i think the real reason elon wants ah and jd to bury the hatchet is because he doesn't want to be exposed for possibly being the one who left bruises on ah since jd was out of town shooting a movie when that happened plus elon already got caught lying about having an affair with her on twitter honestly i think his weird pronouns suck twitter is just a way to deflect and distract from the trial

everyone is on his side his ex wife girlfriends friends even amber's own parents and sister have sided with him all evidence points to amber all comments have full proof of how she is ruined his career and how she is the abuser everyone calling her an abuser coz apparently she put one of her exes in hospital and beat up her sister and now most of jonny's exes are standing with him and most of amber's exes are standing against her doesn't look good for her all this i'm still pissed that they have ruined johnny's career he may not even star in pirates of caribbean how they have instantly sacked him after accusations against him and yet when there's full proof that amber is the abuser she still has her job johnny's literally the sweetest guy ever when he was coming out of court ppl were cheering him on and giving him flowers and he was taking the flowers and kissing the fans not long ago he dressed up as jack sparrow for a children's hospital and spent 4 hours there with the sick kids even his ex wife who knew each other for 25 years spoke out and defended him he literally cried in an interview about his daughter being ill and how it was dark times for him a lot of the media and ppl against him are using his alcoholic issue as a target which isn't fair the day that the video that amber took of him shouting and throwing shit was intact the very week his mother had just died ms he had discovered some ppl who work for him conned him out of millions of dollars and betrayed him amber literally used him she videoed him in distress after loading millions and his own mom all in one week she used that distressed and anger to frame him it was the perfect plan now if she wins she can get millions off of him and has stolen his career and good name there's even a recording of them fighting where she says no one will believe you i'm going to use makeup on my face and post it over social media to look like u have bruised me not exact words but that's defiantly along the lines what she said in another recording he said he accidentally scraped her toes on the door when he was trying to walk away from an argument and apologized then he bent down to pick something up and she fucking slammed the door on his head also the worst part she freaking cut his fucking finger off and had to go to hospital to get it re attached and in an interview he was described as traumatized from the incident i love how the only thing they have against jonny is him accidentally scraping her toes and throwing her phone across the room when he found her she was videoing him in distress and yet what they have against her is years of abusive relationships recordings of her manipulating him videos of interviews where she literally controlling his every move her actually fucking cutting off his finger and slamming the door in his face and yet they have the audacity to ruin this sweet man's career??? the entire and i mean the entire media is on his side they all defending him and making very clear points on how shes the abuser 13

jd is in his mid 50's a family guy with successful long term relationships with no history of violence domestic abusers have a history she has a history of it not him he has a strong sense of self that makes him incapable of it in my opinion she is clearly the aggressor here  
12  
i've been in a relationship with someone this toxic i will never forget when my ex (year long relationship) accused me of cheating when i'd didn't at 24 years old i was working every day and night to pay the bills and was getting 3 hours of sleep every night from working 3 jobs she was going to school and living off of my income i got tired of it and i said if you are going to falsely accuse me of always cheating than i might as well do it anyways she pulled a knife on me in my own kitchen and told me i wouldn't live to tell the story she even asked me even if i was to stab you in 'self defense' who do you think the cops would believe you as a man or me? she even started fake crying with a knife pointed at my stomach while i was doing dishes and started talking to me as if she was speaking to cops afterwards saying things in a sobbing voice like he was coming at me and i didn't know what to do i then planned my escape that weekend afterwards and moved out bought a gun (carry it on me 24/7) and have never looked back but all i remember thinking all the time is there's women out there who are this crazy abusive and hide that they think this way they will hurt or threaten anyone to get what they want still to this day my current wife tells me i have issues trusting people (like friends and family) we even reflected and it took me about a year or two to properly fall asleep overnight in the same bed together since we've started i always tell her you would too after what i've dealt with

she has bpd many therapists and psychologists have even even done videos to this she is classic borderline she is needy and insecure and has mood swings based on how she grew up and was raised and he core stems from fear rejection abandonment and has issues with emotional deregulation and was never given skills to know how to express herself she needs help but she is a true borderline understand the core content of a borderline is nothing like someone's with narc traits at all she clings to him and she needs him to not leave her in the middle of fights and she needs him to talk to her or she gets anxiety those are borderline issues stemming from her fear of him leaving her in an argument so she doesn't know how to emotionally react properly and it triggers her fears she is a borderline not a narcissist even though traits overlap her core content is fully a nxieties fear depression and anger cuz shes insecure and fearful and scared a lot and depp has narc traits that's why there are this way together 8
if a man beats while being verbally abusive towards his wife she can kill him and call it self defense! it's happened more than you think he's called a monster and he's got what was coming nobody misses sleep over it but if a woman is abusive in more ways than one meaning physically damage and property damage he can not make threatening remarks about killing her while in the moment of abuse? or he's labelled that of the abusive bad guy by men and woman wow when did assault on women become greater than actually assaulting a human individual? please woman are the reason for this and why its the normal to not hit a woman or else but nobody ever says shit when females abuse children! why is that? if the out look is that men or stronger wouldn't be the same level of harm for a mother and child

summed up in one word she is a narcissist it's his fault and his responsibility to control her behavior yet she leads women movements accountability is never in her court she is so delusional she thought by recording these conversations it would vindicate her behavior this is how people like this justify their life decisions she is sick obviously prior to this relationship and is forcing him to be responsible for healing her although he's an actor not a therapist i feel bad for this guy this happens all too often cause these women have lived a larger part of their lives in situations where they escape accountability constantly women like this destroy everything and i'm not just talki

i apologise for the delay in responding yt have a habit of hidingvideos from me it took a month for them to show me this video i'm not surprised (1) i am trained in law which includes criminal law (2) i worked in a law firm for a few years (3) my training in criminal law instructed me that certain behaviours are a man thing and only a man thing (4) this gendered perspective within the legal system aligns with the judge's ruling (5) this gendered belief is consistent with the united nations and i encourage you to search the topic (6) i said prior to the ruling that it was a significant case because it would open the flood gates that male survivors exist (7) a search across the internet tells us there is a blanket ban on condemning female abusers and male survivors (8) that blanket media ban corresponds with government policies across the western world including specific legislation that allows for prejudice by sex in all areas of society (including government) (9) it is my honest belief the legal profession is in serious trouble because it is entrenched in ideology concepts like equality before the law have been strangled by ideology such as feminist law (which is a genuine discipline of law and many text books exist on the topic) (9) if you believe there is a slow march through the institutions (which i do) the legal profession in experiencing the same i apologise for repeating this comment but youtube are shadow banning me and deleting comments because they don't like some facts on this topic this narrative is controlled tightly i have posted many references (measurable facts with figures) that keep on being censored i am hoping this may get past the youtube blanket ban (it probably won't) i'm tired of some abusers being given absolute immunity based on their biology

when you listen to the entire recording amber heard is like a ranting psychopath she admits over and over at throwing multiple items at johnny as well as punching/slap punch (or whatever other violence she admits and inflicted on johnny this recording is the classic abuser not allowing him to talk blaming him for walking away after being hit come on guys not once does amber say that johnny hit her and she tries to download her obvious violence to johnny johnny is a part of the me too movement not amber amber reminds me of the character that sharon stone played in basic instinct the beguiling beautiful manipulative evil psychopath any psychiatrist or psychologist that hear's the entire recording knows absolutely that johnny is innocent men get abused too i've read all the messages between amber's mother and father to johnny and he remained the gentleman and the parents of amber telling him they love him but i guess that one too many punches to johnny did it i dont believe a word of amber heard she is a classic gas lighting abuser

the case of brie larson when brie larson was announced to be playing carol danvers in captain marvel there was a huge outcry from a section of fans who didn't approve of the casting calls from brie larson to help increase the diversity in film journalism and critique seemed to be among the reasons why larson was targeted by trolls according to vox while others believed larson was central to a rumoured falling out behind the scenes with avengers castmates what followed were months if not years of online abuse and trolling with twitter fans even claiming that she received death threats following the outpouring of support from members of the mcu's cast for chris pratt twitter users have asked why brie larson and other female marvel stars did not receive similar levels of support

amber heard was never legally married to anyone anywhere there are no legal documents of marriage or divorce papers or certificates on file here in california or in the isla  
nds this proves her true motivation because the law requires grounds for divorce in california which would establish any money because they were not married long enough for alimony plus she was having the elon musk affair in order to receive any substantial amount of money it has to be something other than just irreconcilable differences so she needed something more serious for her to get any substantial amount of money so she invented abuse she made up all the records of the phone calls and recordings of conversa  
tions the real ones have a start and stop you can hear where she edited them out all the other conversations that were recorded or leakedon to the internet were recorded by her so she scripted her part so she would avoid incriminating herself iphone messages are all in blue so all her evidence is all in green there are so many apps available no w to make fake voice fake text fake getting beat up the list is endless all the available apps are amber's diy fake evidence to fool any court anytime there is so much more the list is endless amber's testimony actually proved johnny's innocence in her testimony she said he kept leaving and he was a coward and he never stayed around to fight bu  
t all she ever said was that there were so many fights in where she was abused so if he kept leaving every time a fight broke out how is this even possible? amber showed up in awards show without johnny and had her hair stylists as a decoy because elon musk was waiting for her outside this was why she was still married and three days before she filed for divorce the reason johnny didn't show up was because she abused him before she left because she wanted him to stay at home because of her affair with musk while sh  
e is still married and commenting after asked where was johnny assured the public that everything was fine the fact that the judge in the case in london has a son who works for the sun and the fact that murdoch is the toxin of all media because he owns 80% of it across the country which explains all the lies in the media amber does not have any part for disney not on ever which ties in with murdoch's 80% internet plus news lies and floods to the people and they eat it up murdoch is like his own secret govern  
ent and has been known to sway votes since before reagan like cia brainwashing he owns the sun trump is his friend which is why he acts like a baby when he lost he paid for the win trump has a vengeance against johnny since his comment 4 years ago and paid off murdoch to do the court smear and manipulation in the courts which is a major major c  
riminal act for murdoch & trump they should both be arrested! 5

the media manipulate the stupid society and the primitive school system and are equal = the word looser is used too much everywhere just why ?  
i explain it to you fri  
ends: the illuminati's elite families from above want to destroy the people among themselves through sociality and society (through school work companies and so on) such as th  
e planned wars or chaos or corona economic crisis and so on these people are different even better and more emotional just because they are different doesn't make them worse but better than the different colors of different flowers i would never want to have a proud inflated expensive fashion girl = i would prefer good emotional and humble girls like amber because they would really love these people and are more loyal than those hookers standing next to her because through love and loyal ty you will be full but not through looking and spending money because they are only there when you are ok else not our society is too stupid and too primitive to understand this diabolical media manipulation plan therefore open your eyes and hear what jesus said: all people are the same as the teeth of a comb

nd amber had permanent scars on her arms johnny said in a text that his severed finger came from him throwing a bottle but now says it was amber a couple of years ago he was sued sued by his bodyguards for being violent toward them and forcing them to transport narcotics for him (he eventually settled out of court) and as of 2019 he is being sue  
d for attacking a locations manager on a film set there is a tape of johnny's witness saying that they were pressured to give evidence for him a nurse who saw amber just aft  
er she said that johnny had attacked her noted that she had bleeding to her lip johnny texted amber saying i couldn't be more sorry for yet again ruining your day i always r  
egret when i jump or worse when you jump i'm a \*\*\*\*\* savage make up artist melanie inglessis said she helped amber cover up bruises and marks before the james cordon show  
ambers neighbor says she saw her with injuries the night the police were called raquel pennington told him mr depp had 'shoved her' and he 'got angry' and went and 'banged o  
n the door' of another apartment before going back to his own joshua drew said to johnny's bodyguard something like 'he beat the shit out of her again and you guys stood by and watched it' and he responded it's not his business they are husband and wife depp texted he was going to smack the ugly cunt around ellen barkin claims depp threw a wine  
bottle across a hotel room during a fight with friends assaulted a man in canada in the 80's who asked a group of people to leave a party at a hotel johnny was arrested for threatening people in london in 1999 johnny's manager texted amber manager when i told him he kicked you he cried it was disgusting and he knows it screen shots of staff sup

even funnier she said i'd rather not be in courtwell thing is amber and her team have requested to the judge for her to be allowed in court every single day of this trial and it is jd's team who fought back saying it shouldn't happen unfortunately the judged sided with her on this argument but it shows again how she is such a pathetic liar in the end i'm glad it went the way it did because she just keeps shooting herself in the foot

the perils of editing late into the night & being in a rush to upload: the title intro clip has been cut out because i'm an idiot who didn't realise that the name 'dan woott' on' auto corrected to 'david' at some point in time on final cut and i kept copying the same damn title to the intro of every damn video regarding the uk libel case i've cut it out in every video with this typo (thankfully there are a couple with the correct name) which kills me because i like consistency but this is my punishment for not double and triple checking these things before posting i am an imperfect human who makes stupid mistakes please forgive me thank you

women enable men like matt lauer and charlie rose by roxanne jones updated 10:41 am et thu december 14 2017 how journalists covered colleagues' harassment scandals 01:26 story highlights roxanne jones: behind every sexual harasser likely stands a woman willing to excuse cover up or feel sorry for him it's hard to deny the reward for silence but it ensures continued inequality of women she writes roxanne jones a founding editor of espn magazine and former vice president at espn has worked as a producer reporter and editor at the new york daily news and the philadelphia inquirer jones is co author of say it loud: an illustrated history of the black athlete she talks politics sports and culture weekly on philadelphia's praise 1079fm the views expressed here are solely hers (cnn) admit it behind every sexual harasser be he matt lauer or the man next door likely stands a woman willing to excuse cover up or feel heartbroken for the abuser once his lewd behavior is exposed i've seen this time and time again and i know i'm not the only one you know these women maybe you are even one of them in some cases these women are the personal assistants executives and co workers who have benefited from the harasser's success they've gotten promotions recognition and raises they may commiserate with other women in the ladies' room about the awful boys' club culture but if you ever accuse a co worker of sexual harassment or abuse the last thing they will do is support you if they have the power these women may even fire you for causing a stir this week nbc star matt lauer became the most recent man to fall amid sexual harassment allegations which ranged from castigating a woman for not having sex with him after he dropped his pants in the office to sending women sex toys on thursday lauer apologized: there is enough truth in these stories to make me feel embarrassed and ashamed he wrote i regret that my shame is now shared by the people i cherish dearly his statement said when his today show co host savannah guthrie broke the news of lauer's firing on air she was clearly devastated i'm heartbroken for matt he is my dear dear friend and my partner guthrie said on the show he is beloved by many many people here guthrie added she also was heartbroken for the woman who came forward to tell her story and for those who might still come forward her fill in co host hoda kotb joined the lauer lovefest why would guthrie and kotb immediately rush in to praise lauer before they even had details of the story? this type of selfish blind loyalty is what enables these predators to reign with terror over working women in the first place must we always show this automatic sympathy for men we know who've shown such cruelty to women? it's infuriating rumors of their dear friend's womanizing ways were no secret in the media industry according to variety ann curry was infamously ousted from the show as lauer's co host in 2012 in part allegedly because of her frosty relationship with lauer as noted by cnn's brian stelter and others curvy always cited the boys' club environment at the today's show as stelter noted the accusations against lauer are increasing and they are disturbing in addition to the stories detailed in variety a different woman who didn't want to be named to tell the new york times on wednesday that lauer had called her to his office back in 2001 to discuss a story he locked the door she said bent her over a chair pulled down her pants and had sex with her she said she passed out and was taken to a nurse she told the times that she didn't report the assault at the time because she felt she didn't do enough to stop lauer and was afraid she'd lose her job she quit a year later matt lauer harvey weinstein charlie rose congressman john conyers alabama senate candidate roy moore even our grab 'em by the p\*\*\*y president trump all have had women eager to defend their honor no matter how obscene the accusations of sexual harassment and abuse lauer rose and weinstein have apologized for at least some of the alleged behavior with weinstein denying anything non consensual took place one of conyers' accusers is still asking for an apology moore has denied the allegations as has president trump who it was reported this week suggested the infamous access hollywood tape may have been a fake or altered though he had apologized in the aftermath of its release to the press last fall yvette vega an executive producer with charlie rose since 1991 knew for decades about her boss' crude behavior which according to allegations include his walking around naked in front of young women who worked with him and late night sexual fantasy calls rose has been accused of sexual harassment by eight women still vega did nothing for women who asked her for help i explained (to vega) how he inappropriately spoke to me during those times kyle godfrey ryan a 21 year old rose assistant in the mid 2000s told the washington post she would just shrug and just say 'that's just charlie being charlie' vega doesn't deny she covered for the predator i should have stood up for them i failed she said in a statement it is crushing i deeply regret not helping them yes yvette you did fail another recent fail for women involves a not as famous but still powerful man mike oreskes who was recently forced to resign from his post as npr's senior vice president of news after two women accused him of unwanted sexual contact oreskes admitted wrongdoing and apologized in an internal memo obtained by cnn the alleged assaults happened when oreskes was a washington bureau chief for the new york times he also worked at the associated press decades later women at npr also complained about his alleged behavior said jill abramson who was oreskes' deputy at the times and eventually became the first female executive editor at paper: maybe confronting him would have somehow stopped him from doing it to another woman i don't really feel it was in a gray area in retrospect i should have stopped him she told the washington post abramson who left the paper in 2014 is now a lecturer at harvard it's hard to deny the reward for silence for not supporting women who report harassment sadly vega and abramson are examples of this but silence like theirs ensures continued inequality of women in the workplace and puts women in danger it ruins the careers of countless talented ambitious women and that should be unacceptable it's not enough to want full equality or equal pay or respect in the workplace if you are not willing to stand up and fight for it when it counts according to the us equal employment opportunity commission anywhere from 25% to 85% of women report having experienced sexual harassment in the workplace that's a huge range but even looking at 25% means 1 in 4 working women experience harassment and the eeoc study also said that 75% of sexual harassment cases are never even reported i understand that these situations are complicated working relationships do sometimes grow into deep friendships if you are lucky and it's disheartening to find out that a male colleague you admire and respect or even call a friend may also be a sexist pig or worse firing the harasser is not always warranted although if reports are true lauer had to go there have been times when i've reported sexual harassment for myself or other women and men but i didn't demand the harasser be terminated i didn't hire a lawyer and try to sue for big bucks however i did call for accountability a demotion a record of the harassment in his personnel file a canceled bonus mandatory counseling some sign that the company didn't condone this behavior this was not always achievable sometimes it was impossible and the abusers were protected that's why it's crucial that we continue to speak up and out these sexual harassers but we must also confront the women in the room who continue to fail us all 4

you still believe in her being a good representative of the #metoo movement after all the evidence of audio admitting by herself that she was the abuser? or are you just believing in her because you adore her? do you think you were just to johnny depp? most people didn't even question if amber heard told really the truth why? because she was a woman he is a man and therefore the women needs to be believed that is exactly the content that amber has said in one of the audios

4  
well all these allegations are clearly hearsay how you can stand there as a lawyer and accuse someone with unprovable made up fairytales is beyond me the only thing that wou ld be an argument against johnny is his alcohol and drug use (which he freely admits) but also her argument that drugs and booze made him a monster doesn't really make sens e sinse he's been using them since forever and it never caused him to be violent against a person or a spouse in theory that can change over time but come on shi's supposed to be the only one he hurt then? but if it were so where is all the proof besides that one video she made where she provoked him and he is angry and smashes stuff but doesn't hurt her she is so calculating if he had ever hurt her she would have documented it on the other side her violence is proven by her own words and actions!!!! also why is

no one talking about her drug use???? according to her assistent she is heavily dependent on pills and shit doesn't count for her or what?? this shit makes me so madne hast  
 the ame right to innoncence until proven wrong ffs but i guess the sun can't back down now they have to stay on their johnny is a monster path i hate tabloids but they shou  
 ld make themselves useful here and slam amber already

amber is the one recording
2
no amber doesn't love johnny and she never had amber loved johnny money and his fame that she set him up to advance her career and she cheated on him with james franco and e
lon musk johnny is actually affectionate and outgoing guy amber is abusive narcissist bitch and she has a history of domestic violence towards her past girlfriends she was a
rrested in 2009 for abusing her girlfriend in front of witnesses in an airport amber's own parents know she lying about johnny
2
good one
2
johnny never left vanessa for amber
2
johnny never abused amber
2
stop lying
2
it isn't funny
2
no he isn't gay
2
seek help
2
amber is the one who records the conversation
2
tell me about it
2
amber is a bully abusive woman
2
johnny is an abused victim
2
no it isn't
2
no they aren't acting
2
the only one lying is amber
2
amber recording it and she mentions her phone about to died towards the end of their therapy conversation
2
amber is the abuser and that she has a history of domestic violence towards her former girlfriends and that amber was arrested in 2009 for abusing her wife in front of witne
sses in an airport and it also turns out amber's own mother was afraid of amber and that amber abused her little sister
2
johnny is the victim and amber is his abuser
2
thank you
2
johnny isn't a narcissist
2
okay
2
i hope scamber is barren so she can't have kids
1
i could have sworn there was an interview where amber says she enjoyed the movie gone girl it was before she met johnny

he deserves it he is wrongfully accused she is the abuser
1
thank you3m sunshine asei3 you just brightened up my day this is greatg to hear i can only hope more people do the same thing
1
not sure that is enough of a reason to get her fired breach of contract is a big reason that can't do it
1
here is the thing we know it was the sun but without amber being there they lose they knew she was a big part of their defense johnny had to prove amber was the liar to prov
e the sun was telling a false story so when you think about the whole thing it boils down to who he was with the sun was to clear his name in public but amber is the war in
the usa she is the one who started the whole train moving forward he has to beat her not the paper if he did prove she lied they lose it is about her 1
i agree that is exactly what they should have done too bad they are not going to do it
1
i hope so i have show on this channel so much evidence i am not sure how he could lose
1
it doesn't end with this woman
1
@trapdeagmr if she was an ewok this would be more acceptable
1
your welcome3m thank you for watching and i am glad you enjoyed it
1
we have to if we really want to get the message across to them hurt them where it counts in the wallet then and only then will they receive our message
1
lmaotSj they would have been smart to do that if 15 million stay away from her movies and shows the company's will get the message
1
thank you3m just trying to keep everyone informed and get a message to wb
1
```

- lol't<sub>SJ</sub>  
1  
i am not worrying about that but if you keep your wallet closed and we don't support anything she is in we can get this message across if 15 million do this it would be a big hurt to the wb  
1  
i won't either i won't be watching the stand or aquaman 2 keeping my wallet closed since the justice league is on hbo streaming i won't be getting that either  
1  
as long as everyone keeps the wallet closed it will be and that is exactly what i am hoping for i will spread the message in hopes the community does the same thing  
1  
hey this is how we support him and not her i refuse to support anything she is in i am not supporting an abuser like amber heard  
1  
she can sue them due to breach of contract they don't want that unfortunately since the biased judge ruled against johnny they are going to go what the verdict is so they don't look bad to the public i am not happy with this but it is what is we can hurt them when this movie comes out by keeping our wallets closed  
1  
so happy to hear this ! it is the only way we can get this message across to them  
1  
that would work and it is why i am hoping they do not give up on the investigation  
1  
@hippie gal you too all the best be safe and be well  
1  
we just have to play the game hope for a victory in virginia and don't open your wallet for anything she is in this will put the message across to her  
1  
lmao<sup>'SJS</sup> that is exactly what i want to hear from this community we have to stick it to them with our voices through social media and the petitions and not opening our wallets !!  
1  
it is always good to have the support you need when you go through tough times that helps you get through it i think he will be ok but it is the millions he lost and his reputation on the line here it is crucial he comes out winning this case at least \$25 million is a victory  
1  
hope you will join us and sign the petition to remove amber heard from aquaman 2 : [https://www.change.org/p/dc\\_entertainment\\_remove\\_amber\\_heard\\_from\\_aquaman\\_2](https://www.change.org/p/dc_entertainment_remove_amber_heard_from_aquaman_2)  
1  
i agree  
1  
i can't blame you either i wanted to see it until i heard about her and investigated what she had done to jd i did enjoy the movie so i truly hope she is not in it i would hate not to open my wallet but with her in it it will remain closed  
1  
milly monroe i know but i have not covered this if you look at my channel i just started and i plan on covering it all i never said it was new  
1  
joe rodriguez why do you find him annoying? i haven't heard someone say that  
1  
joe rodriguez i have have you watched entertainment hacker ??  
1  
thank you<sup>'SJS</sup> my friend hope all is well with you  
1  
she might be staying in jail if she goes to the australia filming that will be her issue they are investigating the evidence of the uk case and this could become a factor either way i am boycotting seeing the movie  
1  
killing joke thank you<sup>'SJS</sup> i hope you continue to enjoy it i will do my best !  
1  
your not the only one i hope they kick her out she doesn't deserve to be rewarded for anything after what she has done to him  
1  
rachel denny i can't say i understand this either why didn't they withhold payments for mortgages and rents until it was safe to return to some normalcy there are empty buildings and you have to wonder why they don't house the homeless or something to that nature doesn't make much sense unless it is a money issue  
1  
did not know about it to be honest i am streaming a lot today and focusing on my birthday seeing friends and family but now that you have informed me thank you<sup>'SJS</sup>  
1  
i don't think she will be replaced i think they will film at different locations if she goes to australia she might be arrested and that is a chance i would not take not worth it to me anyway  
1  
as of now they are investigating what she did in australia her bringing the dogs when she knew not to will be the issue at hand they may have to film her at different locations either way i am not going to see this movie sorry i don't accept an abuser multiple times with different people getting rewarded for her actions i can't and won't accept it  
1  
they are investigating the uk case right now that will play a role and i am sure the verdict we get this monday will be a factor as well  
1  
@chickp stranded i agree i will not see the movie i may watch it at a cheaper price but not see it upon release i want to send a message out there it is the only way to do it she should not be rewarded for what she has done i hope she loses in the us case monday is judgment day that will give us the final call that will tell us where johnny and amber stand i am nervous about the decision but i have confidence that #justiceforjohnnydepp will happen  
1  
it is incredible how anyone defends this woman time and time again she proves that she is abusive and a liar how people don't see this is beyond my understanding either they don't care or they don't do their own research i am putting all the dirt on the table with over 40 videos between footage and audio i am not sure how much more clear this can be thank you<sup>'SJS</sup> i appreciate it  
1  
as of now they are investigating the uk case and what she did this could play an impact on filming in australia they could do scenes at a different location for her again time will tell  
1  
jediladymisty i know what we wish for but i don't believe in rumors i don't think she will get arrested there are time frames they are called statutes of limitation if he did not proceed at that time of the incident i don't believe he can after so many years  
1  
donald dolan i think those are strong possibilities i was wondering if she would get arrested and they have to take that into consideration also they could do scenes without her and then make a determination  
1  
@marr bandz yes but if she goes to australia she could be arrested and they are investigating her about the dog incident  
1  
angela t great neither do we lol<sup>'SJS</sup>  
1  
she didn't lie here she tried to hide it her girlfriend lied that is the difference here  
1  
that is why i thought the audio was so important to show who the arresting officer was and who she is with disproves what tasya van ree said her excuse doesn't fly that is what could not be done before but this video does it now !!  
1  
that is what i was hoping and this is why i go over all this just when people think they heard it all there are things out there they have not seen or heard  
1  
she does and it is sad as long as she keeps getting protected by past lovers family and the media sadly this may continue to happen she has to be good now because if she slips up with miss butts she will be doomed  
1  
i hope he does but does he get \$50 million or less? if he gets \$20 is it a win ? i will ask the panel that question on sunday

no females don't belong in men's recovery groups & vice vera it's difficult enough without throwing someone in there that anyone in recovery will perceive as a trust issue t here are so few male recovery groups this is 101 why would they do that?  
1  
@vhffvj mjvddf best idea i've heard!  
1  
@granna g i have a petition to boycott l'oreal until she is removed we need to get everyone in one place the petition to remove her from aquaman has nearly 50000 signatures & climbing every time they report on it (negatively) the numbers jump not what they intended meanwhile nothing has been reported about leaving her out of the next one i thin k they are waiting to see how the case turns outor don't care & assume the fans of the franchise will see it anyway the potc reboot lost the original writers & jerry bruckheimer has been adamant he will not do another one without depp so lost the director disney thinks they will still make money without paying depp's salary but it looks like no one is interested in seeing a pirates movie without capt jack something that doesn't escape the notice of bruckheimer it will flop  
1  
the mom & whitney are abused as heards refusal to answer have you ever hit your sister was met with a blatant refusal to answer when it's quite easy to say no the mom is on video being threatened by ah don't make eye contact growling at herpretty weird & scary the dad full blown psychopatharrested for killing domesticated animals extremely dysf unctional family the mom couldn't split from dad & heard if she wanted to i think there's genuine fear there why would she be asked under oath if she ever hit whitneyunless jd saw it/knew it?  
1  
@yuri soares maybe to me the truth matters more but ???  
1  
@k ora i truly believe she tapped into the old scars of his childhood  
1  
because they make all their money in countries like yours where people don't care if criminals are getting paid big bucks while innocent people are in jail or punished  
1  
@yousef al dulaijan some people do care about the world & life isn't a movie or comic book you support a criminal you are just as bad as a criminal since when are criminals random people ?  
1  
@adasga they were married when she got the role because she punched him on the plane to the audition & he had to sleep in the bathroom to protect himself she was nervous i g uess

this is the night after he left elon musk was there the night before she went to court & he was having an affair with her 1 month after they marriedif him sleeping over whil e depp was in europe counts for anythingmore video surveillance footage of elon even asking for a parking space for him so to the affair with francoconsidering he didn't wan t the fact he was testifying known much less what he said i'd say she is a ho & he was probably bringing her drugs since she injects cocaine & was described a coke fiend by a former friend  
1  
@chantalle reyna clarke money talksdon't give them your moneyit's the only language they understsnd!! perhaps a march outside for dv victims dressed as a pirate!  
1  
my friend jeanne larson begin this petition some months prior to the audios being leaked much info has been available through virginia fairfax court incredibly average on yt & @thatbrianfella (last 2 is the same person) brian has done a phenomenal job providing evidence the media is slow & mainstream totally ignoring it though they picked up he rd's claims because it fits their narrative!!! that they want to promoshowing they #metoo & #timesup (heard's & weinstein's attorney's) don't care about female victims! mu ch less males! please sign share & don't see aquaman2 unless she is removed or potc it will suck anyway jerry bruckheimer (acclaimed director) refused to be attached without dpep everyone has walked but one writer disney uses potc in name only it won't get good reviews & won't be potc with depp's replacement in fact i sense a disaster for disne y! much love to allà™¥i, à™¥i, à™¥i  
1  
@midnight thunder hopefully  
1  
exactly technically a malignant narcissist with borderline personality disorder with sociopathic tendencies that was my guess & jd confirmed it when he said in court she was diagnosed with just that but hey personality disorders with no empathy & exploitation & abuse of otherswho's counting?! much loveà™¥i, à™¥i, à™¥i  
1  
probably drug induced psychosis! she was on six drugs by her own admission ecstacy adderall hallucinogens xanax cocaine ( she lied about the empty baggies by jerry judge sai d the cocaine was messing with her 6th drug seroquel anti psychotic ( if they are empty baggies that jd hid from herhow did she know it was crushed cocaine????) plus she has at least 3 cluster b personality disorders npd ( narcissist ) bpd ( borderline ) with sociopathic tendenciesmy guess but jd said she was diagnosed with exactly that while on t he stand!!! that's 1) lack of empathy/incapable of love & 2) exploitative of other people among others but those are the main 2 markers of cluster b disorders and her dad wa s incarcerated for psychopathy ( killing domesticated animals ) so she has the genes she also was planning to kill jd josh drew's testimony & text messages photos he sent ah of a huge knife collectionhe realizes she is not kidding & says you don't use them amber you show them to him & ah replied i guess i could put it off like she was considerin g killing him after dinner while he's getting my tattoothe tattoo artist was there putting her face on him she is a very sick physically emotionally & mentally abusive woman much love à™¥i, à™¥i, à™¥i  
1  
@lindsey hammer she has a personality disorder & her dad is a psychopath jailed for slaughtering domesticated animals she is messed up! that said a vile violent disgusting p erson as well! who is gay & probably hates men \* she did spend the night in jail for abusing her girlfriend & only got off on a technicality that was tasya van ree her part er of 7 yrs (reportedly) that she did come out as gay withall prior to meeting depp  
1  
@abeaut tootoot catch up dude if he abused her there would be some shred of evidence! she is recording everything! she is admitted on audio she beat the shit out of him & d oesn't deny he's never hit her her parents are on his side she has zero witnesses you need to research or come up with some proof before sayingla deee dait was mutual becaus e i think sofacts or nothing court documents depo's/declarations anything or stfu! you sound like a uneducated moron  
1  
@tpgrl wow add that to more crimes than i can literally count read my comment above for more extensive crimes or international hacking scandals which includes far more than hacking hacking victims of the london bombings finally landed him somewhere in a british high court currently he's paid off officials again!

@stacey vitale for real!!!  
1  
@twiggy141 fair enough but i'm basing my opinion and comments on the totality of the evidence; not on knowing or not knowing johnny and amber personally  
1  
@hemlata gupta it doesn't matter what gets buried now she is been exposed  
1  
@humanimal she is just plain evil and she is 33 hary a child she should know better but chooses to treat people badly go to the incredibly average channel and watch brian's videos you will see amber for exactly what she is  
1  
omg why?  
1  
she can get all the help she needs in a maximum security prison for habitually violent offenders  
1  
she would have murdered him for sure  
1  
right? she is such an asshole!  
1  
brian wants justice for johnny  
1  
@unicorn fairydust johnny and kate both destroyed a hotel room together back in the 90's he never harmed her!!  
1  
amber was the first abusive partner  
1  
she needs prison!!! she can get some good mental health care there!!  
1  
you shouldn't comment on things you know little to nothing about

narcs never sincerely apologize  
1  
just so you are aware johnny depp was clean & sober for a long time before he got involved with amber heard she never loved him & planned her abuse hoax from the beginning o f their relationship she is a malignant narcissist sociopath & these types spend their lives repeating the cycle of idealize devalue replace & discard they have no empathy & only care about themselves all of their relationships are transactional she her sister & her grifter friends were living in depp's penthouse condos rent free for years they helped amber by lying for her expecting to continue living rent free for the rest of their lives amber was the sole abuser in their relationship when jd finally realized she was never gonna change he told her he was done & planned to file for divorce amber panicked and rushed to file first so she could control the narrative jd is a good kind & g enorous man he's no perfect angel but is only guilty of drinking & drugging which he's always been honest about amber on the other hand is a worse junkie yet downplays her d rinking & drugging she never admits to any wrong doing everything is always someone else's fault anyway just wanted to clear that up there's no such thing as mutual abuse sh e abused him mentally emotionally psychologically physically & financially he only ever pushed her away from him & admitted to one incident of throwing a can of paint thinne r back at her that she had thrown at him he is not an abusive man & is not a pathological liar like she is 1  
@maniacal moz lol most likely!'

@cait m she basically said it doesn't matter what she did because no one will believe johnny

1  
so are her parasitic lying friends

1  
@freetobeme! fair enough i agree with you except for you calling him shallow for liking beautiful women do you like ugly men?  
1  
@freetobeme! wrong she is a malignant narcissist and she duped him her looks are irrelevant he loved her she never loved him  
1

@dijon volner amen!!  
1  
@judith hodgson 100% agreed! amber who?'  
1  
@j e i agree white female privilege is so wrong! women should not be allowed to make false allegations against men and get away with it i know that many women abuse the cour t system this way and it needs to stop! amber may not go to prison or be punished to the extent we all believe she deserves to be but she will lose against johnny next year and she will lose her spokesperson contracts as well as her aquaman 2 role as mera! i also believe she won't be hired for any movie roles in the future there's just too much evidence against her you'll see  
1  
lol right?  
1  
@seas \_wallace my heart goes out to you and to johnny huggzzz

@devon james she said she feared johnny and thats y she got a restraining order agaisnt him but then called up a meeting with him in a hotel with him and asked him for a hug which he refused if ur so scared of him y r u requesting to meet with him in private?  
1  
@devon james but he didn't hug her or get into bed with her as much she pleaded him i believe he got the vibe that this was a set up  
1  
@devon james ya how do u find someone sexy after that?  
1  
@devon james poop in the bed was april 2016 and hotel meeting was in july 2016  
1  
@a round orifice in nothingness some woman cant leave for financial reasons whereas amber could she has millions herself  
1  
listen to those audio recordings  
1  
well he has talent and she doesn't so theres that  
1  
ya amber claims r dubious af and some make no sense or aren't possible like how he kicked a airplane chair and it swiveled and hit her which is impossible cuz airplane seats r fitted to the ground and i don't think johnny is the real life incredible hulk  
1  
i dont know if anyone can see her as arm candy now that we know she crapped the bed  
1  
@tayna delmar that crap was too big to come from teacup yorkies  
1  
also johnny said in court that amber told him her ex tasya van ree was abusive to her and amber described james franco as rapey and creepy on the set of pineapple express and that he was sexually aggressive to her and yet she continued to have an affair with him and when amber was arrested for abusing her girlfriend in 2009 they both lied and said the cop was misogynistic and homophobic when the officer in fact was an openly lesbian herself 1  
@a round orifice in nothingness i totally agree james franco is a creep and a bad person however its odd how amber called him rapey and creepy but continued to have an affair with him and while had the restraining order against johnny amber requested to with him in a hotel in july in san francisco and tried to get him into bed and kept asking for hugs thank god he refused all while there was an active restraining order in place 1  
he said he wasn't getting casted in films because of these false allegations which is true cuz people were trying to boycott fantastic beasts  
1  
ik she is just an average looking white girl  
1  
her lawyer lowkey admitted to amber being dropped from aquaman 2 in court  
1  
idiots  
1  
@jacubt scorpio amber in those audio recording downplayed her abuse of johnny and called him a baby for walking away thats physical and emotional abuse and ambers been caught lying so many times idk how anyone can believe her  
1  
@mechantechatonne where? send me the link to him admitting to that but there r multiple audio recording of her admitting to hitting him its on incredibly averages youtube channel feel free to check it out  
1  
oh i think meghan is much prettier but i doubt she is physically abusive towards harry  
1  
oh i disagree i believe he will bounce back and his kids will be fine and turd never had much of a career to begin with i think she will be blacklisted

@jazz nejat absolutely and she is doing horribly in the witness stand she can't give a straight forward answer even and goes off into a tangent or deflects  
1  
amber is 30 not 23 do ur damn research  
1  
@matthew wilson u really think a dude would choose the name puresparkles?  
1  
they never were but he will always be beautiful no one could ever outshine him  
1

she never landed much of an acting career  
1  
gorgeous? u need to get ur eyes checked she basic af  
1  
@gamr who cares what that turd feels  
1  
@etuna tv she is smilings ear to ear in the video she loved the attention that came from being with him if it weren't for him no one would look twice at that turd  
1  
everyone is on johnny depps side

1  
she is a nobody lol  
1  
they were all wrong for one another and he could do so much better than amber  
1  
he never looked happy with her or in love he looked like a hostage  
1  
joni compton johnny needs to be asked in court who brought the marriage conversation up first  
1  
why would they wait 2 years to go public with their breakup?and they were seen kissing in august 2011 and didn't announce their split till june 2012 which is when the kids summer holidays begin which is probs why they waited to announce it  
1  
layney boy listen to those audio recordings and read her transcripts from court

@veronica m so it was a long date that lasted more than a year? he did dump her she is bad news  
1  
yeh she is actually living her karma right now the backlash is a whip each slash against her is equal to the venom she herself put onto others not just on him but to many and in many strange ways  
1  
keep the media whores out of it.'  
1  
diseased dna to be exact but it didn't help to get kicked in the head by horses growing up on daddy's ranch'  
1  
@neon thunderbird and the industry does celebrate to the core tonight the oscars will be viewed by hundreds of millions worldwide & her attendance can be felt deeply & to her disadvantage if everyone who is in depps corner tweet/instagram their support for him beginning at 5pm eastern time; someone strategically released these audio tapes to be timed perfectly with oscar night this i am sure of! life is good'  
1  
exactly she did not expect him to stand up she did expect him to roll over & be kicked in the gut and that he refused really f\*kt up her game plan big time  
1  
omg that is priceless: accused of abusing her at the end bc he stood up for himself' now this is rich thnx for your wit!  
1  
im ki nda tired of penn badgey but it looks kinda good  
1  
yup they have changed covers and this could be an indication of how they are leaving the cover space empty (except mama) to fill it in with her future replacement looks like wb is holding out on her  
1  
@ciki liki yup he was her side piece & he's been subpoenaed by depps lawyer to appear in the defamation suit in june the lawyer needs to prove how em was a party to the scam em bailed on her bc the evidence didn't support her but supported depp  
1  
her face is showing an older age & has already begun to change becoming swollen dull skin too forcing her to wear more make up on her upper cheek bone & to take the attention away from the larger jaw line  
1  
@hacker truth is stranger than fiction my friend  
1  
@hacker yes you know my wit i'm politely dry & acerbic like dave letterman  
1  
that's beast mode'  
1  
@bonita jordan this is true a last ditch effort but if only she'd just go away for good  
1  
@miss keisha get real she is gloating in it this is how she defines herself thru self adulation and a sponge for the same from others  
1  
@edmund power wrong it's been said plenty of times to me but i never replied the way she did i always gave the compliment back to the person because it's in bad taste to agree to being told you are gorgeous ok sasquatch?  
1  
not that it would scream proof that depp is a monster anyway but still but still what? oh like he's got to remain calm while someone's kicking his teeth in? god forbid he how he should remain subjected to her level of abuse and take it' right? i'm a female and if any one male or female ever laid a hand on me that person would forever hold the memory of me kicking them shitless and as it is there are a few who do own that experience of me kicking them shitless ingrained into their memory banks he never did retaliate and the bitch is still smug as shit and smirking knowing that 1  
@thelostlenore he ranted to a friend the courts will view it as such because ms morbid hasn't been found charbroiled or swept up on a beach drowned either and trust how she is very lucky to be alive because if she had dished out on someone of a lesser character she very well could have been reduced to being pig slop shoveled into a trough the courts will come to know this too  
1  
where they've always been nowhere nothing new here  
1  
needs to be trained like he's an animal trainer? her parents might tolerate her abusive behavior bc they love their daughter and he's not her parent and clearly doesn't love her ba boom*a*'  
1  
it'll ruin his reputation in his industry tesla but the daily mail is strategically releasing more damning articles about the depth of his involvement in the scandal it's my take how this is only the tip of the iceberg and the mail is saving the best for last'  
1  
looks like he's trying to distance himself from their sorry asses rocky's already in it too deep with her sworn deposition and he figured there just wasn't enough space in their shared grave for wiggle room (smart move for him)  
1  
because it's already showing how he's trying to protect his best interests himself he's not prepared to hand his reputation over to any attorney when it's on his receipt'  
1  
so true musc*€* should be very concerned in who the lead attorney is could be for this reason that kaplans firm needed to bow out and hand the case over to another agency but kaplan claimed it was due to excess traveling and virus concerns and this is highly suspect which why waldman said: we'll get to the bottom of this  
1

yeh they did all those things too while they were on top of each other»  
1  
an a loser is more like it'«  
1  
she isn't suing him he's suing her for 50mil  
1  
@hacker you wouldn't have to after a toxic interaction with her everything that used to be on your body will fall off in 24 hours oops!  
1  
according to drew the affairs occurred during their marriage it's why the disgust level is so high because depp still lived there it was still his residence too  
1  
speaking of the musc€ right ?  
1  
@tania haeussler yup the silence is golden it speaks volumes à“it would a basic human instinct to stand in ones defense against a perpetrated fraud and how the studios have remained silent indicates (to me) that they are hesitant to speak up too soon' lest a negative outcome means they'll need to eat crow or their own words  
1  
@rudolf janse van vuuren something you said to your moeder last night? i'm dutch rudy  
1  
exactly'» this is wb's problem to resolve and mamao shouldn't feel compelled to do lip service for wb neither pro nor against her imagine if he spoke up against her she'd likely respond with a false claim on him and sue him too  
1  
she is at best a b rated performer very thin on acting talents & only her looks pulled her up marrying depp didn't hurt hollywood will own up to it & divorce her in ways which won't be loud or alarming but by gradually minimizing her presence in other ways to a point where she'll be viewed as irrelevant her career will become diminished and as time wears on so will her looks have diminished scripts won't flow in or their content will be so thin & shallow a role for a flawed character someone forgettable someone like her  
1  
she was morphing to his likeness style type whatever you wanna call it and i'm pulling from this just how shallow a person she is like knock knock anybody home? no answer z ippo  
1  
has been classed as being: uninsurable' in her industry and this equates to being: non legit' underwriters won't sign the policy weighing a high risk factor in lieu of unknown future actions (court verdict)  
1  
all of the court cases (fairfax county va) preceding this one have also been delayed hasn't got anything to do with one party wielding power over another  
1  
she is living her karma if there is such a thing i've listened to and read about her earlier years that have recently surfaced not good things to share the lawsuit has brought her past to light which if it wasn't because of the lawsuit these accounts would have been long buried but here she is many decades later (after the fact) and having to relive these strange accounts or as they've been published is this what living her karma means? it's possible it does mean this  
1  
sounds like a 24' or 8-1 :  
1  
the company has to fulfill their legal contract with her even where it shames them to no end i'm convinced how there must be members on their board who have no sympathy for her want her to be dropped but they have to sweat it out bc of being legally tied to her/contract,,»  
1  
» bingo this is larger than her she is at best a third rate actress with little industry backing to support her whereas the musc€ has a looming industry and a pesky inconvenient truth of being inextricably tied to her he can't white wash it sugar coat it or wish it away enuf like dog shit stuck on his shoe the stench still follows him even after he's washed it off»  
1  
@mistysfedora southern french slang for pigeon  
1  
@hacker always nice to see you and listen to your commentary too jon how's the name change idea going?  
1  
@imconfusedenough that wasn't a lawsuit (case) that was her backed up by her friends statements (in la) regarding abuse and she had the judge write a pfa a protection from abuse order' where he was ordered to vacate the penthouses they shared but this was not a case because the real case happens in aug (\$50mil defamation lawsuit in va)  
1  
this trial is not happening in hollywood it's going to occur in fairfax county va far away from lala land but in justice wrights courtroom where her la attorneys stunts won't bode well on the east coast we do things different on the east coast ; )  
1  
@hacker there's a published article (online) which provides the actual photo documentation of bruises on her face except the bruises are shifting on her face in a relative short amount of time literally disappearing and reappearing within a days time and this has been catalogued in a series of evidence photos this is real but it's all bogus fake check it out because it's now public info thanks for keeping up with this story btw you are helping in your own way to serve justice to all victims of abuseà“  
1  
@thea brescia the media is controlled by six independent families worldwide they believe that they can control this narrative towards an arcane concept that all women are victims and men aren't except we are all victims of a chronic relentless sound bite which the media hammers onto us 24/7»  
1  
» bullseye stevie musc equates to scum and yes he's the real swamp€ being protected here she isn't even relevant at this level of play will the org take her out ?»  
1  
@lisann cornelis try wiki or if not there there will be links on the net key in her name and corresponding cues  
1  
musc€'s been subpoenaed since late 2019 the daily mail is out to further implicate his complicity in the fraud by releasing newer (damning) articles of it  
1  
could be how waldman depps attorneys has the musc€ in his sites for another separate lawsuit down the road wouldn't surprise me not one bit  
1  
msm spawns from a banal aptitude and works from this platform because it views it's audience in the same regard that they are small minded and void of critical thinking don't place value or lose time in how they perceive depp because they are irrelevant in just nichols' courtroom  
1  
@john if they did but it could have been longer than a year ago no amount of time is long enough for him now that she is dragged him into a lawsuit this is following him like a dark shadow  
1  
exactly when hillary clinton ran in 2016 her campaign jargon quipped: vote for her a political race based on gender & zero tolerance for any contrasting views an authoritarian rule this living reprehensible contagion is one of the most despised (hated) women in the world & if she and heard ever found each other in the same camp it's certain how these two losers will keep long hours together sharing»scams like twins»  
1  
@freddy bb heard d' teard  
1  
the movie is technically' being boycotted due to the petition which like you posted is growing faster than anyone could have expected it to wb would prefer to ditch her if they could find an angle short of killing her character off permanently but because the uk verdict cancelled jd how can wb come back and report: hey turd guess what? you are cancelled too!  
1  
@pearl m'» exactly he would have wrecked her if he was an abuser she is a mothball  
1  
exactly'» he's been collaterally protected waaaay more than she is ever been and for good reason because she stands to lose nothing her career and reputation are shot to shreds she'll be sh'tfaced and shadowed by her own poop like forever but he's the one who stands to lose far more waldman will make sure of this come may 2021

she is not crazy she is a narcissist they choose a victim mirror everything they do and everything they like love bomb them being everything they need until they isolate them then the trap (usually marriage) now they can let their true selves out violent outbursts apologize violence again blame it on the victim how many times does she say you made me in this persuade the victim it is all their fault everyone thinks they are crazy the narcissist is their only friend yes i survived narcissistic abuse no they are
```

e not crazy they are evil and they are capable of anything may you never have firsthand knowledge of them i now counsel survivors specializing in teens this case is textbook 1  
1

@sonic970 well it appears that we are both approaching our birthdays then as i am also sagittarius

1

ckrat67 you escaped with your life and your sanity you won i am a survivor as well stay well and stay strong my friend

1

@donna it broke my heart to hear the pain in that realization every survivor of abuse and every empath knows what he felt it has been incredibly brave to take this public but mr depp will have helped so many people living with and trying to escape narcissistic abuse

1

enola you expressed yourself very well i agree with you

1

there are actually many more crimes than just domestic abuse that ms heard is guilty of fabricating evidence and tampering with evidence are felonies there is the extortion letter with ms heard's demands of \$50000 monthly support the range rover the penthouse apartments worth \$13000000 \$100000 lawyer fees \$25000 forensic accounting and an undivided divorce settlement that ms heard's lawyer sent to mr depp before she accused him of abuse witnesses have come forward to officially complain that ms heard attempted to make them change their testimony (witness tampering) the heavily edited video that ms heard made of mr depp without his knowledge or consent and then sold to tmz breaks a number of serious laws (and proves that even when very upset mr depp never touched her) then there are the lies even if mr depp did not have ample proof that she is lying ms heard contradicts herself repeatedly making a powerful case for perjury in at least three different case depositions and every lie that she will tell on the stand the defamation is probably the easiest thing to prove in this case as a judge has already found her case for domestic abuse to be egregiously flawed and without merit and dismissed it with prejudice ms heard's accomplices testimonies are already ready awaiting josh drew was deposed last november and since then mr depp has known that raquel pennington was not in her apartment but hiding in the hall closet which discloses a formidable lie in her deposition domestic abuse causing bodily harm will be the least of ms heard's worries and is tillett wright raquel pennington whitney heard and elisabeth mars should be questioning how much jail time they would like to serve for ms heard because as all of this unravels their multiple lies are being uncovered and ms heard would throw them to the dogs in a minute to save herself

1

the media only reports what will make them more money before the divorce was final a judge had dismissed ms heard's domestic abuse case with prejudice that means ms heard lost the judge found the case to be egregiously flawed and without merit and ms heard can never bring domestic abuse charges against mr depp again reporting the truth wouldn't generate the clicks media sites need to make money so they didn't report on it (with the exception of the site tmz which is run by a lawyer) the daily mail runs one pro amber story then a pro johnny story to keep everyone interested and clicking the population does very little research but they are quick to take sides justice will put ms heard in jail with her friends and then the world will hear about it

1

the complete picture has become clear with josh drew testifying that raquel pennington was not with him in the apartment mr depp allowed them to live in but hiding in the hall closet of mr depp's apartment neither ms heard or ms pennington realized that mr depp had brought two security guards with him and they were listening at the apartment door or these two guards have testified that ms pennington did not pass them to enter the apartment confirming that she was hiding in the closet waiting to burst out to come to ms heard's assistance and most importantly to witness the attack that they intended to frame mr depp with when ms heard began to scream stop hitting me! ms pennington began screaming leave her alone! the two co-conspirators realized the two security guards were in the room with them and had noted mr depp was on the far side of the room in the kitchen nowhere near the two women the co-conspirators then changed their screams to don't hit me again! the guards saw ms heard shouting into her phone presumably to倾诉 wright he's hitting me! when mr depp was not hitting her nor was he close enough to hit her the guards then left with mr depp having witnessed that no assault occurred the co-conspirators communicated with samantha spector ms heard's lawyer who apparently advised them to break the law by making two fake 911 calls eliciting two separate lapd responses isn't it against the law for your lawyer to advise you on how to frame your spouse for domestic violence? both sets of specially trained domestic abuse police officers insisted on entering and searching all of the penthouse apartments and thoroughly examining ms heard for signs of violence both sets of police officers are testifying for mr depp that there was no signs of a fight nothing was broken and ms heard had no signs of trauma anywhere on her person now that ms heard's metoo lawyers have cut her loose and her metoo activist friends are withdrawing their support ms heard's case is falling apart the day after the alleged assault ms heard attended a party thrown by amanda de cadenat pictures were taken ms de cadenat was supposed to testify that ms heard had a bruise on her face she now feels that she was used and misled by amber and will no longer testify on ms heard's behalf that can only mean that there was no bruise on ms heard's face she simply told ms de cadenat what happened she was believed and ms de cadenat was going to stretch the truth with her testimony to support her friend thus the deliberate framing of an innocent man began when a witness is willing to embellish what they saw to support a friend justice starts to slide down a very steep slope witnesses must confine themselves to exactly and only what they experienced first hand ms heard's friends are realizing that they will be committing perjury a serious crime josh drew once a co-conspirator now has decided to tell the truth his november 2019 deposition was filled with many enlightening facts that we are just learning about it will be interesting to see which other co-conspirators follow suit

1

@ehacker well you are number one in my books!

1

@ehacker a very merry christmas to you jon and your family! i hope all is well with you and yours!

1

@ehacker no problem! i know how hard you are working! i'm amazed you do so much and christmas is definitely family first time but you know that we appreciate every upload!

1

and one by one we will demand that ms heard loses every ill gotten gain i'll never buy l'oreal paris again they will have to issue a formal apology to mr depp and every victim of abuse that l'oreal slapped in the face by promoting a woman with a domestic assault arrest ms heard is just another liar destroying the credibility of metoo!

1

a lot of people lose parents in their teens thirty four is young but not that young ms heard herself is responsible for the divorce and the airing of dirty laundry if she hadn't courted constant publicity and sold herself as the spokesperson for domestic abuse victims mr depp would not have had to sue her to clear his name in the recordings he begs her to settle quietly if ms heard had not been so obsessed with hurting mr depp's career and personal life she wouldn't have been fired the blame for all of this can be laid squarely at amber heard's feet and she is a narcissist intentional suicide is very unlikely they threaten they even pretend but they are the center of their universe they only person who counts i would be more concerned that she would take one of the guns that she brags about owning and be gunning for mr depp because even though he tried to divorce privately and move on ms heard is going to blame all of this on him

1

@karmas facts then amber heard should have thought about it before she created this perfect storm mr depp was older (55) but he had to deal with the death of his mother his children receiving death threats from heard supporters being publicly accused of domestic violence and discovering that the management group that he trusted had spent a large amount of his wealth and had mortgaged his hollywood estate and defaulted so the bank was foreclosing within days and he lost his pirates franchise and unlike ms heard he was not the cause of all these things

1

@karmas facts i am a survivor of narcissistic abuse and now i counsel young adults who are experiencing narcissistic abuse i deal with the suicidal thoughts of youths caused by people like amber heard victims of narcissists actually commit suicide in forty years of practice not a single narcissist has ever committed any act to harm themselves narcissists fall into a very narrow psychological band of behavior professionally i deal with the victims they are innocent they do not deserve to be pushed to the brink of possible harm in this case the victim was mr depp and by his own admission he became suicidal no one cared because of the false narrative victim it takes years of therapy to become emotionally stable after surviving narcissistic abuse i will continue to work on behalf of the victims if a narcissist is suffering because of the horrible devastation and actual crimes that they have purposefully committed in order to destroy their victim i will still stand with the victim

1

you are correct about the elon musk and the james franco subpoenas california is a no fault divorce state it doesn't matter if she committed adultery the videos are of the days immediately following dates that ms heard claimed that she was horribly beaten both men saw her face and body close up and personal they will have to testify as to whether she had injuries

1

the sun has no choice but to go to trial as mr depp will not settle and he is the person bringing the lawsuit mr depp wants this trial because it will clear his name ms heard's dropped case was dismissed with prejudice by the judge if there had been any evidence california law requires the state to bring the case against mr depp in the event that his wife drops the case it was never viable

1

in 70000 text messages this was their best evidence wonder why this is reported and nothing about mr depp's evidence? every story in every media outlet that i have read site s emily smith editor of tabloid page six as the source her first job was as editor of the sun us emily smith owes her career to the company mr depp is suing this is unbiased and unprejudiced reporting? she does not disclose her connection in a single article

1

emily smith editor of the tabloid page six wrote the original story that all the other media outlets have picked up on and she owes her career to the sun her first job was editor of the sun us that's why she didn't mention the complete text or any of mr depp's evidence an unbiased and unprejudiced media? i think not

1

yes the sun's parent company lost a phone hacking lawsuit they had to issue an official apology and pay 100000 pounds compensation to sienna miller and reporter dan evans was found guilty

1

tabloid media is all over this but not any of mr depp's evidence and i became curious every story sites emily smith editor of tabloid page six as the source her first job was editor of the sun us she is a shill for the company that mr depp is suing

1

all the media stories stem from one story written by emily smith editor of the tabloid page six and she owes her career to the sun they gave ms smith her first job as editor of the sun us unbiased and unprejudiced media? i don't think so not one story that i've read discloses that emily smith is a shill for the sun the very company that depp is suing! they read them out in court even though they are unverified this was the best evidence they got from 70000 text messages

1

if this is the best evidence that the sun could obtain from 500 gigabytes of text and e-mail the sun's going down news group international has already lost a hacking message lawsuit that resulted in them having to close the sun's sister paper issue a formal apology and pay 100000 pounds to sienna miller and admit to phone hacking wonder why this was reported but not mr depp's evidence? emily smith editor of tabloid page six and the originator of every media story was given her first job by news group international as editor of the sun us she is nothing but a shill for the company that mr depp is suing

1

every story in the media right now has cited a story by emily smith editor of tabloid page six as the source but none of them disclose that she owes her career to the sun the company that mr depp is suing news group international gave emily smith her first job as editor of the sun us that is why the coverage is biased and prejudiced

1

you are correct and she was caught it contributed to the judges decision to dismiss with prejudice these texts are edited and unverified also the sun's parent company was tak

en to court over hacking sienna miller's messages and lost they had to issue an official apology and pay her 100000 pounds and the reporter was charged and found guilty

1

this is all the sun every media story originates with emily smith editor of tabloid page six her first job was editor of the sun us she is nothing but a shill for the company that mr depp is suing that is why all these reports don't mention mr depp's evidence don't worry the british courts don't take lightly to such character assassination news group international the sun's parent company already had to shut down another tabloid paper when they lost sienna miller's lawsuit they also had to pay her 100000 pounds compensation issue an official apology and publicly admit phone hacking even the reporter responsible dan evans was found guilty still i will never support anything ms heard is involved with you are correct that is the best form of protest

1

all the stories site emily smith editor of tabloid page six as the source why didn't she report on any of mr depp's evidence? because news group international gave emily smith her first job as editor of the sun us she is a shill for the company that mr depp is suing biased and prejudiced media

1

@sonic970 i enjoy talking to you also i don't think that i qualify as a fan of mr depp (although i understand that he has many of them) i have never seen any of his films in a theatre and i have only seen fifteen of his ninety one movies i have impaired vision and cannot watch too many movies mr depp is not the reason that i am involved in this case

1

@sonic970 even by my standards thirty four is definitely "not" a young girl it "is" sad that amber heard likes young girls but she is getting a little too old to attract the m i support the facts the narcissistically abused and most importantly "justice!"

1

@sonic970 well hello sonic970! how are you? i haven't heard from you in a while! what are you talking about?

1

mr depp has waited three years to clear his name his lawyers have absolutely no doubt that when ms heard puts her evidence up against his evidence amber heard is going to jail when ms heard dropped her domestic abuse case the judge dismissed it with prejudice that means the case was so flawed not only did the judge find against ms heard but she is never allowed to bring these allegations against mr depp again

1

@sas fee depp's former managers paid mr depp many millions of dollars in settlement for the money they had stolen and provided mr depp with some of the evidence he has been able to use against ms heard in this trial and the virginia trial johnny depp if things get physical we "have" to separate amber heard no we don't johnny depp we have to be apart from one another whether it's for an hour or ten hours or a few days we must there can be no physical violence amber heard i can't promise you i'll be perfect i can't promise you i won't get physical again god if i sometimes get so mad i lose it recording made by amber heard and provided by mr depp entered as evidence in the sun defamation trial 2020

1

that is exactly correct she "told" you amber heard had no evidence in 2016 when the judge dismissed her allegations of abuse with prejudice and she didn't present a single viable piece of evidence during this trial all she has is her unsubstantiated stories none of her witnesses would testify that they "saw" mr depp ever hit her except her sister who also said amber had never assaulted her then mr depp's lawyers played the video of amber's sister showing the bruises amber had given her in a physical fight for a reality show no doctor's affidavit no emergency room paperwork no nurse's statement no police report no x rays no prescriptions no eye witness "nothing" even the photos of her bruised eye had metadata that had been tampered with and were thrown out! mr depp has many eye witness testimonies domestic abuse trained police officers doctor's affidavits hospital paperwork x rays nurses statements prescriptions cctv footage recordings made by ms heard where ms heard "confesses" she is the one who starts physical fights ms heard's prior arrest for domestic assault and the multiple lies that she was caught telling during this trial after the virginia trial ms heard will be securely locked away in jail where she won't be able to hurt anyone else!

1

ha ha ha ha ha ! i can't promise you i'll be perfect i can't promise you i won't get physical again god if i sometimes get so mad i lose it! amber heard as recorded by amber heard and entered into evidence in the sun defamation trial 2020 don't worry after the virginia trial you can be her pen pal in jail!

1

me too this article screengeek wrote is full of mistakes and could only have amber heard herself as it's source one single source issues a statement from warner brothers then issues a statement from l'oreal paris then issues a statement from amber heard's lawyers? ms heard can't settle mr depp is the plaintiff he's the only one who can settle guess we know who gets favors from amber heard in exchange for fake articles

1

@jenn flyer and criminals not needed either

1

@jenn flyer and throw amber heard in jail for the rest of her life for all the laws that she has broken

1

i'm surprised that screengeek posted such a false story put out by amber heard herself one single source gave a warner brothers statement then gave a l'oreal paris statement and then told us what ms heard's lawyers are going to do? why is there a blatant error in the middle of the statement? ms heard can't settle with mr depp even if she wanted to because mr depp is the plaintiff in this case he's the only one who can settle ms heard has lots of evidence? then why did she refuse to give it to the judge in the domestic abuse case that she started? that judge dismissed ms heard's case with prejudice she can never bring a domestic abuse case against mr depp in the future and it ends with they are not going to fight the case in the media well then what do they call that article that they just presented in the media? i thought that screengeek was a fairly reputable source but they are just a shill for amber heard sorry that i went on so long i'm just so disappointed

1

@jenn flyer don't worry amber heard will soon be in jail fabricating evidence and selling it for financial gain tampering with evidence and selling it for financial gain making a heavily edited video of mr depp without his knowledge or consent and selling it to tmz for financial gain tampering with witnesses extortion domestic abuse causing physical harm perjury in the abuse deposition perjury in the divorce deposition perjury in the defamation deposition and defamation she is going away for a long time

1

@jenn flyer ms heard's domestic abuse case was so flawed the judge dismissed it with prejudice that means that ms heard can never bring these charges of domestic abuse against mr depp again if she had a shred of evidence she would have used it then mr depp has submitted the x rays of his hand showing shattered bones that could only be caused by a bottle with liquid impacting from a considerable distance if mr depp was that far away from her she could not have been protecting herself

1

@jenn flyer and i am reporting screengeek for publishing an article that claims a source with inside knowledge when this article is a plant by amber heard there are laws against this the article is filled with mistakes how exactly could ms heard settle when mr depp is the plaintiff? one source issuing statements for warner brothers l'oreal paris and amber heard's lawyers she isn't fooling anyone she wrote this and it can be added to the list of crimes she has amassed

1

the screengeek article source is amber heard herself i thought that they had more decency than this one single source gives a statement from warner brothers then gives a statement from l'oreal paris then gives a statement from amber heard's lawyers? ms heard can't settle even if she wants to because mr depp is the plaintiff he's the only one who could settle the screengeek source is amber heard who else would make that many mistakes and then end with a statement about keeping the fight out of the media in a statement in the media?

1

@jenn flyer and put amber heard in jail where she belongs so she can't hurt anyone else

1

she is certainly going to sink screengeek with her planted articles one single source issues a statement from warner brothers then issues a statement from l'oreal paris and then issues a statement from amber heard's lawyers? come on screengeek that statement is full of mistakes mr depp is the plaintiff he is the only person who can settle

1

@ezra don't worry i don't \*expect\* ah fans to be able to read!

1

sorry but this screengeek article is too full of mistakes to be the work of anyone but amber heard one single source that can issue a statement for warner brothers l'oreal paris and ms heard's lawyers? ms heard has decided not to settle? she couldn't if she wanted to mr depp is the plaintiff in this case and only he can settle ms heard has incredibly damaging evidence then why did ms heard drop the case allowing the judge to dismiss the case with prejudice? it means that the judge found the case so flawed that his ruling prohibits ms heard from ever bringing her abuse charges against mr depp you can look forward to someone else's tiddies because ms heard's are going to be in jail

1

you have it in one! i'm so disappointed in screengeek i thought they were fairly credible until this article the only person who could have made this many mistakes in an article is amber heard herself she decided not to settle in a case where mr depp is the plaintiff she has damaging evidence but didn't give it to the court in the domestic abuse case the judge closed the abuse case with prejudice does she think that she can easily fool everyone?

1

and this screengeek article is clearly a fake the source can only be amber heard herself one single source issues a statement from warner brothers then issues a statement from l'oreal paris then issues a statement from amber heard's lawyers? the statement is also full of mistakes it says ms heard has chosen not to settle but mr depp is the plaintiff he's the only one who could settle ms heard is planting stories and trying to play us for fools i thought screengeek was better than that ms heard must be giving them favors

1

@tkps i believe that you are completely correct in the beginning it was supposed to be a bluffed one of the co conspirators ever thought that they would be risking their own freedom amber's sister whitney now has a baby josh drew had a deposition in nov 2019 and since that time mr depp's team has a great deal more knowledge mr drew is no longer married to raquel pennington so he's the most likely to break ranks and side with mr depp in order to save his skin

1

@hi wall at the time ms heard was attempting to frame mr depp he was still very much in love with her he continued to protect her during the divorce (he submitted the pictures of the uh bed incident to the court with the condition that only the judge and the lawyers could see it because it could harm her reputation) but ms heard being a narcissist had to keep forcing the issue after the virginia defamation case ms heard can be prosecuted for the multiple crimes that she committed mr depp's lawyer adam waldman is an incredibly astute attorney and i believe that when the defamation suit ends he will see that ms heard faces justice

1

@hi wall amber heard even accused the police of lying in their reports (tmz amber heard: cops are lying they saw me bruised and battered 6/1/2016) but the fact that there were two witnesses that night and two 911 calls resulting in two sets of two police officers who both examined all of the apartments for signs of an altercation and for marks bruises or injuries on ms heard i think her lawyer advised against it it was a complex case ms heard had set it up so that she didn't call the police despite telling the press that she had she never filed a police report at the time i believe that they had little evidence against her other than her deposition raquel pennington was clever enough to say she never actually witnessed any abuse in her deposition #metoo was all over the news at that time the judge dismissed the case with prejudice and that should have ended it now ms heard will have to testify in court in the virginia defamation case her co conspirators will also have to testify that testimony along with every story every video and every speech that ms heard has given will provide ample evidence mr depp's lawyer has subpoenaed every text message every recording every single piece of evidence p

ertaining to ms heard's attempt to frame mr depp they will prosecute after all the evidence is laid out in the upcoming trial

1

@ehacker jon you are just too cute best answer ever! and yes jesus is god i am saved

1

@last emperor how eloquent you are your extensive education and experience are put beautifully on display you are truly the finest example of an amber heard fan that i have had the pleasure to encounter i am conversely not interested in any of the personalities involved in this case i am a narcissistic abuse survivor and counselor heavily concerned with the litigations of such crimes it is sadly not unusual to see crimes of this sort mishandled by the court systems all over the world fortunately where the law may fail us behavioral science always delivers justice in the end you have nothing to fear from this outcome as you have so succinctly illustrated your belief that amber heard is not a narcissist (although she does have that diagnosed disorder) narcissists are absolutely incapable of changing their pattern of behavior a narcissistic abuser will have abused in their past and most importantly they will abuse again in their future it is only a matter of time before the truth will be irrevocably established incidentally the virginia court ruled today to allow amber heard's prior arrest for the domestic assault of her wife tasya van ree in 2009 witnessed by two arresting police officers (and an international airport full of people) and held open for a period of two years from the arraignment

1

@christina taft i'm sorry but you have confused me with someone else i have never been charged with any crime and never been arrested my work requires that i have police checks regularly i am a survivor of narcissistic abuse and now counsel young people facing narcissistic abuse and it's resulting trauma at the time ms heard left highschool in texas she was arrested for a crime that resulted in a five year driving ban there is no crime in my country that can result in such a prolonged ban therefore the crime must be singular the arrest record is sealed but is archived and may be one of the arrest records that ms heard has been ordered to produce for the virginia defamation trial we are aware of the existence of this sealed arrest because ms heard was arrested in california for driving while her license was revoked in 2009 in the seattle/tacoma international airport ms heard was arrested for the domestic assault of her wife tasya van ree (at the time ms heard had changed her name to amber van ree) the assault was witnessed by the two arresting officers and an airport full of people ms van ree had a valuable piece of jewelry ripped from her neck during the assault the officers queried ms van ree if she wanted ms heard arrested and she responded in the affirmative ms heard was taken to the police station for booking and spent the night in jail she was arraigned the following day (an audio recording of the arraignment survives and is accessible if you desire to listen to it) the judge and the prosecutor noted that both women lived out of state and for that reason opted to hold the case open for a period of two years on the chance that ms heard would reoffend or that tasya van ree would decide to prosecute ms heard when ms heard met mr depp she attempted to have this arrest expunged from her record when the press discovered the arrest ms heard suborned "the victim of the assault" tasya van ree to release a statement that would clear her name if a "man" had assaulted a "woman" and then contacted the "victim" of the assault to write a statement "to clear his name" the #metoo movement would have erupted in "outrage" this is the statement of tasya van ree: in 2009 amber was wrongfully accused for an incident that was misinterpreted and over sensationalized by two individuals in a power position i recount hints of misogynistic attitudes towards us which later appeared to be homophobic when they found out we were domestic partners and not just 'friends' charges were quickly dropped and she was released moments later she added it is disheartening that amber's integrity and story are being questioned yet again this statement contained so many lies that the arresting officer officer beverly leonard agreed to give an interview correcting the mistakes ms van ree made the official declaration submitted to the court indicated ms van ree called the police to have amber heard arrested officer beverly leonard is an openly gay woman and gay rights advocate who donated her time to domestic abuse shelters she found the description of her as misogynistic and homophobic to be amusing and inaccurate the charges were "not" quickly dropped and ms heard was "not" released moments later as tasya van ree did not provide bail for ms heard and she was forced to spend the night in jail even ms van ree's final statement amber's integrity and story are being questioned "yet again" is worded to make ms heard appear a victim ms heard went to great lengths to make sure this arrest story did not become public knowledge i can not find any record of it being reported before the depp/heard divorce which is when ms van ree wrote this story therefore ms heard's credibility was "never" questioned ms heard's other arrests were not for physical altercations but i do find the australia case particularly distasteful ms heard pleaded guilty to falsifying official documentation to australian immigration to smuggle her two tea cup yorkies into the country "knowing" the dogs would be euthanized if they were caught all animals must be quarantined before being admitted into australia because rabies does not exist on that continent the only test that is conclusive for rabies requires the dissection of the animals brain it was revealed during the british trial that ms heard had suborned perjury from estate manager kevin murphy threatening to have him fired mr murphy began proceedings to change his testimony when mr depp and ms heard divorced he has documentation that proves he repeatedly told ms heard what the consequences would be if she smuggled the dogs into the country it was cruel to endanger those two small innocent pets ms heard has some of her arrests that will be exposed during the virginia trial as the judge has ruled her previous arrests are necessary to the case we may learn of other incidents but the abuse arrest is definitely pertinent in this case as a narcissistic abuser will have a history of abuse and will continue to abuse this is part of the disorder all of this information is in the open domain you can google any of the key words and legal documents news stories and other sources will be available to you if you have trouble finding anything leave a comment and i will direct you to my sources 1

@last emperor how delightful to hear from you i had a suspicion that you would leave comments on every pro depp comment in this thread i find the psychopathy of obsessive fandom very interesting i had no idea that you were so personally involved in this case you would be of much more assistance to ms heard if you were willing to take the stand to testify on her behalf because although you "know" that ms heard was attacked no less than twelve times as of this moment she has no viable evidence that she was ever attacked i state with confidence that the incident involving broken glass alcohol bottles would have resulted in a hospitalization of no less than three weeks i have unfortunate experience with such injuries the paramedics arriving with the ambulance would have medicated the subject with narcotic painkiller the injuries would have chemical burns from introduction of alcohol and contaminants into them a team could have removed the glass and contaminants over a period of about eight hours using x rays to locate the glass shards which covered the patient's entire back and the bottoms of both feet then the injuries would have to be closed using staples stitches tape or adhesive depending on the size and depth of each cut glass bottles produce very jagged cuts so infection is always a concern the patient would require a tetanus shot and a full course of antibiotics the high risk of infection would result in the length of the hospitalization a professional would be required to change the dressings and monitor the wounds the patient could not do this themselves as the injuries on the back and soles of feet would not be accessible and the pain would require sustained amounts of painkiller the injuries could not be exposed to the sun for a period of a year as the scar tissue has a tendency to pigment after a year the reconstructive surgery could begin minimizing ripples and reducing the scars to fine lines unfortunately there is no record of any of this a single report of an x ray would go a long way to prove abuse in the united states the upcoming trial will be very different from the british trial as ms heard will be the defendant in this case opinions will not matter only verifiable evidence will be admitted

@shreyan kanvinde aquaman made only \$335061807 in it's american release a very reputable sum but not particularly remarkable the largest portion of aquaman's worldwide gross of \$1148485886 was in the east china providing the largest market since the release of aquaman relations between china and the united states have become less favorable and american movies are not doing as well it is highly unlikely that any current movies will be received with as much enthusiasm in china again amber heard is not just a bad person she is a criminal she has not done things that wrong she has committed crimes australian authorities have reopened the dog smuggling case because kevin murphy revealed under oath in the sun defamation trial that amber heard is guilty of subornation of perjury ms heard threatened to have him fired if he didn't lie to protect her he is in the process of changing his testimony and ms heard will be facing a potential seven year sentence in that country aquaman 2 is slated to film in australia the washington post defamation trial will result in charges against ms heard in the united states the list of crimes is much more extensive in this case fabricating evidence and selling it to the tabloids for profit tampering with evidence and selling it to the tabloids for profit tampering with witnesses making an illegal heavily edited video of mr depp without his knowledge or consent and selling it to tmz for profit (tmz cooperated with the police investigation in this case) making an illegal recording of laura divenere without her knowledge or consent (her lawyer indicated that ms divenere would like to proceed with charges) subornation of perjury perjury to obtain a restraining order perjury in the divorce deposition perjury in the sun defamation case deposition perjury in the sun defamation trial perjury in the washington post defamation deposition perjury in the washington post defamation trial assault causing bodily harm attempted extortion (see the spector letter listing ms heard's financial and property demands "before" she made any allegations of abuse) and defamation each one of these crimes has its own sentence attached to it ms heard is not looking at a misdemeanor sentence she is looking at some serious hard time on top of all that as mr waldman has pointed out the penalty for perjury in the united kingdom is up to seven years imprisonment ms heard's crimes now span three different countries as a narcissistic abuse survivor and counselor the repercussions of dcu supporting ms heard in light of her crimes would be devastating but since warner brothers clearly stated in the praecipe letter from wayne m smith senior vice president corporate legal that warner brothers "requires" mr depp for fantastic beasts but makes no mention of ms heard and ms heard has not even been informed of when aquaman 2 is shooting it appears the matter of whether she will be in aquaman 2 has already been settled

1

@me not mr depp can not go to jail for domestic abuse because the judge after reviewing ms heard's evidence and the evidence provided by mr depp dismissed ms heard's case stemming from her "temporary" restraining order "with prejudice" in 2016 just before the divorce the exact meaning of this verdict is that the judge found ms heard's case to be egregiously flawed and without merit and the result of this verdict is that ms heard can never bring these charges against mr depp anytime in the future the documentation is now available in the public domain in the california court system for you to verify this dismissal verdict the recent acknowledgement by the united kingdom high court that ms heard lied to the judge that she committed perjury during the trial that she failed to donate her divorce settlement to charity and that she failed to disclose all evidence in the case is a substantial blow to the case in virginia the fact that kevin murphy is in the process of reversing his testimony in the australian dog smuggling case and the australian high court intends to open a case against ms heard for suborning perjury under the threat of being fired which carries a thirteen year jail term (three years more than smuggling in her dogs would have carried) and that making a public statement that you are donating money to a charity is considered a legally binding contract in the state of california as is giving interviews that state that the donation was completed (and issuing press releases that the donation was completed) it appears that ms heard will be spending a great deal more time in court kate james may also decide to sue ms heard for appropriating her sexual abuse story (which was well documented at the time it occurred in police reports) these are the already pending cases after the virginia court weighs mr depp's evidence and it should be noted that american courts don't dismiss the police reports of two separate sets of specially trained domestic abuse police officers as well as ample physical and testimonial evidence in favor of stories without evidence of any kind to substantiate them ms heard is facing potentially an entirely new set of charges stemming from attempted extortion suborning perjury and the fabrication of evidence even if mr depp lost the defamation case as unlikely as that may be he is still not facing any jail time you should also take care in the language you use to harass the survivors of narcissistic abuse who support mr depp as every comment is being reported and recorded in a central account to be used as evidence against ms heard for encouraging her fans to antagonize and threaten anyone who supports mr depp

1

i noticed that too so i looked up the story every media story originates with emily smith editor of tabloid page six her first job was editor of the sun us she is a shill for the company that mr depp is suing i hope he goes after them for obtaining these texts news group international the parent company already had to close the sun's sister paper amid a hacking lawsuit by sienna miller which she won they had to issue an official apology pay 100000 pounds compensation and publicly admit to phone hacking

Out[128... one more thing i don't know if that's been proven or what but when i first watched the video of johnny hitting the cupboards i couldn't believe it was him i mean there's som
ething about the face on that video that seems different to me from johnny and i think i saw someone saying the person in the video didn't even have the tattoos that johnny
has on his fingers i've never watched the video for the second time and i don't want to so i can't back that up i do wonder if even that video was real
1
seems like he wasn't paid (because he didn't find any dirt) and since her lawyer admits he was let go he decided to sell it to the media to get some money
1
@iamme€i€ the most ridiculous one is the he threw 30 bottles at me like grenades!! the fact that some people buy this sh*t is so sad
1
it's an ongoing case that's going trial', i wonder if you'd tell a woman she should just move on
1
we have brian€M€
1
i think it was blair berk
1
because people didn't care? her case was dismissed with prejudice it's the media and the public that never looked at what johnny was saying even then
1
if she is acting then she is lying no? isn't that the same thing? she is sitting for an official deposition for a restraining order if it was publicity stunt for her then i
t's lying
1
the media reports some of the information but unfortunately they are very selective i've read a comment once that abused men aren't a popular topic for the press plus the me
dia have spent the last three years absolutely trashing his name left to right for them to be able to properly report what's going on they would have to admit their mistake
1
@thebluearmy33 because the op ed for washington post began circulating in virginia it's a place of origin of the defamatory publication
1
she doesn't have a ro against him anymore it was temporary and it was dropped with prejudice the texts are from 2016
1
nope just her
1
at that time he probably didn't but i genuinely hope that since then it's become clearer
1
@jessica yeah but as you said he did try that on you here's amber the one both saying this and convincing johnny no one would believe him that's what i meant she had no reas
on to bring it up since johnny wasn't taunting her about it he didn't even hint at it in her case it was more like this is the truth but if you are thinking of telling this
to the world know that no one will believe you so better don't even try just do what i want
1
johnny is suing the sun magazine and heard herself for defamation for the fake allegations so it was filed as evidence in the cases
1
knowing it was going to go viral??? are you serious right now? this was recorded in 2016 and he doesn't have social media i think it going viral was the last thing he'd thin
k of considering he didn't even know what it is also she had a restraining order against him at that time he was protecting himself by recording this did you know she also f
lew to meet him in san francisco while she had that ro? and then tried to say he violated it wanted to get him into trouble for that besides they recorded their arguments as
a form of therapy so while she might have not known this was being recorder she certainly knew all the other audios were recorded in fact they were recorded on her phone and
in those she admitted to abusing him so whether he's trying to make himself sound good here how the hell does it change what she said? she literally said whenever they had a
n argument he'd leave he never fought with her which means he wasn't abusive in her own words because he always split and she spent an hour yelling at him about it so this c
omment is just extremely ignorant 1
@deekat3279 she had avoided deposition for the restraining order request and then asked to have the case dropped yes but she was forced by the judge to finally give a deposi
tion and she did (where she confessed) only after that was the case dismissed with prejudice
1
yes he has said he had a violent childhood and that his mother would hit him
1
victim blamer
1
and that's relevant how? she has a known drug problem but unlike her he was never arrested for abusing a partner she was
1
???? what kind of comment is that he's 56 he's not gonna look 30 forever and he went through years of mental and physical abuse
1
@kara a there are literally witnesses who gave testimonies under oath that they saw her abusing him and him not responding physically at all
1
whv couldn't she just leave him alone and move on with her life? she is the one who kept referencing him while he never mentioned her until he filed the first lawsuit last v
```

ear he did try to move on she being the abuser that she is did not  
1  
from amber he filed a defamation lawsuit against her  
1  
no she is a serial abuser he never abused anyone  
1  
that is a lie mr franco didn't and doesn't live in the building nor does he live in the hallway of mr depp's private penthouse floor to which elevator 3 goes adam waldman  
1  
@pan tau that's what the trial is for you know but keep deluding yourself we'll see in the end  
1  
whether they left together or not doesn't matter he saw her face that's the point that's why they want him to testify also if you think this undermines her credibility you obviously do admit that she is doing something wrong  
1  
@pan tau yet here i am getting no money for my comments i must have missed the memo :(  
1  
@kristine hansen where was she subjected to verbal abuse though? telling an abuser to treat someone better and not abuse them is not verbal abuse my comment was hypothetical the quote in the video is from now it's not something that was told to her as far as i know the only person who actually confronted her was johnny's mother and again amber was physically and mentally abusive towards him and several other people telling her to stop being a pos is not abuse."  
1  
@lps yep that's her new version even the previous audio i did start a physical fight apparently now means she punched him because again his life was in danger from drugs geez she is real piece of work  
1  
must have been tired for violently attacking depp since he's the one with photos of bruises  
1  
the us case is a jury trial the judge is making decisions now but not at the trial  
1  
@nerdette's newsstand yes here: <https://newsskycom/story/johnny-depp-libel-case-star-found-discovery-of-faeces-in-bed-hilarious> 12025369  
1  
a lot was left out in this video she also said she mixed other prescription drugs and took them way more than should have something on acne which i don't remember the name off  
1  
accutane and provigil those two  
1  
i think it's being reported again because of the trial  
1  
they both knew it was being recorded they mention it in the audio go listen to the tape my battery is running low it seems they recorded their arguments maybe as a part of working on their relationship i'd say they were advised that by someone my parents fought a lot but then they would argue who said what i'd say that was their case too so recording themselves was a good idea to go over it again  
1  
they both knew it was being recorded they recorded their arguments seemingly for therapy purposes they both acknowledged the tapes in this audio and its recorded on her phone as she says towards the end her phone is dying  
1  
see a part of me thought that sounds reasonable too except the more audio you hear the more you realize these arguments she'd start were most likely about something ridiculous us where she'd yell at him for breathing the wrong way and also anytime he makes a point she finds a way to change the subject because what he says is irrelevant apparently  
1  
so she is hitting him but he's the abuser for pushing her away from him? ok  
1  
it's literally her phone she is saying her battery is dying oh my god  
1  
the court? he's suing her those are evidence  
1  
he ran away because she was abusing him what's so hard to understand? was he supposed to just stand there and be her punching bag because he's a whole man??  
1  
that's false the judge said he doesn't take the evidence against her into question he accepted whatever she said on the witness stand if there was evidence against her and she denied it he said i accept it this is how false information spread read the verdict if you won't don't talk about these things this is someone's life he lost a civil lawsuit because of gender bias and now people think it means he abused her it's so wrong  
1  
@brainjock it is stated in johnny depp's court documents that multiple women have reached out to them to share their stories of how they've been abused it even said they are still fearful of her some outlets even reported it but of course it didn't get any attention when it came out people are only listening now  
1  
your comment proves people can twist anything he was angry because his managers lost/stole from him hundreds of millions of dollars i'd like to see your reaction which ties to your last point it was the work of his managers which depp later sued because of it and won and uhm you are really gonna bring up his sobriety when he was literally abuse d? victims turn to alcohol or drugs to deal with abuse and the paint on the wall was done after she abused him and his finger got cut off he was in a toxic shock  
1  
victim blaming are we  
1  
@minecraft chris okay i'm confused how is that relevant to what i said?  
1  
every person on the planet has issues that's not the matter here is it? it's who was abusive and that was clearly amber and she set her victim up  
1  
@maria i don't understand how?  
1  
i mean anyone can try to use it against him but i don't think it would actually work in a court of law as it contradicts her claims it undermines anything she said happened from dates sequence of events to what actually happened she first said he injured himself by punching a wall then by destroying a phone no mention of that but her confession of throwing a bottle she also said johnny didn't receive medical attention for almost 24 hours after it also not true he was obviously treated on the same day even said was an argument about their upcoming marriage they were married one month prior to that day the court would never believe bits and pieces they'd try to spin they have to take all facts into considerations  
1  
yes a former addict should have handled his addiction better under severe abuse of course it is his fault he relapsed while being abused because it's so easy sigh if it's not clear to you from the recording that some of the stuff they say is what she told them happened because they were not there they talk about what she told them that's really sad there is a 75k damage but who really caused is unclear as all they knew was what amber told them and she hasn't been the most truthful person out there jerry even expresses his doubt about what she told them  
1  
@ray olson but why now? she made it public it's too late for it to be private she destroyed his name he has the right to clear his name in public  
1  
@ray olson but it is being done in court? you understand there's a lawsuit going on? but it's not sealed so evidence is publicly available on the court website what's the big deal?  
1  
you must be trolling  
1  
i think she planned to only release the parts in which jerry recounts what she told him about all the drugs and alcohol johnny according to her consumed or the damage that was done because jerry says he did it because that's what amber had told him i don't believe she ever wanted the whole thing to be public just snippets that can be spinned  
1  
@julia mimi johnny already addressed that though in court documents he tapped her on the butt to lighten the mood because she was in one of her rage moods she twisted it as always and the text was meant to placate her did you not hear in the audio? they said they will tell her anything she wants to her at the moment to make sure she doesn't go off or to get rid of her that was clearly a common practice for all of them even johnny does it in the conversation between them she gets all upset fake crying about how she feared for her life and despite knowing it's bullshit he said alright and moves on to the next topic  
1  
@julia mimi also no his finance team didn't say that they said they were aware of her allegations not aware of anything that actually occurred  
1  
@julia mimi so many of her friends backed her up? it's literally four people who lied because she was going to get money and most likely promised them some the only people who filed declarations in 2016 were those that were present on may 21st and they knew he didn't do anything to her so they knowingly lied they were in on the hoax no one else spoke up for her you can speculate all you want fact is her claims have been refuted so looking for any tiny grain of truth she might have told in a sea of lies is ridiculous at this point she deserves no benefit of the doubt

noted editing error: at 31:23 both date tags should read december 16 2015 (not 2016) i don’t know how i overlooked that during editing carry on hey everyone! thanks for giving my video a watch and for sharing i’m thankful for all the positive feedback i want to let everyone know i do plan on making at least one more video with more of my views and in depth analysis hopefully soon  
1  
i am fine thank you i apologize i followed the case everyday but couldn't get videos out the way i wanted during that time i'm working on visuals and things to make them up to standard and hopefully won't be long  
1  
thank you! yes i clearly have shown the direction i lean in all this but that is based on the facts contradictions on her part and discoveries i've made along the way  
1  
thank you been slacking on uploading for a while hoping to remedy that soon  
1  
this hasn't been a pleasant subject to cover that's for sure he clearly went through a lot i wouldn't wish it on anyone i too hope he gets justice and is able to find some peace and move forward afterwards thank you for your kind words but no i'm not a lawyer or in law school just a normal guy who had questions and did my best to answer them the southern accent is something i don't hide very well on here no matter how i try  
1  
i literally said he wrote messages in blood and paint on the walls and mirrors he doesn't even deny this but i found it curious she seemingly wrote messages as well how else would you have me address it?  
1  
couldn't agree with you more but that's the point of desperation they have reached they have nothing without twisting the smallest piece of evidence  
1  
we definitely agree on that but you know how people like to twist stuff  
1  
the doctor and nurse search but don't find it ben eventually found it downstairs in the bar area  
1  
you are thinking of later that year in december she threw the can of mineral spirits at him then  
1  
more than i care to admit learning a new program (blender) from the ground up for the sole purpose of this was enjoyable and frustratingly difficult at times  
1  
it has been a reoccurring comparison lately,,  
1  
i have had several correct me will make sure to check the pronunciation of words i'm not sure about next time little things like that can be embarrassing thank you!  
1  
it is the correct hand i explained it with diagrams and drawings on twitter once  
1

blender is impossible to master i am but a mere apprentice  
1  
we are in quarantine and i'm working with new 3d software this feels like a good use of my time and an excuse to keep fine tuning my art  
1  
blender it's open source software and has a bit of a steep learning curve at first but it's fun to use  
1  
i should have looked up the pronunciation dang it i took a 50/50 shot and missed thank you for the correction  
1  
i consider myself as average as it gets just a regular guy i do appreciate the kind words thank you  
1  
thank you! i enjoy your tireless coverage of this as well you stay on it  
1  
yea someone already corrected me on it i really should have checked to pride myself on triple checking facts i'm embarrassed i didn't check on that  
1  
@anonymous yea but i'm not just someone who responds to the news as it drops i'm not a reactionary youtuber i do my best to educate folks on the deeper information buried in this stuff the news doesn't connect i do appreciate it though there are plenty of people that just signal boost current stories and react to what's being reported that's never been my interest they can have it  
1  
not really i include comprehensive stuff nothing against them at all but i do all sorts of information connecting and diagrams and such i don't just talk about every single thing the moment it drops i try to dig further  
1  
@katem 84 haha yea titles like 'brand new bombshell' and i'm likethat's from last may lol but i get it new to them and those titles get eyeballs gotta do what you gotta do  
1  
thank you man i do my best to watch as many channels as i can to see other views and breakdowns and analysis really great job you (and others) are doing covering this topic/ case thank you again!  
1  
a great deal! much to breakdown  
1  
i agree i have no professional insight but these things just rubbed me the wrong way so much of her mannerisms were bothersome to me and i just don't know exactly how to articulate it  
1  
part 2 link! you are going to want to see this! <https://youtube/0g22uxfpm9s> hey everyone! thanks for checking out my videos i never want to feel like i'm promoting my content like this but if you really want to see all the info from this part 1 video payoff i would highly recommend watching part 2 the big lies are exposed in it kinda like a grand finale  
1  
very good point  
1  
yes a future video will cover that more comprehensively  
1  
that is just implied speculation on my part not a direct quote only basing on texts from her to johnny then her parents to johnny also considering the order of events and behavior that week  
1  
somebody did a body language expert has a few videos of about her really interesting stuff i don't have the link but they aren't too hard to find on here  
1  
i've seen many suggest that i questioned why in the video and tend to agree that could have very well been the reason  
1  
i disagree somebody has to give both sides of it i spend a great deal of time in all my videos going over her allegations and court motions which is more than i can say about what the media does for both sides and considering how much i've studied this in detail (far more than any media outlet i'd bet) i'd say my credibility is doing just fine because i rely on facts and facts can certainly point me more to one side that's human nature but hey thanks for watching and saying it's the lawyers doing all of this not amber where i have heard that before? irony indeed!  
1  
i'm glad the video can serve as a bit of a distraction my heart has truly been breaking for your great nation the images of destruction of property scorched land reports of deaths and the mass amount of wildlife suffering as a result are so devastating i hope for a rapid calming of it all and for a chance at recovery while being aware that chance is already impossible for many people and animals sending all my best wishes there were more i could do  
1  
yes i have read and studied each and every document since this started almost 4 years ago  
1  
i've seen a few people comment about that i like the hand drawn stuff too but once i create the 3d elements they will give a much clearer and precise visual plus i can just position them and pose them however i want instead starting from scratch with a new drawing so ultimately making things quicker during editing there is a method to my madness all in the name of clarity and efficiency  
1  
\*lights cigarette and alternates snapping fingers  
1  
no man i don't know much about law outside of basic stuff just a regular guy who had a lot of questions and set out to try and find the answers thank you for the compliment though!  
1  
gender fluid so switching throughout his life born female now identifies as a man  
1  
cancer  
1  
you and me both man i'd love to know  
1  
that's a good idea it is a lot to follow  
1  
ok depp is the victim  
1  
that's a lie i just checked i spend almost exactly one minute in the intro before getting to the subject material i then spend a few minutes getting people caught up with key information people who may not know who is or even what has been happening in this whole thing you know context? but i have a feeling you wouldn't like it anyway thanks for the view though  
1  
i'm here still taking it all in and breaking it all down hopefully in video form before long  
1  
@phyllis donnelly yes you are phenomenal self awareness  
1  
i don't work for anyone and often have better things to do which i do when they come up you seem pleasant  
1  
but her admitting to hitting him on multiple occasions is you must have missed that  
1  
i have plenty of hobbies all good thanks for watching dude  
1

1  
then you haven't been paying attention feel free to make your own she got nothing but coverage for years her evidence was all that matters sorry you aren't able to grasp the concept of all this  
1  
@kenza bouyad very fair point i really appreciate it thank you so much!  
1  
she was recording this play it until the end she says her battery is dying and it's still rolling also the time you are referring to notice what he didn't do threaten her as her call her a name didn't confess to any abuse and even told her it had nothing to do with her so even when she tried to capture him at his worst he wasn't threatening to her at all  
1  
leaving he would leave when she would scream at him and physically assault him  
1  
amber is recording listen until the end she says her battery is dying and it's still rolling

- yeah there's two trials jd vs the sun decided now and a direct jd vs ah it was supposed to be jan but looks like it may get pushed to mid year
- social justice warrior was a term a specific type of crazy created for themselves to backpat how stunning and brave they were they were the very people that spearheaded this wave of cancel culture what they preach is not about equality or merit its about advantage namely advantage for self
- if new case documents or evidence additions aren't new what exactly is? this isn't depp vs sun 2020; its the prep for depp vs ah 2021 case which is noted in the 1st 10 seconds of the video to avoid confusion it is also in the tags to note although there is no existing hashtag to differentiate; i tried deppheard2021 but it doesn't seem to track according to tube buddy as the case builds we are getting new documents daily sometimes multiples a day as well as adam waldmann his lawyer adding sneak peaks at new items that's what this is: waldman posted a piece of evidence that will be added which hadn't been showcased we don't even have a submitted document for it and it shows ah/ah's sister losing everyone around them i also posted another video last night on the sophie case if depp isn't your flavor its up too thanks

hey there some audio you will know in this and upcoming videos since i'm going through it all some you may not the court dropped a lot into the public sphere hours of it so i'm working on cleaning it up amplifying it and hopefully documenting the entirety i'll add it in videos and also into a playlist to help people find all the evidence attached to the trial in the video i also said two hours but that wasn't correct for all of it its two hours on this specific set of recordings there's more and i'm looking at potentially converting it all here so its all compiled and easily found the reason is because the media gave you snippets they took tiny pieces and they called that complete they left out the pots and pans they left out the abuse they left out the lies manipulation and a lot more all of this also belongs to two trials and will not only be in the depp/sun trial but also in the depp/heard 2021 trial plus heard mentioned another 50/51 audio tapes that the court hasn't seen so there's a lot more i'm assuming we haven't seen there's also all the testimony that isn't carried over into videos the ah declarations all 7 of them the depp ones all three of them and on and on i'm not sure how much of that i can put into these since they are so long but we'll see 1  
warner bros banked on the idea that this decision wouldn't do harm or expose their connection to attempting to undo depp they were wrong the connection to the sun ownership of tmz millions have seen this along social media lines too and people are organizing boycotts this will end fantastic beasts and many other movies 1  
i'd like to know what elon's messages with heard said that we haven't seen that would give us a better feel for everything 1  
they said it was for therapy needs but i get the feeling it was more for gotcha points 1  
lol it notes this in the description pinned post first minute of video they're an archive of the released audio the court released hours of it 1  
thats odd glad you found me 1  
i'll make it work for sure one good thing if it waits until jan 2021 is it gives us all a chance to really decide if anything else is missed in those documents 1  
i've figured it was a collective: for me to believe ah i have to believe ah's sister and her friends for depp i have to believe employees of the building police officers and others with no motive to assist appreciate your comment too solid one and concise 1  
yup only one police report and it says no reason to follow up bc no crime 1  
@margaret adam theres a bombshell in that too lol 1  
nice monetized too! 1  
@well well well how the turntables everything is rumor currently people note those for videos but no one truly knows 1  
there's something in the wording together that the yt bots or human reviewers if they truly exist don't like; they also don't like it in written words i've tested it in the first minute of a video; headlines with the word and headlines with the word cut out the headline would trigger it with demonetizes a video but it also can flatline it depending meaning limit its reach other odds ones include: johnny depp and the word justice in a title together although it may make it through the review specific substancesthere was a list of 1000s of such words put out about two years ago by a yter 1  
i really liked the first one and dont truly recall the 2nd 1  
tmz is claiming the own it they flagged my livestream over it which gives them any revenue from it which i imagine they've done to everyone talking about that they are saying essentially they purchased the rights to it which is trash too bc i didn't play their video i played the version from court with 204 secs not 134 sec 1  
these were indeed my ads in this one meaning yt didn't hit this article i managed to get this one approved which happens about 2/10 times on this subject it should have 2 ads in it displaying 1  
true i wonder if it'll hit the bottom line for it though and if stuff like this is an olive branch for damage control thanks for the comment! 1  
its a livestream they go down after they are live bc they get flagged so often the channel kurono backs them up so it'll be up later there 1  
there's a rumor on that one as well 1  
it'll be interesting to see what type of penalty it carries if she didn't 1  
thanks! i'll cover the stand when i return 1  
yeah from the 28th; she went with a dont know what date thats from 1  
honestly no 1  
i'd never heard of them and appreciate the note on them 1  
@yiannis pe this is the opening statements it discusses 14 times ah accuses depp and how there are multiple lies in it i'll pick apart some of this but just following the document will help understand all of depp's case and why he is suing 1  
@geith walker lol i'd do the transcripts too but they are 70 pages each this was only 26 and i read it straight almost 8gb file lol 1  
lol i may throw in a reference to that episode now just for kicks lol 1  
it isn't a divorce trial its a libel trial for the sun we hit day 5 on it monday 1  
yup and after he asked for a postup she removed that finger 1  
.
```

that's disputed between the parties  
1  
it is very good stuff  
1  
lol its a masterpiece of horror  
1  
depp went to court with the sun over defamation; ah gave comments but she hasn't been to trial she is filed counter claims making a case and this stuff wrecks that case its a n easy confuse bc information comes from both but heard has never been to trial period she will though directly in may 2021 her defense is posted in another video and all th ese tear the hell out of it its all part of an archiving project that's noted in the 1st minute of every video making sure your have access to all that info  
1  
it went up for 27min yesterday and then stopped playing no reason given by yt i posted abt it yesterday so you may have seen it if you got their early  
1  
no news so far  
1  
the comic is in demand; it doesn't ship for a while yet igg is a crowd funding site that allows the creation of something like a guarantee it can happen when we hit our mini mum funding goal we began work there's a delivery date and everything else noted with each tier on the project as well as on the project itself hope that explains things and thanks for supporting our project  
1  
if new case documents or evidence additions aren't new what exactly is? this isn't depp vs sun 2020; its the prep for depp vs ah 2021 case which is noted in the 1st 10 seconds of the video to avoid confusion it is also in the tags to note although there is no existing hashtag to differentiate; i tried deppheard2021 but it doesn't seem to track a ccording to tube buddy as the case builds we are getting new documents daily sometimes multiples a day as well as adam waldmann his lawyer adding sneak peaks at new items th at's what this is: waldman posted a piece of evidence that will be added which hadn't been showcased we don't even have a submitted document for it and it shows ah/ah's sist er losing everyone around them i also posted another video last night on the sophie case if depp isn't your flavor its up too thanks  
1  
yeah im prepping as video on it now  
1  
it is depressing  
1  
social justice warrior was a term a specific type of crazy created for themselves to backpat how stunning and brave they were they were the very people that spearheaded this wave of cancel culture what they preach is not about equality or merit its about advantage namely advantage for self  
1  
that was her makeup artist friend laura d  
1  
they claim to have been abused we dont know all the details  
1  
see that's a mistake i made early on in making videos; treating it like pages in a book instead of initiating new readers with breakdowns of chapters see if you are wanting to limit it to people in the know or the newest page then just include new items but if you take that approach it will turn off people if something goes on for any length of time particularly if that subject isn't familiar they get confused bail and you lose them in that fight currently the metrics on this video are only 44% subscribers and 83% from searches anyhow hopefully that makes since as im typing quick thanks  
1  
yeah there's two trials jd vs the sun decided now and a direct jd vs ah it was supposed to be jan but looks like it may get pushed to mid year  
1  
i read a answers post about ah/jd and she has some ardent supporters also remember the normies outside of this stuff that rely on media to get all their news they are the ma jority i spoke to my mom's friends once a few weeks ago for example and they assumed he was the monster they'd heard about in 2018 i learned this early on covering videos: n ever assume that people are caught up even if they should be or even if it makes sense  
1  
its two trials and the 2nd hasn't happened it starts in may 2021 ah hasn't ever been on trial and that one is jd v ah so more stuff adds to it daily now as far as depp v sun i ts a huge case it'll involve a 200 300 page decision but that's over him being called a wife beater and ppl trying to wreck him the ah stuff was discussed for it as a basis for the case but that's not it i'd also add that the court might not decide she is guilty regardless that's why hearts and minds is a fight as well as the courtroom and why you have to present all this stuff to regular folks like you and i hope that clarifies!  
1  
told ya lol this baby is not a topic they love  
1  
a lot of folks didn't myself included it was skipped over by most of the media  
1  
that's youtube for you  
1  
lol no  
1  
can you imagine not rolling up a dollar or a straw but using that? that says something abt the user lol  
1  
you talking casey anthony?  
1  
its still on appeal and thats a good question  
1  
its looking like may 2021 for the 2nd trial and i imagine that'll move as well its still got a long time  
1

i always thought that johnny would be in the ground right now if he hadn't left she would claim it was an accident he dodged a bullet  
2  
the heard girls have lied so much they don't know what the truth really is adam is so determined to win the va case that he is subpoenaing everybody who had any kind of relationship with johnny good for him go adam! ambers lies are being shone for what they are complete and utter crap i love it!  
1  
wish i could have seen the look on wass's face when the officer said there was no damage to the condo and nothing on amber's face  
1  
all these amber fans are gonna be shocked when it all comes back to bite her in the butt but she will still be their queen unfortunately  
1  
before she married johnny she was worth 2 million after the divorce she was worth 9 million not too hard to figure out where the 7 million went  
1  
i always thought she would have if he had stayed wouldn't have done her any good she wasn't in the will  
1  
johnny has so much evidence i hope that amber does not get her hooks into the judge and he sees through her i guarantee she is gonna lie  
1  
very well written and totally agree!  
1  
she is had plenty of time to think up some more lies  
1  
this is such a huge win for johnny! things are definitely looking up for him in the va case amber has painted herself into a corner now  
1  
tug read nicks transcript from today you'll find out  
1  
this is definitely a win for johnny karma has grabbed amber by the butt hopefully karma will continue to bring her to her knees  
1  
she is grabbing at straws she is so desperate she is not gonna win and she knows it  
1  
he got violent with her when he was high on drugs and beat her up and cut off his own finger? when he got to the hospital after his finger was cut off they drew blood and there was no drugs in his system  
1  
hallelujah! maybe she goes to jail after all!  
1  
the only way to stop a bully is confront them and show no fear which is what amber is a bully which is exactly what adam waldman is doing he is the best!  
1  
she had all these injuries and nobody mentioned any the day johnny lost his finger according to the lab tests done at the hospital there were no drugs in his system i hope the judge is not buying any of her bs  
1  
he will survive because he's johnny depp when the trials are over he will be vindicated hollywood does not want to say sorry but since he has not done anything wrong they will eventually come around i hope they dump amber  
1  
amber is the abuser johnny is the victim she has confessed several time to throwing things at him hitting him johnny is very strong not to hit her if it had been me i would have slapped her silly that speech she gave is total cringe she gas lights him and believes her own lies it is johnny all the way who is the victim she is concerned about amber doesn't care about johnny at all 1  
now we know what sexual story she is gonna try to sell the judge behind closed doors  
1  
johnny just keeps winning and ambers team apparently can't learn to stop putting out crap to the judge  
1  
i saw that this morning on nicks feed and i knew that was what she was going to do  
1  
amber is so desperate she knows she is gonna lose her last motion for making johnny come back to the states is denied probably because this is her 800th (seems like) motion fantastic intro by the way you are better at being amber than amber is!!  
1  
emma may be an abuser but she didn't blame any abuse on evan she didn't try to ruin his life amber is much worse poor emma being compared to amber good job on the last paragraph in the article thanks jon for all the good info you put out  
1  
amber is living in her own universe and so are her so called supporters the amber universe where everybody lies and abuses the truth come on back to earth people open your eyes to the real truth  
1  
finally! some punishment for her! they have finally seen the light  
1  
if you don't lie you don't have to worry about being caught amber is so busted amber manipulated her just like she did to and raquel  
1  
amber has been bullying johnny from day 1 she is despicable and desperate i can see her gloating now thanks for the shout out jon!!  
1  
adam will probably double down now against amber he can still post anything now that he wants to she thinks she has done something to hurt johnny but he will prevail  
1  
hasn't the judge already denied this already? they aren't too smart because if she wants 100 million from johnny why not let him finish the film and let it come out when it is supposed to he can't pay her until the movie comes out stupid move  
1  
kathy griffin is a horrible person always has been amber and kathy are two birds if a feather supporting an abuser is not surprising she chooses to ignore evidence  
1  
roberta has realized she couldn't win the case because johnny has so much evidence against her amber is toxic for her career she quit before any more damage was done  
1  
2. Lawrence on court tv last night said it was a slam dunk in johnny's favor after all there was plenty of evidence
```

it would give amber time to make up more lies you would think she would want it  
1  
amber always has an angle if they can further her career they are bait  
1  
amber is a joke and its time she realized it and stop inserting herself into our lives she needs to shut up and go back texas elon is moving there they could be together again  
1  
she is so full of it its actually quite entertaining i haven't laughed so much in a long time  
1  
all i'm hearing from amber is me me me iii what i want what i need no concern for johnny at all typical amber  
1  
its okay if amber's team does it of course it is again accusing someone of doing what she does  
1  
funny he broke up with amber because he couldn't trust her because of her lies now who's lying?  
1  
josh has nothing to gain by saying this so i'm inclined to believe him amber is such a sleazy liar elon wants to deny everything that involves amber but supports her lies  
1  
these people must like to lose money they will by the millions  
1  
this article is very fair and honest glad to see someone reporting the truth thank you stevie j for sharing this wonderful article  
1  
there is gonna be a lot of people having to back track or saying his evidence was fabricated still supporting her in some way the truth is already there they can edit all they want we know the truth of what happened  
1  
when did johnny ever receive a death threat? when was he restrained by a cop and brought to the ground? that's something that would have been plastered all over the news i am gree with some things she says about ambers character but some of it is a little far fetched  
1  
i'm not going to see any movie she is in either unfortunately that includes rum diary which johnny is in oh well i have a lot more depp movies i can watch  
1  
he is such a hypocrite i read in one article that they split up because she lied so much he couldn't trust her kinda the pot calling the kettle black dontcha think?  
1  
god help the child that amber ever has the child will be screwed up for life  
1  
i have always wondered if musky and turd conspired to set johnny up along with her other cronies  
1  
its funny that she saw bruises on the same day that samantha mcmillan didn't samantha spent the day with her and saw her naked samantha did not see any mark on her could it be that melanie is lying? hmmmm?  
1  
amber has lied and manipulated her way through life not caring who she hurts so i hope she is prosecuted for lying to the australian government maybe that will lead to other punishment for her  
1  
said on national tv yes!!  
1  
hope amber likes orange that's the color she will be wearing for a while karma's a bitch isn't it amber  
1  
typical amber behavior he told her that he would be late most wives would have understood that but then again amber was not a typical wife  
1  
typical amber she was cringey even back then she will never be pretty with that black heart she has her looks are starting to fade now her lies are showing through  
1  
she couldn't be too afraid of him or she wouldn't keep confronting him she wouldn't say anything to make him mad (if he was the abuser which we know he's not)  
1  
he is so full of it he isn't afraid of perjury either apparently i think he had the hots for her and would say or do anything for her  
1  
jon stevie j has the video where they are announcing it  
1  
seems that orange will be her color for the next few years yes! karma strikes!  
1  
the bs meter is ticking with her getting higher and higher

celebrity has clearly not gone to his head  
1  
i love how her friends have to be on camera by standing right in back of her i can't believe she threw a press conference this would never happen in america with the trial i'm sure she is milking it for all the attention and publicity she can get i would think this would piss off the judge appealing to the public for pity she just can't get enough attention from this can she? the boozing is precious  
1  
i sent you all that in an article a week or 2 ago  
1  
you keep saying violently raped in the violent fyi"all rape is violent rape is a crime of violence that is why they call it sexual assault  
1  
dude you don't take some molly you take some mollymies  
1  
winona did not file the declaration johnny's lawyer filed it to be accurate johnny asked some friends to give statements under penalty of perjury telling the truth to his attorney ex girlfriends and wives are especially important to johnny's case amber is going to have to end up paying johnny's court fees in his cases against her  
1  
incredibly court tv is still using this fraudulent video footage to this very day for their reports on this case it is astounding and judge ignored virtually all evidence moving amber attacked johnny and he never mentioned one incident in his written judgment i have seen this happen before with abuse cases but never to this extent the idea that controlled substances make you violent is ridiculous i've done more drugs than almost anyone i know and i would swear this in court i used fentanyl for 10 years and morphine for longer than that not only did i never get violent on it but it was perhaps the mellowest and happiest time of my life the drugs johnny was taking don't make you violent johnny's attorney made some fatal mistakes and one of them was this: i don't know why his legal team didn't bring in a renowned doctor an expert witness to testify to that effect the entire time i heard about this trial going on i couldn't understand that omission  
1  
amber heard is a sociopathic liar wanting to destroy johnny depp and get herself publicity she is an evil monster she has no conscience at all  
1  
for your own future best interests please watch your sentence syntax yes amber is disgusting  
1  
my great grandfather and two other grandparents were from russia and i don't appreciate amber's slurs against russians  
1  
then you are saying that johnny is also uninsurable because he has to go to court too i'm sure the court would work around film schedules they certainly worked around amber's fitting schedules when she went to england and they postponed for that and it turned out she didn't even go at the time she said she was  
1  
i didn't even know she had a press conference since our film production house in the burbank studio district is closed down due to the pandemic i only go into work for about four hours a day but somehow i miss some of this stuff so it's good to get to catch up on it most people's youtube videos are not very informative about the trial because they just repeat the same stuff over and over they might say something broad they don't substantiate it much with what actually happened your videos are much more informative  
1  
there is a new video talking about all her plastic surgery i had no idea like \$50k worth  
1  
johnny always talks like that where he says uh he does that in conversations with amber and i've heard him do it for years talking at different forums  
1  
i know it's not true that he said something racist because i work with people he works with and i know he has said the opposite when he didn't have to  
1

i was told at work that the videos were being demonetized because any kind of video about violence that is not being proper for kids to watch on youtube is being banned and youtube is trying to make this platform kid friendly youtube still allows other adult topics but it is something that they do that is what i was told but maybe you heard something different one channel is using a copyrighted his name from a film and i think they marked after him for that don't forget everyone is laying off workers so they are changing them to automated for going after people that are breaking their rules or certain protocols they certainly did that with youtube and twitter so i'm sure they did it with youtube where it is more automated coronavirus is blowing up in the states and that is why they are laying people off and things are more automated that saying certainly kaplan could send a cease and desist but i don't think it would work in this case also people are using trademarked things in their videos and they don't think about this that a company can go after them for that there is copyrighted material and trademark items people are using in their videos very freely as far as kaplan she's angry because she knows she is going to lose this case and she is taking it out on some people that are vocal about justice for johnny he is also angry because obviously amber lied to her about johnny beating her up and kaplan knows she is kicking a dead horse in court

1

i know some of what you do is funny but i like you more when you are serious you have a great voice for that for being serious when it comes to news

1

i think johnny had stockholm syndrome

1

she needs someone she can control or she goes into a rage i couldn't imagine speaking to someone like that she is frustrated here because she has clearly been using these tactics on people for years screaming violence and threats she knows it's not working on johnny because he leaves and she is angry because those are her only communication methods she uses and her motivation is control i can't believe her gaslighting him got him to apologize to her she is really a psychological manipulator she clearly does not want him to have any emotional support from isaac or from anyone else because he will be harder to control if you can't fight for days; you need to walk away she says what a nutcase just insane she has so much in her hostility and she just wants to use him to get it out where she says you need to let me be madis so immature that it makes me wonder what he saw in her other than sex this may sound weird but i think if you are someone that has done acid you can't be around that kind of person

1

fascinating that amber can't afford to pay her attorneys legal expenses and/or that her attorney can't afford them or that she doesn't trust amber to repay her my lawyer just won a case for me a settlement for \$100000 there were expenses but it was never a problem any expenses can be taken out of your winning the case or settlement obviously the attorneys told her that she is not gonna win this i love my lawyer!!!!!!

1

cocaine does not make people forget what they did neither does mdma i wish i could've testified as a witness about how drugs wouldn't have caused all the things that amber and her attorney claimed

1

johnny wanted amber to show proof she gave the entire 7 million to charity and she refused to give it being that amber said this wasn't for money blah blah blah i wish it had been forced upon her to show proof she gave that entire \$7 million settlement to charity i have reason to believe she did not i've done cocaine 1 million times and i've never forgotten what's happened or not knowing what was going on maybe if you are talking about heroin which johnny wasn't using in that period then i could see it i knew what was going on when i was doing acid

1

i totally agree with you that they are so biased it's ridiculous there's one channel that attacks amber for anything she does virtually anything and i think it's just the guy has a thing against female celebrities and the other thing is i don't think he's very bright so he comes up with childish complaints against her the other channel that bothers me the most is a guy that pretends everything that happened a year or two ago is a new blockbuster and every video just repeats old news he also gets his facts wrong and exaggerates what's happening if amber is being investigated according to him she is being arrested there are female content creators that also does the same thing i don't know if they do that because they can't understand what's happening or if it's because they feel the more at register headline is the more hits they will get a lot of videos i can't get past the first three minutes because they are so biased and insipid that they are just ridiculous there is a guy that pretends he used to be a psychologist at least that is what he often tries to get you to believe about his background but i think he was quite obviously an orderly or a janitor at some sort mental facility if even that the bias being so extreme hurts the credibility of the justice for johnny community as well as the constant reading of tabloid news and people's websites pretending to be credible news no one in hollywood take such sites seriously it makes me wonder how people fall for those websites and believe they are credible news

1

i want to add another reason why i like your channel so much you think for yourself and you truly do create your content when it comes to your analyses too many channels simply repeat what other channels say it makes me wonder what the point of their video is when so many videos say the exact same thing with no unique content or any signs of their own you clearly come up with your own analysis and you use your intelligence to come to your own unique conclusions that aren't just a copy of other channels i always look forward to your videos even if they are not about this topic

1

as you know due to my working with celebrity talent i obviously have celebrities in the roster that have legal issues from time including divorces lawsuits conflicts with major entertainment companies as well as arrests representing these celebrities i absolutely have to know what is going on with them because of this i am in contact with attorneys when these things happen 99% of the time the attorneys absolutely will not speak publicly even when we know a celebrity is innocent when legal counsel do give themselves permission to speak publicly whether it is about something found in discovery or any other aspect of the case they only speak or give information to credible reporters like the hollywood reporter or someone like that and even then most of the time there is no comment to the media the attorneys generally advise everyone working with these celebrities not to talk about the case to anyone the way that people find out about these cases in the public is that major media outlets hire someone to go to the courthouse every day and sit through public records that will generally include solely that the case is happening and what the court filings say people may go to the court to report on the case but i've never heard of an attorney revealing so much information especially about a libel case so i was stunned that waldman was so flamboyant on twitter i have believed for months that the rather childish approach taken by some of the content creators on youtube in their videos probably really pissed off the judge i've also seen quite a few things that i know johnny would not think was a good representation for his side there is a reason why people go to journalism school or why they study and learn how to properly their particular job like in your case being a paralegal you know what you are talking about you are not just blathering on with uneducated or far fetched biased opinions there is only one person that is a content creator here that i've seen call himself a reporter several times which is really a joke and i have referenced him above a couple times but some of the content in youtube would piss off a judge and it is just overboard some of what is in youtube is clearly bullying amber i think amber is the worst sort of person to be in hollywood with her narcissism her compulsive lying and her selfishness and her sociopathy i clearly feel terrible for what johnny has been through and what he has to deal with that said i wish that certain people making these videos used more critical thinking skills rather than just wanting to make a video bashing amber johnny appreciates the support but some of this has backfired by certain well meaning people that want to help johnny but they just do not think they simply want to get hits and make money by bashing amber the exaggerated tone of these videos twitter instagram and so on has clearly apalled the judge and the judge sees mr waldman as being responsible for it watching these videos some more vicious than others much of the information came from waldman if the judge believes this campaign of hate was approved by johnny it is only going to help amber's claims of this in court that johnny is behind it when you have people like darrin news calling amber a c\*\*\* it is abuse if the judge perceives johnny as having signed off on this or approving it or instigating it that makes him an abuser and having set up a media campaign against amber none of these people bot her to think about that i wish they would care about the case and about johnny more than they care about getting attention and hits and a couple dollars this is johnny's career and life on the line 1

how do these reporters manage to ignore all the evidence of what she did to him? putting feces in his bed putting a cigarette out on his face verbally abusing him throwing lit candles at him physically attacking him on multiple occasions whacking his finger off

1

she wants to lose him another movie

1

she filed a motion to dismiss the case and now she can't wait for it to start!

1

this fake news is just bullshit

1

you are wrong on this a little it was her lawyer that hired the pi

1

gin tonic no one takes the trumps seriously except you if johnny sued every idiot that said something stupid about him that's all he'd be doing all day if i were you i would be more concerned that trump is undoing our court system by allowing a criminal like roger stone to get off but what do idiots like you care about our president breaking laws and ruling like a dictator?

1

if you are 12 years old

1

you missed that she put a cigarette out on his face can you imagine the outrage if he did that to her?

1

in a society where no one values women the most for what they look like it doesn't matter to many what kind of terrible behavior she has she is bonkable which makes her bankable

1

in an abuse rant she also tells him his career is over because he is losing his looks (in her opinion) he is so much more accomplished than she will ever be he has earned all kinds of academy awards and she treats him like she is the big star it is ironic because if you look at her movie roles she is just there to be a symbol of sex it is amazing what people can get away with just because of being pretty she will never have a substantial acting part

1

there is no conspiracy theory with the media defending johnny idiots that start websites purporting themselves to be news and none of these people went to journalism school a re going to write trash and not do research for their stories tabloids are always going to write trash no matter what the subject is about they are about gossip and writing trash not facts or real reporting when there is a verdict for this case it will be reported on in main stream media like wildfire credible mainstream media has largely avoided the topic because they are waiting for a verdict

1

with the armchair psychiatrists narcissism is a catch all phrase for anything they don't like" dog owners blacks minorities other countries people of other political parties; they think because they got dumped or because their mother was a jerk that they are psychiatrists even without education i do have a degree in psychology by the way!

1

there is a channel talking about amber and it's even worse when it comes to the psychological analysis word i used very loosely here

1

a lot of those psychology channels are trying to get money and hits and that is their goal so they will tell the so called victim whatever they want to hear that their sister is a narcissist or a borderline or whatever some of those channels are so concerned about being liked and getting donations and hits that they pander quite a bit which is not good not everything is black and white black and white thinking as you know is extremely unhealthy and it is often characteristic of borderline personality disorder

1

thank you for bringing up the topic hollywood there is one channel well actually a few of them that you have to hate the psychiatrist and have zero respect for the psychiatrist

thank you for bringing up the term bitterness there is one channel well actually a few of them that say you have to hate the narcissist and have anger and rage at the narcissist to heal that is absolute bullshit the people running these channels don't understand what healthy acceptance really is  
 1  
 amber heard is not the type of person i would ever want to be however some of these channels have gone to far looking for anything to attack her with to the point it gets ridiculous one psychology channel attacked her for wearing her hair in an upswing up to do and claimed she was trying to imitate another specific actress so many women out there where their hair up at events and they switch up their looks most of them have stylists and they know they are going to have photos taken on the red carpet that may appear in fashion magazines so they switch up their hairdos the overkill of hatred in some cases seems to be projection where people are able to project their own negative qualities onto amber i understand she is got horrific character flaws but some of the hatred is taken to a weird degree and it becomes narcissistic in itself  
 1  
 this happened a long time ago she only loves herself  
 1  
 amber was the one that made it go public  
 1  
 she wanted him to say in court that he beat her up to get her reputation back she thought she could manipulate him into that by pretending she loved him for a few hours  
 1  
 she was trying to get him to violate the restraining order  
 1  
 it is admirable that you are giving money to charity my first husband tried running me over in my car i was terrified he was going to kill me he was so jealous he even accused me of having something going on with mick jagger which had never even occurred to me let alone happened i was absolutely terrified of him and i even had an emergency suit case packed under the bed i figured it was just a matter of time before he killed me i was so tired of being afraid i remember one night when he was in a tirade i said to him just kill me now and get it over with early one evening i called the police and i just ran i fled in fear in my life the police took me to a safe house for women in a secret location all of my friends were convinced my ex was going to kill me even months after the divorce my attorney saved me he got me divorced and got a restraining order my ex's addiction finally killed him i was finally safe  
 1  
 this really shows how dangerous narcissists are they can even take an academy award winner and destroy his career just so she wins and looks good because all they care about is their image and themselves it is common for narcissist to claim they are the victim especially if they shift between grandiose narcissism and covert narcissism or if they are a covert narcissist most people in youtube seem to believe that a covert narcissist is someone that tries to hide their narcissism but there are other traits relative to claiming victimhood either way she also exhibits symptoms of borderline especially when she talks about how scary dark and malignant it is for him to leave the room when they think that they are being devalued they devalue the person they are in the relationship with by the way he pushed her to get her away from him because she was attacking him someone has the right to get away from the person that is abusing them period going back to borderline dick keith trait to look for is fear of abandonment whether they love the other person or not she was clearly in the devaluation stage having devalued johnny and all of these tapes that are out so far as far as my commentary on the lawyers they can only work with what the client allows or use them the lawyer works for the client if she pleaded with our attorneys or just ask them tonight trash him that would have been the case however she clearly states in a roundabout way which is how she seems to state everything that she believes she has to hurt depp's reputation to look good being that she used this press op and i'm going to call their marriage a press opportunity to get gigs like being called an ambassador for l'oreal or the united nations or a spokes person for women being abused which is a total joke i think he should stay away from the narcissistic abuse community and youtube because there are so many unwell and unhealed people that are looking for money or looking for attention or someone to fight with and i hate to say that but there are a lot of very dysfunctional people in the community and that is the last thing he needs to deal with let him deal with real professionals  
 1  
 video is over the deep end painting everyone in that movement as a heating man and not caring about evidence because of scummy amber heard when it was she that totally tricked everybody into believing her with the fake people magazine cover is not a realistic statement men get abused yes but for you to claim that all female victims who supported me too don't care about evidence is childish i don't think you've done a survey of all those women since the evidence on the tapes came out about by the way how are those on youtube different than what you call the twitter mob? by the way i don't think you really would want your daughter having minute work put their hand on your daughters arm or else you are a pretty bad mother maybe you could read up on boundaries  
 1  
 i wonder if the publication is paying amber to testify on their behalf so terrible  
 1  
 when people haven't done drugs they shouldn't comment on people that do because they don't know what the hell they are talking about when they talk about the effects drugs have  
 1  
 why is her lawyer letting her say things that are disprovable like her eye popped out?  
 1  
 they have the private message but i don't think it was actually used in the court case does anyone have any substantiation that it actually was given to the judge?  
 1  
 i used to hang out at the viper room it could be a snake pit but i went to see my musician friends  
 1  
 okay the father is nuts and she is nuts  
 1  
 appeal!!!!!!  
 1  
 franz huber actually that is a dysfunctional response and exactly what the borderline wants they want you to be punished and miserable they want it to be where if they can't control you you can't be with any other woman why give a woman like that what they want? you have the right to be loved isolating yourself is out of fear and that's what the se types do male or female they traumatize you where you never can trust being in another relationship i wish you healing and that next time you recognize the signs early of a mentally disturbed person  
 1  
 if she ever had kids those children would be in therapy due to the violence and the shrieking for the rest of their lives the gaslighting alone would drive them crazy because her narcissistic nature is such that she will never take responsibility for anything she does it's all johnny's fault it's the lawyers fault she didn't really do it if she did do it you are just a baby you made me do it she is like a jukebox that vomits out endless excuses that borderlines sociopaths and narcissists use her shrieking is a manipulative feature that is part of this behavior it is all about controlling other people the constant relentless crazymaking denials are used to make depp question his own sanity she constantly tells him that what he saw happen didn't happen she is so full of narcissistic delusions of grandeur she labels putting up with her violence and perpetuating fighting with her bravestrongcourageous the bigger person she tells depth that her favorite person in the world but she slept with other men in his bed when he was working the love bombing is part of her gaslighting him to make him question his own reality the gaslighting lies the physical abuse all of this would drive someone crazy and her getting him fired from pirates of the caribbean? it's horrendous she is just evil she is a monster  
 1  
 she also threw a lit candle at him put a lit cigarette on his face gave him mrsa three times and threw paint cans at him  
 1  
 have you seen her in the depositions tapes? bloody insane!!!!!!!  
 1  
 you were the one that shared them and broadcast them to the entire world amber
