She's promoting her rose tinted opinion based on Amber's hoax, she's not been through the discarded faze yet, Amber isn't silly, she'll check in as sporadically needed to keep Eve sweet. Eve's praying to be the filling of an Amber and Gal Gadot sandwich. #JusticeForJohnnyDepp

Utter insanity

Eve, you are off the fucking reservation for this one. Amber is not being "attacked" by Russian bots. Johnny has a major fan base who saw how wronged he was and took to Twitter to defend him. Our intentions are to get him the justice he deserves, we're not going after her...

Middle East. I defend Amber Heard online; who has been attacked by [Russian bots](#) acquired by her ex husband Johnny Depp's lawyer, with the intention of destroying her career and reputation, and creating a mass smear campaign around the truth of her experience. My hate name - Eve Fartlow - blew up because it completed the horseshoe theory. It was born in a men's rights, right-wing adjacent, fan army of Depp who fight for "justice" against anyone who upholds that he's an abuser. It was quickly claimed by the far leftist hammer-and-sickle emoji brigade during the conflict between Israel and Hamas last May. Suddenly the entire fucking internet was using the name, because of two opposing online factions who should and perhaps one day will cancel each other out, and the bots that boost them. "Eve Fartlow" became the #2 trend

 Why would the #AquamanAndTheLostKingdom actress take pictures "on or after 6th October 2018" to show injuries from an incident in December 2015????? 🤔

Started as a "legendary" journalist, got sacked

Then moved into being Amber Heard's lapdog

Then decided to become an advocate (only for money)

Now she's a war correspondent 🐻

The only thing Eve Barlow isn't educated on anything she talks about

Amber Heard's counterclaim is DONE.

I've heard through a few sources that the Warner portion of the counterclaim is toast..

So according to public docs, the ONLY part left is the 3 statements by Adam Waldman, which are:
