2 Court of Appeal judges ruled that Amber Heard:

1. Occasionally assaulted Johnny Depp
2. Misled the court
3. Withheld evidence
4. Would've lied under oath
5. Lied about donating \$7M to charity

Have a splendid week!

Doesn't matter if she lied, unless u think she was asking 4 it by lying, which I wouldn't be surprised u would think that. There's the drunk rampage video, the kicking incident w/witnesses, the headbutt, etc. Enough evidence 2 certify Depp a wifebeater by the courts. Sorry.

The courts believe she is an abuser and a liar

That approach is illustrated also by his treatment of evidence on which Mr Depp sought to rely about an incident which is said to have taken place in the Bahamas in December 2015 in which Ms Heard assaulted Mr Depp first, and without his responding in any way.

Reminder that just a couple of days ago 2 court of appeal judges ruled that Amber Heard beat Johnny Depp, lied under oath, mislead the courts and lied about donating \$7 million to charity. Johnny lost a libel case but it's now legally recognized that Amber is a domestic abuser.

Ms Heard appears clearly to acknowledge on which Mr Depp sought to rely at the previous evening, when she says she gave him. He also appears to accept that on one occasion she was in the Bahamas in December 2015 in front of him without his responding in any way.

If you were, then you would know that the courts acknowledged that Amber was the aggressor, and that she lied

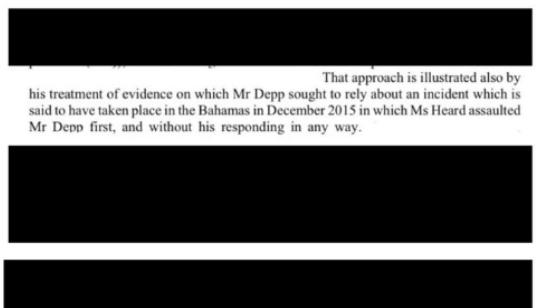

That approach is illustrated also by his treatment of evidence on which Mr Depp sought to rely about an incident which is said to have taken place in the Bahamas in December 2015 in which Ms Heard assaulted Mr Depp first, and without his responding in any way.

Yes there's evidence. The video, the headbutt, the kicking, etc. Just becuz Depp fans conveniently rationalize these incidents doesn't change that. Even if AH was lying thru her teeth the whole time, evidence is undeniable (unless u think she deserved abuse 4 lying or something).

And as the UK Court of Appeal affirmed, we can also say about you, categorically:

1. You misled the court.
2. You are a perjurer.
2. You lied about donating \$7M to charity.
3. You beat Johnny Depp.

These are legal facts affirmed by the Court.

The Torque Armada @t0rqu3_tu · Mar 25

Held by the UK Court of Appeal today regarding Amber Heard:

1. She misled the court
2. She lied she donated \$7M
3. She withheld disclosure
4. She would've lied under oath
5. She occasionally assaulted Johnny Depp

Now lawful facts. Never let anyone forget #JusticeForJohnnyDepp

Yeah. He didn't get to sue The Sun because it's owned by Murdoch. A company that even bests the Royal Family on most occasions. Still has nothing to do with Heard's lies.

Hey hon! Might wanna read the actual court documents that state what this case is ACTUALLY ABOUT: LIBEL AGAINST THE SUN. The court ruling basically says that The Sun didn't INTENTIONALLY slander Depp at the time of writing the article.

Support Johnny Depp City of Lies out NOW 🇺🇸 @MyG... · Mar 27 · ...

COA has acknowledged that Amber Heard abused Johnny Depp in December 2015 in the Bahamas, his children were there also and witnessed his injuries meaww.com/johnny-depp-ch...

As some point Johnny tried to leave again as they were now in the parking lot. He repeatedly asked for the keys to the vehicle, which she had taken out, refused to give back to him, and which we later found in the house. She was responding to her verbal attack by saying "go away" and "just leave me alone". Amber's screaming and shouting rose to a fever pitch, and Johnny continued to yell "go away" and "leave me alone". I asked Christy what I should do, and she said that I should keep an eye on the situation. As Amber's rage continued to escalate, and I described the same to Christy, she said that I needed to intervene and I should go to Johnny's assistance.

I hung up and immediately ran to the parking lot. I saw Amber lunge at Johnny, clawing, digging and aggressively pulling him. He continued to move there yelling at her to stop and leave him alone. When he stepped back to leave, her onslaught would start again. During this entire incident, I never saw Johnny hit Amber, or push her back, nor did he physically react to the attacks. She would calm down and hug and apologize then he would say he needs to leave and it would start again. Finally I stepped between them, she continued to reach for him but maybe my presence stopped it. I realized here in the car and he laid on the couch and that is when I saw that he now had a red, swelling gash on the bridge of his nose. Amber, Johnny then told quart sized can of lacquer thinner into Johnny's face, causing the gash.

The next morning, the bushes around their house were splattered with paint splatters that had been thrown including paintbrushes, paint tubes, i stained with the thinner. There was no damage to the house and she made me of what had transpired the night before and into the morning.

During this visit in Christmas 2015 Amber had a photographer on the island to conduct a photo shoot, we did not know this was happening nor did Johnny's children. My resolution is that the photographer Greg Williams, who arrived on December 27 with his partner, took photographs the day after Amber's rampage, during departure, of an unjured Amber, and of Johnny, who had a visible gash on the bridge of his nose.

Also present on the island during this late 2015 visit was Johnny's son, daughter, and his daughter's friend. Johnny's children did witness the aftermath of the right before as I got them that morning, explained to them what had happened, and took them to their father.
