physical abuse on each other ; because had we continued it it would have gotten f'king bad and baby i told you this once i'm scared to death we are a f'king crime scene right now he later states if things get physical we have to separate we have to be apart from one another whether it's for f'king an hour or 10 hours or f'king a day we must there can be no physical violence towards each other all i'm saying is we need to take whatever time we need you need i need to kind of let things settle for a minute so that we don't f'king kill each other or f'king worse you know f'king really kill each other or f'king break up or whatever they reconcile in the recordings and vow to work on their marriage but soon after heard filed for divorce after 15 months of marriage the estranged couple eventually agreed to a \$7 million divorce settlement in august 2016 reps for depp didn't immediately get back to us 1

alyssah mclarry honestly it's people like amber that turn the me too movement into a joke it is not to be used to falsely accuse people of crimes they didn't commit and it's incredibly sad that some incredibly vindictive women will abuse it to their advantage to ruin someone's life like amber has done to depp false accusers should be thrown in jail tbh a reasonable punishment should be them getting the same amount of jail time as the person they falsely accused if they were to be found guilty

1

@lone wolf why should amber heard suffer for her crimes? she was justified in beating depp's ass don't know why people are hating on her

1

she changed her story saying she not only had black eyes but also a broken nose and rib a broken nose swells and is crooked if not treated but the photo of the day after her nose is fine the independent nurse that looked at her saw no damage either she keeps adding more drama to her lie proving they are lies inglessis lied as well under oath cause she clearly was the one who did the make up on that photo faking the abuse well that's one extra person going to jail for lying under oath and faking evidence like the vet she corrupted to get her dogs into australia faking evidence to break the law should have consequences for them raquel took a photo of pusspuss?! you don't get puss if you pull out hair otherwise your legs would be full of puss every time you wax your legs puss is a sign of an infection just like inglessis raquel falsified evidence to help amber break the law and blackmail johnny this should have consequences for these people cause they are co conspirators in her crimes

1

prepare to be shocked because lots of men are defending her why? because she played mera and she is a pretty white woman with celebrity status even though the turd admitted to her crimes on audio they still defend her even if she kills johnny with the knife in her hand and she did it in front of millions on live tv they will still defend her even if the judge completely side with johnny these sick trash will still defend her calling amber their queen these sick degenerates retarded sick people cannot and never be helped and plenty of those scums of the earth are out there if amber spits phlegm in their mouths will be happy! always believe these people are around (look how they reacted to amber's crap press conference) and never be surprised never always remember this to protect your own insanity and if you confront any of these sick turds ignore them otherwise they'll give you a headache

@christina taft i'm sorry but you have confused me with someone else i have never been charged with any crime and never been arrested my work requires that i have police checks regularly i am a survivor of narcissistic abuse and now counsel young people facing narcissistic abuse and it's resulting trauma at the time ms heard left highschool in texas she was arrested for a crime that resulted in a five year driving ban there is no crime in my country that can result in such a prolonged ban therefore the crime must be singular the arrest record is sealed but is archived and may be one of the arrest records that ms heard has been ordered to produce for the virginia defamation trial we are aware of the existence of this sealed arrest because ms heard was arrested in california for driving while her license was revoked in 2009 in the seattle/tacoma international airport ms heard was arrested for the domestic assault of her wife tasya van ree (at the time ms heard had changed her name to amber van ree) the assault was witnessed by the two arresting officers and an airport full of people ms van ree had a valuable piece of jewelry ripped from her neck during the assault the officers queried ms van ree if she wanted ms heard arrested and she responded in the affirmative ms heard was taken to the police station for booking and spent the night in jail she was arraigned the following day (an audio recording of the arraignment survives and is accessible if you desire to listen to it) the judge and the prosecutor noted that both women lived out of state and for that reason opted to hold the case open for a period of two years on the chance that ms heard would reoffend or that tasya van ree would decide to prosecute ms heard when ms heard met mr depp she attempted to have this arrest expunged from her record when the press discovered the arrest ms heard suborned "the victim of the assault" tasya van ree to release a statement that would clear her name if a "man" had assaulted a "woman" and then contacted the "victim" of the assault to write a statement *to clear his name* the #metoo movement would have erupted in "outrage" this is the statement of tasya van ree: in 2009 amber was wrongfully accused for an incident that was misinterpreted and over sensationalized by two individuals in a power position i recount hints of misogynistic attitudes towards us which later appeared to be homophobic when they found out we were domestic partners and not just 'friends' charges were quickly dropped and she was released moments later she added it is disheartening that amber's integrity and story are being questioned yet again this statement contained so many lies that the arresting officer beverly leonard agreed to give an interview correcting the mistakes ms van ree made the official declaration submitted to the court indicated ms van ree called the police to have amber heard arrested officer beverly leonard is an openly gay woman and gay rights advocate who donated her time to domestic abuse shelters she found the description of her as misogynistic and homophobic to be amusing and inaccurate the charges were *not* quickly dropped and ms heard was *not* released moments later as tasya van ree did not provide bail for ms heard and she was forced to spend the night in jail even ms van ree's final statement amber's integrity and story are being questioned "yet again" is worded to make ms heard appear a victim ms heard went to great lengths to make sure this arrest story did not become public knowledge i can not find any record of it being reported before the depp/heard divorce which is when ms van ree wrote this story therefore ms heard's credibility was "never" questioned ms heard's other arrests were not for physical altercations but i do find the australia case particularly distasteful ms heard pleaded guilty to falsifying official documentation to australia immigration to smuggle her two tea cup yorkies into the country *knowing* the dogs would be euthanized if they were caught all animals must be quarantined before being admitted into australia because rabies does not exist on that continent the only test that is conclusive for rabies requires the dissection of the animal's brain it was revealed during the british trial that ms heard had suborned perjury from estate manager kevin murphy threatening to have him fired mr murphy began proceedings to change his testimony when ms depp and ms heard divorced he has documentation that proves he repeatedly told ms heard what the consequences would be if she smuggled the dogs into the country it was cruel to endanger those two small innocent pets ms heard has some of her arrests that will be exposed during the virginia trial as the judge has ruled her previous arrests are necessary to the case we may learn of other incidents but the abuse arrest is definitely pertinent in this case as a narcissistic abuser will have a history of abuse and will continue to abuse this is part of the disorder all of this information is in the open domain you can google any of the key words and legal documents news stories and other sources will be available to you if you have trouble finding anything leave a comment and i will direct you to my sources

Out[229] intermittent suicidal nihilism is standard operating procedure anytime an half way capable sociopath wants to manipulate their victim and law enforcement to get what they want and nothing is off the table in their predatory minds especially when it's a women on contemporary otherwise civilized society i've experienced this personally several ti

mes this one chick was literally forcing me into a position to where lethal force was authorized if not a moral imperative and i still refused to play along with her scheme she doesn't deserve such attention for one but much more than that there are so many women that are suffering how could i justify typing up resources that could help any of them in anyway there are rape gangs in north england that somehow above the law and not even charged women are kidnapped and forced into a lifetime of misery with men that buy them and/or her family in many places around the world yeah there's plenty of karen's hurting and even killing men but i have yet to hear of one driving over as many women as possible in a van yet its disproportionate now and probably always has been amber h my ex wife and 2 ex girlfriend or anyone else who falsifiys is assisting those men and everyone one of us have a responsibility to call out and denounce these hideous criminals

i agree with y'all 100% i think she should go to jail for life for what she did to johnny johnny is the one who should get his life back together and star in movies again no t her she is just making it worse for everyone and also other people that have been abused like me i was abused by my mom she kidnapped me and took me away from my family and her family kept me in a room and told me i couldn't leave that room unless they told me i could or after everyone got up in the morning and they broke all of my stuff and all of that and i was only about 7 or 8 when this all happened and it still haunts me to this day and my mom is still out there doing that today and i just hope she goes to jail so i know how it feels to be abused by someone and i can relate to johnny cause what amber did to johnny is what my mom did to my dad and i just hope johnny gets justice and i hope my dad does to

1

you should maybe look into the accusations against manson a bit more guess who's even rachel wood's friend? amber heard illma gore the mastermind behind the phoenix act is a serial hoaxer scammer and fraud the accusers admitted they wrote their statements together and had been actively trying to recruit every woman they knew manson had been with one of those women refused and has the emails to prove it her name is greta aurora and her story was used in one of the lawsuits even though she expressly did not give permission and it was distorted to claim she was underage (she was not) a virgin (she was not) and that her weekend with him was practically a kidnapping which it was not she had a great time with him and attests he was a complete gentleman of course he's not the complete innocent like johnny is but he's not an abuser his ex wives one of whom i'm reminded you practically started the metoo movement as a victim of harvey weinstein which she had never told manson about but even so she said that her relationship with him was extremely healing you should also note that the accusers are all in fact hard on cash and fame; and what are they after? his cash esme bianco and ashley walters (all these women have been friends for many years btw; but only learned of their shared abuse last year somehow!) are both huge fans of prince; and their allegations against manson are pretty much carbon copies of everything prince's ex tried to pin him with right down to the specific details seriously even heard at least bothered to set up her hoax years in advance these women are trying to claim they were children at age 26 that them accidentally locking themselves in the parking lot of a liquor store instead of where he told them to park is somehow his dastardly plan to keep them overnight; even tho it only locks at 2 am and the real kicker; that experienced professional bdsm performers who regularly attend events like torture garden and starred in bdsm movies somehow don't understand the concept of safewords and that they starred in a show where their bare back was very frequently seen pristine and flawless both during and after the abuse they are claiming left their back covered in scars; their only evidence of which is a single photo of what are obviously just the temporary indentations from stationary ropes as one would expect from bondage play not scars not whip marks not even proper bruises funny how just when johnny depp's truth starts getting out all of a sudden a bunch of long time friends pin his biggest ally with accusations directly out of heard's playbook conveniently giving ppl reason to believe guilt by association don't you think? manson is indeed no angel but the absurdity of the allegations against him would have you believe women are all just helpless naive little dolls who will never say no to anything and then decades later suddenly try to extort money from you; after shooting their own hostage by assassinating your career and reputation because they know despite their weak attempts to claim otherwise that when against marilyn manson everyone will believe them at face value alone because that's all they have

@tiffany c thank you for this video! i have been following this situation since the very beginning years now every point you have made i have made so many times also to her end game and this is scary! if you look into the texts between herself and her friends you have her and josh sending pictures of knives to each other talking about johnny at one point in one of the text where josh sends her a picture of a knife she gets excited and talks about using it on jd! josh then makes some kind of comment like it's not to use on johnny amber or something to that fact i like so many others believe they were planning more than just taking half of his money i honestly believe that if he wouldn't have gotten out when he did this would be an i had to defend myself and they would have seriously hurt him i don't even want to put it into words but you get where i'm going i was abused first by my father who treated his kids worse than animals until dss and the state police finally found us and got us to our mom when i was 13 he had kidnapped us for almost four years then i meet my kids dad in school love of my life! was with him for almost 20 years i was also abused by him i finally had enough almost five years ago now after he had almost killed me twice i didn't realize he had gotten into heroin and anything else you can imagine i didn't know those signs when i found the stuff and i asked him about it wanting to honestly help him i swear his eyes were black all he kept screaming as he was literally choking the life out of me was where was his stuff i had never even moved his stuff so with that said and like you have said there are signs when someone is abused and signs of abusers for instance it's been almost five years and i'm still single i don't trust men or many people to be honest now i've been diagnosed since with severe ptsd thought i was dying him he was with a bartender in a matter of days and then had multiple different relationships like right after people are only abused and take that stupid shit because they honestly care love that person! it destroys you to think that even defending yourself or calling the police will hurt them and then if it happens you do everything in your power to try to fix it i call it mind fucking king! that's what i would tell my ex all the time all the lies going away for weeks coming back with the worst excuses ugh anyways i see so much of everything i have been through in johnny depp actually all his stuff and what happened to me was almost at the same time sorry for the rant but yes she is a narcissist like my ex and if you have gone through the same you can spot them just through simple statement's or actions they do

it makes me sick to my stomach to hear her act like it's okay to beat her husband my ex beat me for 5 years punched me in the face threw glasses other dishes dresser drawers and anything near them at me would drag me up or down the stairs by my hair i once crashed my car into a telephone pole bc i made the mistake of raising my voice too loud so my ex grabbed my head by my hair and slammed it as hard as he could into my window repeatedly and then started punching me in the side of the head repeatedly and i lost control of the car i then was punched again and again bc i was a stupid bitch who isn't smart enough to pull over or use the brakes the last halloween with him my costume and ma keup was ruined bc my stepson wanted to see my ex's mother (his grandmother) as she had just gotten home from the hospital we went to their house after trick or treating but they were running to the store i told my stepson we'd stay there until they came back which was not okay with my ex and when i got upset and angry that he wasn't going to stay for his son to see his grandmother keep in mind we are still in our car my stepson in the backseat again got too loud he punched me so hard in the face my nose started bleeding we then took my stepson to his mother's house the whole ride was silent tears and blood were running down my face when my stepson went to get out of the car he hugged me so tight and said i hope you know i really really love you so much i almost lost it i told him i loved him more than the world the last time my ex got the chance to harm me i almost lost my life (at this point i was starting to realize how bad it was getting i was trying to leave but i was scared) he beat me for 3 hours i came home from work and he was waiting for me he ripped my door open punched me in the face and took my phone then he grabbed me by the hair and ripped me out of the car ripping hair out as he drug me across the yard to the garage he punched me in the face and the sides and back of my head repeatedly i was cowering on the ground so he started kicking me in the ribs when i laid there crying he put his cigarette out on my skin the more i tried to calm him the worse it got he never stopped hitting me i was able to get away after being hit kicked and having objects thrown at my head for hours but the next day he found me he kidnapped me told me if i tried to get away he'd shoot me and throw me in the river and no one would ever find me he continued hitting me in the face and at this point i was ready to die he was completely trashed so i knew he wouldn't stop hitting me it was only gonna get worse so i started screaming as loud as i could every time he hit me i told him if that's what he was gonna do i'd make sure someone heard me and then it got worse than i thought it would it was february when this happened he ripped me out of my winter coat left me in nothing but a tank top and thin pajama pants no shoes no socks then he got his baseball bat and said you wanna leave? you are walking and if you even try to come back in ill break your knees or your face he threw me off the porch into the snow and ice covered driveway laughing he told me i better run before my toes fell off i tried but i was so cold i collapsed and he laughed and drug me back up onto the porch by my hair and then into the house i thought i was done i thought he was going to shoot me but instead he laid down and passed out he was so drunk that it only took a few minutes but i knew i'd have to wait until he was out so i could get away my best friend in the whole world dropped everything to save my life she said i'll be there in 30 minutes you need to leave as quietly as possible and start walking towards me if he follows you run as fast as you can i promise i'll save you and she did she took me to the hospital bc i thought my ribs and arm were broken and that my skull was fractured no fractures but i ended up with cellulitis and having my arm sweep to 3 times the normal size the doctor told me if i had waited much longer that i would've started to go septic and i would've died i was stuck in the hospital for a week two black eyes and bruising and bumps all over my face and around my head no use of my right arm without excruciating pain a collapsed lung that resulted in me having a chest tube for a whole week bc my lung wouldn't reinflate on its own bc of my asthma bruising all over my ribs legs and back bc my infection was so bad they put in a central line just under my collar bone even that was difficult my doctor tried 9 times before he called the surgeon to put it in my artery the surgeon still had to try 3 times i was in excruciating pain then i found out i had to get the chest tube while i was awake they cut the hole between my fourth and fifth rib on the right side after i was released from the hospital he brought me my belongings and looked right at sal the bruising on my face and my right arm in a sling and told me he thought everything was going to be fine that we'd get back together i started carrying a knife with me at all times i had panic attacks anytime i had to walk to my job alone i was just waiting for him to come back and kill me i have such bad ptsd nightmares and flashbacks that turn into anxiety and panic attacks i thank all that is holy that i found my husband bc when i wake up at night screaming bc in my dream i'm back in the garage tied to a chair blood and bruises all over my face and hands he just grabs me and holds me until i stop shaking and crying he picks me up off the floor and brings me to my bed when my flashbacks hit and send me into a fetal position sobbing uncontrollably and he's been teaching me that it's okay for us to disagree or that if i do something wrong i never need to worry about the consequences my ptsd had been so bad when we started dating that anytime i did anything i'd immediately start apologizing over and over and i'd cover my face if he moved too fast it hurt his feelings at first and i had to tell him it was a habit that would take time to stop he's never laid a hand on me our whole relationship and marriage brain is so broken and fucked up bc of the physical abuse but also bc of the devastating mental abuse he put me through every hour of every day and my ex never went to jail court happened when i was in the hospital his son's mother signed a statement lying and saying me and her had gotten into a fight and since i wasn't there case was dropped me and the trooper were so disappointed i have zero respect for anyone who uses violence as a way of controlling their s/o so seeing amber sit there and try to paint it out as if johnny depp is this woman beater for no reason disgusts me it's bc of people like her that people like me who actually need help can't get it bc no one believes our abuse is real until we are dead 1
i never liked amber here even when i seen her in alpha dog as alma the girl who tried to impress the kidnapped boy i thought she was a skank then and i think that today she is provoking the shit out of him

1 amber alert does nothing but scare the kidnapper

1
i figured the expected us to go full vigilante but i never knew where to start i mean i get amber alerts from across the state and from like the next state over i always like that's a lot of area to cover let alone my city by itself i'm gonna need more info also tell me if the kidnapper be packing or not if i'm in hot pursuit of the kidnapper and he starts shooting at my car i'm going home idk if my car or health insurance cover vigilantism also i don't get paid enough to get shot at chasing these amber alerts

1
amber alert: this is an alert warning all children of the internet that there is a rogue turd kidnapping everyone dumb enough to fall for a pretty face do not approach this poopooper as she is armed with a complete lack of accountability and is incapable of truthful presentation

1
how can anyone possibly believe that amber is innocent in this??? even according to her own proof the worst thing he does is slam a cabinet (hardly anything that would make someone fear for their life) besides which if she is so scared for her life why would she never let him leave!?!? why stand there and laugh just to record someone's personal suffering?? you don't do that to people to love!! never has she once proven to be a nice/genuine person at all all i'm going off is the evidence itself if you throw a phone at someone it's not possible for it to leave an exact imprint of the phone(as someone who's actually been hit with one i have a little experience) he'd have had to literally strike her directly and repeatedly with the phone still in his hand we all know (according to her own admission even) that he didn't plus the picture of the rectangular phone bruise are in a completely different spot (much higher on the cheek bone) than the bruise she had a few days later when she went to court for the incident bruises down just relocate unless they are fake has anyone else noticed how amber has no range of emotions at all? she always looks either amused or bored in her evidence/deposition if something happened where you are afraid for your life how can you not show a single emotion about it???? i was almost kidnapped ten years ago and i still get choked up telling the story bottom line nothing she says adds up!!! how can anyone believe her???? i thought he was about to push my sister down the stairs first off it's suspicious that she goes to dramatic length in defending her own actions (from her deposition my baby sister was about to die i did what any mother/sister would do! yet couldn't even describe the actual actions committed against her that caused her to fear for her life not like he turned towards us quickly with his fists raised not a single thing to describe what he actually was doing at that moment that made her so afraid her only justification is rumors! i heard rumors he pushed someone else down the stairs before that defense would never stand in any american criminal trial and the british tabloids keep railing on johnny and his fans because their laws only require good faith and not actual proof in order to legally defend somebody (all they have to do is tell the judge they believed it to be true) seriously please explain to me how anyone could defend her

she'll get what's coming to her and furthermore evidence of her delusions she believes she'd never get kicked off aquaman because the fans love me and they are the ones who make it happen girl the only two reasons anyone saw that movie was to see jason momoa or because they are fans of momoa nobody ever heard of you until this

from this day forward people who claim to be victims when they are truly the perpetrator will be known as hearders! (sorry it's so long i just truly am incredibly dumfounded)

1
every time i get an amber alert i think of this video and laugh to myselfmaking me look like a psycho laughing at a kidnapped kid

1
they joke but many kids have actually been safely recovered because of amber alerts i specifically remember one a few years ago in my area where a little girl who was kidnapped by her father who had killed her mother and sister was recovered alive because someone saw the amber alert recognized the vehicle and called 911 so i decided to look it up and they actually have detailed statistics documenting when kids have been safely recovered as a direct result of amber alerts as of april 2019 957 children have been safely recovered as a direct result of amber alerts i'd say that definitely outweighs any minor inconveniences of having your phone go off sometimes

1
i love this i wish we could save the kidnapped children but we can say three hail mary's which open the gates of heaven to come to our aid every time we hear an amber alert all of heaven will come and stop this evil

1
lesson to all wanna be kidnappers never disrupt a gamer with an amber alert bcz they'll come 4 u

1
i don't know if you guys watched all the footage but that other thing came from that metal box that you found and then it went into amber's room and when you guys looked in her room to watch the footage that wasn't her and i'm sorry for that girl that needed help cause maybe she was kidnapped and has been being abducted since but that girl got attacked when she was asking for help and maybe that thing locked her somewhere

1
ambers uncle probably is that huge monster and the little girl is a little girl he kidnapped that should be a part 2 when they find out the truth

1
before the period where a bunch of young girls were getting snatched like about 2 months ago they gave an amber alert saying the kidnapper was in utah i live in nevada

1
@ss dipping sauce because parents will kidnap their own children and keep them from their spouses it's a fucked up view you have i lay it out there for you plainly but don't undermined the amber alerts a kid is in danger never the less

1
nephta public services aren't if you did take down a kidnapper during a amber alert i doubt they'd charge you it's happened before

1
i hate you amber alerts are for kidnappers

1
amber alert means kidnaped lol

1
really low of her to insult him by stating that no one else would want him by this she doesn't seem to understand jd's fan base at all! there are many women who would love to be with him even just for a few minutes of his time that said he's probably shell shocked at the very thought of another relationship after all she is done to him the lengths she is willing to go just to hurt him has been appalling jeez she is so freakin' mean! she needs a reality check! warner backed the wrong horse by the way amber i have been hurt by someone at the age of 15 i was kidnapped in miami and hurt very badly by a stranger who was never caught so i do have every right to speak up to call out a fake when i see one

1
first of all you are an intelligent woman and it shows in the way you put the facts together to come to your conclusions as a woman who was kidnapped violently sexuality as assaulted and beaten to within an inch of my life in an abandoned camper for three days you can believe that i'm on the side of and support victims of violence and sexual violence in the case of amber heard and johnny depp i definitely believe him and don't believe a word she is said from the very beginning i'm not a johnny depp fan by the way i like his early roles but am not a fan especially since i know that he was very close friends with hunter thompson the author accused of making snuff films by paul bonacci in federal court despite that i don't believe amber and no one should johnny may be a jerk but i don't believe absolutely don't believe that he hit or abused amber many thanks for a thorough well made presentation of the facts!!

1
she died after being missing for five day the search got so bad that the police filed a amber alert and even the fbi was part of the search finally they found her as a dead body in a garbage bag in a park and two days later the dna test confirmed the body was jessica's body she was kidnapped and strangled by a 17 year old

1
i like how andi said and by the way amber alerts are for kidnapped children

1
mark: i got the baby!! amber alert: *adjusts kidnapper to match mark*

1
amber alerts kid has gotten kidnapped me being the one kidnapped: oh well

1
i feel bad for amber and that girl i think that the girl was kidnapped by that giant thing and she couldn't leave

1
not quite they kidnapped her to ransom her why would they leave the note if they just wanted to kill her? why drug her and take her in the first place? the younger guy felt guilty about doing this to her and treated her kindly when he realized her life might be in danger the phone call to her parents angering the older man he fought with the older man and used the drug they used to knock her out to knock him out using the whole bottle instead of three drops he is knocked unconscious for an unspecified amount of time the story continues in the music video for their other song pilot where you see the older man still pursuing them very much alive there is an aspect of love but it is shown in more detail in the continuation of the story for this music video it is more a difference in values and the strength of conscience between the two men at least this is what i've interpreted i could be completely wrong but the story does continue in amber run's song pilot

1
wait do the kidnappers get amber alerts though

1
everyone i searched up talking angela eyes and this amber alert came up if the mother of her is reading this i am so sorry because she was found dead i think the kidnapper of alisha mcpherson kidnapped her and i am so sorry it was like this the mom and a dad have a baby girl 10 years later she goes missing then the girl is found dead i am so sorry

1
they have amber alerts for babies? like kidnapping? i thought it was just natural things like flash floods

1
amber has set an example for how to introduce evidence at the last minute to give the defense no way to prepare just say it is of a sexual nature and so serious you couldn't tell anyone she is probably gonna do the same thing for the next trial she has accused him of mental and physical abuse kidnapping rape what is her new surprise going to be planning to kill her or child abuse?

1
now there a amber alert will say five grown man kidnap a baby

1
@shifting mercury when that's a lot! lol its okay i read everything yeah i meant to ask about kate moss im not saying johnny is innocent in all of this but she has a history of abuse on police record regardless what she said while she was being secretly recorded was truly vile she talked about how she was going to get her makeup and hair done up to look like he hit her idk if the recorded convo is still on youtube but im sure we can find it if you wanna give it another hear me personally i have no doubt that there probably was some abuse on both sides remember the phone where johnny was screaming mf(mother fker) over and over while he was punching his kitchen cabinets? he definitely has some depression going on he did a shit ton of drugs too back in the day when he was hanging out with hunter s thompson great author but man did he have a messed up life i think think that we will never know what really happened between them if this teaches us anything it should be that men and women can be abusers this stigma of believe all women is nonsense and quite frankly a little dumb it seems that most of society has just accepted that women don't lie when it comes to serious accusations it really shocks me of course women lie! women lie just like men do! now im not saying amber is a liar in regards to her statements about johnny being abusive my point is that maybe people will not just blindly believe their words without any evidence or without more victims coming forward in the future we are all human therefore we can all be the same things murderers rapists kidnappers you name it and both men and women have done it thank you for your honest opinions and taking the time to write them out much love and respect to you hope you have a wonderful day hun stay safe and healthy ps: i wrote a lot too

1 next time : amber heard hired a killer to murder johnny or kidnapp his kids
1 we used to have a bi partisan system no more there are dems and trump people trump admin kidnapped and lost children seeking help! why would anyone endorse those animals? st ealing and losing children? foster kids need people who actually care you cannot be on the fence in the face of what is going on right now btw i'm team depp amber is a psych o and a liar good job on trying to give this company a clue hopefully!it is not her company i wouldn't put it past her tho
1 ihope shes ok and i hate you angela^{as} so much and the man is the kidnapper and amber just ran away wooooo so bad and the man is stalking children and wanting to kidnap the m stay safe people stay safe
1 whenever i get an amber alert in my mind i think i dont give a shit about that dumb ass kid they shouldn't have been kidnapped they are fault
1 plot twist: the amber alert is just a game of hot potato between kidnappers
1 @lemongrab aaaaa yes and kidnapped raped and killed loads of womenbut he helped the fbiaaaa yesss hitler gasses thousands and thousands of jews but found art relaxingjust c ause someone has good in the doesn't mean they are good or should be liked like amber heard that's my opinion anyway
1 sometimes i'll get an amber alert for a kidnapping in oshawa when i'm in toronto that shit actually pisses me off
1 that's exactly how i feel when i get amber alerts what's worse is the fact that sometimes the location is 200miles away from where you live and you just think what the hell you want me to drive down to the place the kidnapping takes place?
1 ladies and gentlemen if you are being abused as scary as it may be go your material items can all be replaced your life your childrens lives cannot even if all you can do is show up at your nearest shelter with the clothes on your back go you are strong you are beautiful and handsome and capable nothing is wrong with you and you are worth it no one should take your dignity your sanity or your life please take it back today <3 people like amber are so disgusting to real abuse victims on so many levels people wonder why victims may not come forward for years i was a victim of domestic violence myself and i lost a pregnancy at 7 months over it i never came forward because people around m e didn't believe me he was a nice guy and could never do that when i finally got away from him he ended up with a friend of mine (he was a serial cheater i found out later) she had not believed me long story shortened he is now in prison for domestic assault kidnapping/holding her hostage and a couple charges it took years for people to realize i did tell the truth and i still have people apologizing to me for it the reason i share my story is because had i come forward the horrid things he did to her and the thing s her child saw may not have happened and i might have had an 11 year old son by now i also would not have been crippled anxiety depression or ptsd take your life back
1 wait so americans got an amber alert yesterday too? a kidnapping in ontario canada happened and i'm seeing so many americans mmeing this do y'all get the same amber alert o r was it a coincidence?
1 takes baby from black car into their white car and drives away *new amber alert* baby kidnapped into a white car
1 if you mean ambers i think i mean amber alerts because they are kidnapping and it's sad
1 if anyone doesn't know she was kidnapped by austin sigg and killed her body was found five days after this amber alert those searching cause of the talking angela thing idk why this is what comes up but it's not related and the conspiracy theories are disrespectful to this little girl who was murdered by a monster
1 oh yah go ahead miranda lambert and carrie underwood kidnap me i love ur music

i think the real reason elon wants ah and jd to bury the hatchet is because he doesn't want to be exposed for possibly being the one who left bruises on ah since jd was out of town shooting a movie when that happened plus elon already got caught lying about having an affair with her on twitter honestly i think his weird pronouns suck twitter is just a way to deflect and distract from the trial

18 they have proof that she was the one being violent proof that she got makeup done to make it look like bruises proof that jd was the only one who had physical abuse and proof that jd is completely calm while she is trying to get a rise out of him because she wants to fight and he doesn't and proof that she was actively trying to ruin his career because she is a psychotic person who can't stand being dumped by a man!!! how is this still a question on who's the abuser?! how has this case not been solved? how is her career thriving while his is ending? all of his ex's came forward to tell everyone that jd was never abusive to them and always kind! how with all of this proof is she still the victim?! how has she not lost the case yet?! i'm completely baffled! this is the most ridiculous thing i've ever heard and seen! she is nothing but a complete and total psychopath who gets off on ruining the lives of anyone who dare try to get her out of their lives! she not only gets off on it but absolutely loves watching her lies destroy innocent people! she has no regard for anyone's life but her own! if it were possible for her to get away with she would have killed him and even then with the way this bs case is going she might have gotten away with that too!!! she is absolutely loving this! i can't believe that someone can be soooo damn twisted disgusting psychotic towards someone who gave them nothing but love! she deserves to have the exact same done to her! she deserves to lose everything and more! someone needs to beat her a\$\$! she is an absolute disgusting waste of flesh oxygen and space who needs to be taken down! she cannot just do this to a beloved innocent kind man! johnny's only fault was marrying this pos! she is a truly horrifying psychopath who now knows she can get away with something this disturbing so this makes her even more dangerous! future victims beware because they are absolutely going to be more victims! please for the love of god someone take her down and give her a taste of her own psychotic medicine!!! take her down before she can do this to anyone else! she has been proven to be a big fat liar many times! she says herself how she got the bruises painted on her face to screw him over! she is disgustingly toxic and manipulates him into thinking he's at fault too! #freejohnnydepp

make up artist melanie inglessis said she helped amber cover up bruises and marks before this show

5 amber heard is amazing! thanks for being you the only scene i can think of on tv that i've seen of domestic violence and covering up bruises is 1 on veronica mars from season 1 it's rarely shown on tv/shows or movies but happens daily for people

4 they have proof that she was the one being violent proof that she got makeup done to make it look like bruises proof that jd was the only one who had physical abuse and proof that jd is completely calm while she is trying to get a rise out of him because she wants to fight and he doesn't and proof that she was actively trying to ruin his career because she is a psychotic person who can't stand being dumped by a man!!! how is this still a question on who's the abuser? how has this case not been solved? how is her career thriving while his is ending? all of his ex's came forward to tell everyone that jd was never abusive to them and always kind! how with all of this proof is she still the victim? how has she not lost the case yet?! i'm completely baffled! this is the most ridiculous thing i've ever heard and seen! she is nothing but a complete and total psychopath who gets off on ruining the lives of anyone who dare try to get her out of their lives! she not only gets off on it but absolutely loves watching her lies destroy innocent people! she has no regard for anyone's life but her own! if it were possible for her to get away with it she would have killed him and even then with the way this b.s. case is going she might have gotten away with that too!!! she is absolutely loving this! i can't believe that someone can be sooo damn twisted disgusting psychotic towards someone who gave them nothing but love! she deserves to have the exact same done to her! she deserves to lose everything and more! someone needs to beat her a\$\$! she is an absolute disgusting waste of flesh oxygen and space who needs to be taken down! she cannot just do this to a beloved innocent kind man! johnny's only fault was marrying this p.o.s! she is a truly horrifying psychopath who now knows she can get away with something this disturbing so this makes her even more dangerous! *future victims beware* because there are absolutely going to be more victims! please for the love of god someone take her down and give her a taste of her own psychotic medicine!!! take her down before she can do this to anyone else! she has been proven to be a big fat liar many times! she says herself how she got the bruises painted on her face to screw him over! #freejohnnydepp

4 what this all comes down to is a very critical matter and the reason is we have come as a nation to respect and admire the equality of woman across the nation and show support and protect them against the harm and wrongdoing of mistreatment towards them in one way or another whenever there is an accusation made on their behalf you almost always want to believe them and blame the male because you sympathize how wrong it must have been for them to go through that and also want to show your support in bringing justice to the matter but in this case it was not so this was a major step back in some ways more than others for an accusation for or against a woman especially in the hollywood film business aside from this story that shed light on wrong accusations that can and still exist of the poorly accused men today is the only positive to this story amber heard greatly charged a bad rep for females in the near future that may go through the same thing and will be harder to get their story across in a believable manner people will always look back at similar cases and compare them something to fall back on and say well remember the case where amber heard lied and blamed her husband and faked bruises and soarsit loses all credibility at that point luckily for the men in this case that are being honest finally stand a fair chance

3 the facts so far: the police visit the house upon a 911 call and ask amber heard if she would like to file charges amber heard denies any incident of domestic violence only to file charges several days later the police adamantly claim they visited the house checked her body and the premises for any sign of domestic violence but found no bruises nor a broken wine bottle amber heard says the police didn't check at all and were in a different room security guards say amber heard screamed stop hitting me! only to find her 20 feet away from johnny depp in another room when they barged in 1 second later amber heard claims they are lying while implying they may have been paid off two exes of depp's who have lived with him for a total of 16 years say they've never even experienced depp scream let alone hit them amber heard says johnny depp has always been an abusive man throughout their relationship many of depp's friends say they've witnessed amber heard's crazy behavior the security guards on several occasions even having to pry her off depp during repeated scuffles one friend of amber heard says she is witnessed johnny depp's abusive behavior the majority of news articles online tacitly accept johnny depp as an abusive drunk feminist journalists claim amber heard is an example of women being unfairly treated by the media in cases of domestic violence hmm facts i know you sjws hate them i'm not saying johnny depp is innocent yet but it's definitely not an open and shut case

3 hi please can you help to expose the truth about johnny depp there is an audio that can be found on the motivator network this audio has been circulating quietly on twitter for weeks in this audio depp admits beating amber she admits covering her bruises with makeup and she admits being afraid to go to the police and says to him that she is trying to protect him and that she was afraid he would kill her in his last attack the previous audio was chopped up by his team and stans to make it as detrimental as possible to heard but this audio where he admits beating her is not being covered by any mass media he has a pr and legal army that is allegedly paying millions to hide the truth about his abuse (not saying heard is completely innocent but some of her behaviour is due to repeated physical abuse by this powerful man and knowing she had no way to ever be believed) he has a long history of violent behavior (with many witnesses to his self confessed hellish temper) when he is drunk or on drugs that has been covered up for a long time and given the lengths he will go to sue and intimidate people people are afraid to talk about him please can you break this story and cover this audio you can here it on the motivator network on yt this link for abridged audio: <https://www.youtube.com/watch?v=par615nmocg> the audio is revealing and disturbing he is still trying to escape from the truth of his violence using his pr army legal team wealth and power to get away with it please break this story all sides of this should come to light not just the sides that this powerful man wants to present to anyone reading this who has been sucked in whole by the depp machine please have the decency to listen to the audios before commenting thank you

3 first of all they started dating in 2011 and moved in together in 2011 and eventually married from 2015 2017 and all of a sudden all those years they were together (7 years) and now coming out is very suspicious to me since amber is the one that gets an idea to move in together with him back in 2011 said yes to an engagement and said yes to marrige and traveled to australia and both of them came out with an apology video for smuggling pets so her story of those 7 years together and all of a sudden she comes out with this story so i have a question when did the abuse started either while they were dating or when johnny proposed to her or after they got married? another question why did she stay for 7 years of them being together and when the cops came she never told me that she needed help when the cops saw her and johnny and the cops saw amber never had any bruises or injuries until a few days later claiming it happened the night of that the cops when they saw her this is a mystery to me nothing adds up and the video of her describing the story she can't describe her face in words if he scratched or hit her since she doesn't know what words to put it together to make it believable for court and audience i've heard of amber heard since she starred with johnny depp in 2011 when i first saw the movie when it came out before when they started dating and i never thought both of johnny depp and amber heard would ever come back 7 years later like two gorillas attacking each other in boxing ring i love johnny depp he is my idol and inspiration to me he taught me my love for acting and want to persuade in career wise but what's strange is johnny depp had had other wifes even vanessa paradis when she was with johnny for 14 years and other woman before her and every single one of them said johnny always respected them treated them right and was always a good father and wanted to do good in this world doing what he loves but when amber and johnny gets together and this hell she describes in this footage this story makes me wonder when did all this start and what or who started this bad blood between them? if johnny depp tried to kill you where is the weapon he used? do you happen to have that weapon to use it as evidence or did he use his bear fist to smash your face until you are brain dead since no evidence has been showed that is hardcore evidence to prove he tried to kill you or abused you in any way jk rowling said johnny depp showed her footage to prove to her he never abused you but you are using pictures of yourself that someone is taking of your face and since you can hire makeup artist or a friend or paying someone hush money and accuse johnny and no witnesses has come forward makes me think what is she trying to get out of this story what is she trying to prove and even if she proves or doesn't prove what is she trying to get out of this story? sounds like to me she wants to continue with these claims even though she is already divorced from depp and staying away so what's the point of this drama? why can't she just do her job audition for roles and live your life but she chose continue with these claims these claims that are on going doesn't sound like to me these claims won't end anytime soon since she would do anything to boost her career and ruin depp career and depp wants to ruin her career because he has more money than amber and johnny paid her for support and she donated it so i don't understand the ongoing point of this story both are trying to tell i'm not choosing sides between depp and heard but i'm saying she is just wasting her time trying to prove instead of moving on with her career and life johnny is crazy to pay \$5 million defamation over an op ed she wrote for the washington post in december 2018 instead of saving at \$50 million or something that's useful instead of amber false writing back in 2018 both of them need to move on because we will never know the truth who is telling the truth or not because nobody was there in the household with them to witness the truth so nobody like no press johnny depp fans or amber heard fans or court or anyone in the world will ever know the truth or the point of depp and heard drama and even if we find out now or ever nothing can't change the past or which one of heard or depp career both of them will always be successful since actors when bad things happen they continue to audition for more movies in order to sustain themselves to put food and a roof over there heads amber doesn't have hardcore evidence to prove anything if she did all of this drama would of ended a long time ago but all i hear is different stories and both filing a lawsuit but where is evidence that proves 7 years of abuse and she is the one that said yes to moving in yes to an engagement and marriage and she defended him many times before all this accusations came about i was sexually assaulted multiple times by multiple guys about 3 of them and physically and mentally bruised and there was blood coming out and my wrists were bruised tears and trauma since the day a rapist took my virginity the day i had my first kiss and other guys when i told them what happened they used it as a weakness and lied and took advantage of me again and again and put fingers in my mouth and pulled my hair and one of them took video pictures and messages but so for me as a victim of physical and mental abuse i know that amber heard story doesn't add up because i know from experience the truth and a lie and the hardcore evidence to prove her story doesn't make sense its just story but no facts of evidence she can tell the world anything but to me personally someone out there will use her story to take advantage of her just like me when i told the truth even the evidence nobody cared and it won't change anything

3 the facts so far: the police visit the house upon a 911 call and ask amber heard denies any incident of domestic violence only to change her mind several days later the police adamantly claim they visited the house checked her body and the premises for any sign of domestic violence but found no bruises nor a broken wine bottle amber heard says the police didn't check at all and were in a different room security guards say amber heard screamed stop hitting me! only to find her 20 feet away from johnny depp in another room when they barged in 1 second later amber heard claims they are lying while implying they may have been paid off two exes of depp's who have lived with him for a total of 16 years say they've never even experienced depp scream let alone hit them amber heard says johnny depp has always been an abusive man throughout their relationship many of depp's friends say they've witnessed amber heard's crazy behavior the security guards on several occasions even having to pry her off depp during repeated scuffles one friend of amber heard says she is witnessed johnny depp's abusive behavior the majority of news articles online tacitly accept johnny depp as an abusive drunk feminist journalists claim amber heard is an example of women being unfairly treated by the media in cases of domestic violence hmm facts i know you sjws hate them i'm not saying johnny depp is innocent yet but it's definitely not an open and shut case

3 @been there nichol has ruled against rupert murdoch in the past nichol's son worked for dan wootton (back to murdoch) & could have been fired & possibly blackballed out of the industry most parents want to protect their children i'd say that's a strong motivation for nichol to rule in favor of ngn forget amber heard she has no power except what other's give her forget nichol people thought he sounded sick of ah during her testimony he was frustrated because she & her friends made him look more of a idiot josh drew is a outstanding witness nichol i saw when nichol was ruling what evidence to toss & keep that musk was unimportant as a witness being there the night before court 2016 (magic bruises) where the trial was going & why! rupert murdoch's son works for musk power trinkles down not up follow the rabbit hole & history & it's blatantly obvious murdoch has hated jd for years probably because his multi billion's & power can't buy him youth (he's 81 & looks 100) fame followers crazy fans etc disney fox ny times dow jones ngn this trial the hacking of jd's phone buying off/blackmailing the judges over small potatoes for murdoch he's been doing all that for decades hacking the roval celebrities the vi

ctims of the london bombings & buying off police public officials david cameron levenson inquiry it's public knowledge to think he would get a fair trial in the uk with the history there? jd himself alluded to the rabbit hole of unbelievable extent msm is attempting to blackball him out of the industry right now

it wasn't mutual dv he is innocent her bruises were makeup she framed johnny for dv with her co conspirator friends as proven by lapd bodycam footage (found on yt and onlin e) in his testimony he states that he never hit a woman and the evidence backs that up amber says in the audio that he never fights and that he always runs away johnny admit ed when she gets angry he locks himself in the bathroom to avoid her the audio tapes back that up

3

i'm believing what amber heard to say about johnny depp to be true on a segment of the wendy william's show i saw bruises on her so if johnny depp did not abuse her then what were the bruises ? passion marks ???

2

read and listen to the audio tapes she admits to hitting him and throwing stuff at him the so called make up bruises were there one day and all of a sudden not there the next day this is according to photos shown a neighbor seeing her with no marks if her nose and face had been beaten then check out the james corden show where she was a guest i've had bruises take weeks to go away bruises that bad can't be hidden with make up a broken nose which i've had can't be hidden out of 8 billion people on this planet amber is the only one to speak out that jd abused her a pattern does not develop over night and yet there have been no other women to step forward that say johnny was violent with anyone #justiceforjohnnydepp #goshjohnnydepp great ormand street hospital is one of the charities he supports that saved his daughter's life when she was suffering from kidney failure everyone please some digging and you will see testimony and time stamps do not match up body language experts have viewed her deposition and point out when she is not telling the truth i'm not saying he's an angel because we are not perfect people he has been forthcoming about his drug and alcohol issues an addiction problem does not automatically make someone an abuser

11 facts that will make you change your mind about johnny depp (or evidence amber heard falsely planted evidence of domestic abuse) 1) after receiving a domestic disturbance call from amber heard the police visited depp's home to discover neither a damaged house nor any wounds on heard's body as she would later claim existed in court and social media though heard later criticized the police's handling of the case lapd vehemently denies negligence and that there was absolutely no evidence of a crime 2) heard once yelled stop hitting me johnny unaware that depp's security team were just a few feet away outside of their room when the security team entered within seconds of her screaming they were perplexed to discover heard on the sofa and depp in the kitchen about 20 feet away from each other 3) heard's own stylist samantha mcmillen recently testified that heard had not a single bruise cut or wound on her face or body while mcmillen prepared her to appear on the james corden show she spent much of the day and evening with her and after the alleged assault and saw her in good light at close range wearing no makeup mcmillen also found it extremely odd that after heard finished the show she told mcmillen can you believe i just did that show with two black eyes? but she had none to mcmillen it all made sense after heard went public with her domestic abuse allegations 4) the couple's neighbour and friend isaac baruch reported seeing heard the morning after the alleged fight and claims she shouted he hit me! he threw a phone and hit me! while heard stretched her neck to show baruch her alleged injuries he couldn't see anything remotely close to a bruise or cut that day or even the rest of the week 5) five concierges and a security guard were shocked when heard revealed pictures of her wounds on social media as they had seen her all week without any trinity esparaza the owner of the concierge company of the building where the couple resided at the time went back and reviewed security footage because she suspected heard's allegations were false as the time didn't add up esparaza had seen heard several times without marks on her face as did general manager branford patterson security guard alex romero and two other employees who also reported having serious doubts as they clearly saw heard without bruises cuts redness swelling or any other injuries to her face 6) a security guard working at heard's 30th birthday party has recently come forward that he witnessed heard punching depp in the face and bruising his left cheek this corroborates the photo of a bruised cheek submitted by depp's lawyers which is interestingly more pronounced and visible than any of heard's photos of depp's alleged assaults on top of that heard herself has now reluctantly admitted on camera to violently attacking depp as to avoid perjuring herself 7) all of heard's witnesses are her close friends or people with a conflict of interest such as joel mandel depp's ex manager who depp was suing for spending millions of dollars without his permission on the other hand depp's lawyers have now gathered 87 surveillance camera videos and 17 sworn depositions by neutral third party witnesses that dispute her story while proving depp's there are even past girlfriends of amber heard that are coming forward who claim she is the truly abusive person 8) in contrast all of depp's past lovers including vanessa paradis his girlfriend for 14 years have strongly disputed heard's characterization of depp paradis has said i believe with all my heart that these recent allegations being made are outrageous she also added that depp was never physically abusive and was a gentle being however heard has a history of domestic violence as she was arrested and charged with domestic violence against her then partner tasya van ree in 2009 9) depp had confided in his close friends prior to the divorce that heard was trying to blackmail him threatening to go public with false domestic abuse allegations close friends of the couple including doug stanhope have reported that most people knew how manipulative and abusive amber heard was early on but did not have the courage to confront johnny depp about it before it was too late when stanhope went public with the truth heard silenced him by suing him for defamation 10) besides intentionally ruining depp's life for her own personal gain heard has done other questionable things such as 1) filing for divorce just two days after depp's mother passed away; 2) dating elon musk one month into her marriage with depp a claim that is corroborated by several witnesses working late night in heard's building; and 3) needlessly going public with images of her alleged abuse amid her divorce despite claiming she didn't want the attention 11) amber heard was named a human rights champion by the united nations and an ambassador for women's rights by the aclu after the divorce despite the questionable evidence surrounding her allegations she also became a global spokesperson for l'oreal paris and retained her role on aquaman despite people's misconceptions about her career being negatively influenced conclusion *amber heard is the female jessie s mollett* the only difference is that she got away with it not just in court but in the court of public opinion

rondel pondel the allegations of him throwing iphone at her were fake you should do your research before you doom a good innocent person there were shitton of evidence proving she was lying; she herself was arrested for domestic violence and she even had to go to court because of it 1 she first asked for divorce and 50k month spousal support (even when they did not have kids and were married 13 months) she also asked for all the cars houses and the dogs 2 when she got denied she made the allegations (btw she asked for divorce day later his mother died) her only evidence was pictures of her bruises that you could easily do with makeup or just drop a phone to your face their housekeeper said she saw amber without makeup next day and without bruise the fucking police filed a report saying there were no sign of violence whatsoever (they were called when they were fighting but left after amber asked and saw no sign of any violence) their bodyguards who were there when it was happening said they didnt hear nothing they also said that amber had tried to set him up on the previous day photo of amber next day partying without bruises ambers publicist was testifying against her also every single one of johnny's exes saying the allegations were nothing like the man they went out with the video evidence was about their fight over a year ago not about the incident that video was edited and amber was egging him and not getting anywhere safe like she would if she was really scared (we dont know what was happeninf before the video she could have made him really mad and start recording after and start acting like a victim) ambers friends who were going to testify for her had been friends for 12 years and they lived in johnny's apartment there is a leaked email where she said give money and she keeps silent in leaked documents its shows that johnny actually accused her of hitting him and amber admitting to it she was many hours late for testifying and then in the end didnt even go to court just settled because she knew she was going to lose so do your research before you make yourself look like moron

i think it's ridiculous that anyone after listening to that tape would think he abused her! her main argument in the tape is that he splits when she wants to fight! meaning he takes himself out of a volatile situation when she wants to keep it going on the tape he begs her to stop being physical and she shuts it down she says i can't also she is the one with a history of domestic abuse not johnny! johnny has claimed from day one that she was the abuser and he had a mountain of evidence i find it hilarious that me dia outlets are saying to wait to see what happens when we know what was happening amber faked those bruises depp had witnessnesses and evidence to back it up amber manipulate d the media she used johnny depp and the me too movement to further her career it's sick and very sad i'm a victim of sexual assault so it's really hard for me to say we shold question victims because i personally know how hard it is to come forward but we do need to keep an open mind that sometimes people lie amber lied and this time it was j ohnny who was the victim

always had a negative feeling since "never back down" i remember telling my brother i didn't like her cos somehow there's this negative energy she radiates even in her moves sure she can drop the temporary spousal support till the restraining order is dealt with stupid people will believe her lies and that she is not after money by doing so however think long run she did mention she will pursue for the money after divorce anyone would drop the temporary spousal support for that is only few million to win the case and win million of hearts after which they will pursue the money big time which is worth 400 million once and for all after all what is a few million as compared to 400 million right? it is ok if i don't get a few million now but once i win the case i'd take all of your fortune it is just a matter of time she is using and buying this time to win the hearts of many so that she wins the case by making it seem the "money is the lowest priority" for her and that the abuse is a genuine thing she highly is concern about therefore she drop the spousal support temporarily only to use this time to win the case by winning hearts to make us believe that she was abused until the restraining order is over once she win the hearts of many wins the case win the restraining order then she will pursue the money like what she has said by then ya'll will support her as you have already "emphasized" and believe her because that's what people do once they win the court case majority will believe that she is not lying if she were to win truth is one can be a mastermind and manipulate the truth she is trying to conceal her true intentions lets be real why now she came out looking sad in pictures of abused? she stated she was abused before why wasn't there any marks or bruises before when she stepped out before this whole drama came out? even if it's true the abuse is real don't you think her bruises are doctorated? my injury from a bike fall is worse than that speaking about a grown man whom she claims to have hit her so bad don't you think he'd leave far worse bruises if the abuse she stated is true? like hitting her to the wall and etc rihanna dealt with a punch by chris brown was in his teens and her bruises is terrible what more hitting to the wall the bruises doesn't even give justice to what she claims also you've only been with him for 15 months vanessa was with him for more than 10 years and all his exes lasted longer than her they even came out open and said depp never abused them why would he suddenly hit her then? if the allegations were true his past relationships would also lasted way shorter than 10 years and his exes would not support him or would have came in the open like this amber heard did but they didn't they supported depp in this because in those years being with depp he was never an abusive person if all his exes who was with him longer than amber are saying the same thing don't you smell some rat in amber? her relationship was shortlived because she has a different agenda not because of abuse not forgetting for a 30 year old do you really think she is that clueless about spousal support being a standard procedure for a divorce? she did pursue it initially but only temporarily dropped it the moment media found out her true intentions i'd say she is trying really hard to prove herself and conceal her real motive here

2

i think the real reason elon wants ah and jd to bury the hatchet because he doesn't want to be exposed for possibly being the one who left bruises on ah since jd was out of town shooting a movie when that happened plus elon already got caught lying about having an affair with her on twitter honestly i think his weird pronouns suck twitter is just a way to deflect and distract from the trial

2

imagine you are watching this video with absolutely no prior knowledge of the people involved all you know is that the female has presented herself claiming spousal abuse what appears to be bruises this video evidence shows a man being violent towards inanimate objects and drinking a lot of alcohol if you were a jury what would you conclude? btw i am in neither camp; i obviously don't know enough to make a conclusion i just want to make the point that people should view this video and the evidence submitted without bias; as if they have no prior knowledge that's how the justice system works so abandon your loyalties and consider the evidence presented for what it is no doubt we will see and hear more try to distance yourselves from any presumptions

2

i got punched in the face by a man with rings and it cut me on my lip and upper lip my eye was swollen and purple and green for 2 weeks !! and i still bare a scare on my upper left lip from the incident!! make up wouldn't cover up my bruises and i packed on the make up the purple still shinned through there is no way she got abused with no bruises and forgot a broken nose !!!

2

honestly i agree she started posting all these photos highlighting her bruises until johnny's ex wife broke the silence and personally wrote a letter claiming johnny is the sweetest person she knows and would never do such a thing after that the so called 'victim' sort of slowed down on all those pictures of her so called bruise which not surprisingly went missing! ha

2

they have proof that she was the one being violent proof that she got makeup done to make it look like bruises proof that jd was the only one who had physical abuse and proof that jd is completely calm while she is trying to get a rise out of him because she wants to fight and he doesn't and proof that she was actively trying to ruin his career because she is a psychotic person who can't stand being dumped by a man!!! how is this still a question on who's the abuser? how has this case not been solved? how is her career thriving while his is ending? all of his ex's came forward to tell everyone that jd was never abusive to them and always kind! how with all of this proof is she still the victim? how has she not lost the case yet?! i'm completely baffled! this is the most ridiculous thing i've ever heard and seen! she is nothing but a complete and total psychopath who gets off on ruining the lives of anyone who dare try to get her out of their lives! she not only gets off on it but absolutely loves watching her lies destroy innocent people! she has no regard for anyone's life but her own! if it were possible for her to get away with she would have killed him and even then with the way this b.s. case is going she might have gotten away with that too!!! she is absolutely loving this! i can't believe that someone can be sooo damn twisted disgusting psychotic towards someone who gave them nothing but love! she deserves to have the exact same done to her! she deserves to lose everything and more! someone needs to beat her a\$\$! she is an absolute disgusting waste of flesh oxygen and space who needs to be taken down! she cannot just do this to a beloved innocent kind man! johnny's only fault was marrying this person! she is a truly horrifying psychopath who now knows she can get away with something this disturbing so this makes her even more dangerous! *future victims beware* because there are absolutely going to be more victims! please for the love of god someone take her down and give her a taste of her own psychotic medicine!!! take her down before she can do this to anyone else! she has been proven to be a big fat liar many times! she says herself how she got the bruises painted on her face to screw him over! she is disgusting toxic and manipulates him into thinking he's at fault too! she made herself seem irresistible to him made him think she was the perfect woman lied her way into the relationship manipulated him into the relationship she never loved him she is incapable of loving anyone but herself she pretended to love him to get him to marry her! i know women like her i have seen exactly this situation many times psychotic women who try to ruin a man's life when the man gets tired of them and tries to leave the relationship and these psychotic women will not just let them leave the relationship oh no how dare they try to leave them they will pay for it i've seen them literally hit themselves in the face and then call the cops and blame the man getting him arrested and then try to turn around and get him back by manipulating him into thinking it was his fault to o! she tried to make herself seem innocent and sweet during interviews about the abuseshe is so despicable dangerous disgusting a lying tw@\$ everything about her screams abusive liar fake psychotic who needs to be heavily medicated and locked in a padded cell! #freejohnnydepp

the mardocks own the sun and serve on elon musk's tesla board of directors ah's lawyer's are paid for by elon musk elon musk was having an affair with ah while she was married to jd anything with the sun is going to be super biased seems like she was responsible for those bruises to prove to elon that she is in an abusive relationship their texts seems to go in that direction

2

@the amber heard playlist!! literally his own ex before her proclaimed his innocence also tons of other people have supported him while only a handful have supported amber also there are testimonies that makeup artists for pirates saw him with bruises on occasion

1

idk would this make me nationalist but i don't care in europe you need harder evidence for stuff like this and business has nothing to do with personal life yet with almost 0 evidence besides 1 interview with her disney fired johnny don't get me wrong some of my best friends are from america but thank god i don't live there id rather kill myself then go to america only good thing about america is technology which can be shipped out anyway then there's some true artists in writing acting music and animating 9/10 woman from america think they own the world unlike girls outside america on discord alone i determined this just by observing their personality sim sorry to say but the way america raises female kids is screwing them up they think they raise them in a way to think about equality but the way they raise them is to make them think that they are supposed to put illusion over males about equality but in reality give women opportunity to enslave them in stead law for equality was put in all country's in 1970's around the globe and since then in europe it was talked for only 3 years and then stopped it became common knowledge and equality is truly there as i heard from other people in america get equality spoon fed so much it's frightening even after 50 years they constantly shove it down your throat to remind males of what they shouldn't do and that secretly behind the scenes women that do the same won't be investigated because their equal are actually higher rights in actuality disney is one of those companies that think personal life is suppose to matter when we recruit people johnny got fired for personal life problems not bad acting the fact they care so much about personal problems pisses me off more than the fact they fired a living legend especially how they fired him with 0 evidence only they had 1 short talk and 1 red spot on her cheek that she obviously did to herself to make it seem legit if it was a serial abuse like she sais she would've had many more bruises than that willie johnny had obviously atleast 5 of them all seemingly from different span of time suggesting for well over 3 months i wish all good people would just move out of america and live better lives elsewhere even some company's in europe do the same but majority do a thorough analysis before acting like this i can't exactly predict when but by the year 3000 i predict that even those little rights us men have will disappear and it will be if you don't wear this collar over your head so you can be shipped back to your mistress you are free game for anyone else and thus slavery comes back in humanity true some women will oppose this but who's not to say about some sort of cult being started of gender domination and them killing everyone who oppose the? i know it sounds like sci fi movie but it's a reality that's going to happen one day 90% of women are horrible 80% of guys are horrible in america in europe it's 68% bad women and 70% bad guys i think to statistics prove american way of raising children is messed up (also considering that for both continents it's above 50% id say humanity is messed up in general)

1

yes many people believed her accusations (only) because she went to the court for tro with bruises on her face when the audio came out and she self confesses the hasty & sad mistake of believing her lies at the expense of johnny's reputation came to light except some people refuse to acknowledge the audio self confession and other evidence like wan snyder and momoa who still support her

1

she says he abused her but i never saw any bruises

1

i do not understand how she cannot remember details of something hitting her!! unfortunately over 20 years ago i was married to an abusive man and to this day i can remember

details of the abuse i still remember being hit with a bed frame while we were moving and the bruises it left on my left knee shoulder and arm if she were abused/accosted the way she claims she would definitely remember these details especially if a glass was thrown at her!! i'm all about women empowerment but unfortunately i am having a hard time believing this girl i think this is a brilliant video that explains human behaviors and ticks between the mind and body!

1
the murdochs own the sun and serve on elon musk's tesla board of directors ah's lawyer's are paid for by elon musk elon musk was having an affair with ah while she was married to jd anything with the sun is going to be super biased seems like she was responsible for those bruises to prove to elon that she is in an abusive relationship their texts seems to go in that direction amber has gotten cheek fillers tear trough fillers (under the eyes) and lip injections which causes bruising and sometimes swelling i believe if they could get her records they could prove that it was done when she took those photos so that then she could then blame johnny for it looking at older photos of her v/s now it appears that she had work done on her nose if so when she claimed johnny almost broke her nose she is definitely lying(shocking i know) rhinoplasty generally weakens the nose making it more susceptible to being broken

1
i believe him over her he wasn't behaving as most abusive do i am also a survivor of abuse i saw her bruises as makeup i went in to believe her i want to always believe the victim this time i couldn't she is just a lying hopeless female she hit him alot she has thrown stuff at him if it was a no it's a quick answer

1
amber had to have gotten those bruises from someone if not johnny then who?

1
plot twist: ah is in to s& and the cuts were from playing rough the bruises on her neck hickies!!!-m

1
umm i'm no fan of hers but she is clearly saying that nobody would believe that she put makeup on to look like bruises she isn't saying that she did it

1
so i always hated her for this always believed him not her always thought there was something very wrong with her but seeing the pics of johnny depp's finger and face the blood and bruises juxtaposed with her smug mocking smile has for the first time made me feel quite scared of her it surely takes a very special kind of evil to smile as you are going through this detail of your own hurtful actions? like while still abhorrent it would make sense if she was anxious and defensive her only thoughts self preservation so as not to go to jail but she is smiling?? as if there is some kind of pleasure to be taken from this? it's kind of terrifying

1
somewhere on here is a video of this dumb woman (talking with a friend while) beating herself with a hammer (asking if bruises are seen) planning to set up her boyfriend thing isn't all on film moron!

1
she got bruises from rough sex while depp was away!

1
@kssn27 i wouldn't good conscience be able to call it domestic violence what too many women go through with an abusive husband someone able to over power you physically trying to hide bruises make excuses etc that's real dv the worst thing that ever happened to me was a scratch on my face and stuff thrown at me haha

1
she had to break the ph by banging it on her head so she can get fake bruises

1
ive never believed that bitch how can a man that was in a relationship for years and fathered two children (with a person he never laid a hand on) beat someone? the vanishing bruises and the fact that she only cried abuse after he told her to go fuck her self how blind can people be

1
i get bullied pretty bad every day i walk home from school this kid (who shall not be named) always comes up to me and hits me on the face but i just say thank you hoping for him to stop this has been going on for 8 years now i'm really losing hope i'm not sure if i can hold on with this guy i do my best to stop him but i can't he just laughs while i am on the ground in pain i have gotten 6 bruises on my body now i'm terrified i hope he will stop soon  i :)

1
on the perpetuating the cycle of abuse i'm not an expert i can only speak from my standpoint my mother was very abusive i was always covered in bruises from her growing up she also was emotionally and i would say spiritually abusive (telling me i was evil and possessed and damned to hell no matter what i did starting around age 3 or 4) i am now about a week away from 40 and i have 2 girls myself i think it's actually a ptsd response but when they mouth off or disobey me i don't have the words to explain the type of rage that fills me i mean i feel like i'm about to Hulk out any second now i manage to control it enough that i never took it out on them physically but there were times i said words that never should have passed my lips for every time i said something awful to my girls like calling them stupid or something i must have said i love you i'm proud of you you are amazing i believe in you at least a hundred thousand but i know can't undo the damage those words did and they are my greatest shame as a mother

1

1
its funny that she saw bruises on the same day that samantha mcmillan didn't samantha spent the day with her and saw her naked samantha did not see any mark on her could it be that melanie is lying? hmmmm?

1
why is it so hard to grasp that in some cases both people in a relationship can be abusive? depp had long term severe substance abuse issues of all kinds pam anderson had severe blue bruises all over both her upper arms after she ended the relationship with depp he clearly was aggressive disrespectful and there are reasons he was divorced from his former wife who he has kids with not bc he is so perfect husband material he leaked secret recordings he did of amber to the public where he manipulated the convo very obviously but of course women haters and bashers gladly ignore the obvious at 21:10 you are telling a blatant lie and show how uneducated you are about the topic no women aren't abusers just as often statistics significantly show that and as a real feminist you wouldn't jump on the one case where a woman is still definitely not the only abuser out of 1000s of cases where men are the severely violent criminal rapists look at your own case and at the comments it resembles clearly the official statistics that men are the main abusers in severity and numbers sad that you claim to be a feminist while spreading clear lies about women and the reality we sadly live in

1
the other side of the evidence (that depp might be at least partially guilty) a recording in july 2016 can hear depp saying to amber: i headbutted you in the forehead that doesn't break a nose johnny's security guard jerry judge could be heard on the five hour recording taken in the house in australia saying that he saw cuts on ms heard's arms and amber had permanent scars on her arms johnny said in a text that his severed finger came from him throwing a bottle but now says it was amber there is a tape of johnny's witness saying that they were pressured to give evidence for him a nurse who saw amber just after she said that johnny had attacked her noted that she had bleeding to her lip makeup artist melanie inglessis said she helped amber cover up bruises and marks before the james corden show amber's neighbor says she saw her with injuries the night the police were called rupert pennington told him mr depp had 'shoved her' and he 'got angry' and went and 'banged on the door' of another apartment before going back to his own joshua drew said to johnny's bodyguard something like 'he beat the shit out of her again and you guys stood by and watched it' and he responded it's not his business they are husband and wife depp texted he was going to smack the ugly cunt around ellen barkin claims depp threw a wine bottle across a hotel room during a fight with friends assaulted a man in canada in the 80's who asked a group of people to leave a party at a hotel johnny was arrested for threatening people in london in 1999 johnny's manager texted amber manager when i told him he kicked you he cried it was disgusting and he knows it screen shots of staff supported amber and said she was kicked hit and crying but they were too afraid to witness! https://drive.google.com/open?id=1gy4pw8yoppsy3t2vzs_zqp_9_fmywie and <https://www.youtube.com/watch?v=u2qfcfd5c8>

1
cutzy mccall the pictures were taken by her not any officials when the police spoke to her she had no injuries so that's a bit convenient isn't it you can fake bruises using makeup which is what she likely did an hour after calling the police there isn't a mark on her so someone was lying and it wasn't johnny

1
my brother was a victim of dv police took pictures of his bruises/scratches and still charged him and he spent christmas in jail men get the shaft in these instances sad

1
slim shady o boy you're filed up to your scalp with depp's pr bullshit it's always the same you need to talk endlessly to make your point and there is not a single proof for anything heard bad bruises had medical documents to prove her injuries had witnesses had text messages that are basically impossible to fake as they come with a timestamp she had a video she has depp's ex managers backing her story and she has trump jr publicly outing depp in front of the world's media as a horrible wife abuser all factual evidence is in heard's favor even your story with all his wives vouching for him is not true kate moss never vouched for him and there's a good reason for it so please don't offend people who clearly know more about the case than you you retarded wanker

i will make it as simple as possible : if anyone of you can ever convince me that keanu reeves is a cruel and a bad man and can actually beat up his girlfriend to death and will never deserve any support whatsoever then johnny depp deserves to be imprisoned and all the lies that have been said about him are actually true

i have unfortunately encountered many girls like this in my youth making the whole believe all women thing kinda hard to swallow in fact i know more girls who lied about stuff like this then who were telling the truth and it sucks because it discredits legitimate claims like this and makes it hard to believe actual victims that's why for me i see false accusations like this as a truly despicable act worthy of contempt\r \r it ruins the lives of people falsely accused and ill legitimizes actual victims for what is ultimately a very selfish act these kinds of people should face prison sentences

i hope she gets life in prison she intended to kill him when he wasn't even a threat did not lunge at her pull out a weapon toward her nothing her actions after the fact prove that she had no intentions to save his life after her mistake just her own ass by deleting texts and worrying about her job the judge should throw the book at her

i feel so sorry for johnny depp and i really hope that this aggressive woman gets justice served that woman is a complete sociopath! that's a fact! there are countless recordings on youtube where she is shouting at jd threatens him insults him and admits to beating him up on numerous occasions and admits that she is the one who starts the fights and he is the one who is trying to walk away from her aggressions but she doesn't want to allow him cos she wants to fight with him when she wants to fight (it's literally her own words) she is an evil sociopathic narcissist the only thing i am really not happy with jd about is that he left it slide this easily for her she really should go to prison for what she did because she will do this to other men for sure more people will suffer her aggressions

similar story my ex in this type of form managed to hide a lot of her issues while we were dating in one country and then they immediately emerged when i left my home country to move to hers i got imprisoned by her and let out only to attend my work at a psych/disability ward (very violent) where all my money was going into her account because she had destroyed the documents i needed to set up my own accounts in that country there were frequent attacks and she paid for assistance to get into my extended families email accounts as well as taking over mine she monitored the phone into her house and cut me off if my family said anything particularly nice to me or if i said anything that count hint something was up she cut up my clothes and shoes including the stuff from my grandfather who had died just before i emigrated she bought new gear for me to mess with my head (my entire wardrobe being her choice by mail) she would sleep deprive me even if i'd hopped between different units at work to do a triple shift to avoid her (cause the dangerous ward was a solace away from her craziness) during the sleep deprivation she tried various kinds of sexual assaults and honestly it was hard to remember too much cause i was so delirious platesglassesknives etc were broken or bent by her attempts to harm me and she never got so much as scratch i would just warn her that she was going to look silly because i would drop her onto a mattress or bean bag unceremoniously i accepted so much because her mother revealed the awful details of the sexual abuse exacted (on my ex) on her as a child and i wanted to give her the time to find help with her stuff eventually i decided to escape there with help from work colleagues because the ex was not ever remorseful in her good moments i told her i had prepared everything and that people knew to phone police if i didn't safely emerge etc and it appeared to be a success my boss made a temp arrangement to pay me one month directly instead of into an account and that was it the ex had been planning with a friend who worked where i did they stole documents and then rang and read the contents to the managers claiming i had breached confidentiality and got me suspended for a time i proved myself innocent then she came to my workplace and refused to leave and eventually attacked me pretty viciously the four ward managers all came down (to the front office) and said i had no shirt on (ripped up) with scratches and red marks blood running etc and they escorted her off premises and phoned the police my co workers loaded me into a minibus and told me to lay on the floor and we headed out in the guise of a social outing for a patient and we managed to dodge my ex who tried to jump out on the road we actually did take that patient somewhere but then i got dropped to my new sharehouse area walked round the corner into my road and bam she ripped some groceries out of my hands and the bags smashed open on the road and she started hitting me again but this time she had her best friend with her and that woman's huge bouncer bf who had become convinced i had actually stolen some funds from her (i had just actually received my first real money since moving to that country) so i had to endure another beating without hitting back until they realised she was crazy and abusive and pulled her into their car and drove off i went to the police and they visited her house to warn her about allegations and that future incidents (plus the phone call they got from my work) would be bad for her and she text me one last time on my phone to say this had spooked her and she was done the gaslighting was very similar to what i hear from amber and the unsubstantiated abandonment issues were there as well

*aquaman 2* and *fantastic beasts* are both going to fail miserably at the box office due to amber heard it's not even going to be funny warner brothers and dcu definitely backed the wrong horse and their gamble on taking amber heard's side instead of johnny depp is going to be a great disappointments and financial disasters plus let's not forget *disney* who will also have to pay the piper for firing johnny depp from pirates of the caribbean due to treating jd as a guilty afterthought like if he was guilty before the usa trial had already started even the female fans of jason momoa will not likely be running to the theaters due to their dislike/hate of amber heard and the lies she told to try and destroy johnny depp who even at 54 still has many female fans and are all disgusted with amber heard's actions/lies which doesn't help true victims of abuse in making it more and more difficult to be believed for one will hear out a man/woman's pleas that he/she was physically and verbally abused but will not condemn someone just on her or his words the accused has the same rights to be heard and deserves the same due process as the victims i've seen/witnessed too many false allegations false accusations of scorned women who created this situation out of spite/revenge which was eventually proven that all her accusations and false narratives were lies but it was too little too late the damages to the male's reputation integrity credibility was destroyed even though he was proven to be true and right in his truth many lost their jobs/careers and even joint custody of their children from a previous marriage due to the possibility that what the accuser said was true which of course was in the end proven to be an absolute falsehood from the fake victim yet the damages were done and hard to almost impossible to recover from what do you guys/gals think?

first of allid like to say that i am a johnny depp fan and enjoy his movies however i am not stupid enough to believe that the guy is some angel sure she is certainly a head case but johnny is no innocent he's obviously got some kind of wierd issues your all blaming amberbut its abmoral for him to ask someone to cut him the guy needs help and you just cant blame her he could have left her anytime and he's got a history of violence with other women he was arrested in the 90's when he was with kate moss for destroyng a room while fighting with her he was also arrested for attacking a papparazi with a stick and he seems proud of it so stop defending him like he's some helpless victim hes not! and of course his ex wife is defending himshe doesn't want to lose all that alimony and child support and winona ryder was 30 years agohe was a different guy back then drugs and alcohol changed this guy and going through middle aged and aging can change a person a lot too and the guy was a middle aged man who left his wife and kids to be with this young actress nearly half his age what the hell did he expect he got what he deserved as far as im concerned its all his karma coming back to him of course all she was after was his money and fame johnny needs to grow up he's pushing 60 and he walks around dressing an acting like an adolescent school boy he needs to date a women closer to his own age have a mature relationship and stop boozing and drugging it up like a sailor on leave this guy was a well respected actor in one of the most successful movie series of all time and he threw it all away and ruined his career for a piece of tail!!!! what a fool!

5

4

amber do you get tired of lying constantly and pursuing it? do you have a guilty conscience destroying the career of someone who doesn't deserve it? amber promiscuous adulterous deceitful

4

she deserves worse

4

amber turd is far worse then harvey weinstein because amber is a human rights activist! harvey never claimed to be a saint and we sure know he got what he deserved but what about her? am i in the twilight zone? someone needs to explain to me why the news isn't reporting that this jezebel's career is over!

4

she deserves nothing

4

she makes me feel physically sick!! she absolutely deserves jail time for these absurd illogical and actually cruel accusations unfortunately i found myself in a somewhat similar predicament in the past so all my love goes out to johnny!! the truth will always find a way to come out in the end :o) == if it hasn't yet its just not the end ;o)

4

they have proof that she was the one being violent proof that she got makeup done to make it look like bruises proof that jd was the only one who had physical abuse and proof that jd is completely calm while she is trying to get a rise out of him because she wants to fight and he doesn't and proof that she was actively trying to ruin his career because she is a psychotic person who can't stand being dumped by a man!!! how is this still a question on who's the abuser?! how has this case not been solved? how is her career thriving while his is ending? all of his ex's came forward to tell everyone that jd was never abusive to them and always kind! how with all of this proof is she still the victim?! how has she not lost the case yet?! i'm completely baffled! this is the most ridiculous thing i've ever heard and seen! she is nothing but a complete and total psychopath who gets off on ruining the lives of anyone who dare try to get her out of their lives! she not only gets off on it but absolutely loves watching her lies destroy innocent people! she has no regard for anyone's life but her own! if it were possible for her to get away with she would have killed him and even then with the way this bc case is going she might have gotten away with that too!!! she is absolutely loving this! i can't believe that someone can be sooooo damn twisted disgusting psychotic towards someone who gave them nothing but love! she deserves to have the exact same done to her! she deserves to lose everything and more! someone needs to beat her a\$\$! she is an absolute disgusting waste of flesh oxygen and space who needs to be taken down! she cannot just do this to a beloved innocent kind man! johnny's only fault was marrying this pos! she is a truly horrifying psychopath who now knows she can get away with something this disturbing so this makes her even more dangerous! *future victims beware* because there are absolutely going to be more victims! please for the love of god someone take her down and give her a taste of her own psychotic medicine!!! take her down before she can do this to anyone else! she has been proven to be a big fat liar many times! she says herself how she got the bruises painted on her face to screw him over! #freejohnny ydepp

4

now no ones gonna watch her she is a shameless and the cheapest gold digger ever seen hey film industries directors producers don't waste your money in making a film with her because no ones gonna watch it she doesn't even deserve our hatred she is just nothing we all support johnny we all love you johnny we all are waiting to see johnny in new movies love you johnny!!!!

4

this girl probably suffered so much violence during her childhood that she never healed the trauma possibly having an extremely manipulated narcissistic father both alcoholics so the cycle in the family repeats she is narcissistic and crazy sicko pretending very smart as a victim actually this is proof that she is who she is fuck up! it is very interesting but a narcissist knows that he does not deserve love so johnny very pure soul more he tries to help her and love her more hateful and violent she can be it is in credible that as of today 2021 there is no justice for this type of psychological cremines even ciquiatrists can know it but society is so sick that it questions these acts shocking and terrible ignorance

4

1 will make it as simple as possible : if anyone of you can ever convince me that keanu reeves is a cruel and a bad man and can actually beat up his girlfriend to death and will never deserve any support whatsoever then johnny depp deserves to be imprisoned and all the lies that have been said about him are actually true

4

miracle in feathers! this nickname was given to amber heard at paris fashion week in october 2021 on the show heard behaved uninhibitedly she showed emotions very vividly laughed loudly stuck out her tongue kissed her friends from the world of show business and photographed them on her phone amber was booed when she left the show the audience shouted that amber was an abuser herself! there is a video of this moment! the liar got what she deserved!

4

depp deserves better

4

she got what she deserves

4

she deserves it

this is the teaching of jesus from almost 2000 years ago: truly i tell you; if anyone obeys my teaching he shall never know what it is to die" (at john 8: 51) "\r \r so we must avoid all religions; even the pope and christianity; because we learn through jesus that religions are all led by the many blind guides and false prophets who continue to mislead us when he alone (in the name of immanuel) is the son of man and the true prophet who was sent by the lord god to be always our one teacher;\r \r these are the words of the lord god: \r i will raise up for them a prophet like you [moses] from among their fellow israelites and i will put my words in his mouth" (at deuteronomy 18: 18) "\r \r therefore the lord himself shall give you sign: a young woman is with child and she will bear a son and will call him immanuel[god is with us]" (the prophet isaiah 7: 14) "\r \r if you have ears to hear then hear" (jesus in the name of immanuel the messiah at mark 4: 23) "\r \r god is spirit and those who worship him must worship him in spirit and in truth" (jesus at john 4: 24) "\r \r in truth i tell you anyone who gives heed to what i say and puts his trust in him who sent me has hold of eternal life and does not come up for judgement but has already passed from death to life" (at john 5: 24) "\r \r beware of false prophets men who come to you dressed up as sheep while underneath they are savage wolves you will recognize them by the fruits they bear" (at matthew 7: 15 16) "\r \r do not call any man on earth father'; for you have one father and he is in heaven nor must you be called teacher'; you have one teacher the messiah" (matthew 23: 9 10) "\r \r take care that no one misleads you: for many will come claiming my name;" (jesus at matthew 24: 4) "\r many false prophets will arise and will mislead many; and as lawlessness spreads men's love for one another will grow cold but the man who holds out to the end will be saved and this gospel of the kingdom will be proclaimed throughout the earth as a testimony to all nations; and then the end will come" (matthew 24: 11 14) "\r \r i am the way; i am the truth and i am life; no one comes to the father except by me if you knew me you would know my father too" (john 14: 6 7) "\r \r when you pray go into a room by yourself and shut the door pray to your father who is there in the secret place; and your father who sees what is secret will reward you\r \r in your prayers do not go babbling on like the heathen who imagine that the more they say the more likely they are to be heard \r do not imitate them your father knows what your needs are before you ask him \r this is how you should pray:\r our father in heaven hallowed be your name\r your kingdom come; your will be done on earth as it is in heaven\r give us today our daily bread \r forgive us the wrong we have done as we have forgiven those who have wronged us\r and do not bring us to the test but save us from the evil one \r for yours is the kingdom and the power and the glory for ever \r amen \r for if you forgive others the wrongs they have done your heavenly father will also forgive you; but if you do not forgive others then the wrongs you have done will not be forgiven by your father" (at matthew 6: 6 15) "\r \r pass no judgement and you will not be judged for as you judge others so you will yourselves be judged and whatever measure you deal out to others will be dealt back to you" (matthew 7: 1 2) "\r \r always treat others as you would like them to treat you: that is the law and the prophets\r enter through the narrow gate for wide is the gate and broad is the road that leads to destruction and many enter through it but small is the gate and narrow the road that leads to life and only a few find it" (matthew 7: 12 14) "\r \r i am the gate; anyone who comes into the fold through me shall be safe he shall go in and out and shall find pasture\r the thief comes only to steal to kill to destroy; i have come that men may have life and may have it in all its fullness" (john 10: 9 10) "\r \r not everyone who says to me lord lord' will enter the kingdom of heaven but only the one who does the will of my father who is in heaven" (matthew 7: 21) "\r \r i am the resurrection and i am life if a man has faith in me even though he dies he shall come to life; and anyone who is alive and has faith shall never die" (john 11: 25 26) "\r \r i have not come to judge the world but to save the world" (john 12: 47) "\r \r whoever will acknowledge me before men i will acknowledge him before my father in heaven; and whoever disowns me before men i will disown him before my father in heaven" (matthew 10: 32 34) "\r \r any plant that is not of my heavenly father's planting will be rooted up leave them alone; they are blind guides and if one blind man guides another they will both fall into the ditch" (matthew 15: 13 14) "\r \r the disciples came to jesus and asked who is the greatest in the kingdom of heaven?\r he called a child set him in front of them and said i tell you this: unless you turn round and become like children you will never enter the kingdom of heaven \r let a man humble himself till he is like this child and he will be the great test in the kingdom of heaven whoever receives one such child in my name receives me but if a man is a cause of stumbling to one of these little ones who have faith in me it would be better for him to have a millstone hung round his neck and be drowned in the depths of the sea\r alas for the world that such causes of stumbling arise! come they may but woe betide the man through who they come!" (matthew 18: 1 7) "\r \r though many are called few are chosen" (matthew 22: 14) "\r \r an expert in the law [a leading religious pharisee] tested him with this question: teacher which is the greatest commandment in the law? he answered love the lord your god with all your heart with all your soul with all your mind that is the greatest commandment it comes first the second is like it: love your neighbour as yourself \r everything in the law and the prophets hangs on these two commandments" (matthew 22: 35 40) "\r there is no greater love than this that a man should lay down his life for his friends" (john 15: 13) "\r \r stay awake and pray that you may be spared the test: the spirit is willing but the flesh is weak" (matthew 26: 41) "\r \r however when he comes who is the spirit of truth; he will guide you into all the truth" (john 16: 13) "\r \r teach them to observe all that i have commanded you and be assured i am with you always to the end of time" (matthew 28: 20) "\r \r yours in true spirit and in our one given prayer 2gostruth wednesday the 30th of june 2021: " (matthew 5: 14 16) " where every minute (of both day and night) can be a new beginning for any one of us let it always be you pray to god often before it is too late

i believe it was a tragic accident i think she did push him however i don't think she would have ever thought he would fall through the window i also feel her death was a hi

she had a single audience & she pushed her message & how to change the world have ever thought he would just through the window a glass break her death had a bit suspish i've heard that she had just agreed the day before her death to do a tv interview and was very much looking forward to that to help spread the word about her situation doesn't make sense for her to agree to do an interview then turn around and kill herself just looks very fishy and it's just an all around tragic story mostly for their baby who now has no parents :

@michael keaton i'm just not all over social media like most people but it is obviously your profession so i try not to join too many platforms and i wouldn't be able to pm you there what i can say is that i'm so proud of you that you are getting out much earlier than i did from a relationship just like that to me that speaks volumes about your self worth being pretty strong to start with and that's a lot for anybody in this day and age let alone being one of the most brilliant unique and well loved actors for quite some time now it must be really hard for you to stay grounded that's exactly the type of person who needs to be vigilant at remaining strong and rooted as there are so many people on the other side of the spectrum such as your ex who are black belt level destroyers of the human spirit we all know how intelligent and intuitively brilliant you are just by the rules you play and how you play them as well as what a kind person everybody has said you are i'm not in the business myself i'm not a typical fan girl but i do recognize and appreciate a top notch level artist as well as people who march to their own drum so to speak so i'm very glad that she didn't break your spirit that is clearly what her objective was i'm not sure why but i'm definitely sure of the what well there's many reasons why most of them stem from the deep sense of shame and insecurity in the attacker that is so ingrained that they must tear other people down in order to always look better in a comparison test that sounds so juvenile but it's almost life or death to the abuser who feels that if they don't gain everybody's acceptance and control the narrative and control what everybody believes about them that they will literally just explode or die or be so insignificant or hated that they wouldn't know how to cope the main thing that i picked up after 13 long years can you believe that? i have to say i heard so much of myself in you on the conversations and my heart just went out to you but after 13 years of asking the same question of myself and everybody over and over i just got sick of it and my question was is this person evil on purpose or is it just a survival skill that they feel they have to go through in order to breathe and survive? for some reason i thought the answer to that question was extremely important because i would want to respond to any human being in a morally compassionate manner in other words if you corner an animal who is scared to death it's going to attack you but you can't blame the animal for being evil it's just doing what it knows to survive and i kept wanting to find the answer that everything he did was premeditated and that way i could leave with a clear conscience lol haha so i don't know why i held on to that fallacy of reasoning for 13 long years but it was a big portion of my life that was such a waste i have compassion for him because he does not have a soul he does not know who he is he thinks she needs to perform all the time for everybody or else he just will cease to exist i don't know how that happened to him but within 5 minutes of meeting somebody he can figure them out and he can put on the correct persona the correct dialogue the correct appearance everything in order to be acceptable to that person he just met and desirable even just as a friend or as a lover or whatever he's extremely adept at that because it's for some reason the only way he exists he can only exist when he sees himself through other people's eyes he can't see himself through his own eyes and that's why it's so terrifying because he doesn't know who he is because he's never been anything but what he thinks everybody else wants him to be 9 out of 10 people don't even know he's going through the struggle and wouldn't care who he was you know people are easy going most of them as long as humans are true to their heart and just who they are and they are not complete jerks they are going to get along with most people amber is just clearly hysterical clearly narcissistic i know you've heard that word probably a billion times and i didn't bring it up once because it's been overused but that goes without saying i don't even get into gossip magazines or anything like that but i stumbled across this because i am very experienced and adapt and i just have a heart for victims of narcissistic abuse that's how i started to follow the story and i was blown away i'm sure everybody's told you that it's going to take some time for you to find your stasis again or is it homeostasis i can never remember your balance after the whole battle is over and you are just quietly by yourself that's when the heartache hits because there's no doubt you love this woman more than you even knew was possible and you are going to be brokenhearted when you realize it was such a fallacy and that you probably won't ever be able to fall in love like that again it's kind of like a mourning but try to remember that when it gets really heartbreaking like that it wasn't real anyways that'll bring on another level of hurt but at least it gives you hope that maybe that time it wasn't real but it was real for you and so now you know how beautiful it could feel to really really love somebody that much after all this i watched a few interviews and you just seem like the most humble open generous sincere extremely witty and despite being johnny depp you still seem very down to earth i'm so sorry you went through this and my politeness just walked out the door so my last parting thought is that crazy broad really needs to be put away somewhere until she can work out her issues and not harm anybody else but if i was a betting girl i would have to bet that she is never even going to acknowledge or try to understand that anything was her fault am i right is everything always everybody else's fault does she ever say she is sorry unless it's just something that she knows she has to say to get through the current roadblock that she is facing? i'm sorry i could go on forever i'm just blown away because at the level that you two must have reached with this dynamic it must have been one for the history books the psychiatry books maybe one day for the oscars god bless you take care of yourself and your family and isn't that wonderful how your family stood by you you must really be a hell of a guy i wish you all the best most sincerely everyday i wish you all the best

1 amber heard vs johnny depp | #justiceforjohnnydepp: https://www.youtube.com/watch?v=zuq_9srr5ng amber heard threw a vodka bottle at johnny and severed his finger she also hid and refused to give johnny depp important medications he had to be delivered to the hospital because he could've died without them meanwhile she has no evidence for her arguments we need justice for johnny #justiceforjohnnydepp #justiceformalevictimsoffemaleperpetrators amber accuses johnny of abuse people flock to her aid johnny accuses amber of abuse " with credible evidence " crickets amber heard he hit me' feminists listen and believe amber heard i actually hit him feminists forget and move on because of the mental illness cult of feminism male victims of female perpetrators (male victims of female domestic abusers female sexual harassers female rapists female pedophiles female abusers of every kinds) are not taken seriously and are denied justice (so is it any wonder that men and boys have a much shorter life expectancy than women and girls and that men and boys commit suicide at three times the rates of women and girls in america? the fact that male victims of female perpetrators aren't taken seriously and are denied justice play a big role in their life expectancy) this is why hundreds of thousands of angry women reject feminism in favor of egalitarianism and expose feminism online for the fucked up ideology that it is (a fucked up ideology that demonizes all males and denies justice to male victims of female perpetrators and an ideology that teaches boys that their penis is a weapon their balls are a toxin masculinity is evil and all sex is rape) also some of those of egalitarian anti feminist women have male relatives or maybe children who have been abused by females and are still denied justice they are angry and with good reasons they are sick and tired of those fucking feminists who claim to care about boys and men's rights issues and who claim that feminism address boys and men's rights issues when that's clearly not the case because all femme instas care about is females 50% of the population and could care less about the other half of the population this is why a shit ton of women reject feminism and choose to be either egalitarian or mra because they are sick and tired of seeing their boys and their men kill themselves at three times the rates of women and girls and it simply goes unnoticed they are sick and tired of seeing men who didn't want kids being financially enslaved to women through alimony and child support and denied their right to legal paternal surrender because feminists who claim that a woman's consent to sex is not consent to parenthood and that a woman must have the right to opt out of parenthood and not be coerced into motherhood (she can get an abortion if she can give up the baby for adoption she can drop the baby at a facility etc) won't give men the exact same right to opt out of parenthood and not be coerced into fatherhood (a man cannot force his choice on a woman like forcing her to get an abortion or stopping her from getting an abortion but a woman can force her choice on a man if he wants the baby and she doesn't want it she can have his child terminated with an abortion and he doesn't get any say even though it's his child too just 'cause it's in a woman's body if she wants the baby and he doesn't want it she can financially enslave him and go to court and force him to pay child support for 18 years even though it was her choice to keep the child and not his choice) they are sick and tired of men and teenage boys not having a male shot or a male pill to protect themselves from unwanted fatherhood the only protection males have is condom and condoms can easily be sabotage and there are numerous stories of women sabotaging men's condoms or stealing the men's sperm in the condoms to have children and then financially enslaving said men to force them to provide for those children that these women got from them without their knowledge or consent there's lots of paternity fraud too and so on and so forth but feminists don't give a shit when the victim if a male and the perpetrator a female or when the victim is a white person and the perpetrator a criminal of color (they always victim blame male victims and white victims) this ex feminist woman is telling it like it is right here: <https://www.youtube.com/watch?v=kgglnlj750k> <https://www.youtube.com/watch?v=yfjtjhmo8> [https://www.youtube.com/watch?v=4_9jknrg384](https://www.youtube.com/watch?v=rhv7_ke0aiu) <https://www.youtube.com/watch?v=616hotluok> <https://www.youtube.com/watch?v=mwy0vsxan48> <https://www.youtube.com/watch?v=vmmibjatbs> also as this black man said the fucking feminists really need to stop acting like they get to speak for all black people and all pocs: <https://www.youtube.com/watch?v=cbxduas8qe> <https://www.youtube.com/watch?v=ksgvt2zui> it's time to speak up against misandry and to address boys and men's rights issues (academic censorship genital mutilation homelessness suicide selective service conscription gender eradicating boys in education domestic violence rape sexual assault child abuse false allegations restraining order abuse paternity fraud child custody family courts incarceration and other human rights issues that desperately need attention affecting boys and men of all races and ethnic backgrounds)!!! death to feminism and long live egalitarianism!!! equality for men and boys and justice for male victims of female perpetrators!!! we must end the gender gap in sentencing female abusers get very little to no jail time they should get the same jail time as male abusers for the same crimes under the same circumstances but this isn't the case female offenders get a pussy pass and light sentences because vagina you can see countless cases like that where female offenders get away with the worse crimes against males and other females especially sex crimes and it keep happening over and over again female on male abuse and female on female abuse is not punished anywhere near as harshly as male on female abuse and that is a gross injustice!!! an angry progressive christian and egalitarian anti feminist woman who is also the aunt of two young boys age 6 and 4 both the far right and the far left are toxic harmful destructive and cancer on society that's why i expose both because both need to be called out on their bullshit bigotry insanity hypocrisy and double standards i'm center left and progressive in my values but for the most part i'm non partisan or independent and i'm fed up with the radicals/loonies on both sides (on both the right and the left) exposing the far right: you'll see how fucking batshit crazy the authoritarian far left is just as bad as the authoritarian right) i'm center left a survivor of right wing fundamentalist ideology a progressive christian (i've been a progressive for over 9 years now) an egalitarian anti feminist an advocate for the philosophy of nonviolence and restorative justice (also i find mlk jr and gandhi to be quite inspiring) and bisexual and i don't apologize for any of it in fact i'm proud of what i am and what i stand for also i'm the aunt of two young boys age 5 and 3 and i love shows like secular talk (with kyle kulinski) the ring of fire (with farron cousin) and the humanist report (with mike figueredo) like most if not all progressive christians i support separation of church and state freedom of religion and anti discrimination laws for lgbt people and atheists/non religious people 1 there is evidence she committed perjury falsifying evidence and it was a conspiracy to blackmail/defame an innocent man just cause her dv victim was done with her dv she even confessed to the dv why aren't there criminal charges against them by now? this behaviour should be discouraged by the legal system cause more narcissistic sociopaths are seeing this and following her lead like meghan trying to blackmail the brf by taking a bipolar harry off of his meds and fanning the flames of his paranoia and depression exactly what happened to his mother before her death to destroy a person for cash these people need to stop

@oscillate wildie i agree with you whole hearted but getting her there is the trick to bringing her to justice wouldn't be surprised if she is convicted in absentia because she talks clearing her name and reputation against johnny more than against australia which is why she'll be banned with prospect of arrest if she does she probably scared t

we can stay in touch with god but only through jesus and through no other man on earth! we must therefore avoid all religions; even that of the pope and christianity; because religions are all led by the many blind guides and false prophets of whom jesus had already warned us to beware of almost 2000 years ago just as only a true prophet of god can do here then follows a summary of his true teaching from that time! god is spirit and those who worship him must worship him in spirit and in truth" (jesus of nazareth the messiah at john 4: 24) "in truth i tell you anyone who gives heed to what i say and puts his trust in him who sent me has hold of eternal life and does not come up for judgement but has already passed from death to life" (at matthew 5: 24) "beware of false prophets men who come to you dressed up as sheep while underneath they are savage wolves you will recognize them by the fruits they bear" (at matthew 7: 15 16) "do not call any man on earth father"; for you have one father and he is in heaven nor must you be called teacher'; you have one teacher the messiah" (matthew 23: 9 10) "take care that no one misleads you: for many will come claiming my name!" (jesus at matthew 24: 4) "many false prophets will arise and will mislead many; and as lawlessness spreads men's love for one another will grow cold but the man who holds out to the end will be saved and this gospel of the kingdom will be proclaimed throughout the earth as a testimony to all nations; and then the end will come" (matthew 24: 11 14) "i am the way; i am the truth and i am life; no one comes to the father except by me if you knew me you would know my father too" (john 14: 6 7) "when you pray go into a room by yourself and shut the door pray to your father who is there in the secret place; and your father who sees what is secret will reward you in your prayers do not go babbling on like the heathen who imagine that the more they say the more likely they are to be heard do not imitate them your father knows what your needs are before you ask him this is how you should pray: our father in heaven hallowed be your name your kingdom come; your will be done on earth as in heaven give us today our daily bread forgive us the wrong we have done as we have forgiven those who have wronged us and do not bring us to the test but save us from the evil one for yours is the kingdom and the power and the glory for ever amen if you forgive others the wrongs they have done your heavenly father will also forgive you; but if you do not forgive others then the wrongs you have done will not be forgiven by your father" (at matthew 6: 6 15) "pass no judgement and you will not be judged for as you judge others so you will yourselves be judged and whatever measure you deal out to others will be dealt back to you" (matthew 7: 1 2) "truly i tell you: if anyone obeys my teaching he shall never know what it is to die" (john 8: 51) "always treat others as you would like them to treat you: that is the law and the prophets enter through the narrow gate for wide is the gate and broad is the road that leads to destruction and many enter through it but small is the gate and narrow the road that leads to life and only a few find it" (matthew 7: 12 14) "i am the gate; anyone who comes into the fold through me shall be safe he shall go in and out and shall find pasture the thief comes only to steal to kill to destroy; i have come that men may have life a nd may have it in all its fullness" (john 10: 9 10) "not everyone who says to me lord lord' will enter the kingdom of heaven but only the one who does the will of my father who is in heaven" (matthew 7: 21) "i am the resurrection and i am life if a man has faith in me even though he dies he shall come to life; and anyone who is alive and has faith shall never die" (john 11: 25 26) "i have not come to judge the world but to save the world" (john 12: 47) "whoever will acknowledge me before men i will acknowledge him before my father in heaven; and whoever disowns me before men i will disown him before my father in heaven" (matthew 10: 32 34) "any plant that is not of my heavenly father's planting will be rooted up leave them alone; they are blind guides and if one blind man guides another they will both fall into the ditch" (matthew 15: 13 14) "the disciples came to jesus and asked who is the greatest in the kingdom of heaven?" he called a child set him in front of them and said i tell you this: unless you turn round and become like children you will never enter the kingdom of heaven let a man humble himself till he is like this child and he will be the greatest in the kingdom of heaven whenever receives one such child in my name receives me but if a man is a cause of stumbling to one of these little ones who have faith in me it would be better for him to have a millstone hung round his neck and be drowned in the depths of the sea alas for the world that such causes of stumbling arise! come they must but woe betide the man through who they come!" (mathew 18: 1 7) "though many are called few are chosen" (mathew 22: 14) "an expert in the law [a leading religious pharise] tested him with this question: teacher which is the greatest commandment in the law?" he answered love the lord your god with all your heart with all your soul with all your mind that is the greatest commandment it comes first the second is like it: love your neighbour as yourself everything in the law and the prophets hangs on these two commandments" (mathew 22: 35 4 0) "there is no greater love than this that a man should lay down his life for his friends" (john 15: 13) "one of the criminals who hung there also mocked and taunted him: aren't you the messiah? save yourself and us!" but the other criminal rebuked him have you no fear of god? you are under the same sentence as he for us it is plain justice; we are paying the price for our misdeeds; but this man has done nothing wrong" and he said jesus remember me when you come into your kingdom' he answered i tell you this: to day you shall be with me in paradise" (luke 23: 39 43) "for it is my father's will that everyone who looks upon the son and puts his faith in him shall possess eternal life; and i will raise him up on the last day" (john 6: 40) "teach them to observe all that i have commanded you and be assured i am with you always to the end of time" (mathew 28: 20) "yours in true spirit and in our one given prayer 2gointruth tuesday the 29th of june 2021: " (matthew 5:14 16) "where every minute (of both day and night) can be a new beginning for any one of us let it always be you pray to god often before it is too late

@hitech artemovsk yes these are bots! google what is wrong with you? you know two comments are against policy so why don't you block the same comments from composing?!
it is swarm tech bots in high amounts called 'dangerous' when looking up the traits on them \r in reply to we've removed the content because it violates our community guideline
it may take some time for video search results and thumbnail images to disappear from the site \r \r my report: supporting amber heard this simulation below this video is incitation to hate and within comments that are only increasing with extremism over time over the past nearly 2 years their systems of bots only increase over time with bragging about it for example at:\r they wish to exploit that there are no discrimination laws online to create hate crime and destruction along with 'rationalizing' death threats and cyberbullying against anyone or anything that crosses their path\r a police escort was already required in july in the uk meanwhile their extremism of anti female agendas are continuing and improving their systems as seen here they are not even trying to hide that they are bots as they simulate hate and rationalization to violence by mirroring and swarm tech thousands of threats varying from death to physical to coercive threats have been seen against amber heard her associates family and supporters\r this goes against netzdg\r this breaks sections:\r section 126 breach of public peace by threatening to commit offenses\r section 131 dissemination of depictions of violence\r section 241 intimidation or harassment\r section 130 incitement to hatred\r section 140 rewarding and approving of offenses\r section 111 public incitement to crime\r this comment shows some of the highest ratio of likes of this repeated message released by multiple bots simply logging in commenting disliking and leaving

it's a little sus that a guard admits to being friends with her and she just happened to divulge info that explains away her death to the guard's on another note i do believe she intended to push her husband out of rage

1

this comment section makes me lose hope of humanity ah yes johnny depp a man who already had a few issues getting abused by a woman with ugliness on the inside who's to say that ugliness doesn't come from somewhere hurtful in her early life? johnny depp is a fantastic actor and a fine human but you are all shitheads for trying to destroy a life over his ill watch your world burn with the incoming virus while i look from afar asking myself where does humanity try to help her out of an undisclosed issue and stop dehumanizing here more than the scrutinized paparazzi? it's a witch hunter's paradise and regardless of my preferences the practice of cancelling someone's career over their human less dealt with side will die itself a horrible death to hell it is!

1

whoa it's that guy who post about dead people using their fame and death to garner views for his youtube channel

1

she is going the way of brie larson the mark of death to a film it's going to get to the point where actors won't act with her because the film will be a flop it doesn't matter whose behind her if an audience refuse to watch her films i think it's poetic justice that she tried to destroy johnny depps career the result of all this has probably destroyed her own career it seems her new movie was a remake of the warriors there really is no original thought or creativity in hollywood

provocation affects the privilege of self defense as follows: (a) a person who engages in unlawful conduct of a type likely to provoke others to attack him or her and thereby does provoke an attack is not entitled to claim the privilege of self defense against such attack except when the attack which ensues is of a type causing the person engaging in the unlawful conduct to reasonably believe that he or she is in imminent danger of death or great bodily harm in such a case the person engaging in the unlawful conduct is privileged to act in self defense but the person is not privileged to resort to the use of force intended or likely to cause death to the person's assailant unless the person reasonably believes he or she has exhausted every other reasonable means to escape from or otherwise avoid death or great bodily harm at the hands of his or her assailant

our journey to victory has begun death to the mpla!

flash is a speedster if u telling me superman could outrun his death to the end of time or run faster than instant teleportation you are a joking with me

1

don't tell me someone actually heard the fan base scream no! is there some rationality and commonsense somewhere in hollywood? if they wanted the film to have a chance they had to get rid of amber herd the replacement is well considered at the moment amber herd would be the touch of death to a film that could be struggling for an audience anyway

1

fit pt says the one who commented i am going to start working on creating a stupid virus that causes painful but fairly quick death to fucking web trolls then i will release into the water supply then when i go on line no one will be there no wonder this election is between trump and hillary reality is an alien concept to liberal modernity

1

heard is a walking disaster a nightmare of epic proportions and the kiss of death to any movie she makes her and markle the two most despised females on earth and rightly so

1

doesn't matter because she is going to die in the movie they are making her film extra stuff to keep her sweet so she acts good in the movie before her death to blackmanta

1

she is like my dad's ex worse human i ever met absolutely scares me to death to this day because she could manipulate whatever whenever and there's nothing i can do other than just leave her be so that she won't destroy us even more she was able to take most of his hard working money and to destroy his image to most people but not anyone who actually knew and cares for him thankfully this unfortunately changed us too much though and i'm still trying to find a middle ground and not be super radically against the system some movements and opinions and such (because sometimes i end up hurting people like you in the way) and he's trying not to distrust every human ever since and be positive and kind as always we are trying not to blame ourselves too because you always think you could have seen and done more protect your loved ones more being less of a pussycat etc you know the drill the saddest thing is people like this twist everything about you they not only twist your image to other people they twist your brain and your own image about yourself shaping you whatever way they please like they own you being forever a shadow in the back of your decisions and feelings hopefully time heals this fear and the scar just becomes a lesson and not a life of its own that controls us

whatever colour of your skin male or female young or old always treat others as you would like them to treat you and love your neighbour as yourself that is the law and the prophets never worship and pray in the way of religions; not even in the way of the pope his priests or christianity because religions are all led by the many false prophets who are misleading us they make up their own false laws and prayers when jesus alone (in the name of immanuel) is the son of man and the true prophet sent by god to be always our one teacher here follows a summary of his true teaching; god is spirit and those who worship him must worship him in spirit and in truth" (at john 4: 24) "in truth i te

ll you anyone who gives heed to what i say and puts his trust in him who sent me has hold of eternal life and does not come up for judgement but has already passed from death to life" (at john 5: 24) " beware of false prophets men who come to you dressed up as sheep while underneath they are savage wolves you will recognize them by the fruits they bear" (at matthew 7: 15 16) " do not call any man on earth father'; for you have one father and he is in heaven nor must you be called teacher'; you have one teacher the messiah" (matthew 23: 9 10) " take care that no one misleads you: for many will come claiming my name;" (jesus at matthew 24: 4) " many false prophets will arise and will mislead many; and as lawlessness spreads men's love for one another will grow cold but the man who holds out to the end will be saved and this gospel of the kingdom will be proclaimed throughout the earth as a testimony to all nations; and then the end will come" (matthew 24: 11 14) " i am the way; i am the truth and i am life; no one comes to the father except by me if you knew me you would know my father too" (john 14: 6 7) " when you pray go into a room by yourself and shut the door pray to your father who is there in the secret place; and your father who sees what is secret will reward you in your prayers do not go babbling on like the heathen who imagine that the more they say the more likely they are to be heard do not imitate them your father knows what your needs are before you ask him this is how you should pray: our father in heaven hallowed be your name your kingdom come; your will be done on earth as in heaven give us today our daily bread forgive us the wrong we have done as we have forgiven those who have wronged us and do not bring us to the test but save us from the evil one for yours is the kingdom and the power and the glory for ever amen for if you forgive others the wrongs they have done your heavenly father will also forgive you; but if you do not forgive others then the wrongs you have done will not be forgiven by your father" (at matthew 6: 6 15) " pass no judgement and you will not be judged for as you judge others so you will yourselves be judged and whatever measure you deal out to others will be dealt back to you" (matthew 7: 1 2) " truly i tell you; if anyone obeys my teaching he shall never know what it is to die" (john 8: 51) " always treat others as you would like them to treat you: that is the law and the prophets enter through the narrow gate for wide is the gate and broad is the road that leads to destruction and many enter through it but small is the gate and narrow the road that leads to life and only a few find it" (matthew 7: 12 14) " i am the gate; anyone who comes into the fold through me shall be safe he shall go in and out and shall find pasture the thief comes only to steal to kill to destroy; i have come that men may have life and may have it in all its fullness" (john 10: 9 10) " not everyone who says to me lord lord will enter the kingdom of heaven but only the one who does the will of my father who is in heaven" (matthew 7: 21) " i am the resurrection and i am life if a man has faith in me even though he dies he shall come to life; and anyone who is alive and has faith shall never die" (john 11: 25 26) " i have not come to judge the world but to save the world" (john 12: 47) " whoever will acknowledge me before men i will acknowledge him before my father in heaven; and whoever disowns me before men i will disown him before my father in heaven" (matthew 10: 32 34) " any plant that is not of my heavenly father's planting will be rooted up leave them alone; they are blind guides and if one blind man guides another they will both fall into the ditch" (matthew 15: 13 14) " the disciples came to jesus and asked who is the greatest in the kingdom of heaven? he called a child set him in front of them and said i tell you this: unless you turn round and become like children you will never enter the kingdom of heaven let a man humble himself till he is like this child and he will be the greatest in the kingdom of heaven whoever receives one such child in my name receives me but if a man is a cause of stumbling to one of these little ones who have faith in me it would be better for him to have a millstone hung round his neck and be drowned in the depths of the sea alas for the world that such causes of stumbling arise! come they must but woe betide the man through who they come!" (matthew 18: 1 7) " though many are called few are chosen" (matthew 22: 14) " an expert in the law [a leading religious pharisee] tested him with this question: teacher which is the greatest commandment in the law?" he answered love the lord your god with all your heart with all your soul with all your mind that is the greatest commandment it comes first the second is like it: love your neighbour as yourself everything in the law and the prophets hangs on these two commandments" (matthew 22: 35 40) " there is no greater love than this that a man should lay down his life for his friends" (john 15: 13) " one of the criminals who hung there also mocked and taunted him: aren't you the messiah? save yourself and us! but the other criminal rebuked him have you no fear of god? you are under the same sentence as he for us it is plain justice; we are paying the price for our misdeeds; but this man has done nothing wrong' and he said jesus remember me when you come into your kingdom' he answered i tell you this: today you shall be with me in paradise" (luke 23: 39 43) " for it is my father's will that everyone who looks upon the son and puts his faith in him shall possess eternal life; and i will raise him up on the last day" (john 6: 40) " teach them to observe all that i have commanded you and be assured i am with you always to the end of time" (matthew 28: 20) yours in true spirit and in our one given prayer 2gointruth wednesday the 23rd of june 2021: " (matthew 5:14 16) " where every minute (of both day and night) can be a new beginning for any one of us let it always be you pray to god often before it is too late

we learn from genesis that satan the talking snake of life is the evil one within all men if you are a man (adam) and you want to be saved from the evil one within you then you must pray to god and live your life in the way that only jesus alone teaches never worship and pray in the way of religions; not even that of the pope and christianity because religions are all led by the many blind guides and false prophets who continue to mislead us when immanuel (called jesus) is the son of man who was sent by the lord god to be always our one teacher here then follows a summary of his true teaching: god is spirit and those who worship him must worship him in spirit and in truth" (jesus of nazareth the messiah at john 4: 24) " in truth i tell you anyone who gives heed to what i say and puts his trust in him who sent me has hold of eternal life and does not come up for judgement but has already passed from death to life" (at john 5: 24) " beware of false prophets men who come to you dressed up as sheep while underneath they are savage wolves you will recognize them by the fruits they bear" (at matthew 7: 15 16) " i am the way; i am the truth and i am life; no one comes to the father except by me if you knew me you would know my father too" (at john 14: 6 7) " when you pray go into a room by yourself and shut the door pray to your father who is there in the secret place; and your father who sees what is secret will reward you in your prayers do not go babbling on like the heathen who imagine that the more they say the more likely they are to be heard do not imitate them your father knows what your needs are before you ask him this is how you should pray: our father in heaven hallowed be your name your kingdom come; your will be done on earth as in heaven give us today our daily bread forgive us the wrong we have done as we have forgiven those who have wronged us and do not bring us to the test but save us from the evil one for yours is the kingdom and the power and the glory for ever amen for if you forgive others the wrongs they have done your heavenly father will also forgive you; but if you do not forgive others then the wrongs you have done will not be forgiven by your father" (at matthew 6: 6 15) " pass no judgement and you will not be judged for as you judge others so you will yourselves be judged and whatever measure you deal out to others will be dealt back to you" (matthew 7: 1 2) " truly i tell you; if anyone obeys my teaching he shall never know what it is to die" (john 8: 51) " always treat others as you would like them to treat you: that is the law and the prophets enter through the narrow gate for wide is the gate and broad is the road that leads to destruction and many enter through it but small is the gate and narrow the road that leads to life and only a few find it" (matthew 7: 12 14) " i am the gate; anyone who comes into the fold through me shall be safe he shall go in and out and shall find pasture the thief comes only to steal to kill to destroy; i have come that men may have life and may have it in all its fullness" (john 10: 9 10) " i am the resurrection and i am life if a man has faith in me even though he dies he shall come to life; and anyone who is alive and has faith shall never die" (john 11: 25 26) " i have not come to judge the world but to save the world" (john 12: 47) " whoever then will acknowledge me before men i will acknowledge him before my father in heaven; and whoever disowns me before men i will disown him before my father in heaven" (matthew 10: 32 34) " any plant that is not of my heavenly father's planting will be rooted up leave them alone; they are blind guides and if one blind man guides another they will both fall into the ditch" (matthew 15: 13 14) " the disciples came and asked jesus who then is the greatest in the kingdom of heaven? he called a little child to him and placed the child among them and he said: truly i tell you unless you change and become like little children you will never enter the kingdom of heaven therefore whoever takes the lowly position of this child is the greatest in the kingdom of heaven and whoever welcomes one such child in my name welcomes me if anyone causes one of these little ones"those who believe in me"to stumble it would be better for them to have a large millstone hung around their neck and be drowned in the depths of the sea woe to the world because of the things that cause people to stumble! such things must come but woe to the person through whom they come!" media had almost 2 decades to interview kobe bryant about the allegations and did nothing they waited until his death to bring it up the media ain't shit

1

amber turd heard belongs to the same place as harvey Weinstein and larry nasaar anyone who can get away with adultery mutilation falsification of rape emotional and sexual abuse and possibly attempted murder for 3 fucking years scot free while blaming it on the victim is extremely dangerous to the society i mean she already has a history of physically abusing her ex gf in the past and got thrown into jail and she cleverly used her mother's death to gain sympathy points as well as the feminist propaganda to gain followers she also possibly has elon musk in a vice by falsification of sexual assault

nope not sorry for her yep she deserves her sentence it only takes one to cause a major outbreak that may result in overwhelming the medical system even death to some people she was well aware of her actions she is an adult and can make adult decisions let her face adult consequences i'm sure in a few months she'll come back to home laughing that she got away with it it's no big deal slap on the wrist still not understanding how much danger she put others in

a reminder since it's been a while for most of us from villians wiki: history a teacher at a private school in new hampshire cross has retained her virginity due to a vaguely defined but powerful sense that she is destined for something described by the novel's author as dark and unique after the superflu breaks out cross finds an emotionally damaged young boy whom she calls joe; joe has regressed to a wild state of mind and yet trusts cross and remains with her cross meets larry underwood when joe finds him sleeping "joe is working up the courage to kill the sleeping underwood but cross prevents the murder from happening the pair secretly follows underwood to maine where joe attempts once again to kill underwood but is stopped after talking with underwood cross agrees to join underwood and find other survivors cross is attracted to underwood but her subconscious conviction that she must remain pure has further strengthened and has begun to manifest" cross begins to both fear and anticipate that she is destined to be with randall flagg in some kind of romantic and evil destiny upon arriving in boulder cross begins to surrender to the seductive allure of the walkin' dude and joe" the latter has sufficiently recovered to the point that he reveals that his real name is leo rockway and is suddenly unwilling to be in the company of cross later rockway reveals that cross had already known that it was too late to engage in sexual relations with underwood cross desperately proceeds with a final try to seduce underwood an act that would break her virginal commitment to randall flagg and free her but underwood is by this stage firmly committed to swann and rejects cross' advances cross eventually surrenders to flagg completely communicating with him with the use of a ouija board "an echo of her scary experience with a ouija board in college when she was first touched by randall flagg following his orders cross then seduces harold lauder and although she will not do that one little thing with him they are evidently free to sexually engage in any other manner that they wish cross uses lauder for the purpose of an assassination attempt to destroy the committee members this plot is ultimately hindered by the return of mother abigail and goldsmith's premonition cross travels west with lauder but when lauder's motorcycle crashes she says that it was her intention for him to die in a motorcycle accident instead of being killed by randall flagg upon their arrival in las vegas lauder fires his pistol at cross and nearly hits her suggesting that cross may unconsciously prefer death to the dark consummation awaiting her in las vegas; and also revealing limitations to flagg's power cross continues on towards las vegas until flagg appears to her in the desert" flagg reveals his true nature to her by raping her an evil experience that is so horrible to cross while simultaneously causing her immense pleasure that she falls into catatonia flagg takes cross with him to las vegas and the pair reside in the penthouse suite of the mgm grand hotel complex; cross' pregnancy is announced shortly after their arrival in las vegas cross eventually recovers enough to taunt flagg about his inevitable failure until in his anger flagg throws nadine off the penthouse sundeck and she is killed in the fall nadine smiles as she falls and afterward flagg realizes that she had taunted him in the hopes that he would kill her

hold on wait a second are you saying that she took advantage of his rage for his mom's death to create a fake evidence of domestic violence towards her? is this the point we stern society has crumbled to?

1

amber heard is laughing at victims of domestic violence we won't watch anything she is in the stand is one of my favorite stephen king stories she has ruined it she will be the kiss of death to everything she touches #justiceforjohnnydepp

1

@doc holliday her intent was something else but she worded herself very poorly it was stupid she had meant that the nazis gained so much power through convincing neighbor against neighbor but how she worded herself it appeared as if she were comparing jews being burned to death to republicans being treated poorly within the states she ended up being right because they are firing her and persecuting her for her beliefs and opinions but had she just taken the time to think about the way she said what she said it would have turned out a lot different

1

welcome to virginia amber our state moto is death to tyrants

1

even rachel wood being soooo close to her and all of these others who has come against manson (not saying he's innocent) but seem like they done it for attention and it makes no sense he didn't do anything to rose mcgowan or his wife which seems odd he has done it to all these others yet other more than just rose and dita has come out and said he was good to them the fact someone can lose everything over someone just saying something on them no proof nothing is actually disturbing and very terrifying i would be scared to death to be a man especially one with money i mean if that's the case then say i could lie say something bad happened to be done by blank celebrity and boom his career over but they do nothing to these women amber deserves to lose everything or lose what she made johnny lose period

1

children everywhere must be shown the true teaching of jesus so that they can avoid all the priests preachers and pastors of all religions the many self indulgent and false prophets who easily lead children astray when only jesus (in the name of immanuel) is the son of man and the true prophet who was sent by the lord god to be always our one teacher! these are the words of the lord god: i will raise up for them a prophet like you [moses] from among their fellow israelites and i will put my words in his mouth" (at deuteronomy 18: 18) " therefore the lord himself shall give you a sign: a young woman is with child and she will bear a son and will call him immanuel[god is with us]" (the prophet isaiah 7: 14) " if you have ears to hear then hear" (jesus in the name of immanuel the messiah at mark 4: 23) " god is spirit and those who worship him must worship him in spirit and in truth" (jesus at john 4: 24) " in truth i tell you anyone who gives heed to what i say and puts his trust in him who sent me has hold of eternal life and does not come up for judgement but has already passed from death to life" (at john 5: 24) " beware of false prophets men who come to you dressed up as sheep while underneath they are savage wolves you will recognize them by the fruits they bear" (at matthew 7: 15 16) " do not call any man on earth father'; for you have one father and he is in heaven nor must you be called teacher'; you have one teacher the messiah" (matthew 23: 9 10) " take care that no one misleads you: for many will come claiming my name!" (jesus at matthew 24: 4) " many false prophets will arise and will mislead many; and as lawlessness spreads men's love for one another will grow cold but the man who holds out to the end will be saved and this gospel of the kingdom will be proclaimed throughout the earth as a testimony to all nations; and then the end will come" (matthew 24: 11 14) " i am the way; i am the truth and i am life; no one comes to the father except by me if you knew me you would know my father too" (john 14: 6 7) " when you pray go into a room by yourself and shut the door pray to your father who is there in the secret place; and your father who sees what is secret will reward you in your prayers do not go babbling on like the heathen who imagine that the more they say the more likely they are to be heard do not imitate them your father knows what your needs are before you ask him this is how you should pray: our father in heaven hallowed be your name your kingdom come; your will be done on earth as in heaven give us today our daily bread forgive us the wrong we have done as we have forgiven those who have wronged us and do not bring us to the test but save us from the evil one for yours is the kingdom and the power and the glory for ever amen for if you forgive others the wrongs they have done your heavenly father will also forgive you; but if you do not forgive others then the wrongs you have done will not be forgiven by your father" (at matthew 6: 6 15) " pass no judgement and you will not be judged for as you judge others so you will yourselves be judged and whatever measure you deal out to others will be dealt back to you" (matthew 7: 1 2) " truly i tell you; if anyone obeys my teaching he shall never know what it is to die" (john 8: 51) " always treat others as you would like them to treat you: that is the law and the prophets enter through the narrow gate for wide is the gate and broad is the road that leads to destruction and many enter through it but small is the gate and narrow the road that leads to life and only a few find it" (matthew 7: 12 14) " i am the gate; anyone who comes into the fold through me shall be safe he shall go in and out and shall find pasture the thief comes only to steal to kill to destroy; i have come at men may have life and may have it in all its fullness" (john 10: 9 10) " not everyone who says to me lord lord' will enter the kingdom of heaven but only the one who does the will of my father who is in heaven" (matthew 7: 21) " i am the resurrection and i am life if a man has faith in me even though he dies he shall come to life; and anyone who is alive and has faith shall never die" (john 11: 25 26) " i have not come to judge the world but to save the world" (john 12: 47) " whoever will acknowledge me before me en i will acknowledge him before my father in heaven; and whoever disowns me before men i will disown him before my father in heaven" (matthew 10: 32 34) " any plant that is not of my heavenly father's planting will be rooted up leave them alone; they are blind guides and if one blind man guides another they will both fall into the ditch" (matthew 15: 13 14) " the disciples came to jesus and asked who is the greatest in the kingdom of heaven? he called a child set him in front of them and said i tell you this: unless you turn round and become like children you will never enter the kingdom of heaven let a man humble himself till he is like this child and he will be the greatest in the kingdom of heaven whoever receives one such child in my name receives me but if a man is a cause of stumbling to one of these little ones who have faith in me it would be better for him to have a millstone hung round his neck and be drowned in the depths of the sea alas for the world that such causes of stumbling arise! come they must but woe betide the man through who they come!" (matthew 18: 1 7) " thought many are called few are chosen" (matthew 22: 14) " an expert in the law [a leading religious pharisee] tested him with this question: teacher which is the greatest commandment in the law?" he answered love the lord your god with all your heart with all your soul with all your mind that is the greatest commandment it comes first the second is like it: love your neighbour as yourself everything in the law and the prophets hangs on these two commandments" (matthew 22: 35 40) " there is no greater love than this that a man should lay down his life for his friends" (john 15: 13) " stay awake and pray that you may be spared the test: the spirit is willing but the flesh is weak" (matthew 26: 41) " however when he comes who is the spirit of truth; he will guide you into all the truth" (john 16: 13) " teach them to observe all that i have commanded you and be assured i am with you always to the end of time" (matthew 28: 20) yours in true spirit and in our one given prayer 2gointruth on thursday the 8th of july 2021: " (matthew 5:14 16) " where every minute (of both day and night) can be a new beginning for any one of us let it always be you pray to god often before it is too late

we can stay in touch with god but only through jesus and through no other man on earth! we must therefore avoid all religions; even that of the pope and christianity because religions are all led by the many blind guides and false prophets of whom jesus had already warned us to beware of almost 2000 years ago just as only a true prophet of god can do here then follows a summary of his true teaching from that time;"r r god is spirit and those who worship him must worship him in spirit and in truth" (jesus of nazareth the messiah at john 4: 24) "r r in truth i tell you anyone who gives heed to what i say and puts his trust in him who sent me has hold of eternal life and does not come up for judgement but has already passed from death to life" (at john 5: 24) "r r beware of false prophets men who come to you dressed up as sheep while underneath they are savage wolves you will recognize them by the fruits they bear" (at matthew 7: 15 16) "r r do not call any man on earth father'; for you have one father and he is in heaven nor must you be called teacher'; you have one teacher the messiah" (matthew 23: 9 10) "r r take care that no one misleads you: for many will come claiming my name!" (jesus at matthew 24: 4) "r r many false prophets will arise and will mislead many; and as lawlessness spreads men's love for one another will grow cold but the man who holds out to the end will be saved and this gospel of the kingdom will be proclaimed throughout the earth as a testimony to all nations; and then the end will come" (matthew 24: 11 14) "r r i am the way; i am the truth and i am life; no one comes to the father except by me if you knew me you would know my father too" (john 14: 6 7) "r r when you pray go into a room by yourself and shut the door pray to your father who is there in the secret place; and your father who sees what is secret will reward you r in your prayers

do not go babbling on like the heathen who imagine that the more they say the more likely they are to be heard \r do not imitate them your father knows what your needs are before you ask him \r this is how you should pray:\r our father in heaven hallowed be your name\r your kingdom come; your will be done on earth as in heaven\r give us today our daily bread \r forgive us the wrong we have done as we have forgiven those who have wronged us\r and do not bring us to the test but save us from the evil one \r for your s is the kingdom and the power and the glory for ever \r amen \r for if you forgive others the wrongs they have done your heavenly father will also forgive you; but if you do not forgive others then the wrongs you have done will not be forgiven by your father" (at matthew 6: 6 15) "\r \r pass no judgement and you will not be judged for as you judge others so you will yourselves be judged and whatever measure you deal out to others will be dealt back to you" (matthew 7: 1 2) "\r \r truly i tell you; if anyone obeys my teaching he shall never know what it is to die" (john 8: 51) "\r \r always treat others as you would like them to treat you: that is the law and the prophets\r enter through the narrow gate for wide is the gate and broad is the road that leads to destruction and many enter through it but small is the gate and narrow the road that leads to life and only a few find it" (matthew 7: 12 14) "\r \r i am the gate; anyone who comes into the fold through me shall be safe he shall go in and out and shall find pasture \r the thief comes only to steal to kill to destroy; i have come that men may have life and may have it in all its fullness" (john 10: 9 10) "\r \r not everyone who says to me lord lord' will enter the kingdom of heaven but only the one who does the will of my father who is in heaven" (matthew 7: 21) "\r \r i am the resurrection and i am life if a man has faith in me even though he dies shall come to life; and anyone who is alive and has faith shall never die" (john 11: 25 26) "\r \r i have not come to judge the world but to save the world" (john 12: 47) "\r \r whoever will acknowledge me before men i will acknowledge him before my father in heaven; and whoever disowns me before men i will disown him before my father in heaven" (matthew 10: 32 34) "\r \r any plant that is not of my heavenly father's planting will be rooted up leave them alone; they are blind guides and if one blind man guides another they will both fall into the ditch" (matthew 15: 13 14) "\r \r the disciples came to jesus and asked who is the greatest in the kingdom of heaven? \r he called a child set him in front of them and said i tell you this: unless you turn round and become like children you will never enter the kingdom of heaven \r let a man humble himself till he is like this child and he will be the greatest in the kingdom of heaven whoever receives one such child in my name receives me but if a man is a cause of stumbling to one of these little ones who have faith in me it would be better for him to have a millstone hung round his neck and be drowned in the depths of the sea\r alas for the world that such causes of stumbling arise! come they must but woe betide the man through who they come!" bravo brittany! i am a woman who could see through amber heard from the beginning if only all liars would be exposed so quickly please look into the case of jonathan kaiman accused by felicia sonmez reporter i she made accusations admitted to faults decided she had gone too far not to sleep with him on her own choice! then decided like five years later that he was at fault and she was not and came out with a story that literally destroyed him with no physical proof and plenty of backtracking on her part i he was not her boss so no undue influence they had a regrettable tryst it happens all the time but she was as much or more to blame as she makes the statement that she decided to sleep with him after all because things had gone too far (paraphrasing the exact quote is out there) then she regretted it regret for sleeping with someone is not the same as rape which is the label he now lives with (rapist) and the tragedy is people that were close to him became scared to death to even ask fair questions males and females his own friends they abandoned him for fear they would lose their jobs if they defended him! two well known feminists came out against felicia and now she is attacking them! (christina hoff sommers & danielle crittendon) sounds like she can't take her own methodshe is blameless and anyone that speaks out against here is a liar i smell a fish as big as amber heard in this one as well! please cover this story brittany and if you find cause please report on it too interview jonathan kaiman give him a voice until now no one has! he lost a millions of dollar book deal his job and thanks to loving family he has not yet committed suicide but lives with the haunting prospect justice for kaiman too!

never!!! death to the slandering tabloid media!!! expose the scums!!!

1

the media is a joke i hope the media dies a quick death no more can they control and manipulate the masses no more now cases like this exposing these lies will make it so death to the news media outlets ~~die~~

1

she has several cluster b personality disorders (& perhaps some others) she is suffering at the moment she was in denial she had all this support you can see her shock giving her speech uk court getting booted she lives in a bubble where lies are truth no matter how much evidence she is confronted with there is a great misunderstanding of what narcissism is this is it bpd as well when the walls start closing in she gets a baby to deflect the negativityremember how freaked she was prior to the divorce 2016 over people calling her a gold digger!!!! compare that amount of negative press to today!!! jd told her throwing him under the bus was not the way to fix thatshe was sooo confident s he uttered the now famous tell them you were abusedsee who believes or sides with you the crazy fight club or painting fake bruises for yrs planning to use them who will believe this? her brain just doesn't work like a normal persons! if she knew it would come to this i guarantee she would have killed him i have concern for him now i'm a psychologist & my best friend was killed spouse had the same motives losing face is death to them they literally experience it as death the shame is overwhelming & unbearable much love

1

if there had been any signs of physical abuse like the bruise on her face the police would have arrested johnny!! the laws in most states now read that if there is any physical damage then the law must arrest the person with the most damage if both parties have injuries they they arrest both of them!! the police are the ones who press charges not the victim!! a victim is considered a witness for the state!! the second i heard her little speech about johnny abusing her i knew it was all a pile of shit!! something in her mannerism just told me that she was the abuser!! one tape had her screaming at him to hit her come on hit her!! the fact that his ex wife lori and his long time girlfriend vanessa & winona & female co stars too said johnny is a peaceful man the one deposition by a friend of hers said she would tell people that she was married to an old guy!! he was fat & going to die alone him fat??? i have never seen him fat but if his age & body are so repulsive to her then why the heck did you marry him for??? i saw on one of the tabloid tv shows when he went over to see fans & she rolled her eyes & tried to drag him away!! johnny knows that greeting fans & posing for photos is part of his job!! the fans keep the person in the profession of actor/actress!! if he started treating the fans badly then he loses roles!! he has been in this business for a long time and as my mother used to say he knows who butters their bread!! (sorry my mom's family was pa dutch!!) my heart broke for johnny & vanessa as well as poor lily rose from years ago where the doctors thought that lily rose might not make it!! one reporter got a video of johnny outside the hospital and he was clearly breaking down a father of another patient hugged him & they went into a place where the paparazzi couldn't pry he probably knew he was going to break down and did not want his daughter to misconstrue that she was dying and poor jack who had to watch his sister being that sick & his parents completely devastated!! when lily rose improved both johnny & vanessa started noticing the parents in the childrens ward who like them were watching their children possibly die from some horrific disease or injury! when they were finally able to bring lily rose home johnny went back dressed in full captain jack sparrow regale to visit the children!! and unlike the medical here in the usa they never got a bill because of english's medical care but johnny & vanessa donated \$2 million to the children's ward!! he also went to hospitals here in the usa dressed as captain jack!! he just wanted to bring a smile to these poor kids faces!! just the fact that amber picked the time of his mom's death to start all this tells me a lot about her character it is solely lacking!! i had a friend of mine ask why johnny filed the \$50 suit against her? she thought it would be better off just letting the uproar go away i told her that he wants his name & reputation cleared!! if not there would be the title wife beater next to his name!! plus i think the 2 most important people to johnny are his beautiful children!! i don't think he could live with himself if his children believed heart's lies!! i think that the money isn't as important to him as clearing his name!! there was one more thing that was absolutely disgusting he left the apartment to get away from her (she called him a coward for always running!!) when he returned after someone telling him she went to that coachella concert he was getting into their bed she had defaced on the sheets on his side of the bed one of these days she will meet a man or woman and will strike them to but the next time she will have that person beat the crap out of her!! i am so glad they did not have a child together!! in one of the tapes heard said that she gets blind rage when he pissed her off children can irritate the parents & sometimes the parent must walk away for a bit with amber's own statement to johnny that she cannot promise that there wouldn't be another rage issue now picture heard with a little 2 year old child!! i do not believe that she ever loved johnny!! i think he was a stepping stone to her career!! i saw another video about heard one guest starring on criminal minds the show had her cast as lila & she was attempting to seduce dr spencer reid if you look at videos of that in 2006 she looks nothing like she does now!! age is not becoming to her or maybe her face is showing her lies!! i hope he wins the \$50 million!! she will find another person with money like elon musk & off she will go!! she already burned through elon & he has no idea how lucky he is!!!

1

she is a walking nightmare for domestic violence!! she is going to cause police & courts not to believe them & that could result in massive injuries &/or death to a real victim!!

1

slow death to a news media outlets more cases like this will bring the downfall quicker i wonder if any of her lawyers are married bet you they'll sleep with one eye open

1

why was depp humiliated this way how did he go from looking like walking death to what he looks like now almost 2 different people

femicide from wikipedia the free encyclopedia femicide or feminicide is a sex based hate crime term broadly defined as the intentional killing of females (women or girls) because they are females though definitions vary depending on its cultural context[1] feminist author diana e h russell was the first person to define and disseminate this term in modern times in 1976 she defines the word as the killing of females by males because they are female other feminists place emphasis on the intention or purpose of the act being directed at females specifically because they are female others include the killing of females by females[2] often the necessity of defining the murder of females separately from overall homicide is questioned intimate partner violence affects 3 in 10 women over a lifetime and it is estimated that 135% of homicides globally involved in intimate partners and these percentage of killings are gendered[3][4] opponents argue that since over 80% of all murder victims are men the term places too much emphasis on the less prevalent murder of females however a partner is responsible in almost 40% of homicides involving a female victim compared with 6% partner responsibility for homicide involving a male victim[3] in addition the study of femicide is a social challenge[5] an alternative term offered is gendercide which is considered to be more ambivalent and inclusive however some feminists argue that the term gendercide perpetuates the taboo of the subject of the murder of females and proves the continual silencing power of dominant male structures in society[6] feminists also argue that the motives for femicide are vastly different than those for androcide instead of centering in street violence much of femicide is centered within the home ie domestic violence development of the term[edit] the word femicide was first recorded in 1820 to 1830[7] the term femicide was first used in england in 1801 to signify the killing of a woman[8] [failed verification] in 1848 this term was published in wharton's law lexicon[9] another term used is feminicide which is properly formed from the latin femina meaning woman (femicide being truncated) the current usage emerged with the 1970s feminist movements which aimed to raise feminine consciousness and resistance against gender oppression[10] the term was also coined by radical feminists to bring to a political light the violence against women[11] american author carol orlock is widely credited with initiating the usage of the term in this context in her unpublished anthology on femicide[10] diana russell popularized the term at the crimes against women tribunal in 1976 while testifying at the first international tribunal on crimes against women in belgium[12][11] here is part of what she wrote for the proceedings: we must realize that a lot of homicide is in fact femicide we must recognize the sexual politics of murder from the burning of witches in the past to the more recent widespread custom of female infanticide in many societies to the killing of women for honor we realize that femicide has been going on a long time but since it involves mere females there was no name for it until carol orlock invented the word 'femicide'[12] until recently femicide was invisible in much of the scientific literature[13] intimate femicide can be identified as such by using the severity of violence such as access to and threats with firearms forced sex threats to kill and strangulation to determine whether a case can be considered an act of femicide or not[3] the definition of femicide also relies on inequalities in gender in terms of education economic level and employment[14] contemporary definition by feminists[edit] feminist author diana russell narrows the definition of femicide to the killing of females by males because they are female russell places emphasis on the idea that males commit femicide with sexist motives[15] she also chooses to replace the word woman with female to show that femicide can occur to both girls and infants as well[15] russell believes her definition of femicide applies to all forms of sexist killing whether they be motivated by misogyny (the hatred of females) by a sense of superiority over females by sexual pleasure or by assumption of ownership over women[15] russell's broader definition of femicide is stated as this femicide is on the extreme end of a continuum of antifemale terror that includes a wide variety of verbal and physical abuse such as rape torture sexual slavery (particularly in prostitution) incestuous and extrafamilial child sexual abuse physical and emotional battery sexual harassment (on the phone in the street at the office and in the classroom) genital mutilation (clitoridectomy excision infibulations) unnecessary gynecological operations (gratuitous hysterectomies) forced heterosexuality forced sterilization forced motherhood (by criminalizing contraception and abortion) psychosurgery denial of food to women in some cultures cosmetic surgery and other mutilations in the name of beautification whenever these forms of terrorism result in death they become femicides[16] she includes covert killings of women as well such as the mass murder of female babies due to male preference in cultures such as india and china as well as deaths related to the failure of social institutions such as the criminalization of abortion or the prevalence of female genital mutilation[15]

your uncle john dude the only thing you did was talk shit about those games rather than comparing notes and there is no comment that says the stats on sales prove that they are trash the three games series that that other guy mentioned were one of the highest rated games of any game franchise/series especially arkham games i don't see how anyone would hate the arkham games but people who hate batman in general that is complete bullshit the injustice games are nothing close to being mortal kombat ripoffs and if that were true they would have fatalities brutalities character variations fighting rounds faction kills fatal blows and x rays even though some of which have the same features it's still not a ripoff since netherrealm studios straight up made injustice and took some inspiring parts of mortal kombat batman: the telltale series is just a story choice game with great voice acting and i don't see any problem with it rather than having some of the choices to not matter a video that elaborates telltale in general is pedophile's watch that so you can understand more about it instead of hating it if you still think those games are shit here is a full comment that explains everything that puts the games to number one for dc games since i doubt you even played some of which: batman: arkham games: they did a massive job on adapting such an iconic character to a video game the batman arkham games are the ones that actually care about their protagonist and know how to put him into a videogame the way they deal with the stealth the way they do the combat the soundtrack the attention to detail the easter eggs the lore the secrets story symbolism voice acting everything they truly did their research with the characters and lore and did a great job adapting him into a game every batman fan would consider this the best game of dc injustice games: the injustice games are simply fighting games that took a lot from the injustice comic book novel and put it into its own fighting game with having waggers meter burns supernovas map transitions and more it turned into one of the best fighting games of the century yet though it may not be the best of all it deserves to be put up there the graphics are good the story is good the easer eggs are good the challenges etc this truly deserves to have the title of the best dc fighting game yet thanks to netherrealm they can do whatever the fuck they want by putting mk characters into business they did a pretty good job that still doesn't mean injustice is a mortal kombat ripoff all fighting games have their own features batman: the telltale series: one of the best games yet for having such a great story great symbolism great boss fights and sometimes even choices true the characters look different but it doesn't change the fact that they write them down really good and i don't mind the characters' looks they look perfectly fine for a cartoon style looking game the amount of preparation for our favorite parts to come brings us to excitement like how gotham did with its finale they prepared everything that we wanted for the end of the story but we couldn't see that after telltale shutting down the voice acting and dialogue for every character is great too especially since batman was voiced by a talented voice actor troy baker again the game really nailed the way batman handles his life and it was fantastic while arkham games truly know how to adapt batman into a game edit: even the critics themselves think that these games are great i even took some of their words of encouragement for how inspiring the things they said were i've played most of these games from beginning to the end and my passion of sticking with them from child to right now gives me the right to defend it

isn't it ironic that everyone involved in this situation fears being sued jailed or prosecuted except for the people that actually burned looted and destroyed an entire town how about arresting the people who burned and smashed the car doctor and incited further madness and rioting but i guess according to this guy there was no damage other than a couple scratched rectangular tiles i guess he was one of the lucky ones

@eye reign (from page six the new york post) johnny depp threatens to burn' and drown' ex wife amber heard by emily smith february 26 2020 | 12:13pm raging johnny depp texts d that he would burnand drownex wife amber heard then f" her burnt corseting their volatile relationship a court has heard previously unseen 2013 messages alleged to have been sent by the pirates of the caribbeanstar 56 to actor friend paul bettany were read out in london's high court on wednesday depp who attended the hearing was in the room as his texts to bettany were read aloud he allegedly wrote on nov 6 2013 let's burn amberthe court heard the court was told he allegedly texted bettany again that day to say let's drown her before we burn her!!! i will f"k her burnt corpse afterwards to make sure she is dead the court also heard further texts allegedly sent by depp to bettany in may 2014 which read: i'm gonna properly stop the booze thing darling' drank all night before i picked amber up to fly to la this past sunday'ugly mate no food for days' powders'half a bottle of whiskey a thousand red bull and vodkas pills 2 bottles of champs on plane and what do you get??? an angry aggro injun in a f"kin' blackout screaming obscenities and insulting any f"k who got near'i'm done i am admittedly too f"ked in the head to spray my rage at the one i love'for little reason as well i'm too old to be that guy but pills are fine!!! depp is in court in london for a preliminary hearing in his libel suit against british newspaper the sun over an article that alleged depp had been abusive to heard 33 his lawyer david sherborne said the case would feature diametrically opposed versions of events from depp and heard one person one side is lying and one is notsherborne said obviously we say that it is ms heard (who is lying) mr depp is 100% clear about that sherborne claimed that heard was not a victim but the aggressor in the couple's relationship which ended in may 2016 depp and heard divorced in 2017 depp's lawyer adam waldman said what does the sun do to keep amber heard's hoax alive? [wednesday] in court we learned the answer" cherry picking a fragment of a single frustrated text message to a friend sent out of 500 gigabytes of text and email messages provided inconveniently for the sun here is what mr depp actually said next in his text " that he could never harm amber: i am admittedly too f"ked in the head to spray my rage at the one i love' the full hearing is due to start on march 23 depp is also suing heard for libel in the united states adam wolanski qc representing the sun told the london court the may 2014 text to bettany appeared to refer to an alleged altercation with heard on a plane wolanski said depp is accused of screaming obscenities on the flight as he slapped heard in the face kicked her in the back and threw a boot at her before allegedly passing out on the plane toilet depp denies he was drunk and abusive during the flight the texts were revealed in court after previous lawyers for depp had accidentally shared 70000 messages from and to the actor with the newspaper's legal team these texts go to the very heart of the case they are really very important and set out the claimant's thinking in respect of a number of different incidents and his recollection wolanski said page six has learned these texts have not been shared with heard's legal team in the us during the discovery process for their upcoming defamation trial depp is suing heard for \$50 million in northern virginia claiming he was defamed in an op ed she wrote in the washington post in which she called for better support for domestic violence victims like herself but without naming depp in the piece in the us libel proceedings heard has previously alleged violentdepp became the monster drugs and booze in beat strangled and tormented her she stated depp repeatedly hit her ripped out her hair choked and nearly suffocated her in a virginia court filing in response to his \$50 million defamation lawsuit against her he strongly denies her claims arguing she was the aggressor in the us court filings heard stated that she began dating depp in early 2012 and about a year into our relationship i began to witness johnny abusing drugs and alcohol ; whenever he was using i worried for both of us he would become a totally different person often delusional and violent we called that version of johnny the monster' johnny often would not remember his delusional and violent conduct after he came out of his drunk or medicated states ; because i loved johnny i had believed his multiple promises that he could and would get better i was wrong on a private jet from boston to los angeles in may 2014 heard's filing of depp states: on the flight johnny ordered the flight attendants to give him an oxygen tank and drank heavily johnny's handlers told me that he was upset that i was filming a movie with a romantic scene with james franco the day before at some point i stood up and johnny kicked me in the back causing me to fall over johnny threw his boot at me while i was on the ground johnny continued to scream obscenities until he went into the plane bathroom and passed out locked in the bathroom for the remainder of the flight depp allegedly apologized in a later text message writing once again i find myself in a place of shame and regret of course i am sorry i really don't know why or what happened but i will never do it again heard alleged in court filings that just a month into their marriage in march 2015 depp " who was supposed to be clean at the time but didn't believe taking ecstasy broke his sobriety " went on a three day bender on mdma/ecstasy in australia johnny told me that i had not explicitly forbidden him from taking ecstasy the argument heated up and johnny pushed me slapped me and shoved me to the ground before i retreated to a locked bedroom the next morning i went downstairs to find that johnny was still awake and that he had stayed up all night having taken about eight mdma pills he was also drinking again we got into a fight that johnny made physical and i barricaded myself in one of the rooms that didn't stop johnny from bursting through the door of the room i was in by nightfall johnny had hit me multiple times shoved and pushed me to the ground choked me and spit in my face that night johnny shoved me into a ping pong table that collapsed underneath me johnny threw bottles through the window panels of a glass door breaking two panes and leaving glass everywhere johnny then grabbed me gripping my body and nightgown he tore the nightgown off and at some point i was naked and barefoot covered in alcohol and glass i"m amber heardgetty images she continued in one of the most horrific and scarriest moments of this three day ordeal johnny grabbed me by the neck and collarbone and slammed me against the countertop i struggled to stand up as he strangled me but my arms and feet kept slipping and sliding on to the spilled alcohol and were dragged against the broken glass on the countertop and floor which repeatedly slashed my feet and arms heard states that the actor was hospitalized and she was left with a busted lip a swollen nose and cuts all over my body ! to this day i still have scars on my arms and feet from

this incident however us lawyers for depp have stated mr depp never abused ms heard her allegations against him were false when they were made in 2016 they were part of an elaborate hoax to generate positive publicity for ms heard and advance her career a series of recordings of heard in 2015 allegedly admitting to hittingdepp were recently been released to media outlets in the audio the aquamanactress is heard saying i'm sorry that i didn't uh uh hit you across the face in a proper slap but i was hitting you i was not punching you babe you are not punched ! i don't know what the motion of my actual hand was but you are fine i did not hurt you i did not punch you i was hitting you i can't promise you i won't get physical again god i f'king sometimes gets so mad i lose it depp is heard saying i left last night honestly i swear to you because i just couldn't take the idea of more physicality more physical abuse on each other ! because had we continued it it would have gotten f'king bad and baby i told you this once i'm scared to death we are a f'king crime scene right now he later states if things get physical we have to separate we have to be apart from one another whether it's for f'king an hour or 10 hours or f'king a day we must there can be no physical violence towards each other all i'm saying is we need to take whatever time we need you need i need to kind of let things settle for a minute so that we don't f'king kill each other or f'king worse you know f'king really kill each other or f'king break up or whatever they reconcile in the recordings and vow to work on their marriage but soon after heard filed for divorce after 15 months of marriage the estranged couple eventually agreed to a \$7 million divorce settlement in august 2016 reps for depp didn't immediately get back to us filed under amber heard celebrity exes celebrity lawsuits courts johnny depp 2/26/2020 01 nyp holdings inc all rights reserved 2

are you saved friend? if you died tonight will you go to heaven or hell? god almighty the creator was manifest in the flesh he came into the world to take away the sin of the world he gave up his own life to save yours his sacrifice on the cross paid the price for your redemption with his own blood on the third day he rose from dead and offers the gift of salvation and forgiveness to those that repent and trust in him this is the gospel which means the good news john 1:1 310 kJV in the beginning was the word and the word was with god and the word was god [2] the same was in the beginning with god [3] all things were made by him; and without him was not any thing made that was made [1] 0 he was in the world and the world was made by him and the world knew him not isaiah 44:6 kJV thus saith the lord the King of israel and his redeemer the lord of hosts; i am the first and i am the last; and beside me there is no god revelation 1:17 18 kJV and when i saw him i fell at his feet as dead and he laid his right hand upon me saying unto me fear not; i am the first and the last; [18] i am he that liveth and was dead; and behold i am alive for evermore amen; and have the keys of hell and of death ephesians 2:8 9 kJV for by grace are ye saved through faith; and that not of yourselves: it is the gift of god: [9] not of works lest any man should boast acts 4:12 kJV neither is there salvation in any other: for there is none other name under heaven given among men whereby we must be saved john 5:24 kJV verily verily i say unto you he that heareth my word and believeth on him that sent me hath everlasting life and shall not come into condemnation; but is passed from death unto life 1 john 5:13 kJV these things have i written unto you that believe on the name of the son of god; that ye may know that ye have eternal life and that ye may believe on the name of the son of god matthew 28:19 kJV go ye therefore and teach all nations baptizing them in the name of the father and of the son and of the holy ghost: [20] teaching them to observe all things whatsoever i have commanded you: and lo i am with you alway even unto the end of the world amen

first of all id like to say that i am a johnny depp fan and enjoy his movies however i am not stupid enough to believe that the guy is some angel sure she is certainly a head case but johnny is no innocent he's obviously got some kind of weird issues your all blaming amber but its abormal for him to ask someone to cut him the guy needs help and you just cant blame her he could have left her anytime and he's got a history of violence with other women he was arrested in the 90's when he was with kate moss for destroying a hotel room while fighting with her he was also arrested for attacking a paparazzi with a stick and he seems proud of it so stop defending him like he's some helpless victim hes not! and of course his ex wife is defending him she doesn't want to lose all that alimony and child support and winona ryder was 30 years ago he was a different guy back then drugs and alcohol changed this guy and going through middle aged and aging can change a person a lot too and the guy was a middle aged man who left his wife and kids to be with this young actress nearly half his age what the hell did he expect he got what he deserved as far as im concerned its all his karma coming back to him of course a all she was after was his money and fame johnny needs to grow up he's pushing 60 and he walks around dressing an acting like an adolescent school boy he needs to date a women closer to his own age have a mature relationship and stop boozing and drugging it up like a sailor on leave this guy was a well respected actor in one of the most successful movie series of all time and he threw it all away and ruined his career for a piece of tail!!!! what a fool!

have faith in jesus christ as lord and savior for he saves from hell& *what is the gospel?* the true gospel is the good news that god saves sinners man is by nature sinful and separated from god with no hope of remedying that situation but god by his power provided the means of mans redemption in the death burial and resurrection of the savior jesus christ ephesians 2:8 9 for it is by grace you have been saved through faith and this is not your own doing; it is the gift of god not a result of works so that no one may boast romans 10:9 9 because if you confess with your mouth that jesus is lord and believe in your heart that god raised him from the dead you will be saved jesus christ can come anytime! just believe am i love you and god bless

what more is it going to take for the smokescreen to be lifted from your eyes? this man has a long history of violence has a self confessed hellish temper has obvious problems with substance abuse as witnessed by every public appearance in recent times winona told us that he used to smash up everything he was arrested for smashing up his hotel room while his 21 year old 100lb gf was crying in the corner of the room vanessa would do anything to cover up his crimes and protect her kids' reputation and careers this man is pure evil allowing his sick entourage to spread lies about amber because he knows that his career is over if the truth about him comes out the guy is violent aggressive jealous and paranoid and add alcohol to the mix and i fear for any woman who is with him wake up for god's sake the truth will come out and hopefully he will be arrested and jailed

okay you know this is the problem i think that fan girls nowadays are so immature regardless of their age anymore it's embarrassing i for one am crazy about ryan kwanten but i also know that if i saw a video of him acting like this i would be severely embarrassed that i like him because this is somebody with severe drinking drug and mental problems you want to believe he is a certain caliber of human being and that he's just like what he shows and movies and also because he's just so cute to you that you look past so many of the faults but you are okay thinking that his behavior is ok and that's what's disgusting i don't give a damn whether you like her or not but i do believe her because it's obvious this is somebody who has anger issues and drinks in the morning and lord knows what he's like by 5 o'clock in the evening after 4 bottles of wine at least i think it's just disgusting behavior that so many of your girls are sticking up for him you don't even know her and your victim blaming she didn't want anything but his love so that's why she didn't hold on to the money but who the hell if they were scheming bitches after his money would give it all away? she is not that stupid! you really think that if she was after her share in her divorce settlement by the lying that should just give it up? give me a break! you all that actually believe that sound like the world's biggest bunch of idiots! grow up and realize that just because he's an attractive actor and you are so crazy about him doesn't make him what you think he is! you have no fucking clue and not a single one at all obviously what he is like out of the spotlight! and you probably so dumb that if you fell for a guy you let him beat on you because he's attractive and you are so desperate for a good looking guy to like you! you need to be strong women and say that this is inappropriate behavior she was being very nice to him but she was recording it because she was afraid that if she got beat up or something happened then there's proof of it! it's not like should i try very hard for something to happen or cause something to happen for him to act like this! wake up sheeple!

burn in hell amber heard

3

hi please can you help to expose the truth about johnny depp there is an audio that can be found on the motivator network this audio has been circulating quietly on twitter for weeks in this audio depp admits beating amber she admits covering her bruises with makeup and she admits being afraid to go to the police and says to him that she is trying to protect him and that she was afraid he would kill her in his last attack the previous audio was chopped up by his team and stans to make it as detrimental as possible

to heard but this audio where he admits beating her is not being covered by any mass media he has a pr and legal army that he is allegedly paying millions to to hide the truth about his abuse (not saying heard is completely innocent but some of her behaviour is due to repeated physical abuse by this powerful man and knowing she had no way to ever be believed) he has a long history of violent behavior (with many witnesses to his self confessed hellish temper) when he is drunk or on drugs that has been covered up for a long time and given the lengths he will go to sue and intimidate people are afraid to talk about him please can you break this story and cover this audio you can hear it on the motivator network on yt this link for abridged audio: <https://www.youtube.com/watch?v=wz27126jvlg> full audio: <https://www.youtube.com/watch?v=ibipjvttxa> documen

tary: <https://www.youtube.com/watch?v=par6l5nmgoc> the audio is revealing and disturbing he is still trying to escape from the truth of his violence using his pr army legal team wealth and power to get away with it please break this story all sides of this should come to light not just the sides that this powerful man wants to present to anyone reading this who has been sucked in whole by the depp machine please have the decency to listen to the audios before commenting thank you

first of all they started dating in 2011 and moved in together in 2011 and eventually married from 2015 2017 and all of a sudden all those years they were together (7 years) and now coming out is very suspicious to me since amber is the one that gets an idea to move in together with him back in 2011 said yes to an engagement and said yes to m arraige and traveled to australia and both of them came out with an apology video for smuggling pets so her story of those 7 years together and all of a sudden she comes out with this story so i have a question when did the abuse started either while they were dating or when johnny proposed to her or after they got married? another question why did she stay for 7 years of them being together and when the cops came she never told me that she needed help when the cops saw her and johnny and the cops saw amber never had any bruises or injuries until a few days later claiming it happened the night of that the cops when they saw her this is a mystery to me nothing adds up and the video of her describing the story she can't describe her face in words if he scratched or hit her since she doesn't know what words to put it together to make it believable for court and audience i've heard of amber heard since she starred with johnny depp in 2011 when i first saw the movie when it came out before when they started dating and i never thought both of johnny depp and amber heard would ever come back 7 years later like two gorillas attacking each other in boxing ring i love johnny depp he is my idol and inspiration to me he taught me my love for acting and want to persuade in career wise but what's strange is johnny depp had had other womans even vanessa paradis when she was with johnny for 14 years and other woman before her and every single one of them said johnny always respected them treated them right and was always a good father and wanted to do good in this world doing what he loves but when amber and johnny gets together and this hell she describes in this footage this story makes me wonder when did all this start and what or who started this bad blood between them? if johnny depp tried to kill you where is the weapon he used? do you happen to have that weapon to use it as evidence or did he use his bear fist to smash your face until you are brain dead since no evidence has been showed that is hardcore evidence to prove he tried to kill you or abused you in any way jk rowling said johnny depp showed her footage to prove to her he never abused you but you are using pictures of yourself that someone is taking of your face and since you can hire makeup artist or a friend or paying someone hush money and accuse johnny and no witnesses has come forward makes me think what is she trying to get out of this story what is she trying to prove and even if she proves or doesn't prove what is she trying to get out of this story? sounds like to me she wants to continue with these claims even though she is already divorced from depp and staying away so what's the point of this drama? why can't she just do her job audition for roles and live your life but she chose continue with these claims that are on going doesn't sound like to me these claims won't end anytime soon since she would do anything to boost her career and ruin depp career and depp wants to ruin her career because he has more money than amber and johnny paid her for support and she donated it so i don't understand the ongoing point of this story both are trying to tell i'm not choosing sides between depp and heard but i'm saying she is just wasting her time trying to prove instead of moving on with her career and life johnny is crazy to pay \$50 million defamation over an op ed she wrote for the washington post in december 2018 instead of saving that at \$50 million on something that's useful instead of amber false writing back in 2018 both of them need to move on because we will never know the truth who is telling the truth or not because nobody was there in the household with them to witness the truth so nobody like no press johnny depp fans or amber heard fans or court or anyone in the world will ever know the truth or the point of depp and heard drama and even if we find out now or ever nothing can't change the past or which one of heard or depp career both of them will always be successful since actors when bad things happen they continue to audition for more movies in order to sustain themselves to put food and a roof over there heads amber doesn't have hardcore evidence to prove anything if she did all of this drama would of ended a long time ago but all i hear is different stories and both filing a lawsuit but where is evidence that proves 7 years of abuse and she is the one that said yes to moving in yes to an engagement and marriage and she defended him many times before all this accusations came about i was sexually assaulted multiple times by multiple guys about 3 of them and physically and mentally bruised and there was blood coming out and my wrists were bruised tears and trauma since the day a rapist took my virginity the day i had my first kiss and other guys when i told them what happened they used it as a weakness and lied and took advantage of me again and again and put fingers in my mouth and pulled my hair and one of them took video pictures and messages but so for me as a victim of physical and mental abuse i know that amber heard story doesn't add up because i know from experience the truth and a lie and the hardcore evidence to prove her story doesn't make sense its just story but no facts of evidence she can tell the world anything but to me personally someone out there will use her story to take advantage of her just like me when i told the truth even the evidence nobody cared and it won't change anything 3

my partner was a true victim of domestic violence and it took me 4 years to rebuild her self esteem an from what i lived in rebuilding her amber heard is not a an never been a victim of domestic violence and it grots me she makes these false accusations i as a young lad on a empty beach hunting shells an flotsam an alerted of trouble from scream s amongst the dunes an came across a rape scene the look of fear an desperation in her eyes an then he looked up an saw me he was an adult male an way bigger than me realising he had been found got off her pulling up his pants an i was in trouble myself legged it with him behind me yelling profanities of what he was going to do with me once he caught me an then kill me i never ran so fast in my life an it depended on it i eventually got to beach end an a cop car was coming out of caravan park i waved him down an t old him what happened but because i was a young teenage boy i was telling fibs an he was not going to waste his an others time looking for something that wasn't there from t hat time i realised as a male no one was going to believe me an never ever again would i run next time i would stand my ground like one time my partner was doing a child exc hange with her ex out on front verandah (he had the kids on the weekend) she asked about child support an he hit her she called me as i came out ushered her inside an confron ted him he lunged forward putting his hands around my throat(bad move what happened next took me several weeks to remember) i picked him up one arm on his shoulder the othe r i grabbed his belt an carried him to verandah (there is a 4 inch drop to driveway) i lifted him above my head realising my partner wasn't inside i pole drove him into the ground but instead of his head hitting the ground i twisted him slightly hitting his shoulder into the ground an knelt using his weight an mine in doing so over balanced so once he was on the ground i fell over him again picking him up off the ground an walked out the yard as i walked past his vehicle he tripped me up grabbing his utr tray as i fell his back hit the tray i countered pushing my arm under his chin bending his backwards over the tray pinning him against it i said dude your kids are inside get in your car an fark off your kids don't need to hear me beat your arse an shoved him away from me he was yelling an swearing at me i charged an he ran around his utr an drove off i will not tolerate violence or bullies against the weak or women an to this amber disgusts me

karma she is a bitch! and so is amber!!! amber is finding out that when you treat everyone especially those with less than you with kindness and respect they are more than h appy to return that kindness and help you in whatever way they can but when you treat people badly (or horribly in amber's case) when you make everyone feel like they are beneath you you will get nothing from them especially not help johnny has spent his life being kind and loving to everyone no matter how small or seemingly insignificant they my have seemed and now all these people are willing to go out of their way to help him in his time of need willing to testify on his behalf to spending their time finding ev idence to prove his innocence even making videos on youtube and spreading the truth to the masses because he didn't deserve for this to happen to him and we are all outraged at the double standard for male victims in the media and the justice system she should have criminal charges laid against her not just a defamation case not only has she admitted to abusing him but she told malicious lies intended to hurt and ruin him! that's illegal! because she has treated so many people badly no one is willing to help her by coaberating any part of her story quite the opposite people who worked for her like her personal assistant and makeup artist are going to be testifying on johnny's behalf i n the trial the people who worked in their building who she treated badly have refuted her lies and done all they can for johnny by going through and handling over many hours of damning security footage and are also willing to testify in court on his behalf her own family seemingly haven't completely taken her side in text messages between john ny and her parents they seem to want them to get back together and blame the abuse allegations completely on her lawyers never once seeming to believe he had ever hurt her h er sister can't testify on her behalf because on cross examination by his lawyers she will have to admit that amber has also been violent and abused her too which would only make amber look even more unstable and she can't afford that amber's lying lawyers keep saying that johnny is still trying to abuse and torment her by these lawsuits and calling her a liar that the only reason he is suing her is to continue to make her life hellnot because she abused him mentally and physically filed for divorce the week his mother died and she found out he lost a bunch of money (coincidence?) tried to blackmail him for money and 3 apartments for her and two friends threatening to say he abused her! he told his friends she promised to ruin him if she didn't get something like \$50000 a month plus the apartments and a bunch of other stuff (coincidentally the apartment s were for the only two friends who were willing to give written depositions saying they had seen her with bruising though they won't be giving testimony at the trial now be cause the public and johnny's team were easily able to find proof they were lying one swore up and down he was with amber after she had been given two black eyes when johnny tried to break her noseand got in fights with people on twitter and instagram if they they didn't believe him and support amber but then proof was found that he was working on the other side of the country on the days he said he was with amber! though he has never admitted to lying he hasn't been talking about amber's abuseanymore) she also did everything she could to ruin his career and beloved reputation throughout hollywood but her lawyers insist he is only doing this to be vindictive and to make her continue to live in fear like she did through their whole marriage would a person who lives in fear of their abusive spouse yell at him degrade him (in front of people) and attack him on a regular basis? and what woman who is afraid of their husband would brazenly bring men home to an apartment building full of people and cameras knowing at any time someone could see she was having affairs and decide to tell johnny no! abuse victims do not behave in this way her lawyers are actually the ones behaving like bullies every chance they get they say horrible things about johnny to the press things they must know are not true they've seen all the evidence so they know who the real abuser is but that did n't stop them from calling him a lying coward the other day when he couldn't come to court because he was in self quarantine after being exposed so who are the real villains in this story? and why can't the media admit they made a mistake believing amber instead of constantly calling for johnny and amber to drop the lawsuits and handle it in private? they haven't once apologized to him for jumping to conclusions without all the facts and no one in hollywood is treating amber the way they would a white male who abused his wife we must hold them accountable for this epic double standard! 2

so basically they all thought it would be over with them backing up ambers story that amber would divorce johnny make johnny look like the villain and amber come out of it a metoo hero what they never expected was ambers hybris of milking this whole thing by writing articles and becoming a (fake) spokesperson for victims of dv i think they all thought they had johnny figured out that he would never retaliate because they have witnessed in their relationship that he always gave in to amber but amber hybris has now become her nemesis she went too far she could have just stopped it then and there she forgot her back up were only there on the premises that they didn't have to get their hands dirty i'm sure that's why you will see some of her friends now telling on amber in newly released deposition eg the threesome she had with caro and elon her friends are probably pissed with amber that she tried to further her name with this incident and thereby jeopardized their whole life and professional life they will come out looking like the worst kind of bullies and leeches ganging up on an innocent middleaged man who they thought was too old and too slow to go against them i guess they were wrong

1

guys its so simple if you don't like them or their music don't comment these boys have courage and strength to do what they are doing! they took a song they wrote from the heart and went on live television to express this message with something they love doing singing if your going to hate on them do it in your heads because they've worked very hard to get where they are now and i'm sure it hasn't been the easiest time just because you can't make your dream yet doesn't mean our need to crash theirs and give them hate if you haven't realized this song is about anti bullying and all of the haters are bullies right now it's called cyber bullying and for leondres accent he's welsh when he raps he gets a way more clear american accent stop hating guys it gets you no where their lives are finally getting somewhere great don't mess it up they've been through enough

hello everybody i know few of you will read this but give me a chance please! i'm a 16 year old potato cactus from cambodia and i would like to share with you my story in secondary school i felt so alone i would get shoved verbally abused and spat at just because of my colour apparently purple cacti are inferior everyday i would wake up and not want to leave my nettle bed i made excuses to my parents to try and get off from going to school but it rarely worked everyday i would discover a new hell at school and everyday i would limp home dragging my cellular juices across the street with bruises scattered across my body the bullying even spread to the internet i had no where to hide i felt that i had no more use in this life but one day i decided to change my life forever i decided to stand up to the bullies do you know what that day was? the day this song was released the day i listened to this song on repeat grabbing the words and milking them for their meaning mmmm and what lovely milk it was! i returned to school a changed person i became popular with the bullies cracking jokes that would always return a laugh to this day i have not been abused at all since then thank you bars and melody! you have turned a depressed sick and bruised cactus into a happy popular and healthy one! to all the haters: i will find you and i will shove one of the spines up your ass! bars and melody are the greatest thing to ever have come out of bgf! get used to their talent and passion you will see more of it! #bm4lyfe  #proudtobercactus  #iampurpledealedwithit

as someone whom was abused as youngin till my early 20s i know how depp feels it's so weird to be the affect i remember being accused of things i know not by the parents of older relatives for playing house with their kids even though at the time i was the youngest of the ones that were older but knew not except do wht at i was told i remember being groomed to do things things i was taught is how you show love but later being told those were wrong later on and just end up confused especially after being yelled at like a monster and that i should've known even though an adult taught me those things living in a house filled with females whom always picked on you body shaming as you grow and laughing at you as you try to learn because you don't learn like everyone else but then being punished by your own parent for giving back what they gave you saying you are a boy it's not that big of a deal when in reality it really was being forced to live with bullies that shit on you emasculate you in front of others making them comfortable to the same telling me stop wining all i did was finger your butt girls have it worst anyways like wtf man that type of fuckery abuse can make you be someone you don't want to be especially being sheltered in areas with people that don't make it easier and always saying that the abuse i am going through will make me stronger like wuh?? how is incest powerful?? you growing up fucking confused as hell falling in love with the wrong people and having fantasies you should not be fucking having how is getting fucked by a lesbiana at 10yrs telling you are her boyfriend learning the hard way after being made fun by her friends that the bitch is always on bottom powerful?? how is getting fucked by a policeman for 2yrs cause you believe he's a man that loves you a figure you never had giving you the love movies always portray just dump you on your bday and tells you to keep it to yourself cause your g@y now a powerful thing?? you become so lost like you don't know what you are and who you want to be to t he point you end up wearing a mask that reflects the world in front of you becoming a parody of your surroundings so you can blend constantly lying because lying is safer than getting beat for telling the truth or being pushed to the side cause your now the touched one like idk it sucks when you talk about it and folks say and you didn't do any thing?!? but when you do you are ridiculed and treated like a weak ass bitch or you are a terrible person if you fend off a female for yourself or even another male being abused because a female can't be touched whatsoever and you are not a real man if you can't take it folks talk about how terrible abuse but honestly i ain't seeing too many trying to mend things unless it gives them attention benefits their narrative or any other way beneficial for them smh being alone is lonely but at least i am safe #justicefor johnnydepp

3 femicide from wikipedia the free encyclopedia femicide or feminicide is a sex based hate crime term broadly defined as the intentional killing of females (women or girls) because they are females though definitions vary depending on its cultural context[1] feminist author diana e h russell was the first person to define and disseminate this term in modern times in 1976 she defines the word as the killing of females by males because they are female other feminists place emphasis on the intention or purpose of the act being directed at females specifically because they are female others include the killing of females by females[2] often the necessity of defining the murder of females separately from overall homicide is questioned intimate partner violence affects 3 in 10 women over a lifetime and it is estimated that 135% of homicides globally involved in intimate partners and these percentage of killings are gendered[3][4] opponents argue that since over 80% of all murder victims are men the term places too much emphasis on the less prevalent murder of females however a partner is responsible in almost 40% of homicides involving a female victim compared with 6% partner responsibility for homicide involving a male victim[3] in addition the study of femicide is a social challenge[5] an alternative term offered is gendercide which is considered to be more ambivalent and inclusive however some feminists argue that the term gendercide perpetuates the taboo of the subject of the murder of females and proves the continual silencing power of dominant male structures in society[6] feminists also argue that the motives for femicide are vastly different than those for androcide instead of centering in street violence much of femicide is centered within the home ie domestic violence development of the term[edit] the word femicide was first recorded in 1820 to 1830[7] the term femicide was first used in england in 1801 to signify the killing of a woman[8] [failed verification] in 1848 this term was published in wharton's law lexicon[9] another term used is feminicide which is properly formed from the latin femina meaning woman (femicide being truncated) the current usage emerged with the 1970s feminist movements which aimed to raise feminine consciousness and resistance against gender oppression[10] the term was also coined by radical feminists to bring to a political light the violence against women[11] american author carol orlock is widely credited with initiating the usage of the term in this context in her unpublished anthology on femicide[10] diana russell publicised the term at the crimes against women tribunal in 1976 while testifying at the first international tribunal on crimes against women in belgium[12][11] here is part of what she wrote for the proceedings: we must realize that a lot of homicide is in fact femicide we must recognize the sexual politics of murder from the burning of witches in the past to the more recent widespread custom of female infanticide in many societies to the killing of women for honor we realize that femicide has been going on a long time but since it involves mere females there was no name for it until carol orlock invented the word 'femicide'[12] until recently femicide was invisible in much of the scientific literature[13] intimate femicide can be identified as such by using the severity of violence such as access to and threats with firearms forced sex threats to kill and strangulation to determine whether a case can be considered an act of femicide or not[3] the definition of femicide also relies on inequalities in gender in terms of education economic level and employment[14] contemporary definition by feminists[edit] feminist author diana russell narrows the definition of femicide to the killing of females by males because they are female russell places emphasis on the idea that males commit femicide with sexist motives[15] she also chooses to replace the word woman with female to show that femicide can occur to both girls and infants as well[15] russell believes her definition of femicide applies to all forms of sexist killing whether they be motivated by misogyny (the hatred of females) by a sense of superiority over females by sexual pleasure or by assumption of ownership over women[15] russell's broader definition of femicide is stated as this femicide is on the extreme end of a continuum of antifemale terror that includes a wide variety of verbal and physical abuse such as rape torture sexual slavery (particularly in prostitution) incestuous and extrafamilial child sexual abuse physical and emotional battery sexual harassment (on the phone in the street at the office and in the classroom) genital mutilation (clitoridectomy excision infibulations) unnecessary gynecological operations (gratuitous hysterectomies) forced heterosexuality forced sterilization forced motherhood (by criminalizing contraception and abortion) psychosurgery denial of food to women in some cultures cosmetic surgery and other mutilations in the name of beautification whenever these forms of terrorism result in death they become femicides[16] she includes covert killings of women as well such as the mass murder of female babies due to male preference in cultures such as india and china as well as deaths related to the failure of social institutions such as the criminalization of abortion or the prevalence of female genital mutilation[15]

3 first of all they started dating in 2011 and moved in together in 2011 and eventually married from 2015 2017 and all of a sudden all those years they were together (7 years) and now coming out is very suspicious to me since amber is the one that gets an idea to move in together with him back in 2011 said yes to an engagement and said yes to marriage and traveled to australia and both of them came out with an apology video for smuggling pets so her story of those 7 years together and all of a sudden she comes out with this story so i have question when did the abuse started either while they were dating or when johnny proposed to her or after they got married? another question why did she stay for 7 years of them being together and when the cops came she never told me that she needed help when the cops saw her and johnny and the cops saw amber never had any bruises or injuries until a few days later claiming it happened the night of that the cops when they saw her this is a mystery to me nothing adds up and the video of her describing the story she can't describe her face in words if he scratched or hit her since she doesn't know what words to put it together to make it believable for court and audience i've heard of amber heard since she starred with johnny depp in 2011 when i first saw the movie when it came out before when they started dating and i never thought both of johnny depp and amber heard would ever come back 7 years later like two gorillas attacking each other in boxing ring i love johnny depp he is my idol and inspiration to me he taught me my love for acting and want to persuade in career wise but what's strange is johnny depp had had other women even vanessa paradis when she was with johnny for 14 years and other woman before her and every single one of them said johnny always respected them treated them right and was always a good father and wanted to do good in this world doing what he loves but when amber and johnny gets together and this hell she describes in this footage this story makes me wonder when did all this start and what or who started this bad blood between them? if johnny depp tried to kill you where is the weapon he used? do you happen to have that weapon to use as evidence or did he use his bear fist to smash your face until you are brain dead since no evidence has been showed that is hardcore evidence to prove he tried to kill you or abused you in any way jk rowling said johnny depp showed her footage to prove to her he never abused you but you are using pictures of yourself that someone is taking of your face and since you can hire makeup artist or a friend or paying someone hush money and accuse johnny and no witnesses has come forward makes me think what is she trying to get out of this story what is she trying to prove and even if she proves or doesn't prove what is she trying to get out of this story? sounds like to me she wants to continue with these claims even though she is already divorced from depp and staying away so what's the point of this drama? why can't she just do her job audition for roles and live your life but she chose continue with these claims these claims that are on going doesn't sound like to me these claims won't end anytime soon since she would do anything to boost her career and ruin depp career and depp wants to ruin her career because he has more money than amber and johnny paid her for support and she donated it so i don't understand the ongoing point of this story both are trying to tell i'm not choosing sides between depp and heard but i'm saying she is just wasting her time trying to prove instead of moving on with her career and life johnny is crazy to pay \$50 million defamation over an op ed she wrote for the washington post¹ in december 2018 instead of saving th at \$50 million on something that's useful instead of amber false writing back in 2018 both of them need to move on because we will never know the truth who is telling the truth or not because nobody was there in the household with them to witness the truth so nobody like no press johnny depp fans or amber heard fans or court or anyone in the world will ever know the truth or the point of depp and heard drama and even if we find out now or ever nothing can't change the past or which one of heard or depp career both of them will always be successful since actors when bad things happen they continue to audition for more movies in order to sustain themselves to put food and a roof over there heads amber doesn't have hardcore evidence to prove anything if she did all of this drama would of ended a long time ago but all i hear is different stories and both filing a lawsuit but where is evidence that proves 7 years of abuse and she is the one that said yes to moving in yes to an engagement and marriage and she defended him many times before all this accusations came about i was sexually assaulted multiple times by multiple guys about 3 of them and physically and mentally bruised and there was blood coming out and my wrists were bruised tears and trauma since the day a rapist took my virginity the day i had my first kiss and other guys when i told them what happened they used it as a weakness and lied and took advantage of me again and again and put fingers in my mouth and pulled my hair and one of them took video pictures and messages but s o for me as a victim of physical and mental abuse i know that amber heard story doesn't add up because i know from experience the truth and a lie and the hardcore evidence to prove her story doesn't make sense its just story but no facts of evidence she can tell the world anything but to me personally someone out there will use her story to take advantage of her just like me when i told the truth even the evidence nobody cared and it won't change anything

3 <the accusations from zegler came after renner was accused by his ex wife sonni pacheco of abusing drugs and alcohol threatening to kill her and also attempting suicide in court documents obtained by tmz amidst a custody battle over their six year old daughter>

3 i love the 2nd and 3rd films with michael jai white but even though the original came first it had many problems now is the time i talk about the top 5 plots i would change to the plot 1 the karate kid story would be gone instead after witnessing the fights on the beach sean is talked into fighting to make money so he barely wins his first fight and walks away with \$1000 then he trains under jean rogue he still tells him not to fight outside the dojo but because he doesn't have a computer or cellphone he would never know about the fights after he is more experienced he wins a few more fights until he is set up by ryan and loses everything and after that the movie plays out as it does originally 2 seans home life and issues with jean would remain the same but we would get more character interaction with baja jenny aaron and eric 3 baja would end up in a huge fight with jenny and they both get expelled thanks to max recording it and it's all over the internet but jenny ends up with ryan and baja loses all her friends (which was not explained or shown in the movie) 4 after sean loses his fight to ryan he is banned from the beach fights so then he picks a fight with aaron and eric (ryans friends) to impress and get attention that his fight was rigged which sparks people interest this of course would replace sean beating up those 4 latin guys who were honking at him and ryan forcing sean into the beat down in the bathroom 5 the beat down would happen the same only difference is the set up is different after sean's fights with ryan friend s he wants to fight ryan again but he refuses then he talks shit about his father beating on him and his mother and ryan wants to kill him afterwards but his friends convince him to fight in the beat down instead jean then finds out about sean sinking so low to prove a point that he refuses to teach sean anymore than after that a few scenes from the movie happen the same sean gets together with baja and makes up with his mother and the apologizes to jean he tries to apologize to ryan but he's not having it then says he won't fight in the beat down and ryan loses it but then sean says the lines he says at the end of the movie (all you want is to show people how good are you work the crowd that's all you care about and it's all you got it doesn't matter they just want to see us kill each other despite who wins or not) instead of ryan putting the beat on max he instead goes after sean's brother than the beatdown happens the same only difference is it's at the beach and all the fights happen the same and ryan and sean are the last fight after ryan loses his drunk ass dad attack him and sean then jean comes in and fights him after that sean and ryan make nice the movie ends as it did originally

2 i hope she gets life in prison she intended to kill him when he wasn't even a threat did not lunge at her pull out a weapon toward her nothing her actions after the fact prove that she had no intentions to save his life after her mistake just her own ass by deleting texts and worrying about her job the judge should throw the book at her

2 this is the teaching of jesus from almost 2000 years ago: truly i tell you; if anyone obeys my teaching he shall never know what it is to die" (at john 8: 51) "\r \r so we must avoid all religions; even the pope and christianity; because we learn through jesus that religions are all led by the many blind guides and false prophets who continue to mislead us when he alone (in the name of immanuel) is the son of man and the true prophet who was sent by the lord god to be always our one teacher"\r \r these are the words of the lord god: \r i will raise up for them a prophet like you [moses] from among their fellow israelites and i will put my words in his mouth" (at deuteronomy 18: 18) "\r \r therefore the lord himself shall give you a sign: a young woman is with child and she will bear a son and will call him immanuel and he is with us" (the prophet icaiah

" therefore the lord himself since day 1 taught a young woman as mary child and she had seen a son who was like him immediately as her day" the prophet adam 7: 14) "if you have ears to hear then hear" (jesus in the name of immanuel the messiah at mark 4: 23) "god is spirit and those who worship him must worship him in spirit and in truth" (jesus at john 4: 24) "in truth i tell you anyone who gives heed to what i say and puts his trust in him who sent me has hold of eternal life and does not come up for judgement but has already passed from death to life" (at john 5: 24) "beware of false prophets men who come to you dressed up as sheep while underneath they are savage wolves you will recognize them by the fruits they bear" (at matthew 7: 15 16) "do not call any man on earth father; for you have one father and he is in heaven nor must you be called teacher; you have one teacher the messiah" (matthew 23: 9 10) "take care that no one misleads you: for many will come claiming my name;" (jesus at matthew 24: 4) "many false prophets will arise and will mislead many; and as lawlessness spreads men's love for one another will grow cold but the man who holds out to the end will be saved and this gospel of the kingdom will be proclaimed throughout the earth as a testimony to all nations; and then the end will come" (matthew 24: 11 14) "i am the way; i am the truth; and i am life; no one comes to the father except by me if you knew me you would know my father too" (john 14: 6 7) "when you pray go into a room by yourself and shut the door pray to your father who is there in the secret place; and your father who sees what is secret will reward you when in your prayers do not gabbled on like the heathen who imagine that the more they say the more likely they are to be heard do not imitate them your father knows what your needs are before you ask him this is how you should pray: our father in heaven hallowed be your name your kingdom come; your will be done on earth as it is in heaven give us today our daily bread forgive us the wrong we have done as we have forgiven those who have wronged us and do not bring us to the test but save us from the evil one for yours is the kingdom and the power and the glory for ever amen for if you forgive others the wrongs they have done your heavenly father will also forgive you; but if you do not forgive others then the wrongs you have done will not be forgiven by your father" (at matthew 6: 6 15) "pass no judgement and you will not be judged for as you judge others so you will yourselves be judged and whatever measure you deal out to others will be dealt back to you" (matthew 7: 1 2) "always treat others as you would like them to treat you: that is the law and the prophets enter through the narrow gate wide is the gate and broad is the road that leads to destruction and many enter through it but small is the gate and narrow the road that leads to life and only a few find it" (matthew 7: 12 14) "i am the gate; anyone who comes into the fold through me shall be safe he shall go in and out and shall find pasture the thief comes only to steal to kill to destroy; i have come that men may have life and may have it in all its fullness" (john 10: 9 10) "not everyone who says to me lord lord will enter the kingdom of heaven but only the one who does the will of my father who is in heaven" (matthew 7: 21) "i am the resurrection and i am life if a man has faith in me even though he dies he shall come to life; and anyone who is alive and has faith shall never die" (john 11: 25 26) "i have not come to judge the world but to save the world" (john 12: 47) "whoever will acknowledge me before men i will acknowledge him before my father in heaven; and whoever disowns me before men i will disown him before my father in heaven" (matthew 10: 32 34) "any plant that is not of my heavenly father's planting will be rooted up leave them alone; they are blind guides and if one blind man guides another they will both fall into the ditch" (matthew 15: 13 14) "the disciples came to jesus and asked who is the greatest in the kingdom of heaven? he called a child set him in front of them and said i tell you t his: unless you turn round and become like children you will never enter the kingdom of heaven let a man humble himself till he is like this child and he will be the great test in the kingdom of heaven whoever receives one such child in my name receives me but if a man is a cause of stumbling to one of these little ones who have faith in me it would be better for him to have a millstone hung round his neck and be drowned in the depths of the sea alas for the world that such causes of stumbling arise! come they must but woe betide the man through who they come!" (matthew 18: 1 7) "though many are called few are chosen" (matthew 22: 14) "an expert in the law [a leading religious pharise] tested him with this question: teacher which is the greatest commandment in the law?" he answered love the lord your god with all your heart with all your soul with all your mind that is the greatest commandment it comes first the second is like it: love your neighbour as yourself everything in the law and the prophets hangs on these two commandments" (matthew 22: 35 40) "there is no greater love than this that a man shall lay down his life for his friends" (john 15: 13) "stay awake and pray that you may be spared the test: the spirit is willing but the flesh is weak" (matthew 26: 41) "however when he comes who is the spirit of truth; he will guide you into all the truth" (john 16: 13) "teach them to observe all that i have commanded you and be assured i am with you always to the end of time" (matthew 28: 20) "yours in true spirit and in our one given prayer 2goentruth wednesday the 30th of june 2021: " (matthew 5: 14 16) "where every minute (of both day and night) can be a new beginning for any one of us let it always be you pray to god often before it is too late" 2
i think that at the end she planned to kill him she is been repeating dv to everybody through the years so when she kills him by accident she would cry selfdefence et se everybody would have kept quiet as the narrative would have been already engraved on everybody's mindbut she didn't have the time as johny filled for divorce firt

batman has access to everything that exists in the dc universe there are so many ways batman can defeat superman 1 fear toxin: no one not even superman is above crapping the ir pants from sheer terror or getting high a healthy dose of the scarecrow's fear toxin that's how it is quite effective like that time in superman/batman #38 superman was literally crying in a corner after having the bejusers scared out of him thanks to scarecrow's fear toxin batman can easily get his hands on a sample of fear toxin and modify it to make superman afraid of him it's possible 2 supersonics: in the dark knight returns batman uses a sonic wave gun to stun the man of steel and send blood spurting out of his nose in tdkr batman only wanted to stun superman he didn't want to kill him batman held back but he can use a high frequency sound to even kill him if powerful enough it could cause an air embolism in his lungs incite them to explode and even stop his heart vandal savage uses a sonic attack on superman in action comics #556 by marv wolfman 3 poison ivy's toxin: batman can easily get his hands on one of poison ivy's toxins and combine it with kryptonite to create a deadly mixture to mind control him batman can control superman the same way he was controlled by poison ivy in hush because let's face it supermans mind unlike batmans mind is not as strong as his body is so if batman could hypnotize superman like i mentioned above he can theoretically tell superman to kill himself or commit suicide he won't need to do anything else 4 phantom zone: these days batman keeps a mother box with him he can use a mother box to teleport himself to the fortress of solitude he is smart enough to disable the countermeasures and all other security measures so as to not alert superman once there he will use the phantom zone on superman after subduing him through the means mentioned above 5 red solar grenades: you already know this there are still other ways batman can kick his ass he can make a suit out of nth metal laced with kryptonite equipped with red solar grenades nth metal +kryptonite+red solar grenades = superman is toast incase you didn't know nth metal is very strong and can't be just ripped apart like it's nothing on top of that nth metal gives the wielder super strength and the power of flight

2

i disagree with you! she should be fired! she is an abuser who totally ruined johnny depp! she also has a history of abusing others she abused her previous girlfriend! she abused her sister! does she have to kill someone for her to be fired?!!

1

damn the entire internet cracked down on her and told her why she was wrong and she still thinks she is the victim in all of this you literally tried to kill a man via cop a my i understand you are trying to get your job back but the logic you are using as your defense tells me you haven't learned a single damn thing since then irritating

1

ok so this is saying that a king a cyborg and a guy with lightning speed are not enough against the man of steel but what about the god killer she killed a god is a god and she isn't enough against a man? what is this in her 1st movie she is able to throw lightning fly create a forcefield around herself where is all that is this because she is n't really trying to hurt him but dude she was born to be able to kill the god of war like really is get that technology is better and all but i think hand to hand remains t he same at least

1

you don't ever accidentally push someone if you put your hands on them there is some intent to harm she may not have intended to kill but she did

1

10:47 this completely balances that out though crimes are all about state of mind you have the right to kill someone if you claim you were in fear for your life and a jury agrees that a reasonable person could/would feel that way under the circumstances presented the entire case is about did she fear for her life when it should be about the fact that she is in his home whether mistakenly or not can you just claim ignorance and get away with murder just because your a cop? this really shouldn't be a tough case but it seems like it is for some reason even if somehow you could prove that she did in fact think it was her house the fact that it wasn't seems like it should be just as powerful

1

1

ik how you feel dude :(ive tried to kill myself 4 times because if it but things get better! it stopped last year :3 so im happy for that! your strong for hanging in ther e!!!! ignore those butt nuggets >3!!!

1

1

oh come on! stop with branding parts of women's bodies inappropriate this is sexist beyond belief how is it okay for husbands in turkey to kill their wifes and not okay for a tourist to not 100 % subscribe to that culture? i bet nowhere in the koran it says to kill your wife but they do it anyway but when a woman wears her normal clothes it's suddenly a crime disgusting

1

don't leave people alone that means it give the creature an opportunity to kill the person

1

i feel bad for her she ended up liking herself in prison i don't think she intended to kill him and i think windows should be capable of keeping a person inside the apartment if they are that high up someone else will trip and fall out that building drunk one day

1

he lost his mother the msm was always defaming and talking shit about him people was against him for absolutely nothing this whole thing has been going on for years 4 5 years he honestly deserves so much better he was emotionally and physically beaten down by a woman who he loved but she didn't deserve him we've known him for years as fans s he is only known him since 2011 he was never charged if he was even abusive which he isn't!! she is been done twice for domestic violence she should honestly go to jail fo r what she is done!! he lost \$650m she actually wanted to kill him _>3 not while i'm around

1

1
my dad went through the same with the woman that was supposed to be my mum but she didn't deserve that title since she abandoned my brother sh used to alway argue and attack him he walk away then she kept following to start she also ran away with my sister and got her bros to kidnap my bro and try to kill my dad we had no evidence tho and woman always win in court my family is sooo fucked atm my grandad who has always been there for me is i'll my dad don't wanna move out of bed most day because of his leg and back which has got worse since the attack and i just dont know what to do any more i felt i needed to speak i don't know what to do anymore i've not told many people this story
1
why cant someone else play ty? heartland wont be the same anymore it's so sad to kill him off
1
not sure about this one i followed this case closely and they had witnesses who said she ran hard before pushing him including the window repair man who was in the next room and neighbours who heard her run so he couldn't have been close to her it wasn't a get away from me! push and there was a lot more proof of her abuse but also control! she was a spoiled girl who threw many fits to get her way was it intentional as i want to kill him now not quite but it was obvious she had many episodes of rage and she did say they will never prosecute a tiny pregnant girl like me' she never thought about the consequences to her actions
1
i have no doubt he knew what was going to happen if he broke free from medusa i think he's been in the biz long enough and seen things in it prior to this he knew he would have to go through this and he chose to fight! he is the perfect example of the definition of courage from to kill a mockingbird: courage is when you know you are beaten before you start but you start anyway he is courageous he will fight for the truth my hat is off to him!'
1
i will not watch the film in support of ah but i will watch it in support of jason momoa he deserves our support! to kill many actors due to one is less than i will not hurt many cause one bad apple its selfish to feel that way i feel they deserve my respect even if she does not as she should have been removed and was not that dose not change the rest of the cast that pour their hearts into this project let the legal people handle ah and her problems this will prolly be her last big role anyway
1
she said she intended to kill him intent was formed instantly after missing all of the red flags
1
@big lion having to kill your friend could make anyone going toward dark depression so that is my guess
1
it's one thing to break in another person house how she get in? it's another to claim self defense but unless that man had a gun then it wasn't an accident if not it was intentional there's no reason to shoot an unarmed suspect and i honestly don't think he would charge her if a gun is being pointed at him this may not be premeditated but this wasn't no accident either she meant to kill him after all that training you forget where you lived fail to identify yourself and use unnecessary tactics inexcusable
1
i agree with everyone saying she meant to push him but she didn't mean to kill him
1
@noel star yes it was written to a friend but that doesn't change the fact he wanted to kill her he did chop his left finger off he even admitted that in court i refer to court documents not edited stuff by youtube sorry youtube videos/recording are not usuable evidence in court actually you are dumb because you ignore his own confession he did it himself even the judge said she was not responsible for that
1
geralt's timeline is a straight line from episode one to this episode geralt's timeline is in the past before ciri is born renfree told him the girl in the woods is your destiny because she (renfree) was special she was some sort of mutant that's why stregabore wanted to kill her yen's timeline is a straight line and separate from geralt's and ciri's at the moment hers is also in the past in relation to ciri's timeline ciri is in the present and geralt's timeline alongside yen's to a lesser degree shaped ciri's timeline in the present and what's happening with her
1
@thanos the problem is that superman is strong overall even though his strongest point is endurance and strength his speed isn't to be look down on either flash have the speed force but he's not allowed to go over a certain speed or he'll be forced into the speed force flash could potentially move so fast that its like he stop time but the speed force limits him furthermore in no way would flash try to kill someone
1
i don't think that she meant to kill him but eventually abuse can lead to murder so really it seemed that it was only a matter of time before something terrible happened what a sad story!
1
does johnny depp deserve some justice? yes is he a good person? not by a long shot he may do some good things but i wouldn't hold this man up on any pedestal when it comes to morality when he talked about how to kill a president when george w bush was in office that's all i needed to know about this man among other things so this could be some things catching up to him we need to be careful about who we are defending and what it is that they are being attacked on when it comes to hollywood actors i'm not saying amber heard is innocent but there's a reason why she is making these stinks part of it is she is a feminazi but i wouldn't be surprised if depp did do something to her my honest opinion they both probably did something to each other if depp's career is over it should be over the things he did and say that we know he has done and said but not on accusations with no evidence
1
duke they won't kill of one of the mc of the movie and they won't kill of the future queen of atlantis second she is a co star so like i said they are not gonna to kill her off for fans because that would just piss off dc fans more
1
@sara mignon tons of issues with both testimonies they both lied on the stand i read his testimony and depp was pinned down numerous times for lying about drug use text messages threats he made to amber he threatened to kill her to a friend in a text routinely called her a cunt he is another crazy ass celeb wacko
1
well if anyone doubts she came after him with a machete maybe hearing her say over & over how much she wants to kill him is proof wow i don't care what he might of said before the recording started there is zero excuse to hit someone especially if he's holding his baby and to say take him & get out? umm wouldn't a loving mom just tell him to get out & leave the baby? and basically say over & over how she didn't want to have a abby right now gezzz if she is not taking her medication right & nobody can make her then she shouldn't be allowed alone with james felt like hearing her hit gary all over again she needs major help!
1
it's a shame that so many people believed in this shit! mary and amber are friends since they were young models in nyc! and at the time amber was in france filming three days to kill johnny depp was there with her!
1
i've followed this story for years based on the interviews and documentaries i've seen it's so sad but unfortunately i think they were a couple who perhaps never considered their repetitive fighting was not normal behavior for a loving couple and that they should seek help to resolve their problems his family had said she'd kill him someday!!!! that having been said i truly don't think she pushed him with an intent to kill i think she probably just pushed him like she'd done numerous times before unfortunately her husband was standing in the wrong place this time terribly sad all around
1
my mom is the same she even threatened to kill herself when she got angry at me(for being outside while it was raining)
1
i really don't think she meant to kill him they probably got heated and she probably just shoved him he might've lost his footing and went to brace himself or something but he fell through regardless this is just a thought but maybe that window was damaged as well? if he threw a laundry basket because he was angry it probably wasn't the first time something was thrown in the apartment but hell i don't know very sad all around
1

when you listen to the entire recording amber heard is like a ranting psychopath she admits over and over at throwing multiple items at johnny as well as punching/slap punch (or whatever other violence she admits and inflicted on johnny this recording is the classic abuser not allowing him to talk blaming him for walking away after being hit come on guys not once does amber say that johnny hit her and she tries to download her obvious violence to johnny johnny is a part of the me too movement not amber amber reminds me of the character that sharon stone played in basic instinct the beguiling beautiful manipulative evil psychopath any psychiatrist or psychologist that hear's the entire recording knows absolutely that johnny is innocent men get abused too ive read all the messages between ambers mother and father to johnny and he remained the gentleman and the parents of amber telling him they love him but i guess that one too many punches to johnny did it i dont believe a word of amber heard she is a classic gas lighting abuser

6

amber is mental and creepy schools should study her: sociopathy psychopathy narcissism borderline personality disorder

6

i hate this woman so much! she is a damn viper! it was a loveless marriage on her part everything indicates that he devised a plan to destroy mr johnny depp's successful career a plan that consisted of getting married for a short time asking for a divorce accusing him of domestic violence depp's dedication and professionalism ah wanted to destroy a kind man who is also an excellent actor this ordinary woman is a horrible actress without talent it is beautiful on the outside but on the inside it is horrible it has a very black very dirty interior that negates the physical beauty johnny depp is my favorite actor! he is a mature handsome and sexy man desired by millions of women around the world! so many that they would love to be in the place of this sick woman his mistake was marrying a narcissistic psychopath she is completely crazy justice for johnny depp

6

amber heard is a psychopath a psychopath can appear normal even charming underneath she lacks conscience and empathy making her manipulative volatile and often (but by no means always) criminal

6

i wrote on johnny depp's facebook my love and sweet man johnny depp i've been thinking of something to defeat amber heard the great liar and psychopath we will win in virginia in 2021 think with me could it be that the places where you and amber had a camera inside your house or in the establishment where you were in australia? because you know go search the cameras and do an investigation in silence without anyone knowing and take a copy of the images of her throwing pots at you punching you in the face hitting and hurting you and save your reputation in all world! that way it can be a winner because the cameras do not deceive and it is more than a photo that can be a lie as amber did and premeditated everything! the footage of the physical and verbal fights should be shown the feces on the bed too anyway show it all at the virginia court of law and don't waste time go through evidence to amber heard to get dismoralized only with evidence and not with words can you beat amber what's more the judgment is physical violence and it has nothing to do with adultery the court of justice only judges one thing at a time don't take any offense from amber heard and her sisters and friends they are evil characters and they will never be above good and evil we are going to win this war because with psychopaths it has to be that way for me i would have banished them all from planet earth!

6

she⁵s a case study (sociopath/psychopathy/mental illness) and discredited real victims she could've murdered him men can be victims too *prayers to johnny depp*

5

i have followed this case for some time now and have seen the court documents and the evidence presented there is no doubt in my mind at all that amber heard is not only the abuser in this case but a blatant liar and shameless manipulator but no one should take anyones word for that go and review the evidence and the facts of the case available and make up your own mind it's so vitally important in this time of hearsay and media bias and dishonesty to be able to access facts and evidence so you can determine their credibility for yourself the channels that i follow and know to be covering this case in depth going over evidence and court documents are the following: lost beyond pluto (she is a lawyer and goes through the court documents and the case from a law perspective very informative) thatumbrellaguy (great content always directly backed by the latest evidence) stevie j raw (also absolutely excellent at going through the evidence and facts has full readings of witness and defence statements) come geek some (same references and goes over facts and court documents) colonel kurtz (has very interesting in depth content on the case from a more psychological/philosophical angle) as mentioned stevie j raw has uploaded full unedited readings of the court statements of amber heard johnny depp and other important key persons in the case giving you direct access to their own statements so you can compare and come up with your own opinion as to who is telling the truth

5

psycho!

5

i think this psycho knew he was planning to leave her and launched a smear campaign to prevent anyone from calling her what she is an abuser how sick and desperate for attention do you have to be to split with someone then spend more than 4 years dragging them through the mud? does she have some sort of attitude that if she can't have him she will make sure no one can? abusers will continue their abuse if given the opportunity

5

amber heard is a psycho

5

heard is a psychopath

heard is a psycho

this girl probably suffered so much violence during her childhood that she never healed the trauma possibly having an extremely manipulated narcissistic father both alcoholics so the cycle in the family repeats she is narcissistic and crazy sicko pretending very smart as a victim actually this is proof that she is who she is fuck up! it is very interesting but a narcissist knows that he does not deserve love so johnny very pure soul more he tries to help her and love her more hateful and violent she can be it is in credible that as of today 2021 there is no justice for this type of psychological cremines even ciquiatrists can know it but society is so sick that it questions these acts shocking and terrible ignorance

4

*she is mental and creepy schools should study her seriously seriously narcissism borderline personality disorder

you can tell she fake her injured face you simply compare her face to rihanna face after beaten up by chris brown that's what cut is what swollen is and what injured is she is making fun of people thots been abused btw you are so amazing keep making videos regarding this case
1
@notnero lol you are talking about comparing a demi god to superman not a regular human woman vs regular human man so take your mgtow bullshit somewhere else many times have men been beaten up by women and also women have been stronger than men or do you really think you could take ronda rousey miesha tate gina carano or any women like them? any of these women i am pretty sure are much stronger than youhttps://fitnessvoltcom/top ten strongest women/
1
@mamabear970 that is his daughter and a lot of dads are protective of their daughters but i wanted farrah's ass to get beaten up by amber tho!
1
can anyone tell me why amber did not records her beatings if she recorded and took pictures of the aftermath if she was beaten up the way she says she was she would not be able to operate (irish fan)
1
lmao the video is just amber getting beaten up and saved by everybody show us how cool she is geshin! i wanna see my main shine!
1
that recording of depp in the morning being angry shows her having baited and led him to the point where she hopes he will give her something to prove her narrative she thrives on goading baiting creating drama and trying to capture evidence that she is the target! everything about her behaviour voice actions says he is the target here she is a malignant covert narcissist they have no conscience or empathy this is why she is happy to lie and to manipulate others into lying to reach her goal someone who had genuinely been beaten up the way she claimed would not even have turned up to the court this way she didn't even need to be there! she was there because she loved it the attention the drama nars get off on the game itself and her fauxrelationship with him was that a game to be won
1
regardless of what he is he's human beings who got the tough father and has been bully by fellow students i can see why he is the person he becomes deep down inside him it's a little boy who got beaten up by others when he grown up he wants to control everything never again would he let another person bully or boss him around that why he is the way it is right now
1
she doesn't want to sign the police statement because she could end up being guilty of purging herself putting makeup on and pretending to have been beaten up in order to throw johnny depp under the bus and destroy his good name and career is just a scumbag move on amber's part even after all shes put him through she wants a big court case to really put that final nail in the coffin shes so friggin evil i feel bad for johnny depp all he wanted was a loving and respectful relationship with amber and even though she's used him as a human punching bag he still says that he loves her more than anything in the world her behaviour would put courtney love to shame and shes batshit crazy
1
amber bitch should be beaten up bad
1
if she was really beaten up she could have a medical proof a bad liar she just wants his money and fame
1
people that likes amber heard go to hell because your on the wrong side you can tell that's just make up to make her look beaten up as we all know that she just a sexist that fakes everything and am not saying that because she an actor am saying that because she a psycho
1
i hope that in the snyder's cut we can see more about wonder womans power and her fight abilities against superman! it was really disappointing to see her beaten up by superman so easily in this version of justice league
1
i'm a male victim of domestic abuse from my mother and when the police responded nearly an hour later they were threatening to arrest me for calling them claiming i could have just beaten up my mother instead of doing what is supposed to be the right thing and removing myself from danger and reporting the crime she attacked me from behind while i was sitting in a chair and the police wanted to arrest me for simply being a male victim of domestic abuse who had the audacity to report it my father claimed that he did me a favor by convincing the cops to not arrest me for reporting a crime of which i was the victim i told them to go looking for her van because she was probably out getting drunk and driving around i was right but they never even looked into it i haven't spoken to my family in over 11 years
1
doyoureally think elon musk is such a sissy boy like deppbeing beaten up by a girl half his weight ?
1
musk has nuts !
1
if my best friend was being beaten up i would be freaking out
1
i was bullied and beaten up as a child cause i was small and shy nowadays its not good idea to try me cause i have this kind of a primal thing happening that i feel like im in danger and i have to survive
1
wonderful lady who was badly beaten up by the coward depp hes a joke of a man
1
when i was young we had a neighbor that was transported away in an ambulance several times after being beaten up by his wife once she hit him in the head with a spaghetti casserole i was just a kid and thought it was brains hanging in his hair when the ambulance came
1
people seem to forget that johnny depp is a really pacific and chill guy that he never beat women ever before and instead is a passionate lover one bitch who let's not forget it is an actress is spreading lies and just because it's a woman everybody believes her and side with her because oh it's not that bad if a guy is beaten up bullshit he got remove from important movies bullshit justice for depp please
1
@ghost dog yasuke i hope that male victims will be believed more still it doesnt help a female friend of mine that was beaten up and raped by her boyfriend for years when i tell her: here this study it proves women always start the fights so dont worry² studies are important still a single study just adds a tiny little bit more to the bigger picture
1
what bs are you talking depp being beaten up by a girl half his weight ? you're completely whacko !
1
the only film i vividly recall her in is never back down (2008) where she plays a female who is the girlfriend of a dirty street fighter who likes to physically attack and beat fellow students up and heard manipulates a new student who was kicked out of his previous school for fighting someone and goads him into a confrontation with her boyfriend so he can be beaten up in the film she plays the victim of the boyfriend it's an ironic role since heard is abusive and manipulates men like depp
1
the fact is that society needs to change a lot even to this day many good men and women aren't violent because of who they are when you add an abuser to either of their lives it can make physical and mental obstacles or trauma which then can create triggers that other rude or violent people can tap into i myself even get nervous / triggered when toxic people (violent alcoholic etc) argue or fight with other people that don't even concern me because it's putting myself in between a rock and a hard place for example either i stop the women / man being beaten up by her / his partner which puts me in a lot of danger or i don't do anything until police prescence is needed then again involving myself in general could get myself in deep trouble depending on who i confront / call the cops on we all have struggles as either gender but at in the same light have many similar struggles and sometimes emotions can hurt a hell of a lot more than physical abuse! the only thing i can say to help at this moment is that women should be more careful and analytical as most of the time they are weaker physically which can get them in even more dangerous situations same with weaker men think really hard about intervening etc! we all can be broken mentally but try to build a strong mind through self analytical measures & knowledge if we all change our selves to be better we'll slowly improve society halting some of those potential toxic people which usually create more toxic people (similar to a pandemic)
1
how does someone get beaten up so badly and not have any swelling what so ever there would be massive swellings if those were real
1
sole is fishy dont look that simple he always end up beaten up n stuff exploited my question is why is she doing that too him what does she get from it is revenge or hate what's up?
1
oh yeah someone is being beaten up and i'm completely calm oh she told me it's happening but im not at all concerned can i remain anonymous just in case she is lying sarcasm
1
i'm also hoping the absurdity of cancel culture is being pointed out i would totally watch a movie with someone like amber heard in it or even an abusive male star if they are honest and not try to ruin someone over being human sometimes humans smack a bitch who needs smacked i'll still watch their movie if they just say sorry² it happens i've been beaten up by a couple women who threw ipads cups knives etc people are nuts it pays to learn how to deal with mental deficiencies because we all have them women who push buttons specifically to get a reaction are responsible for the outcome of a good smack to their face or shove same with a man pushing a woman's buttons to the point they lose their shit no it shouldn't happen but it does in real life so please stop making real life a second grade classroom where we all have to not hurt jimmies feelings sometimes ya gotta grow up and deal
1
i move alot so i have been to too many schools but when i was a kid and i was bullied first time my father told me one thing if he calls u names call him more bad names if he punches u kick him after he died my mom and brother both told me same thing they said just dont let him do those things with you if he triggers u by bullying u should fire back and if principal says anything we are here for that so i have faced too many bullies but never got beaten up by them but my mom and dad also told me if u ever bullied a kid we will send u into boarding school so i dont bully just stop them
1
im not white so for me most of them are pretty anyway hahah and although some of them looks the same blessed with a hair and a eye colour though there are that looks really stunning etc same goes to every country you go most people looks the same but some stands out more and is really beautiful any other way and some are just not so much unless they fix their selves up in this case she is a stripper and knows how to fuck around her way to hollywood anyway the point is its all out now after the audio clip of their therapy session that she knows it was being recorded i have nothing to say tsk tsk tsk she is a criminal she is really a unscrupulous women that's why there are many crimes i

n this world its obvious she donated the money just to save face she knows she'll get money eventually anyway by doing movies and shit and dating elon after that's why she donated the money she said it herself no one will believe you johnny on the audio clip of their therapy session that they both knew was being recorded thats for anyone who doesn't know this issue yes she knows that their therapy was being recorded | 0 minutes australiar check this out innocent man sent to jail for rape by his own fiance | 0 minutes australiar in my country there was an old man who was beaten up due to an accusation of a young female who claims that she was molested on a public transportation she cried on national tv but turns out the old man was innocent and that their was a cctv footage inside the public vehicle lol now who is being backlash then? of course the bitch

1

i knew johnny would have never ever hurt a woman i was worried about his wellbeing his feelings about all this shit so yeah you can tell i was on his side all along but i never thought couldn't even imagine amber heard had beaten up the guy mentally and physically abuse him! and i'm sorry for being such a close minded person i'm sorry for myself because i wasn't able to even imagine that a woman is capable of such things! i am a feminist meaning i believe in equality i don't believe in man shouldn't cry i don't believe in women should only stay in kitchen i don't believe in when you go out with a boy he should always pay for the meal i don't believe in any traditional bullshit because girls can and will work man are humans and they break too the boy who is hanging out with me is not a moving bank no matter the crime or the victim he/she needs to be protected and supported feminism means equality between women and men if you call yourself a feminist but you don't support men and their right as well as women then just stop calling yourself that

1

had she been dragged through broken glass she would have been a bloody mess for weeks anybody who have had accidents with broken glass would tell you that it is much more dangerous than one would think i once had a glass thrown at me didn't hit me directly but the wall close to me a tiny half by half inch shard struck my face i got a 2 inch slash on my cheek the wound bleed like hell for hours i looked like i had been beaten up also the injury took a very long time to heal and i still have a visible scar like 15 years later using broken glass as a weapon and throwing bottles etc is a serious assault

1

i want this jail time i want an example set bc this is bull his characters in movies are friendly as hell how the hell you think he behind the scenes beaten up on women come on man, i'm so over this destroy every man you walk byshit it's tiring

1

@mcduude i live in a country where there's absolutely no feminists so i haven't faced any girl attacks in my life but i've been beaten up by dozens of guys in my life and as we all know guys are stronger than girls i haven't had a single broken bone

1

it's ironic to call these people leftists when they clearly behave like sexist assholes and not accept men as humans and more like street dogs willing to be beaten up what's even funnier is that now men can't even fight back to defend themselves because they will be painted as the perpetrator *_w* eq*fl*it*_y|

1

amber getting beaten up in her trailer and has to ask a legit adepti for help

1

not long ago i watched a documentary on victims of domestic violence here on youtube and realized the whole thing was very one sided the men were only seen as the aggressors and the women as victims i know that there are certainly way more female victims but the situation for male victims seems very dire! well at least here in germany where i'm from there are hundreds of shelters and specialized institutions who will do their best to provide help for female victims but at the same time there are less than 10 shelters for men in the whole country and the abuse isn't taken seriously as a whole heck if the abuser is female there are often little consequences for her i read of a case where the guy got beaten up from his ex wife everytime he came to pick up his children for the weekend at her place and the court refused to do anything and said that they should find a solution themselves so the poor guy had to relive his trauma everytime he wanted to see his children and bring someone with him so that she wouldn't gozerk! people in our society act like it's not possible for a man to be a victim sometimes! by the way there is not 1 german documentary about this topic with a male as a victim on the internet! heck if a guy did hit his girl in public people would freak out i mean we don't live in the 1950s anymore but i have seen guys get hit and psychologically violated by their girlfriends many times before even while out in public and people never take it seriously if a girl hits a guy in front of the club for example people will ask what he did wrong and be proud of her like girl power and so on heck i watched titanic a while back with my aunts and they applauded when rose spit on her assholish fiance there is a massive double standard here johnny lost a part of his finger and the media still hasn't said anything about it in germany while they couldn't stop talking about drunk abusive old johnny a year ago!

1

hi took a screenshot of her faceverdict absolutely no mark in it whatsoever! why did thd judge not do this last year it is evidence her face is clear of any red markings or bruising if she had been beaten up the night before she surely doesn't act like it she is smiling and laughing

1

john cena just gets beaten up

1

does she look like someone who has been beaten up!

1

how do you not even say hi to the person next to you i don't know it may very well be a russian thing but we do not do that for example americans are weird like that smiling and saying hi to strangers on the streets you'll end up beaten up if you do that in russia lol on the other hand why would anyone want to talk to her if they are busy talking with someone they knew already? nobody should be forced to talk to anyone kate was clearly busy with conversation and there was an entire chair between them nicky as well was deep into conversation

1

well first time i saw amber heard in a movie i thought wow she is talentless af second time i saw her i though she must be someones wife to be able to get in movies and i saw he was with johnny depp the second i heard she is being beaten up by him i knew its a damn lie to get more money and fame and look what happens its sooooooo satisfying that when u know somebody is fake finally gets revealed!

1

it's grandma baby remember that she is sapped to be beaten up and covered in cuts at that exact moment!!! she is sapped to be trashed by johnny!! she needs to go to jail!!!! i have heard this whole tape she gets shipped off by his people she even tried to get the security man to side with her on the plane asking him if he ever went off on someone he said no and wouldn't talk to her he testified to that already she says i don't want to leave of course she doesn't she didn't know what johnny would do or say he protected her and she lied and used it against him by turning it around she is going down hard...cant wait for that even if she gets community service she must pay for her manipulation of the truth thanks for sharing this wonderful vlog and can't wait to see the next one much*aoe*e

1

@jeff potipco alright from what i've seen here your words are not very truthful because on one hand you admit beating the crap out of your children only to say the contrary like 50 comments down the line i'm nit ok with that but you can't unring a bell let me tell you my story in order to open your eyes i got some beat in my childhood to most from my mother but occasionally a slap just one from my dad which in retrospect was justified to earn that slap i must have overstepped the bounds deep into the land of the hymen anyway my parents divorced when i was 12 i was by my mum she still beat me up if things got to much anyway i came to a new class due to the school system there i got beaten up by bullies because they wanted me out of their class the stubborn morron that i am i wasn't having any of that but i got really good at blocking attacks now that i'm thinking back i should have been more offensive and not just blocking anyway that's another story my mom still tried but my reflexes adapted so i started to block her attack then she said i tried to hit her later in my life as i started with martial arts i found out why she said so apparently my body did the right thing you first block the hit with the muscle and then twist your arm just a little bit so that your bone goes into the muscle of the attacker well now she lost all of her leverage she had over me well she then asked the family for help (grandfather and his sister) who of course had no clue how the world for young people had changed they tried to apply the same rules on me which they had 50 years ago well i tried to bargain somehow but gained not much freedom anyway this method worked for shortterm because it was tied to weekly money i needed for lunch as soon as i started making money these rules went as fast down the river as a dry leaf in a river so beating the kid's up is not the solution eventually they will hit back the grammar mistakes are free to collect since this text was written on the phone 1

i was a fan of johnny and stopped being a fan because i was told he wouldn't get close to his fans and always had his bodyguards with him when he went out however much i disliked him though doesn't mean that i condemn him for beating up amber heard! most especially because it's patently obvious that he didn't that woman should shut her mouth and stop all these lies! she is making others who really were beaten up or attacked look like liars and gold diggers when in fact it's she who is the gold digger!!

1

he is not weak he was trapped sure he can punch amber in her face but he can't do that he can be jailed amber hit herself just to make it seem like johnny hit her divorced and wanna take more of johnny's money as compensation but too bad johnny is not someone like that all her plan goes down it was lucky johnny isn't a wife beater & he had proof that he now can fight amber back and amber didn't get easy money from him woman can easily sue man if they got beaten up all we had to do is provoke men to hit us and we directly can open a case against men but that's not the case for johnny amber must be mad cause it didn't go according to her plan lol

1

amber is pretty but not beautiful with out the make up hair styles work that is into making her look the way she does on camera amber also has a history of physical abuse she has beaten up ex boyfriend & girlfriend including her sister and appears when she was cheating on her husband johnny with elon musk the billionaire she may look a certain way in front of the camera with a lot of help but without this she is not beautiful and looks like a pretty blond margo robbie stunning beautiful australian actress is talented and recognized for her talent and beauty amber has neither of these and fooled poor johnny and she has been abusing him physically & mentally cheating on him during their marriage

1

getting beaten up and his career almost destroyed by this woman does this sound cool to you?

1

don't know why people are affected by bullying? surely you shouldn't give a shit what people say? like i just zone out and think about something else don't even realise some one's speaking to me sometimes and if you are getting beaten up or physically bullied just tell a teacher or failing that the police if he/she has attacked you then that constitutes an assault i honestly don't see what the problem is here people? can someone explain why people give a shit what people say about them and why people don't go to the police if they have been beaten up? instead of crying and self harming man the fuck up and get out there and change it it's not hard

1

help my date keeps getting beaten up by monsters and floating cubes

1

john dillinger was beaten up by a 48 kg heavy girl*em*em*em*

1

she is getting 4 years now imagine if a guy did that he will be facing 15 to 20 to 30 years behind bars and plus he will be beaten up in prison

1

if she was beaten up the way she described she was there def should be some medical records the way she described it it's already a medical miracle that she is alive

1

if she is telling the truth initially at day 1 she could show documents especially in her claim that she was beaten by jd its an sop if you are beaten up and plans to make a complain we seek medical certification and file a police report for physical injury charity monies fully given to the nominated charities where are the acknowledgement receipts her career harmed? where are the job contracts that were cancelled i don't even know her & not even got interested knowing her after watching aquaman show proof of all her claims since the we can't mention her name can't produce any documents in my opinion all she said were just made up stories that is why she can't produce any documents girl please don't try to come with fabricated documents bcoz falsifying documents is a criminal offense take note you started this mess now reap what you sow

1

@froggie ouch! that must have hurt on ah like rubbing salt in a wound! no wonder why she looked so sour envy doesn't make you look beautiful i can imagine that she had a ginge to her face when alicia's name was called at the oscar to win the best supporting actress my god johnny must have been seriously beaten up after they came home after that evening! poor johnny!!*#u

1

there are really some men who has it bad but more females has encountered it yes its true but we cant close our eyes to female who fake their victims too they are awful what if it's already real? in my country a girl was bashed for faking a cry on national tv without her knowing that a cctv was already being released at the same time that she was never molested on a public transportation but the old man was already beaten up to pulp after the stop over by her brothers girls like them are really evil also another example is this thank god for cctv <https://youtube/fjwsib0mwlk>

being an addict doesn't give ur abuser a right to abuse u just as a woman wearing a short dress isn't a free license fr sexual assault if you actually cared u would have cared that this woman has beaten up her own sister stolen the story of rape frm her female assistant & assaulted her former female partner depp may be an addict but he is clearly not an abuser also addiction needs treatment he had been in rehab while she had withheld his medications & made him go into withdrawal that is abuse he could have died

1
i was domestically abused from the ages of 16 until 17 and no way in hell would i have ever gathered photographic evidence against him because i knew full well i would be en stalked and beaten up this woman is dangerous

1
@judy holiday saying smack her sillywhen it's about her having been beaten up by her ex is not just distasteful it's disgusting you should be ashamed of yourself

1

read and listen to the audio tapes she admits to hitting him and throwing stuff at him the so called make up bruises were there one day and all of a sudden not there the next day this is according to photos shown a neighbor seeing her with no marks if her nose and face had been beaten then check out the james corden show where she was a guest i've had bruises take weeks to go away bruises that bad can't be hidden with make up a broken nose which i've had can't be hidden out of 8 billion people on this planet amber is the only one to speak out that jd abused her a pattern does not develop over night and yet there have been no other women to step forward that say johnny was violent with anyone #justiceforjohnnydepp #goshjohnnydepp great ormand street hospital is one of the charities he supports that saved his daughter's life when she was suffering from kidney failure everyone please some digging and you will see testimony and time stamps do not match up body language experts have viewed her deposition and point out when she is not telling the truth i'm not saying he's an angel because we are not perfect people he has been forthcoming about his drug and alcohol issues an addiction problem does not automatically make someone an abuser
2
@tattoo dave the sad thing is he will be suffering from things like ptsd is a very common issue that happens with abuse like this also hate it when women lie like her makes it more difficult for women who have been abused by their partner to get justice just hope this makes it more visible that men can be abused by their wives i was made aware of this at a young age by knowing that my granddad was often beaten up by my grandmother till he left
1
i'm right here! proceeds to move in the opposite direction of the person she was shit talking farrah wants to call amber's man a pedo but who admitted to having naked pictures of their daughter on her phone? oh fucking farrah normally can not stand amber but lord do i wish she had beaten that ass she deserves it
1
this makes me so angry i was in a very similar relationship twice and i felt helpless i was beaten things thrown at me and i used to do the same thing and remove myself from the situation either run away or lock myself inside the house or a room in the house to protect myself all these same tactics were used on me gaslightingblamingand i felt helpless i couldn't even protect myself because i was scared if i even held her off me to stop her i would be labeled as a wife basherwhen i've never put my hands on a women nor had i done anything wrong to be abused like that it would usually happen after she had cheated on me in fact this is why i get so angry when i see adds on tv or news or something only mentioning women as the victims of domestic violence when very often it's the other way around
1
i have no doubt he knew what was going to happen if he broke free from medusa i think he's been in the biz long enough and seen things in it prior to this he knew he would have to go through this and he chose to fight! he is the perfect example of the definition of courage from to kill a mockingbird: courage is when you know you are beaten before you start but you start anyway he is courageous he will fight for the truth his hat is off to him
1
@riana demaio i've looked like that plenty of times! i've never beaten anyone!
1

1
wished i married her fuck feminism i would have beaten her till her soul had left her body
1
yeah he is so unlucky he no longer gets beaten up by a psychotic bitch
1
sigh this is difficult to listen to she seems like she wants to make up but then she gives him no space whatsoever she doesn't get that a relationship is about compromises she is also unable to see that her violence creates a barrier that is difficult to overcome she wants him to get beaten and then come beg her for forgiveness deary me is she f or real? get your head outta your ass woman he was your husband not your slave i understand what she says though i make it a point to never go to bed angry sometimes if things get heated it is ok to take a time out i will tell you for a fact that everything will feel tiny after you cool down compromise is the name of the game never go to bed angry the resentment will build at the end jd has the right idea he proposes a solution that is a compromise but she is unable to compromise she wants to continue doing the same violence that is not ok amber you had to change too you have to at least try and you weren't even willing to do that you got anger issues amber it's not all about your needs only
1
i'm telling you johnny is a true man and person he goes to hospitals and see kids with cancer i dont care about his money i care for him as a person i was best by my ex there were times i couldn't see cause my face was so beaten and she got the nerve to play like she been beaten why is it these stars wont to be with young pretty woman to make them feel good i hope johnny has learn i hope he wont a true woman who will live him for him
1
she accidentally disproved her own point with that one he was angry and upset and when he found out she was recording her he just left a real abuser would've beaten the shit out of her for that even if the camera was still rolling the fact that he left the scene to deescalate the situation shows what a calm and good person he is
1
this woman gives a horrible name to all the women who are actually being beaten by dudes on a daily basis crying wolf makes it less believable for others who need help from the abuse smfh
1
i think the saddest part is how people will defend amber and say she is good she can be viable for sure but she is easily outbeaten by other characters in almost all categories people could use her but damn she needs a buff in some way

on't like this testimony doesn't make it wrong no the photos of real people who went through real abuse of the sort she claimed don't look like amber heard now you are just being ignorant many people who suffer abuse try to cover it up thank you for agreeing that she lied when she said she had her nose broken when did she ever say that? and if she did lie about having a nose broken what else did she lie about? now you are being deluded again amber isn't a doctor so she can't judge whether her nose is broken or not unlike amber heard i actually had my nose broken this means that if her nose was injured but not broken it won't look like this which doesn't change the fact that her nose w as injured because depp head butted her one must be really poor on the inside to do things like that be beaten by depp 14 times? thank you for agreeing with me again because you supported my claims and yet she never called the police for the so called 14 attacks well except for the time that she did call them witnesses? what witnesses? you know all the people who went to court and provided evidence that depp had attacked amber would you be nice to return the favor and copy paste some information that i might have m issed? here you go: <https://www.bailiorg.eu/cases/ewhc/qb/2020/2911pdf> and please don't say the witnesses are her sister because it's not how it works like a sister can be a witness or her best friend's ex husband who claimed to be neutral witness they kind of are if she had had those injuries the witnesses should have been a lot of people from their entourage amber said that she wore make up to hide those injuries not to mention the medical staff only if they were so bad they needed medical treatment also depp has his own private doctor who gave evidence at this trial the reason why many people are really pissed off is because we live in a world of abuse that amber heard is mocking ri ght now with all this rich bimbo bullshit that's a funny way to say being assaulted by depp 14 times there are hundreds of thousands of victims of real abuse who are actuall y trapped with their abusers like amber was each and any one of them would love to have even a quarter (well a quarter is too much they really could do with much much less) of amber heard's money to be able to get away from the nightmare they are living in amber had the full amount and it took her years to get away from depp what motivated her seemed to be that the level of violence was increasing many live in countries where a man is supposed to beat his wife because that's why he's a man because he's legally resp onsible for everything she does i wonder sometimes what on earth was she thinking of when she started all this show? exposing depp for being a wife beater and encouraging ab used women to leave their abusers she has the nerve to say we are bots we are paid and other nonsense i suspect some are though the rest are deluded idiots who don't want to accept depp was a wife beater being a compulsive liar is not the winning method all the time good thing she had other witnesses to back up her claims almost like she was tel ling the truth but she can never fool us depp did it's about truth human rights justice as long as depp is found innocent because apparently any other verdict is false for s ome reason 1
amber should of beaten the shit out of farrah cause that girl is a stupid hoe

hearing this story really does break my heart hearing about anyone getting abused no matter the gender people need to stop thinking that men cant get abused too and that wom en cant be the aggressor i personally believe men have the absolute right to defend themselves from anyone that harms them physically emotionally and spiritually its the sam e thing when men states that they have been raped and no one would believe them because 'oh men cant get raped they like having sex' fucking sick mentality

1

@livyatan mellvillei i'm not talking about people who get abused and stay in the relationship i am talking about women and men who get raped by someone they did not make tha t bed they were thrown into it without any consent if you are self absorbed and don't have a problem with that then i guess i am done with this conversation

1

33:02 there is nothing wrong with her pointing out that she is smaller then him n his bigger if she believes it then it's truebecause i believe if i'm bigger then a man a ma n is always going to be stronger then a women that's like saying if she was fat and ugly no man would rape her even tho all sizes get raped she is just really bad at commun ication and not leaving when he might have done something to her first but instead she stayed and tried to work it out and played the game lashing out because all relationshi ps has its problems wether she stayed and played the game is on her because she played the game i've stayed and have never played the game n i'd be mad if someone told me ho w my sizes doesn't matter i believe i was bigger then my ex n could fight back if i wanted to but would get the shit knocked out of me if i didshe is explaining why she beli eves she falls in the category of abuse but isn't a victim because she has a mind of her own n doesn't want to admit her faults n participation that's all she had to say is t hat she falls under the category of being domestic abused but doesn't fall victim to it

1

@aesthetic nostalgia i know some women get raped but what innocent man did they get justiceeven a 40 years women also rape a small boy especially in up and bihar even in ass am hostel girl raped a man cut their neck and throw their body media didn't show this type of newstum larkio ka sath galat hozai toh justice mil jata h mgr hm mard logo ka k ya western country me jake dek kitne male suicide attempt krte hai feminist log apne ji gender ko support krte h thats why i hate feministor ha ek kahawat h ek hat se tali n ein bajti

@dothe roar either way they still get raped

1

don't wear skimpy clothes if you don't wanna get raped

1

people don't want to believe that a woman can abuse a manand honestly until society opens it's eyes to that truth that literally anyone and everyone can be both a victim of abuse and a perpetrator we will not have true equality men get raped men get abused men have emotions

1

this shit is stupid lol if your biggest concern is being bullied at school take a seat cause people got it far worse grow a back bound fight back some people only have one p arent others get raped by their stepdads and your stressed over school?

1

a perfect world is where feminists from mee to get raped and aren't allowed to report male rapists are killed all abusers go to jail is it tough? just for a while until eve ryone settles down and understands that there's no way around it

1

@spurezurko there's a stigma we live in when people think only women get abusedthat only women get raped and similar and i know that's not true you don't deserve that she wa s selfish and i hope johnnyand every other victim of these manipulators get justice and people who want pain just to get attention and money to go to jail

1

17:48 mom i truly thought i was gonna get raped he had the craziest look in his eye!

yep this ending is obviously the wb mandated whedon reshoot guess how? in zack snyder's eyes it should have been like there are no such things as superheroes! light and hope my a**! they are dark brooding and flawed 'gods' who are supposed to be feared living in the state of apathy towards humankind! and they could get raped in prison in my movi es too right?'EMW

young forever stop blaming on clothes women can wear what they want when i was 16 i wore low cut top shorts didn't mean i wanted get raped just cause i like wearing same goe s for women who wear revealing clothes cause they like wearing them

@prcdguy australia good for you! i'm really sorry you've had such terrible experiences! seeing a female get raped can cause secondhand trauma same with your wife she is luck y to have you i can't believe he hit her & then fought you with his kids in the house! actually i can because i'm a psychologist i'm quitting because i can't stand these nar cissistic abuser's!! they don't even care about their own children!! i just listened to the audio of when jd got his finger cut off the aftermath it was so very disturbing a h recorded it!! incredibly average is the only person with the full audio on yt but i'd skip it if i were you! you've been through enough! basically jd hates himself & lies bl aining the whole thing on jd no way he did what she saying now that he sexually assaulted her beat her face in & dragged her naked through glass! (the sun case) the only thin g the dr said her dr as well was he would like to up her dosage of a very strong anti psychotic from 25 mg to 100mg!! of course that would be dangerous it was 50mg which she refused & took the 25 mg it was shocking to me \$75000 worth of damage they all scrambled to get her out of australia to which she criednot for him or what she did but because e there are 3 things narcissist's (with some psychopathy) are terrified of: 1) being exposed 2) being told no 3) they are most terrified of abandonment terror since all 3 we re going on & jd's security exposed her told her she could not stay & she was breaking down every 5 min crying saying she had to stay also said she was just dropping ecst asy amphetamines hallucinogens & forgot the 4th but jd did coke this after his security said she was on coke! it's a thoroughly disgusting display much love~YI_JeJa~YI_JeJ

1

wait so what's the point about this show? did the girls get raped or?

1

aye girl i was having an argument with a femy about abortions once didn't go so well all i said was personally i'd never have an abortion period then she replied with i hope you get raped and impregnated then so you know how we feel she got alot likes for it too apparently i'm a traitor too? lol this is the world we live in now

1

finally something good on this show they should air it completely uncensored esp the cuss words via mtv in the us but they won't cause all the good stuff is censored in the us ; though in the us they always show lots of nude vaginas female butts & breasts yet wonder why so many women get raped or why so many kids are abused a&s smdh

@test86 one4 women do not work harder than men at all men work more hours and have far more dangerous jobs than women men also have a higher mortality rate than women men an d women make the same amount of money that statistic you are referencing is wrong it doesn't take into account how many more hours men work relative to women who fights in w ars? men who gets bashed more by western society? men ahh so here is the typical christianity killed people argument read: it has been estimated that in less than the past 1 00 years governments under the banner of communism have caused the death of somewhere between 40472000 and 259432000 human lives[54] dr r j rummel professor emeritus of politi cal science at the university of hawaii is the scholar who first coined the term democide (death by government) dr r j rummel's mid estimate regarding the loss of life due to communism is that communism caused the death of approximately 110286000 people between 1917 and 1987[55] richard dawkins has attempted to engage in historical revisionism concerning atheist atrocities and dawkins was shown to be in gross error see also: atheism and historical revisionism christian apologist gregory Koukl wrote relative to ath eism and mass murder that the assertion is that religion has caused most of the killing and bloodshed in the world there are people who make accusations and assertions that are empirically false this is one of them[56] koukl details the number of people killed in various events involving theism and compares them to the much higher tens of milli ons of people killed under regimes which advocated atheism[56] as noted earlier richard dawkins has attempted to engage in historical revisionism concerning atheist atrociti es and dawkins was shown to be in gross error koukl summarized by stating: it is true that it's possible that religion can produce evil and generally when we look closer at the detail it produces evil because the individual people are actually living in a rejection of the tenets of christianity and a rejection of the god that they are supposed to be following so it can produce it but the historical fact is that outright rejection of god and institutionalizing of atheism actually does produce evil on incredible lev els we are talking about tens of millions of people as a result of the rejection of god[56] theodore beale notes concerning atheism and mass murder: apparently it was just a n amazing coincidence that every communist of historical note publicly declared his atheism ; these twenty eight historical regimes have been ruled by eighty nine atheists of whom more than half have eng aged in democidal acts of the sort committed by stalin and mao ; the total body count for the ninety years between 1917 and 2007 is approximately 148 million dead at the blo dy hands of fifty two atheists three times more than all the human beings killed by war civil war and individual crime in the entire twentieth century combined the historic al record of collective atheism is thus 182716 times worse on an annual basis than christianity's worst and most infamous misdeed the spanish inquisition it is not only stal in and men who were so murderous inclined they were merely the worst of the whole hell bound lot for every pol pot whose infamous name is still spoken with horror today th ere was a mengistu a bierut and a choibalsan godless men whose names are now forgotten everywhere but in the lands they once ruled with a red hand is a 58 percent chance tha t an atheist leader will murder a noticeable percentage of the population over which he rules sufficient evidence that atheism does in fact provide a systematic influence to

do bad things? if that is not deemed to be conclusive how about the fact that the average atheist crime against humanity is 183 million percent worse than the very worst depredation committed by christians even though atheists have had less than one twentieth the number of opportunities with which to commit them if one considers the statisticaly significant size of the historical atheist set and contrasts it with the fact that not one in a thousand religious leaders have committed similarly large scale atrocities it is impossible to conclude otherwise even if we do not yet understand exactly why this should be the case once might be an accident even twice could be coincidence but fif ty two incidents in ninety years reeks of causation! end okay so who sexualizes women? you do realize it's you guys that constantly submit to societal standards you know women willingly become prostitutes and willingly become strippers right? you do know women willingly objectify themselves by modeling right? you do know women willingly obje cify themselves in music (hip hop) and in music videos right? you do know women willingly objectify themselves by doing porn right? you know who encourages sex work? the le ft! are you insane? you clearly just regurgitate what you hear on the news women aren't oppressed and you are delusional women do complain the most though i'll give you that men actually get raped more if you include prison rapes men actually get harsher prison sentences than women even if they commit the same crime you are delusional you are ju st being fed lies portraying women as victims you have no solid argument all sophistry johnny depp is innocent and you don't have the morality to defend a victim of a wome n's abuse? just because men are stronger physically doesn't mean we all hit women depp was clearly never an abuser and never had history of abuse but amber heard did! you ar e just evil even when someone is in pain you sexism gets in the way of acknowledging it so ironic so hypocritical on behalf of everyone who is not insane fuck you 1 aquaman has always been a gay why are they trying to make him more masculine put him back in his 80's gay uniform and have him get raped by a dolphin or something 1.

¹ this must be his first psycho it's great to see a crazy bitch get caught being a fucking jerkoff usually the man gets the short end of the stick they get raped in court by jerkoфф judges and greedy lawyers good for you johnny way to cover your ass move on and find a normal woman good luck
²

yeah the documents pretty much shows how sociopathic she truly is everyone can access these documents but given it's the hollywood media they don't want to present a clear cut case of heard being the abusive one but they will always be bias and alway paint males as the guilty to the hollywood media men can't be abused and men can't get raped as ia argento and amber heard should be best friends

seriously i really appreciate that you are fairi think me too is disgusting and biased except for a vice president running on the democratic tickethe left changes their narrative to fit their political needsasslissa needs a fucking cause!!she is nothing but an ideologue peddling a dream to fat chicks who would never get raped who believe that collective responsibility is more important than personal accountabilitytypsim a woman

male privilege = a lot less likely to get raped when you go out or cat called female privilege = having unfair divorce settlements full reproductive rights you can accuse a man of a crime you committed and most likely believed and falsely accuse men and destroy them anytime you want and men have it better? i don't think so!

@theresa_l Dowling remember me? I am the woman who dared to tell you that I believed JD then you promptly replied that you hoped that I would get raped you are demented and need serious professional help!

as a female even i agree with this i know i may be stretching this out too far but it's like gender double standards example: most people don't believe that men can get ra

ped by a woman but it's very possible and it can happen!

¹ because it hurts the cult of social justice so you must just take it like naz shah said those abused girls in rotherham and elsewhere just need to shut their mouths for the good of diversity' in other words you must get raped and abused you must accept all violence against you (if you are cis man) and just lay down and take it all in the name o

f 'tolerance' or else you are intolerant!
i
it reminds me of the video the women saving men can't get raped

that's normally how these situations play out and even when a man gets raped himself 9/10 people won't believe him simply because he's a man and our society always initially believes that you don't or can't get raped because we are men we are not a culture that believes in first before accepting as running all available facts before assuming anything

believes that men don't or can't get raped because we are men we are not a culture that believes in first before accessing qe examine all available facts before assuming anything

destroying someones career to cut off their economics so they starve to death and get raped and killed is facilitated homicide by males and police by increasing morbidity and mortality

@vanessa she seems to like soft spoken men so she can shit on them but if she got with an actual abuser that beat her ass and raped her a bunch of times her perspective and personality would be radically changed i dated a girl who was into guys like that ohh shed buff my hot dog but she would cheat on them with me cus i was safe then go back and get raped and cry about it and at a point you go cant help this idiot i feel for women in abusive relationships but those abusive men are usually characteristically up front about there hate of women its not a typical thing but an abuser happens to be typical

thanks for being an advocate for gender equality (that is how i see it) yes men get assaulted too yes men can get raped being a violent person has nothing to do with one's gender and it is high time people realise that

1 in my day it was that way the man was abusive and the woman had feelings that she deserved it because she wasn't perfect there began the movies that men don't tell either th

what people don't seem to get about the casting of a non deaf actor to play nick andros is the fact that while andros is a deaf mute in dreams in several key scenes he is able to hear and talk also by these deaf mute activists making this accusation now they are undermining their own credibility from the get go as rob lowe played nick andros in the original miniseries and lowe is also an actor who can hear and speak that and casting a separate voice actor to dub the scenes in which nick is hearing and speaking would likely be cost prohibitive as for a certain nameless party i would think that johnny depp fans would be jumping all over themselves to watch the aforementioned nameless party get raped by the devil aka randall flagg then jump from flagg's penthouse balcony while pregnant with his child

i
i hope she didn't get raped
i
i hate how society believes that men don't suffer men can get abused men can get raped women can also lie why can't people understand that? please do a video on vic mignogna he is a voice actor going through a similar situation and it needs awareness someone started a #kickvic on twitter and then he got an accusation on twitter which made him lo

so his job this isn't fair he doesn't deserve it he didn't get a fair trial people don't understand that it's innocent until proven guilty
1
so let's dismiss the women who actually were sexually assault/abused by people in power? say you were married and your wife was raped by her boss repeatedly and he said if s he wanted to keep her job she had to continue to get raped would you then allow her to continue to get raped because the guy paid her salary? would you allow the same for yo ur daughter? if yes than you are part of the problem and the reason this movement exists amber heard tried to be a spokeswoman for the metoo movement but as it turns out her situation was the complete opposite of what it stand for

1 did you guys get raped for the \$11 sport at galaxies edge and no you really shouldn't just give someone the benifit of the doubt just because women can use that abuse card at the drop of a hat whether it happened or not and ruin a mans life even without evidence simply because maybe a man hurt her feelings or really anything that some women feels the need to and it's so easy for them to do because people are told they automatically have to believe a woman because no woman would ever make up something like that to ruin an ex career or their life for no reason but there is plenty of evidence to support the opposite of that it seems to be the actual go to attack for women against men even if she has been abusing a man for years and the man has never raised a hand in her direction there are plenty of cases where this has happened that a woman accused a man of abuse because that's a trump card in a divorce case that can assure they win the divorce case and get everything they ask for and then some women are devout beings who will use any tactic they have to get everything they want and more because after an abuse claim usually a judge will add even more as a punishment so the man suffers even more for something he absolutely never did it just shows the greedy and heartless actions woman will go to too destroy a man simply because she can and everyone will automatically believe her because that's the narrative we have been forced to take and believe that women are always to be believed and would never lie about abuse if it would help them in any way

1 completely agree my best friend was abused by his ex and he was way too embarrassed and ashamed to get any help he knew people would make fun of him he never laid a hand on her and she knew she could keep doing it to him it's so fucked up you know when girls get raped and people say what if that was your sisterwell what if it was your brother getting abused?

johnny depp's history of violence kyra 2 years ago there are some advantages to be a middle aged woman with asperger's syndrome and one of those is that i lived through the 80s as a teen and remember it and what i remember is that johnny depp was known as a bad boy' with a temper' and a substance abuse problem prone to attacking people' the people who defend him online which now tragically includes a woman i had hitherto had nothing but the utmost respect' jk rowling seem to have either forgotten or don't know th at the accusations of domestic abuse and assault against depp by his ex wife amber heard (which include' pictures' and video' and a restraining order against depp) and a text from his manager' admitting it and documents from other court cases' involving depp) are just the latest in a line of charges johnny depp is very pretty and (like mel gibson) seems to be very nice' when he's sober but he's also prone to getting wasted and hitting people who anger him in 1989 depp was arrested for assaulting a hotel security guard in canada after the guard asked a drunken depp and his friends to leave the premises charges against deep were dropped after he promised a judge to be a good boy (this works only if you are white or rich or preferably both) then in 1994 depp was arrested again on charges of criminal mischief' when he destroyed a hotel room "allegedly because he was having a fight with his girlfriend at the time 20 year old supermodel kate moss he had to pay almost \$10000 in damages but again he got off likewise in 1999 depp wa s arrested' for threatening the paparazzi in london while it is easy to sympathize with a star threatening paparazzi it still reveals depp's tendency toward violence when he's hammered and annoyed incidentally he was involved with french model vanessa pradis at the time and although' pradis has defended him' as a sensitive lovingman who never raped her its obvious he was still capable of attacking other people during their relationship bill cosby didn't rape' every woman he met ! it doesn't mean he isn't a rapist

moreover court documents by depp's former management allege [depp was being] interviewed by public authorities relating to a serious and troubling issue involving his family [] [depp] knowingly lied to public authorities in several respects in connection with these matters; [his actions] marked lack of concern for certain serious family issues so is pradis lying for her children? johnny depp was physically abusive to amber heard people accuse his ex wife for his^t actions by saying she egged him on^t so they can still enjoy the fandom fantasy of who he is just like his friends and fans claimed^t his rages and assaults in the past^t were just johnny being johnnymerely the kind of outbursts they have come to expect on occasion from an actor who can be as otherworldly as the character he played in edward scissorhands just like people blamed mel gibson's ex when he hit her or the alcohol he drank when he called a cop sugar tits just like people claim mia farrow lied so they can still watch^t woody allen movies in the pleasant denial that he raped his adopted daughter just like people have always blamed the victim and given the abuser a pass as for me i won't be watching the^t fantastic beasts^t sequel i don't watch^t pirates of the caribbean franchise i don't listen to my old bill cosby comedy albums or watch his videos i don't watch woody allen films and i am hesitant to watch films with actors who have even worked with him in the last 20 years (oscars are so much more important than raped little girls?) i eschew any former favorites with mel gibson in them i am torn about miramax films^t which ones were the result of harvey weinstein's sexual abuse? i stopped watching^t how i met your mother even the reruns when they had mike tyson a convicted rapist on the show as a good guy^t (which was a good move because the last season was reportedly shit) i try my best not to collude with or support abusers and rapists but what do about actors or authors whom i otherwise like when they support or collude with rapists and abusers whom they insist are actually good people^t? do they get a little leeway for having the same delusions about their friends and family that all human beings are capable of? i still love rowling's books; am i hypocritical to do so or would i be throwing the baby out with the bathwater because she defended know abuser johnny depp? denial is certainly easier to live with than the complexity of dealing with the fall out of sexual and domestic violence i can see why people prefer denial to facing uncomfortable reality kyra cornelius kramer

i've been telling people for years that amber isn't the mother theresa they all think she is because she has a history of domestic violence but i was dragged through the mud for taking a mans side as a female violence knows no gender this is why men are afraid to come out about being abused raped etc johnny was fired from pirates of the caribbean n a role he loved (loved so much that he named his son jack after his character in the series) i have been waiting on this day for a very long time i knew all along johnny d epp was a good guy but no one believed me and now they are the ones acting outraged when they weren't there for him in the beginning to begin with #justiceforjohnnydepp

she is fine as wine almost worth getting divorce raped over (just kidding!!!)

I used to be friends with a girl who is exactly like amber whenever she got a new boyfriend she would mold herself into what she thought that guy would like rapper chick rock chick skater chicketc she would also lie or exaggerate situations and expect me to go along with her stories the older we got the more i lost interest trying to keep up with who she was trying to be that month she told me 5 separate stories about her getting raped after the third time she tried to force that idea on me i finally asked why s he never called the cops on these guys or how she was getting raped 3 times and never doing anything about it she told me to keep my mouth shut and not tell a soul she said just please dont tell your dad because he will get my mom involved and i don't want anyone to know that's when i realized she was lying for attention she only told her frien ds about it because she wanted us to feel bad for her she lied about being homeless and being addicted to drugs all for her life's narrative she wanted to be this strong gir l who had been through so much but in reality she was taking parts of other people's stories and life experience and making it her own story she was never homeless or addic ted to drugs she was never raped either women like that aren't women at all they are lost little girls who weren't held enough as children and now they seek out love and vali dation through terrible ways that effect other people's lives negatively they never think about how their lies effect other people as long as it serves a purpose in their li fe

1

part of the problem is rape is being redefined by the minute including everything from severe life threatening injury to not stopping immediately when your female mate says maybe the definition is so broad that i for example am both a perfect gentleman and a rapist conversely by the broadest definition of rape if you are a woman you have most probably been raped and you did not even notice if we as a society don't stop the insanity our jails will be full of non offending offenders and the real violent rapists will roam free finding easy targets in every corner we have got to start protecting our women from the real rapists not the mildly offensive and start defending our men from the false allegations whereby any woman can get any man jailed

day apart from each other so with that being said i literally was dealing with the male version of her so i know exactly how that man is feeling and lucky for him he didn't deal with it for as long as i did but he still is going through some massive crap right now i feel for the man i really do as far as she goes she is such a degenerate lying piece of shit that she makes my stomach turn just like all the rest of the females out there that all of a sudden are coming up with these horrendous and absurd stories of being abused and raped and tortured by marilyn manson and i'm sorry but i was abused and it didn't take me long to figure that out it just took me hella long to get out of it if i'm not mistaken one of them said she didn't realize it was abuse until seven years after????? i call huge bullshit on all of it as always you awesome irish clark kent / superman you! great analysis and content she is a evil cunt in every sense of the word can not wait to hear part 2

@dothe roar either way they still get raped

this is actually one of the results of feminism equality is all great but law is still one sided all it takes is 1 female to accuse a guy raped/abused/molested her and the g

it's honestly disgusting how much females get away with things they are more likely the upper hand if a guy says he was being abused by a female or they were raped by one me

- amber has done damage to actual victims most abusers are sadly male women are murdered stalked & raped everyday because male predators tend to get only a caution (unless you are caroline flax) the legal system is terrible this is a civil case not a criminal one no british law has been broken

one who abused oh you probably liked getting raped and look at johnny his life ruined hie reputation smashed to the ground just because its a girl doesn't mean they are all innocent i'm not saying guys are all innocent they are not its true just there's a less regard for females and i fucking hate it its so hard for males to win court cases against females because the male automatically gets targeted if a pair is getting divorced and trying to take custody females can whip outt eh he's abusive card and its automatically believed that why we lose so many times and he's sick of it im sick of this he got fired for something he didnt do his family is being tarnished for something he didnt do
1
i was abused by my girlfriend for few months and did all i could to justify her behavior her telling me she could ruin me if i ever talked to anyone about what was happening just because she was smaller and prettier then me was so fucking scary at one point i did the same thing depp did and recorded her saying that she will tell everyone i raped

¹mary feather no i see normal young women who found themselves in compromising situations with a serial abuser wielding power and authority no one asks to be raped or assault ed when going for a job interview fight flight or freeze = years of shame hardly a fair or balanced choice they were faced with given the rapidity of his predatory mo ent

1
wait so what's the point about this show? did the girls get raped or?

1
it seems like this woman really wants to be raped and killed this badly now that these two tapes are out there is a chance that some highly sensitive males may try to track her down and decide that they want to rape and kill her out of vengeance(i'm not encouraging anyone to do that btw) so sooner or later she might just get her wish

1
@advanced driving it shouldn't because there would need to be proof of lying not being able to prove someone raped abused or harassed you is not synonymous with the victim l ying about it it's simply a lack of evidence now the ah situation shows that she was clearly lying

sydney love your channel but i have to ask during this research did you ever come across the part of the study that compares sizes between men and women??? are women abusing and/or sexually harassing small men medium large muscular nerdy low self esteemed highly self esteemed??? i mean even batman was raped by talia al ghul but he had to be drugged it's true look it up thanks

1
there is something very wrong with this me too movement it is a big fat slap in the face to all women and men who have actually been raped or abused lives ruined because some idiots didn't get what they wanted just like the queen bitch who lost the election

1
i've been with a woman like her she punched me in the face then immediately hugged me after i tried to break up with her and then she said she was raped by a guy to make me feel bad for her later i found out through her friend that she was laughing about lying about it to her in order to make me feel bad i confronted her about it then she hit me again i broke up with her she said if i did she would tell everyone i beat her lol i went to her mom and dad and told them everything they were on my side and said the y would talk to her that was the smartest thing i did because she just left me alone after that i was 16 at the time and i'm very happy it happened because i never took shit from a girl after that now i'm happily married to the sweetest woman and we are very much in love after 10 years together

1
@navneet many would argue it is more or less impossible for a man to be raped (in a coital sense) by a woman for there needs to be arousal it hangs on the definition of rape

1
grigori rasputin not just in courts the majority of crime between men and women is women being beaten raped or killed by men that's not up for debate the figures are astonishing so yes the courts will often tend to believe women are the victims of abuse because statistically they are i'm not defending that just laying out why this happens just like when a child goes missing police always look at the parents because 9/10 the parents were involved the bias exists because the overwhelming statistical evidence female on male abuse does happen and we certainly need to talk about it more perhaps this case's one silver lining is that we as a society can reckon with this it is despicable that amber has co opted the metoo movement which did important essential work in bringing women's experiences of sexual harassment and worse to light now we need the #metoo because both are valid

1
this must be his first psycho it's great to see a crazy bitch get caught being a fucking jerkoff usually the man gets the short end of the stick they get raped in court by jerkoff judges and greedy lawyers good for you johnny way to cover your ass move on and find a normal woman good luck

1
whoa what? literally this whole this is sick like amber doing this shit isn't only hurting johnny it's all the other women who want to come out for being abused or raped so on that can't be cause of so many liars that they are afraid people won't believe them anymore plus if she gets away with this it essentially shows other women they can do the same to innocent men and get away with it lying about something this serious is not okay in any sense

1
i watched the video so typical regarding the domestic violence cases the judges should also be psychiatrists for instance a man yells at his wife until she loses it n shouts because she can't stand it anymore only she doesn't know the husband is recording her a regular judge can't understand such a vicious behaviour and he says amber is guilty yes she hit him but what happened before and you can be abused several times u know raped several times victim of violence several times there is no quota u suffer until u understand make different choices dont trust depp look at his face n body showing how mentally sick he is anne saint clair vanessa paradis segolene royal and so on check these women all french all protecting abusers in order to save their own reputation and their children's future some abusers evolve over time dating them around their 20s is nothing meet them later the beast is wild n insane n welcome to domestic violence <3

1
i appreciate the share very much bc the only word i only understand of ah's is fuxx i'm old and i am also having too hard a time trying to decipher her alien f ing mars jarg on i love this audio the most because it's the one where the light bulb finally comes on for this precious man no more being beat up and berated from this bitch can't stand her can't wait until she is completely out of hollywood i'm surprised she wasn't in the group with rose mcgowan and all the others stating she was raped now people would have believed that seriously i'm not even trying to be disrespectful god bless them all and may they stay safe -ج

1
she knew that when they were together what your missing is married him for fame and money refusing a prenup ruined his career/reputation abused and beat him lied that he beat and tortured her for sympathy and clout stole a true story from depp's friends about being raped and claimed it as her own to get sympathy and clout took a poop in his bed in hope's he would sleep in it there and lie in it further discredited metoo and women's movements by lying about all her abuse alot more but surely that's enough

1
for centuries in america women have been responsible for the lynching and castration of hundreds of men just because a woman lied and accused them of everything from he sassed me' to he raped me one of the reasons why kavanaugh sits on the supreme court today is because those men who voted for him know women lie about men all the time amber is from texas and i am sure she has lied about men before and has lied to the police and gotten away with it she is being believed because she is blonde and sexy and was crafty enough to capture the heart of the sexiest man alive (twice) and because she is a woman we are in trouble! the first time i noticed something was different about their relationship was during the love scene in run diary it was the first time i saw him in a love scene with an aggressive woman and he took her bra off and he was in nothing but a towel but the most telling thing was she was shoving her tongue down his throat i had never seen that before she also did that to him in other photos of them together i never saw him be that personal with anyone not wynona kate or vanessa never no tongue except with her also when was the last time one of the women he was dating sold a video of her naked and begging him to come to bed with her? and she wants us to believe she was afraid of him? i checked my drivers license i wasn't born yesterday!

1
unreal! btw a similar case happened to an ex marine who went to colombia university a drunk girl claimed he raped her but he had the whole situation recorded and he didn't even touch her make the long story short he still got expelled welcome to america!

when we claim to defend women's rights and we are in turkey we must denounce religious justice marrying raped young christian girls to their rapist it shows that her speech about metoo and her feminism is only virtue signal

i really hate women like this like with a passion i hate them because there are women out there that are really getting beaten women who are getting raped by those they trusted women that are being hurt everyday and as time goes on it gets harder to take them serious because we don't often know who is wrong and who is right growing up around us men who have been harassed abused and hurt i naturally wanted to take my role as a man to help protect not only them but many other women in the world whenever i can but after my friend committed suicide because of a false rape accusation due to fears of no one believing him after my uncle got divorced when he found out 2/3 of his children were n't his similar situations etc it becomes harder to want to support women women like this forget that it becomes harder to believe actual victims both men and women please protect yourselves no matter your gender please be careful who you associate with

i forgot what year it was when a woman lied and said duke lacrosse players raped her they were ruined i still think about them it was horrible to witness

if john depp lose after all this damning evidence and lies against miss amber heard then the system is corrupt and unfair towards men this will prove it and this main reason ill never get married woman cannot be trusted specially when they play victim card lie saying he hit me or raped me ect and ruin innocent men life with lies its abuseley disgusting and i have no time people like that

1

is she going claim jd raped her? something she is not mentioned all the way through but remembers now for court

1

this reminds me of how i felt about the relationship between ellen degeneres and her mother ellen would always have the sweetest words and praises for her mom i always thought her mom was the greatest mom in the world only not too long ago ellen opened up with david letterman about being sexually assaulted almost raped by her step father and how she told her mom but she refused to believe ellen chose him over her own daughter and still stayed with that man for several years welp i can only say for myself but that t's not a good mom not in a million years not in any universe still ellen loves her mother to the end of the world and would do anything for her i think it could be that johnny has the same amount of love for his mother maybe their hearts are big enough they have enough love for their mothers to overrule the abuse the neglect etc

i was in a two year relationship with a woman for the most part of those two years i was psychologically abused made fun off ridiculed and even physically abused to make things even worse when she got tired of me she cheated and i found out and finally got the courage to leave the relationship she got incredibly mad at me and decided to spread rumours about me being the abusive one including telling a close friend of mine that i had almost raped her several times as a result i have lost half my friends and i feel as hamed constantly everywhere i go so yeah you girls can also be pretty fucking bad sometimes

1

@catania momma italia interestingly men are more likely to be raped by another man than to be falsely accused by a woman everyone benefits from believing victims regardless of gender most especially when they are close to you also communist? how? lol

1

its funny how everybody defend depp just like there was a time when no body believed bil cosby raped those women i am just saying!

1

i think my ear drums were just raped

1

i can see scenarios in bdsm that make her accusations true such as being asphyxiated during sex then coming round but that's not rape that would be consensual at the time however this toxic atmosphere from certain feminists can make people say i felt pressured ohr i was groomed i'd like to hear more about how he groomed her but once again its one of those i need more info situations i guess it was probably like this when ah first came out against depp people were not sure but wanted to believe amber until info started pouring out i'm not saying this case is or is not the same as the depp one it's in its infancy as far as knowledge goes but i'm struggling to understand with what i've heard about depp that he would associate himself as friends with someone who abused women and raped them because men talk about sex not just men women do too but i think jd would have known? dunno like i've said the truth has been tainted and i'm not ready to put my oar in the water yet i'm gonna wait and see x

1

woman: i was raped and abuse the world loses it shit gathering up pitch forks lighting torches and hooking up the band wagon man: i was abused by a woman! the world laughs and calls him a liar

1

@xeno man she will lose tyt is already attacking alisa milano over her ignoring the woman who claims joe biden raped her

1

it always infuriates me when people say that men can't be abused or raped/sexually assaulted my dad was abused by his first wife before my mom whom he's been happily married to for 35 years now my dad's first wife who was a school teacher of all things would hide my dad's medication (he has asthma) and threw a peanut butter jar at him this was back when peanut butter jars were glass only and it ruptured his spleen! he had to have surgery to have his spleen removed he has a huge scar from this operation so yes don't believe all women men can be abused and raped/sexually assaulted

1

@tennison what the fuck has that got to do with it if you were raped by the ugliest person ever and then the most beautiful person would you just accept the fact you were raped just because they were beautiful

1

this is the same thing with women who lie about being raped not only does it hurt the reputation of and innocent person but it also negatively affects people who have actually been raped/abused because people will be less inclined to believe them

1

do we actually treat male abusers and female abusers differently? do we downplay female abusers? yes *hell yeah!* unfortunately because of gender stereotypes and one huge 'loophole injustice' within our society a certain type of woman (in most cases feminists) can twist distort and even abuse (yep abuse) any situation that falls into that loop this is men's rights: <https://www.youtube.com/watch?v=lhckuhuxcga> here are four examples of this loophole in action: an australian woman beat a male bystander with her high heel her reasoning? she was drunk just turned 21 and acting out of character her punishment a \$250 fine woman brings up on australian tv (what is it with you damn convicts?) about how she sexually assualting said man during an interview she laughed he didn't and the shows panel took zero issue with that fact the babysitter who had sex with the 1 year old boy in her care serves no jail time and in fact was the victim (whattf?!?) a man in the uk was raped called a rape helpline and told he was wasting time there are real victims men are not victims women are ahhhhh lovely! when will this 'loophole injustice' be resolved? i very much doubt it ever will be a woman hitting a man is seen as empowering we've see it all over tv in soaps action shows (when a tiny woman can beat down a 250 lbs male during a fight scene) even in 'the flintstones' we see this spill over into real life i hit him he cannot hit back i'm a woman! <https://www.youtube.com/watch?v=2wfs0gd6eu4>

1

feels like i was raped by tron legacy then dumped on the side of the freeway by ryan reynold's green lantern

1

canadians are great but their justice system is totally fcked up rapists get pat on the back because they are actually seen as victims of the society and the actually raped victims don't get justice serial murderers with past record of violence and sex offending are being treated as good boys because we don't want to come across as prejudiced it's totally messed up

1

@pig_cakes13 it's a movement that stands up for women rights and against domestic violence and sexual/physical/emotional abuse of women it came up after several women admitted that harvey weinstein had raped them or abused them sexually

1

not even gonna lie i had a broad in highschool lie on me and say i raped her i told the woman i was virgin and never had sex at the time which was the truth i had to go to court against her for slander and that kids is why i don't fuck with redheads

1

what kind of sick twisted diseased mind would say yea that sounds like a good idea/gag/whatever? her rage came from somewhere i think her dad molested or raped her or he let a male relative do it it would not be the first time something like that happened

1

it's scary when your girlfriend is throwing shit at you or threatening you with scissors and if you defend yourself you are the bad guy so you just take it and then they say you are a man nobody will believe you i'll say you raped me if you leave yeah this happened to me and amber reminds me exactly of my ex

1

i worked with a young man who's wife used to beat him regularly there were jokes in the building about being a p@ssy and such it was complete bs; abuse is abuse and yes a man can be abused or raped or verbally terrorized and used humans can harm humans the gender race religion culture is irrelevant

1

i remember an episode of law and order: svu where a male stripper got raped by 3 women detective stabler (male) believed him even though at first he didn't think it was possible because he was a muscular tall dude but detective benson (female) didn't and she belittled his claim and this caused a falling out between them when they had forensic proof that the women did rape him using drugs and restraints benson shut her mouth and admitted she was wrong men can be victims of abuse too

1

we all know if a man sounds looks felt guilty and he's not his ass be on the streets loses everything he built her ass is still employed a girl yelled raped she gets all the attention but a man yelled raped he get laughed at^{:(},^{:)},^{:)},^{:)} gender equality bs is what i hear and see

unfortunately many toxic people are sociable charming confident and such manipulator needs to lure people in my mother is bpd (untreated) with some narcissist characteristic s and people who meet her are usually charmed by her she is bubbly generous and talkative and the fact that not all the good stuff is fake makes it harder to see how toxic s he is (emotionally abusive manipulative some violent tendencies) but narcissists and sociopaths also haave this charming allure the link between all these being they do care about their image extremely they do love the spotlight and attention so they know well how to trick people also these manipulative scums usually target people who are sensit ive and rather submissive because they are easier to manipulate

1
@beraudmusic dude you guessed it right i stay on the opposite side of the world as you in the east and it's not bizarre like you think men sleeping around will face huge rep urcussions if it happens with even one unlike western countries people don't sleep around not that there aren't exceptions but it's a minority of population and if they do i t happens on the premise of marriage we have laws if when a man promises marriage and sleeps with her he will be behind bars so sleeping around isn't that easy i'm apparentl y not talking about the lying cheaters or players in the west but someone who's genuinely focused on career and say they don't have time and mean it worked in the west and know a few good guys who are that way ofcourse these people are very academic like have done their phd or masters so they are very hardworking being a prop is no better than lying cheating scums both hurt in their own unique ways try it for a day you will run for dear life i know women like that and their suffering humans need genuine companions hip not reduced to a wallpaper i myself when i was working in west used to work 16 hours a day and barely had timeweekend would vanish with chores and many times i used to w ork on weekends too 1
i think amber needs to talk with some of jeffrey scumstien victims so she could understand the meaning of being held hostage on an island karma caught up with him(died in ja il) and it will catch up to her

1
postmodernism is such a garbage ideology that i'm not even shocked why hollywood wants to embrace this so badly they want the mob to know their truth not the actual objectiv e truth which will allow them to educate said mob and use them for their gains they thought since the government can shape the mind of the populace they must also possess th e same power these vain and pathetic people who wallows on their own misery as if the world revolves around them has the audacity to think they have the right to tell people what the truth is hollywood is a pitiful place anyone who wants to work there should just work not embrace the filth and dregs don't let yourself be turned into one of these scums; oh well fame and fortune will corrupt anyone i can't blame you

1
what a shame? this is just wrong these scums promoting and advocating lies and deceit in the hopes to make it the truth they may be of the opinion that the common folks are dumb stupid and oblivious undermining and underestimating the people will backfire just you see

1
lmao hollywood already has enough liars and scums

1
they are really super desperate youvideo and take on things are good but let's be honest you aren't the only one talk about this and there are people a little better than yo u they came to you because they thought that you would accept their deal good thing you didn't if you had they would take everything you say and twistedtake your credibility drag to the mud and also present an opinion that is different from you really opinion about all thisthe things is we have a evidence over evidence over evidence evidenc e that ah is guilty and they are still trying to make jd to be the bad a guy there is no way to salvage thisthey should just take l and tell the truth nobody is going to for give them and even if they reveal the true they still are scums but at least they would be honest scums

1

1
the main problem is when those feminist and sjw scums are proven wrong they just hide and everyone else forgets it people always just defend themselves and prove that they a re innocent and that's it nothing else happens to hold the feminist and sjw low lives accountable untill they are held accountable and punished cruelly for their behaviours and actions they are going to keep on doing this so it's useless to whine and complain whenever this happens

1
scumspawn ***** wtf are you talking about

1
clearly depp is old school hippy and just calm and sits back and chills clear his style and how he speaks and talks on phone it is obvious she is evil the scums that still s upport her are the problem they are the bastarxxxxs that cause this evil

1
i just checked out these articles while searching for news on how johnny is holding up actually and all i can say for this is this proves johnny is anything other than a nic e man how? to the lying gossiping scums trying to demonize him as they always do

1
prepare to be shocked because lots of men are defending her why? because she played mera and she is a pretty white woman with celebrity status even though the turd admitted to her crimes on audio they still defend her even if she kills johnny with the knife in her hand and she did it in front of millions on live tv they will stillll defend her even if the judge completely side with johnny these sick trash will still defend her calling amber their queen these sick degenerates retarded sick people cannot and never b e helped and plenty of those scums of the earth are out there if amber spits phlegm in their mouths they will be happy! always believe these people are around (look how they reacted to amber's crap press conference) and never be surprised never always remember this to protect your own insanity and if you confront any of these sick turds ignore t hem otherwise they'll give you a headache

1
if only hollywood knew everything that we know now but the problem is hollywood doesn't listen to stevie j umbrella sec come geek some and others all they care about is what verge other papers that they control and what the mainstream media covers if they are not covering it hollywood doesn't care because they believe everyone else out there is in the same boat as them that's one of the reasons why companies still backing her scums

1
thank god i'll never be famous enough to be in hollywood full of scums there

1
so the mainstream media washing their hands of her just like that huh? wretched scums

1
not just her everyone who supported her blindly should be punished too *cancer* to the society all of these scums
